Narak’s First Murder Planning

let's start with the feat.

It all started on the second day at school. At 30 minutes before lunch time, ken has a 5 male friends group that he hangs out with:

Teo=the tall charismatic one [6’4”].

Leon= the Rouge and delinquent one [5’10”].

Donovon= the slightly fat but funny one.[5’8”].

Gerald= the cowardly Playboy[6’0”].

Dontai= the short and otaku loner[5’6”].

These are the friends that he has had since 7th grade. [But ken doesn't view them has friends, they are just classmates to him… ken is only hanging out in this friends group to keep himself under the radar and make sure he has alibis. In the friend group, ken is known by his friends has the quiet and timidly shy guy in the group. Even the class knows it, and this makes everyone treat ken like he is a soft person who is kind, never gets mad and would not hurt anyone. Only his class knows it since each thing he does like his taking seems long and shyful, his gestures looks timid and worried, his walking looks soft and hushed and his behavior is quiet. This lets the class figure out that he is the shy quiet kid in the class. Even goes as far as talking about it even when ken is there, this makes some of his classmates have a point of view that says ‘ken needs to be protected’. Since he is very shy and quiet they don't wanna lose him. This is a strategy that ken had made in the first day, it is called the Shy quiet kid Persona Strategy. By using is analysis on his classmates emotions and personalities, ken acted out into a different person to make everyone view him as the quiet kid. tHe does this with precision, even using tactics like helping people find their stuffs and protect them from bullies via talking to the bullies or call the teacher to report them about the bullies, making a stammering voice to make him sound vulnerable, accept his classmates request and even put on a shy smile for everyone. This acting skills has made the class indirectly get on his side due to this. Humans are creatures who helps, curious, talks and maybe feel interest at the weak, vulnerable and cute. Some hates it while some felt that the this cute weak person needs to protected, it overrides them to keep their mind interest in making sure that person does not fall into an abyss through various means. And ken understand that psychology and use it to deceive his class and ‘friends’.].

As their second period class was finished, it was lunch time. So Teo, Leon and Donovon were heading to the cafeteria. Dontai was going as well but Gerald said that he is going to head to the bathroom, ken said that as well. So ken told Donovan[in a timid voice] if he can buy a box lunch for him, and Donovan accepted. So ken and gerald part ways and head to the same bathroom that was beside the library, while the rest head to the cafeteria. Meanwhile, the class

monitor of grade 11, Helaine, was heading to the greenhouse garden, when she heard a cry for help. Feeling a rush of adrenaline she scans around where it is, before realizing that her earphone in her ears was playing a fearful cry sound. She take it off and look in nervousness, she never play anything in her earphone yet so this was strange for her… she brush if off, probably thinking she forget it, so she head inside the greenhouse to water the plants, so she take out her water can and begin watering the plant, suddenly she get a text from her best friend, fiona, that said 'hey gurrrl, meet me in our classroom, 3B. Our teacher need you now'. Feeling slightly frustrated to walk all the way, she decide to put down her watering can and walk out the greenhouse, so she walk.. but by the same she walk past the fountain in front of the mega office, she notice that there are a lot of people in the cafeteria line, [" looks like i wont get through for now" she said] when she continue walking, she ended up reaching to the building and walk inside to walk calmly up the stairs until she reach the third floor, so she walk and head inside 3B classroom and notice that fiona was not there, no one was there. Just chairs, the teacher desk and a bunch of books around. This is when she check her phone again to see if she was not hallucinating, and she did see the message so she know she is not hallucinating. She search the room, feeling confused and betray, thinking that fiona set her up. After searching for 2 minutes, she decided to head back but right when she turn around, she got hit from behind by a bat. And she fall down. As she look up, eyes blurry, all she could see is her friend Fiona looking down at her with tears in her eyes. While whispering something that helaine could not hear. As helaine is completely unconscious. Meanwhile ken and Gerald made it out of the bathroom.

Gerald:"wow, that is some good pissing not gonna lie".

Ken: "oh.. Well yeah I guess. W-we should probably head back to the cafeteria."

Gerald: "yeah, but what is the point, I bet the cafeteria is gonna be packed."

Ken *said shyly*: "y-yeah, it's always packed ever since the chefs has changed when we were in 8th grade"

Gerald: "yeah, so let's go somewhere else to pass the time, like the Gazebo, i mean teo, leon, donovon and dontai are gonna head there when buying their lunch so might as well wait there"

Ken: " Oh ummm, sure. Sounds fine."

Gerald grins, as ken and Gerald continue talking about anime stuff while walking. Then, Donati was standing in front of them, which got Gerald weird out so he ran to him.

Gerald: "Yo Donny, what's wrong, why aren't you in the cafeteria?."

Dontai turn around and notice them.

Dontai: "oh, you two. Well, have you seen the line in the cafeteria?!. Teo, leon and donovon may have time to spend but… aint no way am i waiting there. Besides, while I was standing at the entrance of the cafeteria, I heard a fearful cry. I gaze around where it came from but I

couldn't almost the entire students are at the cafeteria and considering the walls at the school are soundproof, the students in the cafeteria did not hear it at the result.

Gerald: “...Wait what?. So you heard a cry when you were outside of the cafeteria entrance?”

Ken: “Wait… but umm. Does that mean that the cry must have been outside then since all walls are sound proof.

Dontai: “yeah which is why I checked around the outside of the school but found nothing except for helaine standing outside of the greenhouse looking worried. So I suspected that she heard it too, so I wanted to talk to her about it but when she got inside, the door was locked. It was surprising, and I couldn't do anything to go inside not even call her out there since again, all walls and even glass walls are sound proof,

Gerald: “ohh so Helaine heard it?!.

Dontai: “yeah, i was thinking that she might”

Ken: “Hmm, I heard from Helaine that the glass walls in the greenhouse are shaped differently. From the inside, you cannot look in the outside but from the outside you can look at the inside.

Gerald: Oh.. so like a magical glass in the magic tricks!!

Ken: “Umm, sure… also the doors are like security scanners, they scan the person and open themselves to let the person in. but only the person in the gardening club, so it's probably why you did not go in.”

Dontai: “ Oh, well whatever it is. I decide to head to other place to check if someone heard it and that is when i decide to head back, but when i head back, helaine was gone. She obviously must have left to go somewhere else, but the other place i check was only the bathroom that was beside it, and thats all i check. Besides there is alot of plants there, and she has to water all of them. She even left her watering can beside a plant that she didn't water yet.

Ken: “so…You're saying she left in a hurry”

Gerald: really, but what kind of hurry would she have left for?”

Dontai: “ i am not sure, but that is why i decide to try and find out where she went so my best bet was to head to the cafeteria since she is the class monitor, so she probably want someone in our class or something. So i went, and didnt see her. So i head out and went in the sidewalk thinking and that is where i met you.”

Ken: “....”[ken check his phone while texting someone]

Gerald look in slight worried, before he decided to speak

Gerald “umm, maybe she head out to get her–

“Boyfriend?”

The sound come from behind gerald has gerald turn and see fiona smiling playfully. As she hug gerald and give him a kiss.

Fiona: “ Is that what you are gonna say”

Gerald look in surprise before putting on his playboy personality

Gerald: “hmmm, well… maybe, though it took you long enough to get here babe”

Fiona: “oh well, i was.. At the library, putting a book away”

Ken: “library?”

Fiona: “ yeah. To be honest the lady receptionist was being a complete bitch. Like just shut and take my book already, it's not my fault that you're at a dead-end job.

…

Fiona: “Aaaanyways, i heard you guys are talking about sexy Helaine and i think i saw her heading to the 10-11 grade building while i was looking out the window in the library. But i didnt think much of it cuz i thought maybe she left something.”

Dontai: “Really, so you saw it there?!, when?.

Fiona: “Umm, idk like about 12:06PM.”

Dontai: “12:06…. I saw her in the greenhouse at about 12:04”

Gerald: “Wait…. What?. but … what time is it now Ken?”

Ken: “Oh, it's 12:14”.

Gerald: “12:14… and dontai saw her at 12:04. Fiona said she saw her at 12:06… that doesn't make sense.”

Ken”.... yeah, because the distance between the greenhouse and the 10-11 grade building is quite long, it will take about 5 minutes to make it there if you run or walk fast, if you walk then it is even longer, probably 8 or 10 minutes. So that Time does not add up at all.. Unless”

Gerald: one of them are lying. My bet is on Dontai cuz my Babe Fiona will never lie”

Fiona: “Mmmm, you got that right”

Dontai: “... i was not lying. But right now lets put that aside, Helaine is probably in there so we need to go quickly”

Ken: “ohh, quickly… b-but why ‘go quickly’ all of a sudden?”

Dontai: “well…i fear that she might be in trouble”

…

The four of them all stay silent and decide to head to the 10-11 building as they reach, they entered inside.

Dontai: “alright, i think she will be at floor 3 but we cannot be too sure, so me and Gerald will search the first and 2nd floor while Ken and Fiona will search the 3rd and 4th floor.”

Gerald: “ohhh, dontai leading ?!. what a day it is”

Dontai: “...”

Ken: “o-oh, okay. But umm. I though that you would wanna search the 3rd floor since you want to see her more than the rest of us”

Dontai: “....yeah, but… lets just move for now.”

Dontai Left first and so does the others. As ken and Fiona reach the 3rd floor, he then looks around and notices nobody is there, then she turns to Fiona who was cautious as well.

Fiona: “Ummm… Ken,”

Ken: “oh. What is it?”

Fiona”..... I think she is in 3B”

Ken: “hmm, how did you know?”

Fiona: “:well…”

Fiona takes out her phone and shows ken the text from an unknown person. ‘Fiona, I suggest you deal with Helaine. If you do not then… the bitch will suffer the worst fate imaginable and. You and your family will be the next target.’ then a photo of her parents was there.

Fiona: "I got it from when I was heading to the library, but… i hesitated, and when i saw Helaine walk in the 10-11 building, I couldn't help it and followed her then i…”

Ken: “... you.”

Fiona: “i… I knocked her out. I didn't kill her since it didn't say that I should kill her. So knock her out and.. Left her there. While texting to the person that: ‘i did it. So please don't hurt my family’. And I take a pic of Helaine's unconscious body and send it to the person and walk off to the library. Though I am not sure if it worked.”

Ken: “... well, i guess i understand that you had to do that, but you should have–

Fiona: “Call the Police?... yeah, maybe i should have done that.”

Ken: “...”

Fiona: “...”

Ken: “Lets just head inside 3B and see if Helaine has woken up”

Fiona: “..yeah. I need to apologize to her”

As ken and Fiona open the classroom door, they see Helaine there, sitting on a chair with her hands tied to the chair and her legs tied to the chair. Her eyes were open wide in shock and fear. Her head was very bloody and her chest had multiple deep cuts. Her entire torso is bloody with so many holes as well. The scene was so inhumane . As Fiona looks in horror she runs to Helaine and touches her face and screams out.

Fiona: “H-Helaine…. Helaine. Helaine. Helaine……HELAINE!!!!!!!!!!!!!!!!!!!”

The scream can be heard from all of the 3rd floor.

Ken looks in slight horror from the scene, as he touches Fiona's shoulders.

Ken: “Fiona, i am gonna go for the others alright?.... Just stay there a little ok?”

Fiona remains silent in shock and sadness at her best friend seeing like this. She didn't kill her, ‘ it was only a knock out and yet… her friend died.’

Meanwhile Dontai and gerald finish check all the classrooms

Gerald: “ wow not even a single person in site. No student or even teachers here. What is going on, i know that the cafeteria is important but goddamn man.

Dontai: “...”

Gerald: “Dontai what is the matter?”

Dontai: “...”

Gerald: “dontai speak up,”

Dontai: “.....”

Gerald: “..Dontai?”

