Type-Moon(Nasuverse) Smartest Characters in Stop's System or By Feats in General

[Fate Series - Tsukihime - Witch on The Holy Knight - Garden of The Sinners - Etc…]

==========

Notes :

- This is totally inspired by this Doc :

Ultimate Library of Docs

- If you aren't familiar with SCD and entered this, then I would recommend reading this Doc before reading the one in front of you :

Complete Guide to IntelligenceScaling

- These documents explain the characters intelligence/outsmarting feats in the main story and a few feats in events or side stories.

- Spin-offs (E.g. “Fujimaru Doesn’t Get it” or “Kagetsu Tohya”) are not analyzed and I won’t ever do.

- These documents have a lot of spoilers, and Type-Moon is really a nice franchise to read, a time consuming yes but enjoyable, therefore it is up to you if you wish to get spoiled.

- As for the tiering, this only considers their “outsmarting capability” that was proven on-screen, and as for “statements” most of them are useless as far as I have seen from the characters, there are a few of them which actually were proven which I will mention once I find them, if the character only lives on statements and narrative then they would be immediately sent to Low Tier.

- The Characters included in the tiers are the most ones that have feats (Without Mentioning Minor Low Tier - Average Low Tier), that’s why they are analyzed, some others have some problems in scaling them therefore I won’t analyze them.

- Anyone that wishes to add a feat or a whole character is free to contact me on this account also know for a fact that I won’t be the one to analyze them but you will do it and I will help in any way I can.

Or better here is my discord username -ninonous-

- You don’t have to copy my style when creating a Doc, do as you wish when creating a Doc.

- Here are multiple documents that explain all the SCD(Smart Characters Debates) categories and their subcategories.

SCD categories doc 1
SCD categories doc 2
SCD categories doc 3

- Phrases that you might not be familiar with :

SCD = Smart Characters Debates, representing Intelligence Scaling Communities just like how Powerscaling is called WIS which means -Who is stronger-.

Comp = Composite, meaning every official version of the character in every single adaptation.

Example :
Comp Gilgamesh = [Fate/Zero - Fate/Stay Night - Fate/Grand Order - etc…]

A character that doesn't have Comp in them means the character has only shown their feats in one media type of Type-Moon like Qin Shi Huang who only shows up in Fate/Grand Order Game and has no feats anywhere else.

- Characters colored in magenta won't be analyzed by me but if you want to analyze them you are completely free to do so.

- There are a lot of smart characters that aren't mentioned here because I see no point in mentioning them sorry.

- Special thanks to those who helped analyzing all of this :
