Yokoya vs popular scd chars (Ayanokouji Yuuichi LG & DN Duo)

have,

Yokoya low-mid diff Kimura

Ayanokouji >= Kimura

Yokoya mid diff(+) Ayanokouji

Akiyama very low-low diff Kimura

Akiyama low diff Ayanokouji

Akiyama very high diff Yokoya overall

reviewed & rescaled. shinichi_akiyama_vs_norihiko_yokoya

[——>] **Akiyama high diff Yokoya overall**

additional insights :

have both Kimura and Ayanokouji as mid mid tiers

would scale AK to high mid tier [at most] w/ high ball narrative interpretations

since don't valid, have Yuuichi > AK w/ FG interpretation, Y loses high diff w/o

using both and LY as benchmarks since well known

have LY v high diff(+) L and Yokoya mid-high diff LY

those4 v high to ext diff contraband only Yokoya

revised.

Yokoya v high diff(+) Yuuichi
Yokoya low diff(+) L
Yuuichi high diff L
Yuuichi v high diff(+) Ayanokouji
Yuuichi v high-ext diff LY
LY ext diff Ayanokouji

[——>] **contraband only Yokoya mid-high to ext diff(+) those4**