Dontai: “..... My little sister Kally is…”

Gerald: “....Cute?. Cuz yeah she is cute alright”

Dontai: “....She….is…. Dead!!!!!!!!!!!!”

Dontai then hold up a video that someone send to his email, it is a video of his sister who is in 9th Grade, she is in the Gazebo, strapped to a chair and is being shot at by arrows after arrows, after arrows, after arrows after arrows screaming as each arrow pierced her body…until she was shot by the twelfth arrow before dying.

Gerald: “huh, this has to be fake right?. Right when it was lunch time you said that Kally will be at The Pool practising her Butterfly strokes at the Pool since she is the Swimming Vice Principal of the Swimming Club. So why is she at the Gazebo?”

Dontai: “...”

Dontai didn't even register Gerald's words. He just ran out the room, then down the stairs, then out the building in pure panic and worried for his sister, Gerald followed behind. As they reached very quickly, their eyes were shocked at seeing that Kally was not there. This confused dontai and Gerald, as dontai look back at the video.

Dontai: “ it is at lunch time, yeah the sun is shining just like at the gazebo now. So the murder happened today and… right here but… she isn't there”

Gerald: “Perhaps the video is a fake?”

But before Dontai can even respond, he got another email send by him and it said. ‘3B. Come save your sister before she get mauled by me. I’m looking forward to it’.

Gerald: “huh?.”

Dontai looked in furiousness and worried as he rush inside the building without Gerald knowledge and climb up the stairs before he bumped into Ken.

Ken: “ouch, Dontai watch where you are going?.”

Dontai: “Ken?.”

Ken: “Also Dontai, i found–”

Dontai didn't let ken finish his sentence as he rushed to the stairs to reach the third floor. Once he reaches, he pauses to catch his breath since the stairs are very long since there are 30 Steps in the Stairs. As Dontai looked for 3B and found it, he immediately tried to open the door. But it won't open. So Dontai tries to punch it or kick it, but it won't open. As dontai continue try to make it open for about 2 minutes, Ken and gerald made it in time.

gerald : “there you are, you need to stop run away from us while we are talking you know”

Ken: “umm, yeah. It's not really nice”

Dontai remains silent as he continuously tries to open the door with Gerald and ken understanding what he is doing and is now starting to help.

Gerald *said in a worried tone*: “Damn, this strong ass door is locked on the inside huh. By the way Ken, where is my sexy?”

Ken: “Oh well she is inside there, I left her there when I was rushing to get you two but when I made it down I didn't see you two on the second floor. feeling nervous, i check all the classrooms but didnt see you so i think for a moment and walk down to the first floor then i bumped into dontai.

Gerald: “ohhh, but why did you left her alone?!. What if she is… oh god well she better be alive”

Ken: “well she was frozen in the spot when seeing helaine being.”

Gerald: “Helaine?. You find her, why didn't you tell us earlier!?. What happened to her ?”

Ken: “Well… its better for you two to see it for yourself. As soon as we can open this damn thing.”

As Dontai and the two boys try to push it open, Gerald stops and takes out a hairpin.

Gerald: “Ohhh, damn. I forgot i have my sexy girl Fiona Hair Pin from last night”

Dontai: “...”

Ken: “last night?. You know what, i dont wanna hear that Private Passionate Scene that the two of you had done.”

Gerald: “hmm well that sucks, cuz the scene is so lustful that an asexual guy can be curious about it.”

Gerald then uses the HairPin and slowly tries to lockpick the door, until… he finally did it. The door opened and the scene was horrid. Helaine was at the chair still in the same position that ken left there but beside her was Kally sitting in the chair with the twelfth arrows still lodged on her body, her eyes open as well and her body was covered in blood. Kneeling down on the floor is Fiona, unconscious but still alive. she had no injuries but she has a bow and arrow on her hand and her eyes are closed with some blood on her hand and skirt. The scene is horrifying.

Gerald: “what…What….WHat…….WHAT…THE….FUCK!!!!!!!. B-BLOOOD, BLOOOOOOOD!!! OH GOD—”

As Gerald collapses on the floor and vomits. Dontai look in shock at the scene where he goes to the chair where Helaine and Kally was, and he look at Kally and touch her bloody cut hand.

Dontai: “Kally….Kally…Kally…”

Dontai whispered while sobbing.

As ken look in Calm, there is no expression at all, he look completely blank at the scene, like as if he didn't care at all. As ken make his usual fake timid facade.

Ken: “oh no. their…dead.”

As they stay there for 20 seconds gerald vomiting and Dontai sobbing, ken look around the place and then he notice something in the wall in front of him, it was at the top. It was a small paint drawing of a stick person wearing a full black long leather coat over his black pants. And the face was nothing but a red mask with a creepy smile, and the man was holding a 2ft axe with bloody red and black stripes. There was also two smiley faces with eyes at the left side and the right side. That was the painting and the paint has a Letter at the top fo the drawing and it said: ‘Narak’. Dontai look up a little and saw it in and soon Gerald saw it too.

Gerald:” “Is that… A Signature?”

Ken: “Narak”

Dontai: “...”

Later on Gerald rush and call the teachers and staff, who came and call principal Grant. and she call the Police. And from there school was over early today due to the murder of Helaine and Kally. The police couldn't figure out on who kill them. They interviewed every student, teacher, staffs and even the vice principal and principal but it lead to nothing. The security cameras that sent all over the school, they also couldn't find a clue on who kill Helaine and kally. It was as if the person, Narak, was invisible. No clues. Their are suspects but only suspects that are just based on intuition not logic or percentage. Everything was all planned by Narak and now this person is terrorizing the school. Some are wondering if this person is the same person who killed the teacher in the news. But those are just rumours….no one knows….no one except for Ken.

Now i will give the Explanation on ken strategy or planning in this feat:

Now at Day 1 ken starts by examining his fellow classmates, to try and find a victim to kill. And out of all of them, he found one, Helaine the Class Monitor and the one who is the Student Council President Secretary and she has been liked by everyone since she was in 8th grade. This is perfect for him. So has kept his shy quiet kid persona during the day, he secretly does some information gathering on the school network system and security system from his laptop, basically he is hacking the security system. He already hack into the the network system last night(while he was writing his plan in the notebook), but now he is hacking into the security system on his laptop during class, and his seat is at the back of the class to the far right so no one will be able to see what he is doing, and it was inside his big backpack so in on his desk there is his open school book tot he left with the pen inside, and the big backpack in the right

and it is open and is big enough to have his laptop inside open and ken is writing notes, listening to the teacher while secretly typing on his laptop. and if they walk up to him then the inside sensors on his laptop (that he programmed since he is at mastery of technology) automatically turn off not to mention the purpose of his shy quiet kid persona strategy was top make sure no one talk or bother him during class since he is very quiet and invisible sometimes, this strategy is crucial in making sure he can do his schemes while being undetected. {yes ken has thought that through before even made it to his 11th grade class} After 1 minute, he successfully hacked into the security system. It was easy for him since he learned the High complex level of Programming from his Mother who was a hidden genius at learning and mastering everything since she was 12 years old. [Ken thoughts:“ this security system is very complex, but hacking into it is as easy as tic tac toe]

Once ken hacked into it, he put his digital hacking virus in invisibility so that the school system does not know that someone hacked into it, {not to mention that the school was funded or manipulated by an institution with ‘god tier machines’. It was funded so much that the school has Super Security systems, SuperComputers and High level AI that can analyze this entire foundation within 5 seconds. And ken managed to hack into the system in 1 minute. Ken knows about the system due to his observation and Visualization of the school on Day 1.} This will be easy for ken to do and help conceal his presence and conceal the fact that someone made it there. Ken then processes and downloads every info about the super security system and super AI and systems around the school liek the greenhouse system. this includes their weaknesses and the security cameras Blind spots. After he did that then he visualize it and memorize every Infos about it then he hack into some security cameras to make himself invisible in those cameras, these cameras are the Outside Bathroom cameras, the gazebo cameras, some of the cameras in floor 3 and the cameras in the Aquatic Pavilion, the Pool. once he done that, he then grants his SmartWatch admin control of the schools security systems, that way he can alter the cameras to make him invisible and uninvisible when the situation comes for it and he can check the cameras to see where others are around the school. This strategy/tactic is crucial to make sure that he is invisible in certain situations and that he is not completely invisible in certain situation.(to make sure he has alibis while doing his murders) and it also make ken able to see where everyone is around the school , this includes helaine and kally, and if sometimes does not goes as planned then he can adapt to it whenever he wants thanks to the watch. Once that is finished, he then closes his laptop and puts it inside his big backpack, then he glances at Olivia who is seated at the opposite side of the classroom, everyone was grossed by what the teacher is writing on the whiteboard. But not ken, ken has been observing Fiona secretly and through his observation, he deduced that Fiona is best friends with Helaine because of how she was looking at Helaine in a friendly manner and even getting out of her seat to talk to helaine for no reason and both of them are laughing and sharing pictures secretly to avoid the teacher from seeing their talking antics. It could be something else but ken deduced that their friends through just the observation in this first class period. [Ken thoughts in a cold and dark tone: Fiona, Hmm. In fact I could use this to make her Narak’s Pawn. this is perfect”] so in the end of the first period, ken makes a comment that indirectly manipulates Gerald to get with Fiona. Here is the scene:

As the first class of the day ended, all the students got up to get ready for their next class. Ken analyzes all the students' expressions, then he makes a Soft Sigh of exhaustion.

Ken: “Haaaah,”

Gerald, who was standing up to get ready to leave, noticed ken sigh and sit beside him.

Gerald: “Yeah, I know that feeling. It's our first day as 11th graders and we are already getting Work… and it’s Maths Work too.”

Ken: “yep. The next class is Information Technology.”

Gerald: “oh yeah it is the next class. Man, I have hated that class since 7th grade.”

Ken: “Hmm well that’s your problem I guess. Maybe I can help you with the notes—”

Gerald: “yes please!”

Ken*Fake Giggles softly* : “Haha Okay then.”

Then Ken look at Fiona and then speak

Ken: “Fiona really looks Beautiful”

Gerald heard Ken comment and then look at her and that is where his playboy attitude comes out

Gerald: “yeah , I notice as well. Damn man looks at her body and the atmosphere around her… I need her number not gonna lie”

Ken: “hmm really?. Don’t you have like 7 girls phone number right now”

Gerald: “…yeah but she is the one I need.”

Ken: “hmm, maybe I should ask her that you want her?”

Gerald: “yep. I was gonna ask you to do that but you already figured out what I wanted. So just tell her that the handsome Gerald wants her phone number and she will 100% give it to me… I mean I am the popular playboy in the school and the most handsome so she shouldn’t reject me”

Ken: “…. What if she have a Boyfriend though”

Gerald: “…then just still ask her”

Ken: “alright, I’ll get her phone number for you”

Gerald: “Great thanks Ken, my friend. You’re the best. I would get Fiona number myself but I got to ‘talk’ to one of my side girls in an secluded classroom right now so I gotta go”

Ken *fake blush at Gerald words*: “secluded classroom… you’re still…doing it with your side girls in school.”

