The exploits of Hajime Hinata.

(This document is created to promote the character from Danganronpa 2 Goodbye Despair Hajime Hinata, so enjoy reading to you who read the document)

Hajime Hinata's feats: Fiq-He said in the game that he got excellent grades as a child, and passed exams with excellent marks, I can't give an exact IQ because it's hard for me to determine what scale of intelligence he is, but I think he has about 160 IQ or a little more up to 180

SQ-Hajime was able to establish and maintain relationships with all parts of Danganronpa and work with them together to achieve his goals from Danganronpa S

EQ-Hajime Hinata has a very high level of emotional intelligence, as he has qualities such as honesty, fairness and kindness, and also knows how to get along with other people

WMI-Remembers all the cases without any difficulties and was not mistaken in his memories, the Mikan/Nagito case proves this and says all the cases from the very beginning to the end without mistakes

VCI-He is good at debates, he refutes the words of students the first time even Komaeda/ Gundam/Fuyuhiko/Sonia/Peko and for this Komaeda praised him

VSI- In 3-4 and in chapter 5, Hajime during the trial presented remembered important details of the trial and evidence, I will explain in more detail during his trial, just scroll to the end, I explain in more detail there

PSI- Hinata during the collection and during the conversation in court always processes memory information, we have seen more than once that he has a good memory and remembered the structure of the fun house, and the medical room associated with the case with Mikan

1) During chapter 2, Hajime completed the game and remembered who the personalities were in the game and told the details in court, this proves that he processed this information and working memory
2) Imagined what the fun house looked like case 4 and describes detailed details
explaining to other participants
3) Remembered that the aquarium was broken and the vase was broken during the mini-game
4) Remembers the structure of the fun house

Analysis:
Hajime analyzes the progress of the trial thanks to the collection of evidence, people's behavior, and memory, he can tell undisclosed details and reasons the actions of the killer as well as the development of students with social relationships

Deduction - when given even the slightest hint about the evidence, he understands what topic to move on to and discusses it in more detail Interlocutor: He calmed people down and found quick

communication with other students to the primaker:

Fuyuhiko, Kazuichi, Nekomaru, Byakuya (impostor), Mahiru, Gundam, Sonia and other participants on the island. Hajime Hinata has outstanding intellect and analytical skills, which allows him to quickly find inconsistencies and catch the smallest details that can lead to the disclosure of crimes. Thanks to his memory and observation, he is able to notice even the most insignificant details that others may overlook. During trials, Hajime uses his skills to identify lies and inconsistencies in the testimonies of witnesses and suspects, as well as to collect evidence to prove the innocence of the accused. His ability to notice the smallest details and analyze information helps him successfully solve complex crimes and protect the innocent. Hajime Hinata became famous for his exploits on the island where the prisoners ended up. He showed himself to be an honest, fair and kind person who got along with everyone. Hinata was a smart and talented guy with excellent analytical skills. Thanks to his intelligence and observation, he was able to find a way out of many difficult situations and help other prisoners. Hinata also had good communication skills and was able to find a common language with different people. This allowed him to become a leader among other prisoners and unite them to achieve common goals.

Leadership: Thanks to communication with other participants of the island, he found a common language with everyone and it allowed him to become a leader of the group and unite efforts to achieve thei own goals

INTERNAL MEMORY DIVES: Executioner's Gambit: In general, you just need to find the right words for the case, an object or the name of the evidence, I don't see anything special in it

Logical dives: During the trial, Hinata thinks and asks himself how it really is and how it was originally, later he explains what happened, evidence or a specific place

Flashback of truth: Memorized the words of the participants to use other refutations of the participants' points by changing the word in the opposite order, you can say that he uses that statement of the participants and changes it in the opposite order, made it suitable and logical, he refutes the weak point of the participant.

For example, 2 trials of Mahiru Kaizumi's case:

When Chiaki said: "What if there wasn't a shower at all?..."

