Yuuichi Katagiri's feats

2.PSI -Yuuichi has been shown to be a faster thinking and always easy to catch up pretty fast which makes it one of his strong points, example : In chapter 115 Yuuichi was able to catch on fast on what the boss of the Tomodachi game actually wants, The boss of the Tomodachi game won't be satisfied with the original ending of the Tomodachi game which was to originally win by gaining and points influence but later on the rules Changed, you had to Answer 4 questions, and Yuuichi was able to figure out who the Boss of the TG in a really Short period of Time.

PSI- when Shinji (his brother) suggested to him a game yuuichi already predicted and calculated the final outcome of the game easily and his smile can be proof of that. Just try to calculate how this feat is really great. U can reread the game and understand it by urself. BTW the main reason yuuichi was agreed to shinji's game was the confidence about the outcome. He already knew that sawaragi will be deceived and he prepared a back up plan with key baitin zombie to save them. It can be seen by the fact that yuuichi worn his food when the shinji's game was started cuz by that he knew that zombie is not gonna touch him and eliminate PSI/FRI/EU/Foresight/Intuition

Yuuichi in the final game found the only pieces that he needed for the puzzle of the game. After the final task appeared the questions were

『 Who is the traitor of grouop C?』

『 What is the sin that Yuuichi Katagiri committed in the past?』
『 Who is the boss of the Tomodachi game?』.

After the questions appeared Yuuichi understood the boss of the TG and his intuition already gave him a clue. The boss of the Tomodachi game does not want a incomplete ending but rather a complete one. So this Conclusion leads Yuuichi Katagiri to understand that the boss is someone that hates Yuuichi with his whole heart Someone who survived Yuuichi's crime. Someone who knows him the best outside and inside. Its Shiba Tenzai.

The PSI Part is formulation speed. The FRI part is Adaptillity+Logical reasoning+Problem solving The EU part is understanding Shiba's emotion instantly after the questions. The intuition part is almost everything.

FRI-In the first arc of the Tomodachi game(game 1) Yuuichi was able to catch on really fast with the rules of the game, Tenji was choosing the wrong options on purpose so that his debt would go onto Kokorogi, However with Yuuichi's high adaptability he was able to catch on fast while realizing what's happening and also thinking of a strategy and planning it, His

strategy was to point out the traitor and start bluffing around, He was able to read the rules fast and also creating a strategy that wouldn't higher his debt(In The game you couldn't talk.)

FRI+VSI-Yuuichi is always Quick on making strategies even at the start of the games, example:In the zombie arc Yuuichi in The start of the game already thought of a strategy, Yuuichi's strategy was to shoot so a zombie would have checked and Yuuichi would disguise himself as a zombie and so Yuuichi was free to move around doing whatever he wanted long with that he teamed up with Tenji, or in The prison arc when he teamed up with Kei and also thinking of creating a fake wooden key from the tools he borrowed from TG.

FRI-Yuuichi is always Quick to catch up and has a very good adaptability skill and was shown in The previous PSI feats I have mentioned so far.

FRI-Yuuichi's sharp reasoning was to deduce the boss of the Tomodachi game and that was in chapter 115, Yuuichi knew that the TG boss hated their relationship

and wanted to break it, he knew Yuuichi from the outside and inside, and isn't a Woman *SPOILERS ALERT* Yuuichi with those thoughts in mind he deduced that The TG boss is SHIBA Tenzei.

VSI-Yuuichi in The prison arc asked the TG admins for a wooden plate, Yuuichi analyzed what he could possibly do with it and came up with a conclusion that he would make a fake wooden key so that his opponent thinks he can Escape even though Yuuichi had the original key with him due to him and Kei being the were wolfe.

VSI - Knowing that Yuuichi retrieved the original key on the first day provides more context but doesn't necessarily detract from his VSI skills. Having the original key from day one means he had a reference, but let's not forget that the replica key was good enough to pass casual inspection and was only distinguishable upon close examination. This implies that the level of resemblance was high, even if not exact, pointing to a substantial level of skill in visual and spatial understanding. Having access to the original key doesn't automatically make the task of creating a replica simple. If we assume yuuichi had

the original key as a reference, his decision to omit the sharp edges and intricate details could have been a calculated one. Maybe he deemed these features non essential for the key to fulfill its immediate function, or perhaps he had other strategic reasons. Making such an assessment, determining which elements are critical for the replica to pass a quick scrutiny but not a detailed one, itself requires a nuanced understanding of spatial relationships and details. So even with this new information, the case for Yuuichi's strong VSI skills remains largely intact. Access to the original key might make the task somewhat easier, but the successful execution of a convincing replica still demands a considerable degree of visual and spatial ability.