Gerald: “yep, since 9th grade I’ve been doing it,I’m surprised you know about it. Anyway I’ll be going now. Just give the number to me at the our next class, Thanks Ken”

Gerald then left the classroom. Now it’s ken alone in the 3B classroom. So Ken stand up and now begin. {Ken had anticipated the entire conversation he had with Gerald, he know Gerald Sleeping with girls by Observation on his expressions and Movements in 9th grade, he indirectly point out that Fiona is beautiful to make Gerald notice Fiona and wants her. Ken already know that Gerald is a playboy, everyone knows but only Ken figure out that Gerald had been sleeping with girls and is very much a Horny for Fiona but afraid to ask her out. Ken see through him in the first week day when he was in 9th grade. So Ken use this to his advantage to manipulate him into being in a relationship with Her, Gerald didn’t wanna go to ask Fiona himself because he is afraid that she will reject him And Ken knows this which is why he ask that he will ask Fiona for him and he knows that Gerald will agree. This purpose of tactic Is to make sure he knows Fiona phone number first then write it down for himself before giving Gerald her phone number. So ken leave out and then check around the place before Check his watch to see where Fiona is at and Fiona is outside the women's bathroom beside the mega library and she is with Helaine and another girl. So Ken head there and hide in a corner to wait. He wanna make sure she is alone so he can talk to her, because Talking to her while she Is with her friends will not work out since she will have more confidence and her friends will fill her mind with words like ‘oh he couldn’t bother ask you himself huh,’ ‘ Fiona just reject Gerald. He’s a Womanizer’. Those type stuffs will influence her. And Ken don’t want that so Ken will have to wait till they leave but there is a possibility that she will stay or go in the bathroom or she will leave with them. So Ken think for about 13 seconds before coming up with a solution. Ken then Use his control of the school system to send an email to Helaine's phone that said, ‘Helaine, This is the vice principal. Meet me in 3B. I will like to have a word with you’ And this strategy is effective since while Ken was hacking he got info that the vice principal is Helaine uncle so it was much better thinking from Ken. And it worked, Helaine notification pop up, she see the email and realize that it’s her uncle. Then she tell Fiona she is leaving and left. Then the other girl also told Fiona that she will leave too since Helaine is leaving. This is perfect for Ken, but before Ken walks to Fiona, he add a schedule Email from Helaine that is due about 10:12 to send to Helaine and the email said ‘oh sorry Helaine, I will cancel that since my secretary just give me more work. So I’ll talk with you later during the day. Or you can talk to me instead about anything’ right now it’s 10:02 so Ken calculated that Helaine Will reach 3B from about 10:12{ he does that by analysis and visualization of the school. And knowing how long it will take to reach a certain spot in the school}. Now that Fiona is alone, this is perfect for Ken to talk to her now so Ken walk up to her and said:

Ken *speak in a timid and shy tone*: “Umm Fiona,”

Fiona hear Ken and turn around to talk to him as she smile softly.

Fiona: “ohh, It’s Cutey Ken. What’s up Ken?”

Ken *fake blush* : oh well, I am here because… well you know Gerald”

Fiona: “Gerald?. Yeah I know him. I’m pretty sure every girl knows Him in this school.. what about him?”

Ken: “well, Gerald has been keep on telling me how beautiful You are. I mean he has been talking all about you saying stuffs like how ‘no woman cannot compare’. And so on”

Fiona *look in intrigued*: “Ohh, he said that. Even when he have a Whole fan girls to date. He wants me?. Kinda hard to believe.”

This is the response Ken anticipated, Fiona is not in love with Gerald but she is entertained or intrigued by his looks and charisma . So he expect her to be quite a challenge to convince.

Ken: “well I guess you’re right. I mean, Gerald is my friend so I should know how he is when it comes to girls. Which is why I secretly recorded Gerald when he was talking about you… wanna see?”

Fiona: “ Recording?. You record Gerald talking about me?”

Ken * said cutely while show her the video*: “yeah, when we were in 10th grade. I record him because I want to show it to you one day… I really want my two popular classmates get together, you two would look so cute. { all of this is Ken acting skills as the quiet shy kid persona}

Fiona look in a small smile at Ken cute words as she watch video of Gerald talking to himself about Fiona over and over again. This fill her with intrigue and slightly blush.

Fiona: “wow, well you’re not kidding… well I wouldn’t mind being with him.but I wanna talk to him though, where is he?.

Ken: “oh he’s said he’s talking to his teacher about something. I don’t know which teacher though so I can’t tell where he is. But you can give me your phone number so that I can give it to him”

Fiona: “Hmm…sure Ken, I trust you. Just make sure to tell him that he needs to text me ok?”

Ken: “okay Fiona”

As Fiona writes her phone number on a paper, fold it in and give it to Ken, Ken takes the paper and doesn't look at it.

Fiona: “there. Make sure to give it to Gerald. Bye Ken, I’m heading to class”

Fiona then left. As Ken checked on the paper and memorized Fiona's phone number. Now he has Fiona phone number and now he just needs another victim, Dontai's sister Kally and he already had a way to deal with her. As Ken knows how much dontai love to eat his Snacks in the gazebo during classes especially information technology class{since Ken had been analyzing him from 7th grade to 10th grade. So Ken go to the gazebo while the second class is about to start and since all the students are at their classes right now { cuz Ken use his watch to check all the cameras and no one is near the gazebo} so Ken use the watch to make him invisible to the gazebo and 10-11 grade cameras outside. Then he run to the gazebo and sneak up on dontai from behind and Knock him out with a A Chop to the neck the camera he modify only show dontai sitting eating it don't show him knocked out because Ken modify it to not show it. After Ken did that, he grab dontai phone and type in his password since he memorized how dontai fingers always pressed on the phone and from there he type in the password and it goes in. Ken already have dontai phone number but he don't have dontai sister phone number so he use dontai phone to get dontai sister phone number, then he Transfer all the phone details that Dontai has on his phone and put it to a phone Ken buy last night. Then he switch Dontai phone with that fake phone that looks like an exact replica of Dontai phone even in the contacts number and everything Dontai real phone has. This is crucial because Ken want to Dontai real phone to send a text to Kally to lure her. So Ken put Dontai real phone in his bag, put the fake phone in Dontai Pocket and then he walk away. The time is now 10: 20 and has Ken leave the gazebo and reach to the fountain at the front of the 10-11 grade building, he see Helaine walking out of the Building. It seems that the schedule email did send to her and she sees it and walk back out. Ken did that schedule meeting to make sure she don't realize that her uncle is not here and decide to call him , which will be a horrible situation because the vice principal will end up confused by Helaine words and put two and two together. So Ken did the schedule email to Helaine to shield his strategy(basically strategy shielding). As Ken walk up and greet her

Ken: "hi Helaine, I just left the bathroom now heading to class wanna come with me"

Helaine smile and nodded

Helaine: "sure Ken. Let's go, we're definitely late"

As Ken and Helaine walk to class, Ken then ask her why she wants to join the Student Council. She told him that it's because she wants to be important to her uncle, the only person she has since her family died(everyone in the class knows because she tell everyone). and she wants to help the school any way she can. Ken can see all the truths since he can tell when someone is lying or not through their body language and micro expressions. but he heard a word, she was she any to ' help the school'. That means helping in any way possible like Join clubs like gardening clubs. Ken wants to ask her but he don't wanna provoke suspicion so he decide that he will ask later. So once Ken and Helaine reach class Ken then Give Gerald Fiona phone number.

Gerald: "oh thanks Ken, you're the best"

Ken: “you’re welcome”

Now that he did that, he begin check on his watch(via security cameras) to see When Kally will leave their to go to the bathroom. While checking, he give Gerald his notes to make sure to boost Morale. As the class almost over, he sees Kally class is over early, this makes ken watch her movements and realize that she is heading to the pool to swim. Ken had browse through dontai talks with Kally on the phone and he notice that Kally is in 9th grade and she is The swimming team ace. This is good info for Ken, so as lunch time is now here, all students get up to head for lunch including his classmates. But Ken get up but not to

Go for lunch, Ken gets up to Kill Kally. Here is how it happen: when Ken leave the Computer lab, he then send Kally a message using dontai phone to tell her that he wants to meet with her at the gazebo to give her something special like a gift. Then he text dontai(who was now awake) that Teo, Leon and Donovon are all heading to the cafeteria. So this tactic ensures that Kally and Dontai don’t meet.(oh and Dontai was knocked out for the whole second class and he forgot on why he was here, because Ken knows how to knock out someone without them knowing they were knocked out and he also Have dontai been put in a sleeping position while making him invisible in the gazebo camera to make sure no one see him there and try to get to him) so after Dontai left to go to the cafeteria, Ken head to the Bathroom near the library, but he walk through the bathroom window (ken knows one of the window was stuck open so he went through there) and went into a stall then he check on the camera if Kally was heading to the gazebo and she was. She was almost passing the library, so Ken then put on his Narak outfit[the long black leather coat with the black leather pants with the black Silent shoes and a face mask. Then he check his to scan if anyone is near her and no one is near the bathroom or the gazebo or the 10-11 building . And no one is around here, most of them are either at the left hand side of the school or in the cafeteria. So Ken check if Kally has arrived and she did, so Ken use the watch to make himself invisible in the security camera once again, and grab his bag and before he leave, he make the bathroom window open and add a sticky slime to make it stuck open(incase someone go inside and try to close it. This is important later on), begin walking out of the Bathroom window and walk at the back of the Library. Because even though he knows that no one probably se him, he is still cautious. Since it is crucial to not be more safe even if you're already safe that is who ken is when he is planning something complex. As ken made it to the gazebo, he see Kally sitting there waiting for her brother…. Until she start to stand up and is about to text him but….Suddenly an arrow shot her hand, then she is about to scream until she got tackled to the ground and her mouth was force shut by someone hand. She look in terror and look up to see that the person on top of her is as masked person, but not knowing that it is Narak aka Ken.[ken anticipate that she would text dontai so he use his watch to shut down the phone signal and wifi a little to make it have slow connection so she cannot call or text dontai, he did that before lunch time. And how ken did it is my using the text messages between dontai and kally on whatsapp where he saw that she got a new phone from one of the messages so he decipher her phone brand and make it so that the school signal shut down for that specific brand of phone.] As Narak looks at her, he takes her phone and put it in his pocket. Then he grab her up and tied her to the chair using his strength. And tied her mouth. The bow and arrow that he shot her with, he made it.[Basically last night, he made a bow and arrow. The bow is design has a pen and the arrows are pencils. It is a type of tech where by

pressing the top of the pen and draw the bottom part of the pen down, it turn into a mini bow and by taking off the rubber of the pencil and breaking it into two,a small arrow pop out and just tap on the arrow and it slowly grows out. Ken is a tech genius and programmer thanks to his mother being a hidden genius at tech and basically everything. So ken make this last night. And let me say this, not only did he write his whole plan in the notebook, but he hacked into the school network at home and buy a phone using the money he get from part time job in 10th grade, then get and modify his Narak cloths and modify his 2ft red and black axe to transform into a small eraser and now make a pen and pencils turn to mini bow and arrows… thats insanely impossible right? To do all of that while still having enough energy to get out of bed and go to school.. Do all of that in one night?. Well yes it is insanely impossible for any normal person and crazily enough there are some things that make it less possible, he made the axe and pen and pencil last year when he was in 10th grade as well as doing 3 complex part-time jobs. So ken has been planning this Narak thing since 10th grade cuz he suspects and slowly deduced someone is puppeteering the country, he just now decided to execute it because of the murder in the news last night.] so now he start but the pov helmet camera on his head and start to record him shooting twelve arrows all over her body then cut her deeply in some other places, he did that while being completely calm hearing her muffled screams that no one cannot hear. (also he modify the gazebo camera to make it that it cannot see 'moving entities' like Narak and Kally and that includes their presence and even ken bow and arrow and so on) so after kally is dead, here cames a problem. Ken knows that kally live with dontai since dontai and kally has a single mother (he knows this via dontai phone). And he want to present kally dead body with Helaine dead body(that he will kill tomorrow) and since kally is dead now, how can he make it so that kally is still alive and is in the house while making sure that dontai, kally mother, kally's friend, kally's teacher, the principal, vice principal and everybody else who knows kally, dont know that she is dead. How…well ken already planned on how to do that (remember ken had plan this entire scenario already) : here is 'Kally's Concealment Death Strategy'

At precisely 12:05PM, Ken grab Kally's phone and text to her saying:{' Mom I'm feeling really sick, I'm coming home now. Can you pick me up at the front gate? I don't wanna walk feeling like this'} to make a reason on why kally is leaving. Then ken took out his laptop and set a pre-recorded footage of the school entrance from earlier that morning. He digitally inserts a figure matching Kally's height, build, and clothing walking out the front gate to make them know that she was actually leaving. He already make him and kally invisible to the gazebo cameras, know he delete all Kally entry to the camera feeds she passed through. Since:

- Ken studied Kally's walking patterns from old security footage (accessed during his hacking)
- The school's AI system is powerful, but Ken already mapped its blind spots in motion detection
- He specifically targeted cameras with lower frame rates (easier to manipulate without detection)
- The fake exit is timed to match when Kally "would have" left if she went home sick

Then ken modified Kally's attendance record, to Mark her as "Left Early - Parental Pick Up Approved" with a forged digital signature from the Vice Principal.