Fuyuhiko says: Well, you can't use the shower, right?

So cleaning it "would be impossible"

Hajime remembers and refutes Fuyuhiko and explains:

Hinata: If he only needed to wash off the blood, then he didn't need to use the shower. He could use something else.

Fuyuhiko: Something?... What, for example?

Hinata: The drinks from the refrigerator. Couldn't the killer just use them?

(After Hinata wins against Peko in sword fights, he says the following)

Hinata: No, there were bottles of water in the refrigerator.

Peko: H...how many times do I have to tell you? There was no water there and there couldn't be...

Hinata: But that was after the murder, right? There was water there before. And the killer "used it all to wash away the blood"

Peko: Are you saying that the water bottles disappeared... because they were all used? That's a logical fallacy!..

Hinata: That's not a fallacy... There should have been evidence left in the trash. Like a bunch of

discarded plastic water bottles... right. Chiaki?

Chiaki: Oh, you're right. Judging by the design of the bottles, they most likely contained water

Kazuichi: Oh, that's right. When I went to the beach house a few days ago, I think I drank from one of those

Sonia: Then it turns out... the water from the bottles was used as a substitute for a shower.

(Hajime's thoughts: So wait a minute... That means that after the killer washed away the blood, his body became wet... If that's how it was... then it turns out that the killer!..)

After that, he knocks out Peko Pekoyama, the killer.

So I explained to you what a Truth Flashback is and we learned that Hajime uses the appropriate words to match the evidence and uses it in a different order to refute the participants

Pain and emotion category:

1:During the anime, Hajime felt depressed and at the end, his face showed no emotion and he was not worried about what would happen to him, but in the last minutes he thought about Nanami, about her words until he became Izuru

2:Hajime was ready to give his body for the sake of the experiment and at the same time compressed time and thought about the words of Tengen, the founder of the academy himself: "Don't be afraid to be normal, there is nothing scary about ending up back in school"

Hajime did not like his worldview and yet it was not the best decision for him to agree to become an absolute hope

3:Experiments:Hajime was experimented on in the game, it was shown how they cold-bloodedly delve into his brain and perhaps not only his head, but I can't prove it, although in the anime there were moments from photographs of him sitting on a chair, and they made him a lab rat

4:In chapter 6, before they told him that he no longer exists and he lost his avatar or stopped showing emotions for a while During the discussions, he did not say anything, but only remained silent without making a sound and in his thoughts he thought that everything against him was unfair and that they were brazenly using him

5: After the death of Natsumi Kuzuryu and Sato, Hajime's classmates, he distanced himself from Chiaki, realizing that life with talent was valued higher than the life of people without talent. However, he encourages Chiaki to create new memories with others. Later, he comes to the conclusion that one of the reasons for participating in the "project" was the desire to impress Chiaki

6: In Chapter 4, when Hajime and the participants were very hungry and that he was suspected, Hajime, out of despair, almost entered the dead man's room, but Chiaki stopped him and convinced him that you will not find anything there except the harvest, after that they went back.

Panic:

During the accusation, Hajime argues with him calmly, but over time they become aggressive and he needs to explain that all the evidence points to him. In his last word, Hajime finds a contradiction in his words and explains how everything was.

Chapter 3:

I want to explain to you Chapter 3 and how it all came together.

Brief Motive: Akane Ibuki and Nagito were infected with "Despair Syndrome":

Nagito-Liar Syndrome.

Akane-Cowardice Syndrome.

Ibuki-Trust Syndrome.

Later, they were sent to the hospital for treatment and were isolated under surveillance until the evening. Hajime and Fuyuhiko and Mikan stayed to look after those infected with Despair Syndrome. After Hajime woke up, Fuyuhiko told them that they had been brought a surveillance camera and a monitor for video communication.

I will now present their dialogue:

Fuyuhiko: Kazuichi brought this when you were resting. This video communication system consists of a surveillance camera and a screen. Everything that the camera films is transmitted to the screen. Kazuichi took two of these systems and swapped their cameras.