PSI+WMI『 When the first game started Yuuichi was a bit confused because of the "mistakes" that his friends were making. The questions were pretty easy but it was strange. They were choosing the wrong options on purpose. Yuuichi adapted to the game pretty fast and found out the reason why they are doing it and it's pretty simple. They are trying to lower their debt and put more from their debt onto Kokorogi and Yuuichi already found a way to speak without

getting his debt cut in half while thinking of a strategy attack under in 10 seconds.』

VSI-『 Yuuichi in the final game where he lost his gun just to figure out that his older brother took it. Yuuichi was asked a lot of questions by his older brother to know what happened when his father got killed by Yuuichi, Yuuichi then said that his Shiba said that he loves Yuuichi's older brother a lot and that he was sorry for acting how he was. of course it was a lie by Yuuichi. He found out that Yuuichi was lying and Yuuichi analyzed his revolver to find a way to break the gun and right when he almost shot Yuuichi. Yuuichi blocked it with his right arm breaking the revolver and lying to his older brother.』

VSI+FRI『 Yuuich in the second game he figured out that there was a traitor in the group. He instantly thought of it because no ne would be smart enough to pull it out but Tenji Mikasa. Yuuichi after the rules were given and said he visualised the papers and used them as a way to communicate with Sawargi Shiho for the strategy that they were making with everyove to prove that Tenji was the imposter. Yuuichi

will get mad at Sawaragi and slap her Sawaragi will get mad and "leave" Yuuichi to go to Tenji while Shibe and Kokorogi stayed with Yuuichi. Yuuichi made Tenji think that he has the power above Yuuichi even though he was playing right into his hands. Yuuichi after he entered the room to write on the papers he took 2 without making the admins notice it. Took 1 to write in the game and the other one was to contact Sawaragi and the others. After that Yuuichi then Caught Tenji lacking saying that he should have no problem going in first and Yuuichi did say that there is an imposter and explained basically Tenji. After that Tenji realized he screwed up and apologized to Yuuichi.』

VCI-『 Yuuichi ever since he was a kid he was deceining people and acting like a normal kid. He got people into joining Tomodachi game and having high debts so high that some people even killed themselfs. Yuuichi always found his way to convince people to join the Tomodachi game due to his psychology knowledge. 』

PLANNING+STRATEGY part:

Yuuichi Katagiri and Kei Shinomiya came up with a strategy to act as if they couldn't work together and hate themself but they were the Were Wolfe, Kei And Yuuichi were doing the puzzles long with the rest ,Yuuichi was using acting skills so no one bothers to question him, Kei was gaining influence, Yuuichi then when the group started to split up they decided to still be in the same team act as if they hate each other. then Yuuichi Made the fake key and hid it so the traitor finds the key and win, But that is a fake key Yuuichi's last move was to manipulate Shibe into telling them secretly what was happening Yuuichi send Kei and the others one by one so that they think Yuuichi has no Chance, after that Yuuichi manipulated the only girl on the team to lie to the traitor into him them think she is pregnant, Yuuichi understood his emotions and took advantage of that and when the traitor wanted to escape Yuuichi already escaped with Kei Shinomyia

STRATEGY - Yuuichi in The zombie arc teamed up with the "Mafia boss" who is actually a detective trying to figure out who the TG BOSS is, Yuuichi shot with the guns that were given at the start of the game and he shot him when he was injured but he shot somewhere else and that was to drag a zombie's attention so he could steal his outfit and disguise himself as a zombie and so no one would figure out that he isn't a zombie. (STS)