- Ken already has Vice Principal's digital signature from the emails he accessed
- This creates an official paper trail

After that, he sent a notification to Kally's afternoon teachers saying: 'Kally Griffin has been excused from afternoon classes due to illness. Parental pickup confirmed. — Vice Principal Office.' and after that, he altered the swimming club schedule by moving Kally's name to 'Absent - Illness' for any afternoon practice. This means that even if a teacher checks the system, everything looks official and legitimate. Not to mention that all the things he altered, he made it so that it is invisible to the higher ups like vice principal and so on. This is to make sure that the vice principal did not see the altering of the system, cuz if he did see it then he would figure out that someone hacked into the system. As ken finished the altering, he put his laptop in his bag and took out a large tarp. {ken wanted to make it look like kally died tomorrow at lunch time in 3B and to do that, he need to hide the body somewhere, like the Aquatic pavilion, where there is a large storage room near the pool.(he know that due to hacking) It is perfect. and not to mention that the storage room has:

- Used for equipment, chemicals, and ice machines for swimming events
- Security cameras in this area were already on his invisible list.
- Temperature controlled (cold enough to slow decomposition)
- Rarely accessed during school hours (only by maintenance staff after hours)

So ken wrapped Kally's body with tarp wrap in a way so that the arrows still stuck to her. Then he goes on his watch to see if anyone is there or near the Aquatic Pavilion. When he confirms that no one is around there, he carries her through the camera blindspot while make himself invisible through there as well. As ken reach to Aquatic Pavilion, he then look at the gate to get inside, the gate may look like a normal door gate, but inside it, is a Sensor. In fact it is a sensor that is at all of the doors/gates in the school. And every student are given a Tablet or Student E–Digital Book. it allow them to walk in rooms and places all around the place, if they do not have the digital book then they cannot enter. But the students do not know that. The digital book was now been made this year and all they have been told is that the tablet can let them see what is on the menu in the cafeteria as well as tell them what is their next class, basically things involving their work. What it didn't tell them is that it acts as a guide for the sensors to detect. When a tablet enter a room, the sensors inside the doors/gates detect it and register that the person enter the place. For example: if someone like kyle enter his classroom with the digital book, then the sensors register to the system that kyle has now entered. But if kyle try to walk in without the digital book, then the door would not open since the sensors scan the digital book when the person is near the door. It scans it in 0.0001 millie seconds, if the sensor doesn't have a digital book to scan then it wont open. Which is why the school tell everyone that they need to bring their tablet with them at all times. The tablets can be in a person bag and they can still enter, since the sensors scan the tablets even if it is covered by something. So this makes it easy for students to enter. And if all students try to enter and one of the student in the group does not have their digital book then the doors will not open because the sensors

scan at a 15ft radius so that level of radius will let them know has a digital book and who does not. And not to mention that the people who are caught without their tablet will be punished. And no one can use other people's tablets as well since the tablet will shut down in 5 minutes if not being touched by the user, if it is shut and someone touches the tablet then an alarm will go off and they will be punished for stealing(since the tablet scan the user finger prints to open). This system makes sure that everyone strictly follows the rules and is safe. This makes it difficult for ken because.

1. He cannot enter the aquatic pavilion since he needs the tablets there.
2. If ken use his tablet then the sensors will know that he is here and it will be registered(which will be bad)
3. Kally has her tablet with her since most students like her bring tablets to enter places like the cafeteria to get lunch. But ken cannot use Kally's tablet because of the finger scan.
4. The Aquatic Pavillion does not have a window so ken cannot go through the window.
5. Not to mention that if ken does somehow enter the Aquatic Pavilion, his tablet will be scanned and he will still be registered regardless.

So how does ken deal with this?. Well ken already planned that.

Here is the Aquatic Pavilion Infiltration Strategy: (this scene is before he kills kally). When the bell ring for lunch time, ken manage to slip his tablet in Gerald Backpack, then tell him:

Ken: "Umm, Gerald. Can you keep my tablet in your bag?. It's very annoying to walk with it at all times, especially when I am going to the bathroom which does not need the tablet."

Gerald: "Oh well I see no problem with that, but they say that you will be punished if you don't have the tablet."

Ken: "Hmmm, well that would be our little secret right?. Besides… I know you cannot refuse."

Gerald: "Hmm, how cheeky. Well…. alright , I'll keep it but make sure you're back at the cafeteria at 12:40 Ok?."

Ken: "but I won't be able to leave."

Gerald: "hmm, alright just text me where you are and i will come there and give the tablet back to you ok?."

Ken: "hehe Okay"

Basically, Ken blackmailed Gerald. Remember when ken knew that Gerald was doing it with a girl, well ken used that to blackmail Gerald in a kind and indirect way… like 'if you do not keep the tablet then i will spread the rumour that you are having sex with girls and the rumours will go to fiona, the girl you love. And how would she react to it, you would not like that right?. ' That is the meaning of the manipulation ken was indirectly doing in that dialogue and Gerald slowly picked up on it. (this wont ruin his shy quiet kid strategy, since ken manipulates his tone in a soft

and delicate way, to make it less threatening to deceive Gerald to think that ken is just joking. (this Tactics is what ken called ‘the Cafeteria Alibi Tactic’. By putting his tablet in gerald backpack he bypass the entire problem of sensors detecting him in the pool because:

1. Since he doesn't have his tablet, he won't be registered.
2. They say that if you are caught without your tablet then you will be punished…so as long as you are not caught then it is fine.
3. They won’t know that ken doesn't have his tablet, since the tablet is in gerald backpack and since gerald is heading to the Cafeteria along with most of the students, ken’s tablet will be scanned and registered that he is in the cafeteria with gerald, teo, leon and donovon. This creates his first Alibi for him. And there are cameras there that could make it seem that ken is not there despite being registered but when ken was hacking earlier, he adds that when his tablet scans in the cafeteria, a digital replica of himself will appear and walk like normal. This is to fool the system to think that he is in the cafeteria.(also the digital ken was created last night when ken videoed himself walking and standing with his backpack on his back, then after recording it, he edited the video into a digital code and deciphered and altered the code into a digital version of himself and put it in his USB. Then when he was hacking at the school, he posted his digital self into the security system in the cafeteria and it showed ken there. It is as if he is in the cafeteria.)
4. The School Demands the students to have the tablet at all times, so the loophole for ken situation is to just not have his tablet when going to the pool and have Gerald in the Cafeteria with his tablet. There are no rules to say that he cannot do that. This means that ken is not tracked at the pool.

Now that Gerald has a ken tablet in his backpack, ken puts his tablet in a black case bag and seals it before he puts it in Gerald bag. This is just safety. If Gerald does enter his bag and accidentally touches the tablet then it will ruin Ken's strategy because the sensor will go off. So by having the small thick black case bag cover his tablet, it reduces the risk of that because the case bag is thick and it won't scan Gerald's finger because of the black case bag. After that, the next ken have to go to the Aquatic Pavilion. He cannot touch Kally's tablet(because of the sensor) and even if he did, he cannot use it because it only scans the user's fingers. So here is what ken did, ken unwrap kally’s dead body but he only wrap it small so that her hand is free, then he use kally fingers to press on the tablet to turn it on, after that, he put kally tablet in his backpack, wrap back kally’s body…and walk close to the Gate, and it scanned kally tablet, and it worked. Because

1. Ken use kally hand to touch the tablet, not his own tablet. so this bypasses the whole sensor.
2. This loophole means that ‘kally entered in and registered but ken did enter but he did not register.’ This helps ken bypass this problem.

The downside is that Kally is supposed to be going home cuz of ‘illness’ but she is in the pool. Would that contradict it and ruin the strategy?. Well not really because ken will leave the pool with a kally tablet and it will register ‘kally leaving the Aquatic Pavilion. This makes it seem like

kally was in the Aquatic Pavillion for a reason like going for her pool stuff in her locker. (also before ken made it here, the security recording of kally entering the pool, he got that from the school system while he was hacking. So ken basically altered it and put Kally walking in the Aquatic Pavillion with her bag and tablet then showed her leaving with her things. He makes it so that when ken enters the pool, the video will play Kally entering and walking inside. And when ken leaves it will show Kally leaving. This makes ken invisible to the pool cameras). Anyways, ken walks down the storage room, he is invisible to the cameras inside(via kally is shown instead of ken). Then ken entered the storage room. It can only be opened by special people like the teachers, higher ups and people in the swimming club. Kally is in the swimming club so her tablet is registered to open the storage room. So ken opened it. And place her in the locked storage container at the far end of the room. There are a lot of containers and it is very tightly sealed and filled with chemicals, pool gear and some are empty as well. There are over 600 containers.(and they are cold and hard to pull). so the chances of someone searching all of the cold tight sealed containers for no reason or just to get pool gear when they can get them in the gearshop at the other side of the Aquatic Pavillion, that chance is very low.[This is the only risk here but ken already calculated that since he figured out through hacking, that the only person who enters the storage is the vice principal. Mostly, the staff entered the gearshop since it is similar to the storage room but better because it has more. The storage room is just for containing chemicals that won't be used. So ken calculated that risk]. There are no cameras in the storage room so ken don't have to worry about that. So once ken did that, he then left the storage room and left the Aquatic Pavillion using kally tablet that's in his bag. So once ken left the Aquatic Pavillion, he then checked if any one was around. Once he saw that no one was around, he went to the bathroom. But before he goes into the bathroom he grabs his bag and takes out two books then uses the books as a mechanical arm to grab the tablet with the books and put it 20ft away like in the bushes or at a place where no one will go like at the outside back of the library. This is to make sure that:

1. the sensor does not scan kally cuz it will indicate that kally is here.
2. He used the books to grab it, he never touched the tablet the two books did. It's like grabbing the edge of a building with a grappling hook instead of your hand.
3. The tablet does not act as GPS. They just use keycards to open tech doors and register so leaving it there does not tell the system that they are there. Only going to the doors can the system know where you are.

But ken did not go in the bathroom, he cant because he do not have his tablet. So ken get in by climbing in the window that he has opened earlier and he crawl in(ken is good at climbing plus the window is not high at all.) Ken then reached the bathroom, no one was there. Then ken changed out of his Narak clothes and put them in a big black bag. Then he checked on the camera(via his smart watch) to see if kally mother has arrived, and he saw her walking almost reaching(ken knows she look like from Dontai's phone photos). So ken decided to text her again. And this text said: "Mom, wait I'm so sorry, I started walking home because I felt better but now I feel worse again. I'm almost home, don't come to school. I'll just walk. It's not far. Sorry for making you worry. I'll take some of the medicines so you don't have to worry mom, you can continue going back to work. " . This ensures that Kally's mother does not reach the school,

cuz if she does then she doesn't see Kally and it will be a problem for ken. {also if mother insists on coming then:

- Ken has enough time to send another text claiming Kally is at a friend's house nearby
- The mother will likely just go home and wait, trusting her daughter}

As ken finishes with that, he checks the time, and sees that it is 12:40PM. He then checks the camera to see everyone is and even where dontai is, dontai is at the cafeteria as well, eating with teo, leon and donovon. Ken also saw Gerald eating as well, at a table with Fiona. Ken then sighs softly

[Ken thoughts: “Hmm, wow. This is quite tiring… doing all of this without even eating breakfast. And from the looks of it, I might miss lunch. But I must keep moving… I must”] this shows how much ken has to do. He has to keep everything memorized on what he should do while he is worrying about some random things messing everything up. And he has to keep his quiet shy kid persona acting. And he has to keep himself in the friends group. It's difficult multitasking and memorizing all of this layered and complex plan. but he is doing it well.