Hajime: I see... By swapping the cameras, his screen will display what our camera is transmitting, and vice versa.

Fuyuhiko: It seems like he also modified them a bit, increasing the signal range. But even so, these systems have a limit, and there is no longer a connection from the motel to the hospital.

Hajime: So we can't establish a connection between the hospital and the motel.

Fuyuhiko: Didn't you notice? He contacted us from the club next to the motel. The signal from the hospital reaches there without a problem.

Hajime: But they were staying at the motel, right? What if we can't contact them when we need to?

Fuyuhiko: I thought the same thing... so we agreed to contact each other at a certain time. We decided to contact each other 30 minutes after Monokuma's morning and evening announcements. Next time will be tomorrow morning, don't forgive me.

After that Monokuma appears and says that they need to read the announcement and go home, he also allowed one to stay, this is Mikan, and threw the other two back home. After Monokuma's morning announcement, Hajime went to the medical center to look at Komaeda's condition, because he is in critical condition, after that they go to the waiting room to contact the others, after that they sat until the evening, then Fuyuhiko looked at Komaeda's condition, when he came in, he saw that Mikan was carefully monitoring his condition, Hajime said that it would be better for her to sleep on the 2nd floor, she thanked him for his concern and continued to look after Nagito, Hajime returned to Fuyuhiko and said that the conversation was not long, then they went home.

Hajime's Dream:Hajime dreams of his past where they say that Hajime is entering Hope's Peak, but we see that they don't believe that he has talent and his parents help him enter with money, but it's hard for them to provide

Hajime doesn't admit it and says in his thoughts: "I just stupidly look out the window, pretending not to hear, I don't want to hear it But even though I don't want to hear it, this •noise• still pours into my ears."

???: Don't you know?

???: Eh, I don't know what?

???: It seems that you don't have to be special to enter Hope's Peak Academy.

???: But it seems that only special people from all over the world are accepted as students?

Hajime: "I wanted to cover my ears, I wanted to run away, to a place where I deserve to be, but not here. To a place where I can be more confident.

??: Wow, I didn't know that was possible, does that mean he can too?

?: Obviously, since he doesn't have any special talents that would interest Hope's Peak Academy.

??: He?..

?: Just an ordinary guy, the kind you can find anywhere. Reading this Academy is nothing, but his parents probably have a hard time paying for him,

Hajime: ... Leave me alone, I just... I just want to become more confident in myself. What is this? Who are they talking about, Why can't I remember who I am?.

The next day, Hajime comes to Nagito to look at the current state and asked Mikan to lie down and rest on the 2nd floor because she was very tired, after she approached the Indicator, a picture turns on in front of us as someone begins to climb on a stepladder and in order to commit suicide, there were curtains from panic in it, he left the hospital and went to the club, as it turned out, then he discovered Ibuki's body, later Fuyuhiko Hajime and Fuyuhiko discovered Hiyoko's body with Ibuki and an investigation began, and the patients were cured of the syndrome.

1) After examining Ibuki, he says the following in his mind:

Hajime: "That's right, this time the Monokuma file didn't indicate the time of death, but I should know when Ibuki died because I personally saw it. In that video, Ibuki was climbing up the ladder herself, so right after that.

Wait, wait, if Ibuki was climbing up the ladder and died right after that, does that mean she committed suicide?

No, that's impossible, because even if Ibuki committed suicide, it doesn't explain Hiyoko's subsequent death, the door, two deaths happened at the same time, it can't be a coincidence"

Hajime learned that two deaths happened at the same time and the murder was done so that the second body occurred after Hinata left the club

He only had to find out what really happened in the club

2) After examining Hiyoko, she says the following: "According to the Monokuma file, the cause of death was a cut throat, the blood stopped coming out of her neck, it's probably because tape wrapped around her

But why does Hiyoko's kimono look like that?

