The West Virginia Grim Reaper

“Nettspend has been born and raised from the hood of virginia, he has over 100+ dead bodies piling up at the very moment and those that dissed him die at his hands. He also attempted to kill Malek on video but he spared him using 1% of his power. There was also a part of where he is using his music to show a bit of his power and to take over the world as a distraction so we can be less aware of what he does. But now we should be aware of the virginia grim reaper aka Netspend because I fear what he is going to do next.”