Ken also needs to text dontai but he wont do that yet… because if he did that then there is a chance that dontai might try to leave to go to kally teacher for info on kally leaving. And even though ken already made a tactic that shut that down(via altering the attendance record and notification of vice principal sent to teachers), he still does not want that possibility to happen. So ken then texts Gerald that he is in the bathroom to let Gerald know since Gerald did say to let him know where he is. So ken looks at his watch to see if Gerald is coming, and he is coming so ken makes his digital self walk out of the cafeteria and walks alongside Gerald with the tablet in my hand looking at the schedule.This is to ensure that his digital self is walking with him and that ken is no longer in the cafeteria. And the digital self is walking with him which indicates that ken is with Gerald and walking with him which does give him a second alibi. [remember ken records everything in his room. So basically ken predicted Gerald movements and actions]

So ken decided to wait til he reached close. Gerald then reaches about 12ft close to the bathroom, and that is where ken makes his digital self walk in the bathroom.(via the watch). Ken then uses his watch to make the Gerald entity in the camera stay in one place waiting. Then before Gerald reaches even closer to the bathroom Ken then text him to go to the bathroom window and through the tablet inside. Gerald looks confused but he decides to brush it off(he has trusted ken since 8th grade) and throw the tablet in the window, and ken text Gerald back to the same spot and Gerald did. Then ken turns off gerald entity data to make it no longer stuck moving(to make sure that gerald can move with the camera see him) ken then uses it to leave with his backpack.{he made gerald stand there to make sure that the camera did not see him throwing the tablet in the bathroom, because the camera will just view that gerald is just standing there waiting for ken to leave the bathroom. Also he texts Gerald with Ken's phone}So ken then goes to Gerald and keeps a face as if he just finished going to the bathroom and was with him in the cafeteria.

Ken: “Sorry about that, i just dont like have the tablet with me while i am using the bathroom”

Gerald: “oh, it is fine, i am just kinda confused by you texting me to toss you your tablet. But it's fine, let’s go and get you lunch”

Ken: “oh okay, just wait. I am gonna grab something”

Gerald: “oh…okay well i’ll go without you so hurry”

As Gerald slowly walks, ken then uses his watch to make himself stand still in the camera. Then he walks to the bush and sees that Kally's tablet is still there. So ken then walked near the fence behind the library. Then he see that the tablet is not off yet, so he takes out his stick hand toy from his bag and uses it to change the time on the tablet to make the time resemble the time ken used the kally tablet to leave the Aquatic Pavillion(12:30)[also the rule said that a student cannot use another student tablet, it does not say that a thing like a sticky toy hand can use it. Ken bought the toy hand before he reached the school] then he decided to throw it over the fences. Obviously doing that will risk it breaking, but ken already plans that since he uses his camera to know that there is a soft dirty small mattress under the huge plies of bushes and trees. Ken had placed it before reaching school. He found the mattress in the garbage heap near Gloria lake and decided to use it. So when ken throw it over the fence, it means that he successfully gets it out of school. This is crucial because:

1. if he cannot keep the tablet because he will go in classes and it will register kally going in
2. He cannot even hold the tablet cuz you know why(the tablet will cause an alarm if someone else other than the user hold it)
3. He can bury it, like using his bare hands or some rock to make a small hole to bury it. But that would not work since he would need the tablet to go in with the kally tablet(this will be explained later on when he goes in with the kally tablet to register her going to the school).

Also not to mention that the fences will also register Kally leaving. And the sensors use the time set on the tablets. Ken cannot alter the sensors due to the techs used are not controlled by the school system, its control by the institution that controls the school. (remember that ken hack into the school not the institution. And ken don't know who the institution is and if it is connected to the mastermind. He suspects it but he is not sure and he is not sure if their tech is too much for him to hack. You can hack something that you have no info on or what it is, it’s like trying to go to a country but you have no idea where it is and how to go there.) but ken can alter the tablet time, so ken memorize the time he use to leave the pool and calculate how it will take for kally to walk out of the gate. And put it there(12:37). [also the pre video in the cameras of Kally leaving the school? Yeah it was set right when kally was visible left out of the pool gate. It was as if she really did walk out the school]

So ken then walked back with Gerald to the cafeteria and headed to sit with his friend’s group at 12:48, with his food that Gerald bought for him. Ken then greeted dontai , Teo, Leon and

Donovon who were talking about the free fire and call of duty game . ken expected them to have that conversation, so ken decided to do it now. He uses Kally's phone from under the table and send the text to Dontai. And the text said: "Hey big bro, I felt really sick during lunch and came home early. Mom took care of me for a bit but I'm okay now. I'm heading to Aaliyah's house to work on our Biology project that's due tomorrow. I don't wanna let her down even though I'm not 100%. Her mom is a nurse though so she said she'll keep an eye on me. Don't worry "

This is to make sure that dontai knows that Kally left due to sickness, cuz if he decided not to send that then there is a chance where he goes to his sister's class to see her and she would not be there. Dontai realize and start to feel worried, so he try to get up but–

Ken: “oh dontai, whats wrong?”

Dontai then explains in a worried tone.

Teo: “oh dont worry bro, your sister is not a fragile girl. Its just a sick she will be fine.

Leon and Donovan nodded in agreement

Ken *said ina soothing tone that can let dontai memorize those words in his mind*: “yeah, it’s fine don’t worry too much…Ok?”

Dontai hesitate before silent agreeing.

This is why ken decide to wait till he reach to the cafeteria so that he can stop dontai from leaving.

After lunch is finished,(1:10) ken and his friends were heading to the third class, that is where ken text to kally mother saying, "Mom I got home safe, thanks for worrying. I'm feeling a bit better now. I'm gonna go to Aaliyah's house to finish our Biology project. Her mom is a nurse and she said she'll check on me since I'm still a little sick. I'll probably stay there overnight since we have a lot to do. Love you "

Why this works:

- Mom believes Kally came home (even though she didn't)
- Mom now expects Kally to be at Aaliyah's house
- The overnight detail means Dontai won't expect her home that night
- When Dontai gets home and asks mom, she'll say "She's at Aaliyah's working on a project"
- This matches exactly what Dontai was told → No contradiction

Then during class, at 2:10PM. Ken use a selfie from kally phone that shows kally and Aaliyah together and he:

- Uses photo editing software on his laptop (which he already has mastery of)
- Crops Aaliyah from a different photo where she's at a desk
- Places Kally beside her with a mouth mask added digitally
- Adds some papers and books on the desk to look like a project
- The mask explains why Kally looks slightly different (covers lower face)

Then Sends the photo to Dontai with the text:

- "See? We're working hard. Also Aaliyah says hi"

The reason for this is because:

1. Dontai sees visual "proof" that Kally is alive and at Aaliyah's house
2. The mouth mask covers any digital alteration artifacts around the face
3. It matches the story (sick but working)
4. Dontai has no reason to doubt a photo sent from his sister's own phone

Also even with all that, dontai might try to do these:

1. Call Kally → so Ken extends the phone signal manipulation so calls from Dontai to Kally fail with "No Signal" (explained by: Aaliyah's house has bad reception)
2. Text Kally repeatedly →so ken set an Auto-response programmed: "Big bro stop worrying lol, Aaliyah's mom said my sickness is nothing serious. We're focusing on the project now, I'll text you later. Love you "
3. Go to Aaliyah's house → but Ken already researched Aaliyah's address from Kally's phone. Aaliyah lives 40 minutes away by bus. Dontai has no car and it's already late afternoon. He won't make that trip on a school night for a "she's fine" situation. Plus he doesn't even know where Aaliyah lives and does not have Aaliyah's phone number since ken picks a friend that dontai will not know about.

After school is over, ken then walk out of the gate with his friends and part ways with them. Ken then walks to where he throws the tablet at and sees it still there (as he was predicting). So ken decided to take the tablet with his book and put it in his bag. Then he walked back home. As he reaches home he greets his mom and sister then heads to his room. And he checks the time, and realizes it's 4:30PM. So ken waited and did some more programming. While waiting the time finally says 6:00PM. That is when ken use kally phone to send this message to dontai:"Hey big bro, we finished most of the project. Aaliyah's mom checked on me and said it's just a light sickness, nothing to worry about. I'm gonna sleep here tonight and head to school a little early tomorrow but I'll make it for swimming practice at lunch. See you tomorrow! Don't wait for me in the morning ok? Goodnight "

Why this works:

1. It Confirms she's staying overnight (Dontai won't expect her home)
2. Nurse's diagnosis ("light sickness") removes medical worry
3. It Specifies she'll be late tomorrow (explains why she won't be in morning classes)

4. It Specifies swimming practice at lunch (gives Dontai a time to expect her)
5. The "Don't wait for me" prevents Dontai from looking for her in the morning

After he did that, he then used Fiona's Phone Number to decipher if she had social media and other information. After he finds some info in 20 seconds, he then uses it to decipher Fiona's phone account and he gets in, then he makes himself invisible while covering his digital tracks by copying photos of Fiona's parents that she had in her phone and putting it into his phone. After he did that, he then created a fearful cry audio File he then sent it to his Phone and connected the file to an earphone.(this is important later on with making Helaine scared.) Then, ken uses his control of the school system to become the vice principal then sends a message to the chefs in the cafeteria to cook the students favourite dish that will let all the students be attracted to it. {this is crucial for tomorrow at lunch time where most of the students will be at lunch time cuz of the new dish that they will want to enjoy. This will be a distraction so that little amount of people are there when he done his crime}. once all that is finished ken clean the blood off his Narak clothes and dry them. Then he grabs his recording pen(that he buys and made) that his used to record voices and play it. He then start to record his voices on it.[this is important later on]. Then he gets some sleep.