Her kimono is disheveled and her sash is tied in the front. But when did the killer manage to kill Hiyoko? When I found Ibuki's body, Hiyoko's body wasn't there in that case, did the murder happen after I ran after the others? But I was only gone for 10 minutes.

Could it be that the killer killed Hiyoko and tied her to the pillar in such a short time? If so, whoever it was, they had very little time to do it. In that case, the killer must be someone who doesn't have an alibi for that period of time, right?"

He claims that the killer wouldn't have time to commit the murder in such a short time, but if he doesn't have an alibi.

3) discusses the lighting in the club: "Speaking of lighting, the video I saw of the club. It was dimly lit by a candle, and it didn't look like regular light was used at all.

But why wasn't regular light used? Was there a reason why it couldn't be used?"

He came to the conclusion that for some reason the killer couldn't use regular light so as not to reveal himself

4) discusses the air conditioner: "It looks like a strawberry air conditioner. It can definitely regulate the temperature in the club, it uses over 30 degrees Celsius as a heater! Now I understand why it's so damn hot in here"

Well, then in the 3rd trial

3 COURT

I will explain 3 court well let's begin:

Before the trial begins Hajime is asked to explain what he saw on the monitor, Hajime explains the short stay of people in the hospital also because of the rule they could not stay overnight except for Mikan.

In the hospital were: Mikan Fuyuhiko and Hajime Akane Nagito Ibuki were in the hospital.

Also in the motel were: Sonia Gundam Chiaki Kazuichi Hiyoko.

Mikan came to wake up Hajime so that they would go to the hospital and tell about Komaeda's condition, he sent Mikan to the doctor's office because she did not sleep all night and Hinata himself remained at the hospital reception. Later he noticed an incoming signal on the video communication system occurred earlier than the agreed time. After pressing the button to turn on the monitor, he saw that "someone dressed in a hospital gown with a bag on his head was climbing up a stepladder." In order to stop the suicide attempt, he ran out of the hospital and headed to the place where the video was being broadcast in the club.

By the time he arrived, he had a person with a bag on her head already hanging on a rope and it was Ibuki. Later, he called and went to call the others and only Chiaki came to the meeting. Also, the two of them met Mikan and Fuyuhiko. Later, they went to the club and wanted to open the "door, it was locked because of glue." They slipped in a fake piece of evidence like a drumstick. Later, they saw 2 corpses, Ibuki and Hiyoko. Later, the remaining people gathered.

THINGS HAPPENED NON-STOP DEBATE:

1) Nagito tried to pretend that Hinata was lying and not telling the whole truth in order to provide him with an alibi.

Hinata proves that he can't be an imitator, confirming his words

Nagito says the following: Each person could only get one ticket with a stamp indicating the date and time, am I not right Monokuma?

Monokuma: Yes, that's absolutely right

Nagito: This means that Hajime, who had never seen the movie before, couldn't commit the murders by repeating them like in the movie.

2) The reason for the door being closed in the club is revealed. Hajime refutes Fuyuhiko and says:

Hajime: Wait a second, there is a possibility that the door was locked from the outside
A translucent substance was found between the doors of the club, perhaps that was what was used.
This.. must be glue
This glue was used only in the place where the doors meet. If you apply it "between closed doors" the entrance can be easily blocked from the outside

Logical thinking/immersion there are 3 questions:
1) Why did Hiyoko's body suddenly appear at the crime scene?
Answer: It was hidden
2) What did the killer use to hide the body?
Answer: Wallpaper
3) How did the killer hide her body using wallpaper?
Answer: Wrapped the column with wallpaper

Later, at the end of the immersion, he explains:
Hajime: I get it... Hiyoko's body was hidden in the club until we found it. The body was already tied up, the killer just hid it by wrapping the column with wallpaper, by wrapping the wallpaper around the column, the criminal hid the body by creating a slightly wider column. This means that when I first discovered Ibuki's corpse, Hiyoko's body was already there. And since it was inside a wider column back then, I didn't understand it.
That's how Hiyoko's body was hidden, and then the killer simply removed the wallpaper as soon as I left the club.