PLANNING -• Yuuchi started his plan winning the trust of kaidou right at the beginning of the game. • So he tricked kokorogi by pretending to be by his side, to purposely take a sawaragi attack and pretend to pass out. • And then when sawaragi approaches the cliff Yuuichi purposely throws himself off it, to be caught by the kaidou group. • At that moment, everyone thought that Yuuchi had been caught, when in fact he was preparing the zombie outfit to disguise himself and turn against Kokorogi, showing that he was just deceiving she. Yuuichi's prison arc strategy was way

more complex because he had to make fake keys for everyone even though be was connected with the other team 24/7 and he barely had time to makes the keys but Yuuichi and Kei Shinomyia teamed up and made the two parts fall apart after that Yuuichi told everyone on his side to go the other side and sign a paper and it could, After that Yuuichi was all alone but he did tell Kei to just not betray him, after that Yuuichi had a small Connection with Shibe and Yuuichi used the little info he got and joined the other side too even though it was a trap already from true start and Yuuichi right at the start of the game found the secret way to become the were wolfe, Yuuichi used everyone for his own same to win the game even though he wanted everyone to win but he set traps everywhere in the game so he tests every single player without then even noticing『 Yuuichi before going to talk to Maria he made a contract with the mafia gangsters when they were guarding the people sold, Yuuichi persuaded them to sign a contract that makes him buy anything without having any points, basically moving freely. And it also makes him win because of the special method, then Yuuichi right before the semi final stage of the all gamble game went to Maria and keeping in mind he could buy anything from her or make her do anything with just some points/Money, Yuuichi then told her after he "loses" to announce the

game ended when it didn't, and Yuuichi made everyone think that he lost even though he applied the special method, the special method makes you win in both sides incase you lose.『

『 The trap worked because of the gangsters plus Maria was supposed to say when the game ends so Yuuichi took that to his advantage and indirectly manipulated them to think the game was over and made his special method work 』

『 Yuuichi in the prison arc set up a trap for everyone. At the start of the game when the rules were explained Yuuichi and Kei adapted pretty quickly and already became the were wolfe. Now Yuuichi and Kei worked together even though they hate each other and they made themselfs look like that so this was an unpredictable act. Yuuichi after asking Manabu for the wood and tools he decided to create fake keys for everyone testing them and judging them by their own decisions this involves cold reading and etc. Now Yuuichi understood Kuroki's emotions and understood what he will do. Yuuichi made a fakey key especially for him to prove to everyone that he isn't

worth saving because at first Yuuichi wanted to save everyone but they weren't willing to work together so Yuuichi decided to do prove that Kuroki is a scum bag and of course Yuuichi knows about humans hearts and the only way to convince someone is by showing proof. And Yuuichi did just that. Yuuichi anticipated every single thing in the game even after the whole team teared apart after that blondie decided to make a 2 team to work together. Now Yuuichi told the rest to go join the blondie's side and make Yuuichi look worthless and with no hope but little does everyone know that this game was already set up by Yuuichi right from the start and Yuuichi has been secretly testing everyone.』(Overall Adaptability, Overall Strategy)

『 Yuuichi at the start of the game he "teamed" up with a girl that looked friendly but Yuuichi already analyzed her and he knew he couldn't trust her. Now after Yuuichi throw her to the zombies he met Satone's father and he teamed up with him. Yuuichi and him were walking and talking until night time and they had to sleep Yuuichi scared him saying "can you really trust a kid like me?". Yuuichi in the morning he anticipated that if he shot next to him the zombies would come out. When Satone's father was down Yuuichi had the "killing" intention and you could tell

from his face. Yuuichi shot next to him but not he didn't shoot him. Just as Yuuichi anticipated the zombies came Yuuichi shot the zombie(Yuuichi was hiding and letting Satone's father as a trap) He took out the zombie took out his special zombie clothes and he disguised himself as a zombie. Now that Yuuichi was a "zombie" he then got all of the zombies to go against Kokorogi at any time. Yuuichi anticipated what Kokorogi would do. Kokorogi would deceive everyone in the friend group and throw Kei out Tenji goes to save them Tenji goes to Yuuichi and gives Yuuichi the information he needed and therefore Yuuichi already understood her emotions and anticipated the ultimate outcome. Yuuichi wouldn't be able to win the game due to the zombies being influenced by Kokorogi even if Yuuichi was disguised as a zombie he could have still lost. Yuuichi then when he met Kokorogi she was alone because the buffed guy was down since Yuuichi shot him and tricked everyone that Yuuichi died when he was with Sawargi Shiho. Yuuichi fell and everyone thought Yuuichi died due to the fall damage. Yuuichi then explained to Kokorgi why he couldn't trust her from the start. Yuuichi anticipated everything from the start but the plan failed due to his luck being weak. Luck wasn't on Yuuichi's slide but rather on Kokorogi's side and she won due to having more influence and

Yuuichi's brother outsmarting Sawargi Shiho.』