Day 2: Morning arrives(5:30AM), and ken gets up and uses kally phone to text Dontai: "Hey big bro, I'm up now. Aaliyah's mom gave me some medicine and I feel way better. I'm gonna head to school soon but I'll be a little late. Don't wait for me ok? I'll see you at lunch near the pool for my swimming practice! " to update Dontai that she is a lot better and is going to school to relieve him. Then at 6:15AM, while he is getting to go to school, he then uses a kally phone to text to kally's mom: "Morning mom, I'm leaving Aaliyah's house now. I feel much better, her mom said it was just a light sickness. I'll see you after school. Love you!" to also update her that she is a lot better and is going to school to relieve her. Before ken left he told his mom that he would stop at a cafe before going to school. {this sets up his alibi later on}

At 6:30 AM, ken was walking to school early, he then stops and take out his laptop in a corner and insert kally's figure entering the school, he used the footage from a week ago as base then digitally places Kally's figure walking inside. Then he used two books to grab Kally's tablet and put it on the ground. Then right when the footage was about to enter inside, he used the two books to grip Kally's tablet and throw her table in sync with Kally's digital self entering the place. This is to ensure that kally made it at the exact time it was registered. And it syncs at precisely 0.000001 milliseconds. The footage also shows Kally walking and heading to the Aquatic Pavillion. Also normal students arrive around 6:50 -7:20AM so using that calculation ken made it early so no student will be. After ken did that , he decided to just go to a cafe and drink some coffee or eat a muffin, just anything as long as it passed the time. He want to reach 7:00AM because:

1. If he goes to the school right after Kally heads there then it will put him under suspicion later on when Kally's body is discovered because they might suspect that ken killed her.
2. Also when kally is there, ken can be in this cafe around that time. This will give Ken an Alibi because ken being in the cafe while Kally is potentially murdered in day 2 early morning, will give ken an alibi that says that he was around the cafe at the same time so

ken could not have done it. (this is the 3rd Alibi [i hope you are keeping up with the alibis]

As 7:00AM reaches and he sees some students walking, even his friends and also he sees Aaliyah walking in as well. So ken then uses his laptop and makes himself invisible in the cameras of the Aquatic Pavillion and the cameras at the library and around the library. And he makes it so that his digital self walks in the school and heads inside the library. But he has not clicked on it yet. Then ken leaves the cafe and walks to enter the school. Once he entered the school at 7:10AM that is where the footage of his digital self walked into the and when ken was 15ft close to the library, he stepped back and walked away to grab kally tablet near the fence with his book. The reason for this strategy is:

1. It registers that ken is in the library and not near the pool.
2. It give ken another alibi that he could not kill kally since he is not in the pool

Once he did that, he then grab Kally phone and Erase fake camera footage (school will assume Narak deleted it), Erase all sent texts from Kally's phone, Erase all auto-responses And Wipe Kally's phone completely and toss it in the Garbage Bin that is in the outside of the school. This is to make sure no evidence is left. After that, he then checks if everyone is around the pool and no one is there as ken expected because swimming club members are prohibited to enter the pool unless it's someone who is the vice ace or ace like Kally. So ken makes sure no one is near him then he quickly heads to the Aquatic Pavillion with Kally's tablet on his backpack. He then uses the sticky hand to change the date to when the digital self enters the Aquatic Pavillion. Then he put his tablet outside the Aquatic Pavilion then Ken entered, while grabbing a sign and put it in the front of the gate and the sign said: 'DO NOT ENTER'. This is to make sure that no one enters the gate [the footage when Kally entered, show her put the sign there. So just put the sign there to sync with it.] Then ken heads to the storage, where he is also invisible to the camera. And he takes out Kally's dead body. Now ken wants to move kally body to 3B, but he wants to do that when it is lunch time. So he wants to make sure to put Kally's body somewhere hidden. But that adds difficult cuz

1. Even though there are not enough students here since it's early, Ken does not wanna take the risk to let anyone see him carrying Kally's dead body around even though Kally is wrapped in tarp.
2. Even if he did manage to go undetected, he needed to find out where he should hide the body till lunch time.

But Ken already plans for that, first of all it's 7:20AM, 7;30AM is when all the schools keep general devotion every morning. It is a routine where all grades meet in the Cafeteria and the vice principal or guidance counselor conducts devotion. When that happens, Ken can start transporting Kally's dead body to the Secluded Storage room. Out of all the rooms, the Secluded Storage room in the floor 3 is the one where the sensors malfunctioned so Ken can enter the storage room without his Tablet. So here is what ken do now,

At 7:30AM, all the students who made it early are heading to the cafeteria. That is where he grabs his laptop and makes himself invisible to all cameras, then he decides to put Kally's body in a large vacuum storage bag that he got in the storage room. Kally is 5'0 and weighs 110lbs. So Kally can likely fit in the bag because the bag Ken takes up is very thick and long, precisely about 9ft. So as Ken put Kally in the storage bag, he then checked if everyone was in the Cafeteria and they were. So ken managed to lift up the bag and leave the pool then grab his Tablet and put it in his backpack. Then he walks behind the library(to make sure no one sees him) and walks in the 10-11 building and heads up the stairs(remember that he makes himself invisible to all cameras and the digital Ken is sitting in the cafeteria now) . He quickly walks while making sure the bag is not broken. Ken then reached floor 3, he then put his backpack in the stairs all the way to the secret corner(to make sure the backpack didn't trigger any of the sensors) Ken then began walking and reached the storage room and entered inside. And place the storage bag (with dead Kally inside) in the far end of the storage room to make it hidden. Once that was done, Ken pulled a compact electromagnetic trigger from his pocket. The school door's internal locking system relied on magnetic sensor relays hidden beneath the metal frame. By placing the device near the sensor panel, he generated a brief magnetic pulse that mimicked the signal of a closing command, forcing the automatic door to shut. {during day 1, Ken secretly observed the maintenance staff and discovered that the classroom doors automatically sealed whenever the internal sensors detected interference in the relay circuit. During the event, he waited until students crowded the hallway so nobody would notice him. He then dropped a small metal object near the lower hinge area to distract nearby students with the noise. While attention shifted, he pressed the electromagnetic trigger against the wooden section hiding the metal sensor core. The magnetic pulse overloaded the relay for less than a second, causing the system to interpret the disturbance as a forced-close command. The door immediately shut and locked before anyone realized what happened.} So ken made the storage a locked room. And he makes the Camera perceive the door as normal(via watch). Now that Ken has finished that, he then heads out of the building and sees Kally tablet behind the library . So ken hid it under the bushes. {He don't need it for now.} as Ken head to the cafeteria. And once he is in, he make himself visible to the camera and saw that the devotion is still on. After the devotion every on head to class and the day continue has normal.

Lunch time: When the bell ring for lunch time, ken observes helaine movements. He knows that she will stay behind to check the classrooms like she always does ever since last year(in 10th grade). So ken decide to use this to his advantage. He told Gerald that he will be there with the others in a minute, he just need to sort his books. But that was a lie; while helaine was looking around the classroom, ken slowly take out her earphone out of her bag. [Because helaine bag was at her desk and heliane was busy arranging the classroom plus she trusted ken to not trouble it.] He then replaced it with an identical earphone he buys to replicate it. Ken then take up his bag and then said to helaine:

Ken: "I finished packing up my stuff so I am gonna leave now."

Helaine turn to ken and smile.

Helaine: “oh, okay take care. I’ll finish arranging the class then head to the greenhouse bye ken.”

And ken leave. (the reason why ken did that is because he want to implant a fearful cry audio file on her earphone but he dont have her earphone so he swapped it with his earphone that he buy to replicate her earphone. And this ear phone has the fearful audio hatch into it and will play the audio at a specific time which ken had set. To. Even if helaine did not have an earphone, ken can just use his smart watch to find where she is, and play the audio through the speakers around the school but only the speaker in the greenhouse. And the walls are sound proof so only she will hear when she is in the greenhouse. The purpose of the audio is to cause her panic and anxiety to let her lose her cool). As ken left the class and begin walking, he went to his phone, take out his sim card and replace it with kally sim card, then use it to send a message to Fiona saying: ‘Fiona, I suggest you deal with Helaine. If you do not then… the bitch will suffer the worst fate imaginable and You and your family will be the next target.’ and then send a photo of Fiona’s parents(that he got through fiona phone.). Ken then use his watch to shut down the phone signal in the library so fiona cannot call or text anyone.[‘This is important, since doing this will create desperate motivation for Fiona to act against Helaine. So basically ken manipulated Fiona to attack her best friend Helaine. And ken send it at that time because if he send it while they are in the class then fiona will have time to tell helaine, but since fiona has gone out somewhere, it is perfect because they are now separated(with fiona being in the library) . so ken then reach at the front of the 10th and 11th grade building, where his friends. Teo, Leon and Donovon were heading to the cafeteria. Dontai was going as well but Gerald said that he is going to head to the bathroom, ken said that as well. So ken told Donovan[in a timid voice] if he can buy a box lunch for him, and Donovan accepted. So ken and Gerald part ways and head to the same bathroom that was beside the library, while the rest head to the cafeteria. While ken and gerald was heading to the library, he check his smartwatch and see that helaine head out of the classroom and is preparing to leave the building. Ken had expected this, so ken and Gerald continued to talk while reaching the bathroom, Gerald entered one stall and ken entered the next. Ken then close the stall and take out his recording pen and check his watch and see that she is heading to the greenhouse at{12:04PM}. and that is when the audio starts playing and he activate the audio on dontai phone as well, he can see helaine anxiety and feel it. She panicked while walking inside. And he can see dontai confusion. It is perfect. Then ken take out his phone and send the text right when she head inside the greenhouse to water the plant. And he can see dontai try to head inside but cannot because it only lets in people who are there. The text said: "hey gurrrl, meet me in our classroom, 3B. Our teacher need you now" . he send her the text using fiona phone number and account. {the reason for this earphone hack strategy is to

Step 1. Set helaine into a panic and anxiety state where she feels unease despite her best friend text.

Step 2. To let dontai into a wild goose chase trying to figure out the sound and where helaine go. Which will lead him into not having an alibi and make him a potential suspect.

Step 3. To lure Helaine into a location where she can knock Helaine out.

Step 4. This specific location where Fiona will see her walking is perfect for Fiona.(since the library is close to the 10th and 11th building. So Fiona saw her through the window. Even if Fiona did not see her, ken would just text her where helaine is and tell her to do it. Fiona is in a dire situation where she had to pick between her family and her best friend. This can cause confusion and desperation which is what ken knows and has studied through watching his father manipulating and blackmailing his mother. So ken knows how it feels and uses it to toy with her emotions. After all, some humans make their decision based on emotions and ken had analyzed Fiona as that type of person.)

So once ken see Fiona heading to the building right behind helaine, ken decides that it is time for Narak. So ken checked his watch again to see if there was anyone around. Once he knows that no one is around he makes himself invisible then he puts on his Narak clothes and then places his recording pen down.(the pen records all the voices that ken had recorded, each voice are conversations that he knows will happen between him and Gerald. So basically ken had predicted what Gerald would say and he added the recording pen to play his response to each of Gerald talking. Which is insane. Since ken also record the silence before and after each of his responses.) ken then left the bathroom through the window and checked his camera where he saw helaine arriving room 3B. This is when ken walk at the back of the library, place his tablet on the bushes and then use his book to take up kally tablet and put it in his bag. (this tactic is to make sure that he doesn't get registered when entering the building) ken then enter the 10th and 11th building and begin walking up the stairs and enter 3A right at the opposite of 3B. So they cannot see him. He then witnesses Fiona knocking out helaine with a bat and walking out. [Ken: “Hmm, she hides through the camera blindspots. Smart. But she still got registered in the classroom. She didn't think that far ahead, as expected. Desperation can lead to mistakes.”]. Ken then sees Fiona leave 3B and head downstairs in a rush to leave. While ken left 3A he got a text from Fiona saying: ‘‘I did it. So please don't hurt my family’. Then a picture of helaine unconscious body covered in blood on her head. But ken knows that she is not dead, just unconsious. He can tell by the facial expression and by how Fiona left the room. Ken knows that Fiona would not kill her best friend. He knows and that is why ken texts her to do it. So she can be registered heading inside the room and be framed. So ken checks his watch and sees her heading back to the library, ken enters the 3B and prepares his murder. He needed to act fast, since he wanted to make sure that he and Gerald arrived right in time to see dontai. If he made it late and he did not meet with dontai, it would not ruin his plan but it is not the outcome he wanted. So ken began his work. He grab helaine unconsious body and tied her to the chair then he grab his knife and stab up her chest to have multiple deep cuts, which cause helaine to woke up and scream out as long as she can for help. But the walls are sound proof, no one will hear her. After making multiple deep cuts, he put holes on the entire torso causing multiple holes at it. After doing that, helaine… is dead. With her eyes wide open in shock. In advance ken had already made himself invisible and made Helaine invisible as well. Ken left 3B, entered 3A and opened the window, take out a tiny cushion at the window and began leave the 3A but put a chair to hook into the door to make sure that the door do not shut completely, then heading downstairs, leave the building and reach at the side of the building then use the sticky hand and the books to use all his might to throw the tablet to the window in one try and it enter the window and landed on the cushion.(this is important later on).

And then he rushed behind the library and took his tablet that was on the bushes and then climbed back through the window and once in the stall he took off his Narak clothes and put them in his bag. He notices that Gerald is outside and is talking while the recording pen is displaying responses that ken had predicted. This makes ken realize that it works. So ken changed to his normal clothes and left the bathroom stall.