3) Blood on the soles:

Hajime: As Sonia said, Ibuki stepped on "something" and that something was blood... There are small blood stains on the soles of her slippers. This means that Ibuki was still standing when Hiyoko was fatally wounded. And from this it follows that Ibuki was still alive at the time of Hiyoko's death!

1 Fight of refutations with Gundham she states that there was no blood on the floor, his words are refuted by evidence •blood on the floor• and tells the reason for the blood to Gundham:

Hajime: That's not true, there was no blood on the floor because the killer wiped it off. Look closely, there are streaks on the floor where the blood was wiped off. If the time of death was

not indicated in the file, then this was really done to hide the evidence from us.

4: Talks about Mikan's testimony, as they discussed each of the participants' alibis and tell theirs and Mikan's:

Hajime: Wait, not all of us have an alibi. Actually, Mikan and I have an alibi, before I saw the video, Mikan and I were together for a while. She just came to me to tell me that Nagito's condition had improved.

5) Hajime explains why Hiyoko went to the club:

Hajime: It's like Sonia said, she went to the club of her own free will, Hiyoko locked the door of the room before leaving. Then he wouldn't have hidden the key so deep in her kimono. He would have put it in a more visible place. Otherwise, there would be no point in confusing the crime scene if no one found the key. You remember, Akane, that you took the key out of her kimono, remember? Then something like this...

2-Fight of refutations with Akane in her last statement saying that Hiyoko "Fought the killer." Hajime refutes her words with Sonia's testimony:

Hajime: Hiyoko's kimono was disheveled because she couldn't put it on properly, so she decided to go out on her own. She went to the club to put on her kimono properly.

2-Executioner's Gambit, this time the answer is Filming Location. Hinata guesses that the filming location was not in the club, that they made it look like the video was being broadcast in the club:

Hajime: That's right... besides the stepladder, "the location and filming location are also different." I'm talking about the fact that the video was not filmed in the club, it was "filmed in another place."

2-Logical Thinking/Immersion:

3 questions pop up in his head

1) What did the killer change in the video communication system?

Answer: The camera.

2) Which camera did the killer change?

Answer: In the club.

3) What did the killer do with the camera from the club?

Answer: He took it with him

After finishing thinking, he explains:

Hajime: That's what... the killer just took the camera that was in the club. To make me think that the live broadcast was coming from the club, when in fact it was coming from somewhere else. However, when Hiyoko's body appeared, the killer put the camera back in place and in order to hide the fact that the murder camera was missing, he "did something else" with the screen. The

killer simply smashed the screen into pieces, destroying it. Because it was shattered into pieces, it was hard to tell if there was a camera in those pieces. My attention was focused on the body, so even I couldn't notice it. And he destroyed it in the same way, mixing it with the pieces on the floor.

What did he come to? He came to the conclusion that the filming was in a different location since it was broadcast to the hospital and the signal coverage was limited enough in that case, he only needed to know in which club-like structure the video was filmed. Hajime's only possibility is *that* place inside *that* building.

3-The Executioner's Gambit The answer is: Conference room:

Hajime: Most likely, the video was filmed in the conference room of the hospital. That's why the killer did something to make the two places look like each other.

6)The curtains of the club and the candle:

Hajime: The killer made the club-crime scene look like a conference room. He used black curtains, hanging them on the stage background.

About the candle: You're talking about the candle that was in the club, right? In the video I saw, the candle was used for lighting. But if you think about it, it's pretty weird. The club has excellent lighting and there is no reason to use candles. Most likely, the candle was moved to make me think it was the same candle as in the video. Since everything fits together, then we can consider this issue resolved. The video I watched was not filmed in the club, it was filmed from a hospital conference room!.

Ibuki in the conference room:

Hajime: The person with the bag on her head in the video was not Ibuki, it was the killer who pretended to be Ibuki. The killer put on a hospital gown, a lint bag on his head, and only pretended to be the victim.