Gerald: “Hmm man i know right, it’s insane how the cafeteria just adds in our favourite meals.”

Ken: “Oh, yeah. It is crazy but good for us.”

Gerald: “RIGHT!!. I can’t wait to taste the rice and peas and baked chicken.”

Ken: “Hmm, well we better get to the cafeteria before the meals get finished.”

Gerald: “yeah, Teo just texted me that the line is very long. Which is insane. It’s like 70-80% of the students enter the cafeteria when it is announced this morning that the chefs are cooking their favourite meals.

Ken: “Hmm, yep. Unlucky. Well let’s go”

As ken and Gerald prepare to head out of the bathroom.

[To explain this, basically last night, ken(becoming the vice principal,) sent the chef to cook the students' favourite meals. And he sends the images of the meals that the students love. And when the chefs announce it, the students go happy and crave the food. This strategy is important because.

1. Most of the students who eat at the cafeteria will all be lined up there to buy the food since they are making their favourite meals.
2. By doing this, this makes sure that little students are around the area. Which will reduce ken from getting seen.

Not to mention that these ‘favorite meals’ do not exist. Throughout 7th grade all the way to 11th grade, ken had observed all the students' reactions when eating the meals each day, each reaction, each emotions, each facial expression. All of them ken had observed and had deduced that some of the students like this meal and some like that meal and some like this meal. And from each year he wrote down the meals that each person liked until he reached his Day 1, 11th grade, where he realized that out of the 340 (and more) meals that are served, there are 5 meals that each large number of students liked. And there are 80% of the students that buy lunch and out of the 80%,

25% love meal one .

20% love meal two.

10% love meal three.

10% love meal four.

15% love Meal five. This lets ken write down each of the five meals to the chef so that they can cook it for the students which will give the student more interest in the cafeteria. That is the strategy.]

ken and Gerald made it out of the bathroom.

Gerald:”wow, that is some good pissing not gonna lie”.

Ken: “oh.. Well yeah I guess. W-we should probably head back to the cafeteria.”

Gerald: “yeah, but what is the point, I bet the cafeteria is gonna be packed.”

Ken *said shyly*: “y-yeah, it's always packed ever since the chefs has changed when we were in 8th grade”

Gerald: “yeah, so let's go somewhere else to pass the time, like the Gazebo, i mean teo, leon, donovon and dontai are gonna head there when buying their lunch so might as well wait there”

Ken: “ Oh ummm, sure. Sounds fine.”

Gerald grins, as ken and Gerald continue talking about anime stuff while walking. Then, Donati was standing in front of them, which got Gerald weird out so he ran to him.

Gerald: “Yo Donny, what's wrong, why aren't you in the cafeteria?.”

Dontai turn around and notice them.

Dontai: “oh, you two. Well, have you seen the line in the cafeteria?!. Teo, leon and donovon may have time to spend but… aint no way am i waiting there. Besides, while I was standing at the entrance of the cafeteria, I heard a fearful cry. I gaze around where it came from but I couldn't almost the entire students are at the cafeteria and considering the walls at the school are soundproof, the students in the cafeteria did not hear it at the result.

Gerald: “...Wait what?. So you heard a cry when you were outside of the cafeteria entrance?”

Ken: “Wait… but umm. Does that mean that the cry must have been outside then since all walls are sound proof.

Dontai: “yeah which is why I checked around the outside of the school but found nothing except for helaine standing outside of the greenhouse looking worried. So I suspected that she heard it too, so I wanted to talk to her about it but when she got inside, the door was locked. It was surprising, and I couldn't do anything to go inside not even call her out there since again, all walls and even glass walls are sound proof,

Gerald: “ohh so Helaine heard it?!.

Dontai: “yeah, i was thinking that she might”

Ken: “Hmm, I heard from Helaine that the glass walls in the greenhouse are shaped differently. From the inside, you cannot look in the outside but from the outside you can look at the inside.

Gerald: Oh.. so like a magical glass in the magic tricks!!

Ken: “Umm, sure… also the doors are like security scanners, they scan the person and open themselves to let the person in. but only the person in the gardening club, so it's probably why you did not go in.”

Dontai: “ Oh, well whatever it is. I decide to head to other place to check if someone heard it and that is when i decide to head back, but when i head back, helaine was gone. She obviously must have left to go somewhere else, but the other place i check was only the bathroom that was beside it, and thats all i check. Besides there is alot of plants there, and she has to water all of them. She even left her watering can beside a plant that she didn't water yet.

Ken: “so…You're saying she left in a hurry”

Gerald: really, but what kind of hurry would she have left for?”

Dontai: “ i am not sure, but that is why i decide to try and find out where she went so my best bet was to head to the cafeteria since she is the class monitor, so she probably want someone in our class or something. So i went, and didn't see her. So i head out and went in the sidewalk thinking and that is where i met you.”

Ken: “....”[ken check his phone while looking at the time. Once see the time he knows that this conversation is going exactly has he predicted]

Gerald look in slight worried, before he decided to speak

Gerald “umm, maybe she head out to get her–

“Boyfriend?”

The sound come from behind gerald has gerald turn and see fiona smiling playfully. As she hug gerald and give him a kiss.

Fiona: “ Is that what you are gonna say”

Gerald look in surprise before putting on his playboy personality

Gerald: “hmmm, well… maybe, though it took you long enough to get here babe”

Fiona: “oh well, i was.. At the library, putting a book away”

Ken: “library?”

Fiona: “ yeah. To be honest the lady receptionist was being a complete bitch. Like just shut and take my book already, it's not my fault that you're at a dead-end job.

…

Fiona: “Aaaanyways, i heard you guys are talking about sexy Helaine and i think i saw her heading to the 10-11 grade building while i was looking out the window in the library. But i didnt think much of it cuz i thought maybe she left something.”

Dontai: “Really, so you saw it there?!, when?.

Fiona: “Umm, idk like about 12:06PM.”

Dontai: “12:06…. I saw her in the greenhouse at about 12:04”

Gerald: “Wait…. What?. but … what time is it now Ken?”

Ken: “Oh, it's 12:14”.

Gerald: “12:14… and dontai saw her at 12:04. Fiona said she saw her at 12:06… that doesn't make sense.”

Ken”.... yeah, because the distance between the greenhouse and the 10-11 grade building is quite long, it will take about 5 minutes to make it there if you run or walk fast, if you walk then it is even longer, probably 8 or 10 minutes. So that Time does not add up at all.. Unless”

Gerald: one of them are lying. My bet is on Dontai cuz my Babe Fiona will never lie”

Fiona: “Mmmm, you got that right”

Dontai: “... i was not lying. But right now lets put that aside, Helaine is probably in there so we need to go quickly”

Ken: “ohh, quickly… b-but why ‘go quickly’ all of a sudden?”

Dontai: “well…i fear that she might be in trouble” {also fiona lied about seeing her at that time, she did that to try and get herself an alibi all while confusing the group.. Ken had anticipated that she would do that , which is the another purpose of him blackmailing her, because he knew she would wanna try and get an alibi and lie about seeing helaine at a different time. So ken blackmail her and basically indirectly manipulate her into creating a false alibi to try and save herself while trying to confuse the situation,which he wanted.}

…

The four of them all stay silent and decide to head to the 10-11 building as they reach, they entered inside.

Dontai: “alright, i think she will be at floor 3”

Ken: “Yeah but we cannot be too sure you know.”

Dontai: “...Yeah Ken, you're right, so me and Gerald will search the first and 2nd floor while Ken and Fiona will search the 3rd and 4th floor. I cant let gerald and fiona search together so you are with me gerald”

Gerald: “ohhh, dontai leading ?!. what a day it is”

Dontai: “...”

Ken: “o-oh, okay. But umm. I though that you would wanna search the 3rd floor since you want to see her more than the rest of us”

Dontai: “....yeah, but… lets just move for now.”

[this is where ken create the Split Strategy. So basically ken indirectly manipulated dontai by saying, ‘yeah but we cannot be too sure you know’. This causes dontai to second guess and suggest to split up. In dontai mind, he wants to search floor 1 and 2 because he suspects that there is a possibility that helaine might be dead, and the reason for thinking of that possibility is due to the audio he heard and the fact that the helaine did not finish water all the plants and only leaving the watering can on the floor. Because of the fearful cry audio, dontai felt unease and think that something might happen to helaine but he do not want to jump into conclusion so he dont want to search the 3rd floor because he afraid that he might witness her murder or see her body or see the culprit. He is afraid, and that is exactly why ken play the audio on dontai. To bring that hidden fear in him. And another reason for dontai to do that is because he doesn't want gerald to search with Fiona because they are a couple he can imagine a possibility that they will forget about searching for Helaine and begin to have intimacy in an empty classroom. Also he do not trust fiona alibi so he dont wanna team up with someone that he secretly suspected, so gerald was the best bet. And ken had perfectly anticipate that dontai would do and think that. The purpose of this Split Strategy is to:

1. Isolate Fiona with Ken so he can get her to confess.
2. Control when they discover the bodies.
3. Ensures that no one will see the scene before it is ready.

Dontai Left first and so does the others. As ken and Fiona reach the 3rd floor, he then looks around and notices nobody is there, then she turns to Fiona who was cautious as well.

Fiona: “Ummm… Ken,”

Ken: “oh. What is it?”

Fiona”..... I think she is in 3B”

Ken: “hmm, how did you know?”

Fiona: “:well…”

Fiona takes out her phone and shows ken the text from an unknown person. ‘Fiona, I suggest you deal with Helaine. If you do not then… the bitch will suffer the worst fate imaginable and. You and your family will be the next target.’ then a photo of her parents was there.

Fiona: "I got it from when I was heading to the library, but… i hesitated, and when i saw Helaine walk in the 10-11 building, I couldn't help it and followed her then i…”

Ken: “... you.”

Fiona: “i… I knocked her out. I didn't kill her since it didn't say that I should kill her. So knock her out and.. Left her there. While texting to the person that: ‘I did it. So please don't hurt my family’. And I take a pic of Helaine's unconscious body and send it to the person and walk off to the library. Though I am not sure if it worked.”

Ken: “... well, i guess i understand that you had to do that, but you should have–

Fiona: “Call the Police?... yeah, maybe i should have done that.”

Ken: “...”

Fiona: “...”

Ken: “Lets just head inside 3B and see if Helaine has woken up”

Fiona: “..yeah. I need to apologize to her”

{ken had anticipated that she would confess, because even though she knocked out her best friend, she still felt worried that the unknown person would kill her family anyways. She also still feels guilt for betraying her friend. This level of emotion is what she never experienced at all. It is her first time. She wants to tell someone but is unsure who to tell, she doesn't want Gerald to hate her and she suspects that dontai dont trust her. So ken is her only option because of how quiet and trustworthy he is. And ken knows it. That is another purpose for blackmailing her, to gain her as his mind control puppet. That level of detachment and emotions that she is feeling, he wants that to slowly disintegrate until she is completely gone and for him to toyed with. All the events ken had planned was for her to break. That was another reason for this plan(it wasn't the main reason but it was more of a side goal).}

As ken and Fiona open the classroom door, they see Helaine there, sitting on a chair with her hands tied to the chair and her legs tied to the chair. Her eyes were open wide in shock and fear. Her head was very bloody and her chest had multiple deep cuts. Her entire torso is bloody with so many holes as well. The scene was so inhumane . As Fiona looks in horror she runs to Helaine and touches her face and screams out.

Fiona: “H-Helaine…. Helaine. Helaine. Helaine……HELAINE!!!!!!!!!!!!!!!!!!!”

The scream can be heard from all of the 3rd floor.

Ken looks in slight horror from the scene, as he touches Fiona's shoulders.

Ken: “Fiona, i am gonna go for the others alright?.... Just stay there a little ok?”

Fiona remains silent in shock and sadness at her best friend seeing like this. She didn't kill her, ‘ it was only a knock out and yet… her friend died.’

[Ken: “each human's mental fortitude is different. After all, we are not born the same. Some humans can endure it while some froze the moment they see blood or someone died. I analyze Fiona and her mental fortitude is extremely low, almost nonexistent. That level of mental fortitude can be altered if she sees someone important to her die. That will cause long life trauma. She is a perfect puppet if used right. And looks like it works….now for the final act.” Basically what this means is that when Fiona sees Helaine's dead body, she froze up completely. Like if she shut down, that is how deeply a person can get affected by seeing a horrible scene and ken knew that which is why the split strategy was so important.]

When ken left, he made himself invisible in the cameras. Then he walked downstairs and put down his tablet to make sure it did not register. Then he put on his Narak clothes and headed back upstairs and went to the storage room. He then places his compact electromagnetic trigger near the door which triggers it to open and then he takes out the bag that has kally’s body. Then he uses the compact electromagnetic trigger to lock back the door. He then carry the dead body back to 3B, put kally dead body near 3B door then he go near 3A, took out a selfie stick that can stretch, stretch the stick long enough to reach the cushion and move it closer to him until he grabbed the kally tablet with the sticky hand place it near the door then move the chair out to make the door close and the door open which scanned Kally coming in. ken then slowly bring the tablet out while put the chair in at the same time to make the door stuck open. Ken entered and shut the window(he had his Narak clothes so he wont leave fingerprint, cuz of his fingerprint free gloves), then he head out and push the chair inside, which cause the door to close but still register kally entering. The reason for this strategy is:

1. Ken cannot use his tablet because it will register himself so he use kally tablet to register kally going in.
2. By doing this, it registered kally going in 3A. Because earlier when ken threw the kally tablet through the window, it did not register since ken had placed the chair to the door to stop it from entering. (so ken had figured out that the sensors don't scan if two sensors are open at the same time.)
3. This is to confuse the police. Because the sensor shows that kally entered 3A but kally also entered 3B right after, so how is that possible unless there are two kally or something which makes sense. That sort of confusion is what ken created.

Ken then enters 3B with Kally's tablet, brings Kally's dead body in and sees Fiona still shocked, not moving just staring at helaine dead body. She is completely shut down and ken

had known she would react like this. So ken knocked her out from behind, then he began to work. He unwrapped Kally's dead body, placed her on the chair, tied her up and kept the twelfth arrows lodged on her body with her body covered in blood. Then he put Fiona kneeling down and placed some blood on her and put a bow and arrow on her hand. Once ken had done that, he take out a small paint brush and a small bottle and begin doing his Narak signature: [' a small paint drawing of a stick person wearing a full black long leather coat over his black pants. And the face was nothing but a red mask with a creepy smile, and the man was holding a 2ft axe with bloody red and black stripes. There were also two smiley faces with eyes at the left side and the right side. That was the painting and the painting has a Letter at the top of the drawing and it said: 'Narak'.]. (this is to show that there is a new killer in the community named Narak,that was the main reason for this plan to make sure Narak makes his appearance around the community. And to step himself up to try and catch the mastermind.) After ken had done that, now it was time to make the locked room.

Here is the Locked Room Strategy: With the bodies positioned and Fiona framed beside them, Ken opened 3B's window fully before propping the door ajar with a textbook wedged against the hinge side, triggering the school's ventilation protocol which deactivated the door sensor since both window and door were open simultaneously. He then wrapped a nylon string three times around the interior twist knob, routed it along the door edge and under the frame, placed a second textbook on top of the string to maintain tension, and positioned a wooden paperweight so that pulling the string from the hallway would catch against its edge and redirect the force at an angle that generated enough rotational torque to turn the textured knob from outside.

Stepping into the hallway while the sensor remained blind, Ken crouched down and pulled the string slowly until the privacy lock clicked shut from the inside. He then carefully extracted the string by unwrapping it one wrap at a time from the knob and sliding it out from under the tension book without disturbing anything in the room, leaving only ordinary classroom items behind. Next he threaded a thinner string through the 2cm door gap, looped it around the spine of the wedge book, and yanked it out into the hallway so the door swung fully closed under its own weight, now appearing completely normal from the outside — locked from the inside with no visible gap and no evidence of how it was done.

With the door sealed, Ken still had to close the window from outside a locked room. He exited the building through the stairwell, climbed the external maintenance ladder to 3B's third-floor window, and slid a metal ruler through the gap between the outer pane's edge and the frame. Pushing steadily, the ruler drove the pane along its track until it sat fully closed. The window was unlatched since the lever was on the inside, but the sensor only checked pane position, not latch status, so it read the room as sealed and reactivated all systems normally.

Ken climbed down, re-entered through a side entrance, and dropped his camera invisibility just forty-five seconds. Waiting back on the third floor for Dontai to sprint back up. He then use an unknown account to send the video to dontai of Kally being murdered at the gazebo. The purpose of this is to cause emotional distress to dontai because ken knows how overprotective dontai is of kally so ken use this to cause him distress. Ken then use his smart watch to watch dontai and gerald.

Meanwhile Dontai and gerald finish check all the classrooms

Gerald: “ wow not even a single person in site. No student or even teachers here. What is going on, i know that the cafeteria is important but goddamn man.

Dontai: “...”

Gerald: “Dontai what is the matter?”

Dontai: “...”

Gerald: “dontai speak up,”

Dontai: “.....”

Gerald: “..Dontai?”

Dontai: “..... My little sister Kally is…”

Gerald: “....Cute?. Cuz yeah she is cute alright”

Dontai: “....She….is…. Dead!!!!!!!!!!!!”

Dontai then hold up a video that someone send to his email, it is a video of his sister who is in 9th Grade, she is in the Gazebo, strapped to a chair and is being shot at by arrows after arrows, after arrows, after arrows after arrows screaming as each arrow pierced her body…until she was shot by the twelfth arrow before dying.

Gerald: “huh, this has to be fake right?. Right when it was lunch time you said that Kally will be at The Pool practising her Butterfly strokes at the Pool since she is the Swimming Vice Principal of the Swimming Club. So why is she at the Gazebo?”

Dontai: “...”

Dontai didn't even register Gerald's words. He just ran out the room, then down the stairs, then out the building in pure panic and worried for his sister, Gerald followed behind. As they reached very quickly, their eyes were shocked at seeing that Kally was not there. This confused dontai and Gerald, as dontai look back at the video.

Dontai: “ it is lunch time, yeah the sun is shining just like at the gazebo now. So the murder happened today and… right here but… she isn't there”

Gerald: “Perhaps the video is a fake?”

But before Dontai can even respond, Ken(as the unknown person) sent to dontai saying and it said. "3B. Come save your sister before she get mauled by me. I'm looking forward to it" {The purpose of this is to ensure that dontai go into 3B and considering how desperate dontai is, he

wont think for a second. Dontai cares for kally more than himself so he will swallow his fears just to try and save her. And ken knows this via observing him throughout the school year(7th and 10th grade). before Dontai came sprinting up the stairs. He tucked away his ruler and strings, shifted into his shy timid persona, and positioned himself in the hallway as if returning from checking other classrooms. The reason for this is to make sure he bump into him to create another alibi for himself. When Dontai reached the door and found it locked from the inside with no way to open it, the room itself told everyone exactly what Ken wanted them to believe — that whoever committed the massacre was still inside.}

Gerald: “huh?.”

Dontai looked in furiousness and worried as he rush inside the building without Gerald knowledge and climb up the stairs before he bumped into Ken.

Ken: “ouch, Dontai watch where you are going?.”

Dontai: “Ken?.”

Ken: “Also Dontai, i found–”

Dontai didn't let ken finish his sentence as he rushed to the stairs to reach the third floor. Once he reaches, he pauses to catch his breath since the stairs are very long since there are 30 Steps in the Stairs. As Dontai looked for 3B and found it, he immediately tried to open the door. But it won't open. So Dontai tries to punch it or kick it, but it won't open. As dontai continue try to make it open for about 2 minutes, Ken and gerald made it in time.

gerald : “there you are, you need to stop run away from us while we are talking you know”

Ken: “umm, yeah. It's not really nice”

Dontai remains silent as he continuously tries to open the door with Gerald and ken understanding what he is doing and is now starting to help.

Gerald *said in a worried tone*: “Damn, this strong ass door is locked on the inside huh. By the way Ken, where is my sexy?”

Ken: “Oh well she is inside there, I left her there when I was rushing to get you two but when I made it down I didn't see you two on the second floor. feeling nervous, i check all the classrooms but didnt see you so i think for a moment and walk down to the first floor then i bumped into dontai.

Gerald: “ohhh, but why did you left her alone?!. What if she is… oh god well she better be alive”

Ken: “well she was frozen in the spot when seeing helaine being.”

Gerald: “Helaine?. You find her, why didn't you tell us earlier!?. What happened to her ?”

Ken: “Well… its better for you two to see it for yourself. As soon as we can open this damn thing.”

As Dontai and the two boys try to push it open, Gerald stops and takes out a hairpin.

Gerald: “Ohhh, damn. I forgot i have my sexy girl Fiona Hair Pin from last night”

Dontai: “...”

Ken: “last night?. You know what, i dont wanna hear that Private Passionate Scene that the two of you had done.”

Gerald: “hmm well that sucks, cuz the scene is so lustful that an asexual guy can be curious about it.”

Gerald then uses the HairPin and slowly tries to lockpick the door, until… he finally did it. The door opened and the scene was horrid. Helaine was at the chair still in the same position that ken left there but beside her was Kally sitting in the chair with the twelfth arrows still lodged on her body, her eyes open as well and her body was covered in blood. Kneeling down on the floor is Fiona, unconscious but still alive. she had no injuries but she has a bow and arrow on her hand and her eyes are closed with some blood on her hand and skirt. The scene is horrifying.

Gerald: “what…What….WHat…….WHAT…THE….FUCK!!!!!!!. B-BLOOOD, BLOOOOOOOD!!! OH GOD—”

As Gerald collapses on the floor and vomits. Dontai look in shock at the scene where he goes to the chair where Helaine and Kally was, and he look at Kally and touch her bloody cut hand.

Dontai: “Kally….Kally…Kally…”

Dontai whispered while sobbing.

As ken look in Calm, there is no expression at all, he look completely blank at the scene, like as if he didn't care at all. As ken make his usual fake timid facade.

Ken: “oh no. their…dead.”

As they stay there for 20 seconds gerald vomiting and Dontai sobbing, ken look around the place and then he notice something in the wall in front of him, it was at the top. It was a small paint drawing of a stick person wearing a full black long leather coat over his black pants. And the face was nothing but a red mask with a creepy smile, and the man was holding a 2ft axe with bloody red and black stripes. There was also two smiley faces with eyes at the left side and the right side. That was the painting and the paint has a Letter at the top fo the drawing and it said: ‘Narak’. Dontai looked up a little and saw it in and soon Gerald saw it too.

Gerald:” “Is that… A Signature?”

Ken: “Narak”

Dontai: “...”

Later on Gerald rush and call the teachers and staff, who came and call principal Grant. and she call the Police. And from there school was over early today due to the murder of Helaine and Kally. The police couldn't figure out who killed them. They interviewed every student, teacher, staffs and even the vice principal and principal but it lead to nothing. The security cameras that sent all over the school, they also couldn't find a clue on who kill Helaine and kally. It was as if the person, Narak, was invisible. No clues. There are suspects but only suspects that are just based on intuition not logic or percentage. Everything was all planned by Narak and now this person is terrorizing the school. Some are wondering if this person is the same person who killed the teacher in the news. But those are just rumours….no one knows….no one except for Ken, the person who is Narak. And the person who had foreseen and planned it all.

This is the end of Narak’s First murder Strategy(or Planning).