The reason why the killer faked the video, I can only think of one possibility. And if you look at it carefully, the identity of the killer will be revealed by itself.

After that, he chooses Mikan as the killer, because she is the only one who could have filmed the video from the hospital conference room, because she went to the second floor to rest because of Hajime's concern. After she said that she would go to the doctor's office, she went to the conference room, put on a hospital gown with a bag on her head, and appeared on the monitor.

7) The Rope and the Killer's Lie:

Hajime: So that's what happened, we've been falling for the killer's lie all along. You said that Ibuki hanged herself, but that was a lie, wasn't it, Mikan? You gave the wrong cause of death. You lied, weren't you!

Let me explain: Mikan strangled Ibuki and lied that there were no signs of strangulation during the investigation. The one who noticed the difference was Nagito.

8) The Killer's Mistake:

Let me explain - during the negotiations, Mikan said the following: "Could you see that body under the hospital gown? In that video? From that angle?"

Mikan made a mistake in that she used the words "camera angle"

Hinata didn't mention it while telling the evidence, and he noticed her mistake and immediately refuted her words with a "killer's mistake" bullet:

Hajime: Mikan, you made a huge mistake. I'll repeat myself again, only I watched that video, but I didn't mention the camera angle anywhere. So how can you talk about the camera angle as if you saw it yourself?.

Verbal commotion: It is necessary to prove that there were 2 linen bags. Mikan says "that there was one bag and it couldn't have been there at the same time."

Hajime refutes and contradicts her words about the "Cinema Bonus."

Hajime: Monokuma said this earlier "Buy one bag and get the second one for free. Customers are often attracted by such bonus prizes." The one who bought this bag got the second one as a bonus prize. This means that it was possible to use the bags in two different places. Therefore, please stop your desperate attempts to justify yourself.

After this, he tells the murder from beginning to end. You don't need this because I'm just explaining what is already written at the top so I'll just move on to chapter 4 and the trial this time, chapters 4-5 will explain briefly because it will take forever.

Chapter 4

The motive of Chapter 4 is that they are locked in a fun house without food, so that they would be more hungry Monokuma invited them to Tai Chi. Hajime is suspected of being a traitor because he does not remember talent in the future, it was revealed that he did not have talent and Komaeda began to despise him for this in that he is not absolute. Komaeda went through the dead man's room by betting 5/6 bullets on Russian roulette for this he received the Hope's Peak Academy file and the file on the students of the first part

The victim will be: Nekomaru Nidai

The killer: Gundam Tanaka

Cause of death: Falling heights and colliding with a column.

The killer's plan houses of fun, was to lure the victim nearby, then turn it off with the "good night" button, drag him next to the elevator, tie Nidai's leg, attach the door, and then leave in the elevator.

What Hajime learned from the trials:

1) The construction of the fun house

2) Thanks to this construction, Nekomaru was murdered because he fell from a height and crashed into a column

3) He learned the identity of the killer thanks to the luxury hotel because it was impossible to hear the sound of the clock in luxury hotels

4) Found out the time of Nekomaru's death

5) I found out that in the photo that Nagito shows that the viewing angle of the dead man's room is higher, in addition, Komaeda came down from the top

3rd floor to Hajime and Chiaki after inspecting the room

I will add his explanation about the fun house:

Hajime: In the photos that Nagito took from the Strawberry House, I do not see the Grape House. So where did the Grape House go? There is only one option, it cannot be seen from the Strawberry House from this position. This means that the Strawberry and Grape House are in the same building, but on different floors.

Because of this, the photo taken on the 1st floor was at a high angle. In general, this means that the 1st floor of Strawberry Break is also the 4th floor of Grape House.

Hajime proved that

The Fun House is a 6 and 4 story building.

6)Hajime learned that the octagon is a secret room surrounded by concrete inside the dead man's room.
