Izuru Kamukura Danganronpa 2.5 Feats In detail

Color- Decoding for statistics and clear understanding in the document file
Purple- Me explaining and clarifying something
Blue- Meaning of the categories mentioned
Light Orange- Going into scans and explanations
Red- Pasted Scans
Pink- Categories
Normal Text - Afterword

Covering up first of all in the anime I'll explain the very first thing that had happened in the neo world program and who set it up. The very person who set up the neo world program was Izuru Kamukura who encoded himself into an AI to monitor and destroy the world to revive the said 'students' that said students are the remnants of despairs who died or not this one specifically is Nagito's perspective of the said world in this world his luck is only at the bad luck a world where he's not onto hope, and to luck.
Verbal Comprehension Index, Hacking, Analytical Thinking, Deductions, Planning Aim, Strategy Aim, Knowledge, Social Engineering
I'll explain each category and why they were given verbal comprehension first. Izuru had to comprehend the installment of his own AI and code the said AI. This can be said to the hacking category as well and same as analytical thinking, social engineering as for deductions we can go over that in depth.

1. Izuru deduced that applying an AI of his own would make the process much faster in the neo world program to save the remnants of despair.
2. Izuru also deduced from the application and the neo world program that it would be a great success to revive the 'students' that had died.

These 1-2 reasoning can be applied to his aim of the plan and strategy this two things gets talked about in here in depth page 14, Scans
The knowledge of the AI applied onto the neo world program and his knowledge of applying the AI shows an amount of knowledge feats.
Izuru has many ways to deduce for a said plan to save the remnants of despairs he can perfectly deduce these 1-2 reasoning that would be given
While this is out of the way, I'll give the scans for the link of the anime if you haven't watched it kindly do as it's heavily on this and said context, Scans I'll be giving each timestamps where he did showcase his feats now then we should get started, At 8:26 to 8:55 and at 8:59 we get to see Izuru having the insane huge foresight therefore seeing what was Nagito's bad luck in hence knowing everything that will happen in the world as explained above but I'll explain further, at exactly at 9:05 Izuru was leaning and directly staring at the location where Nagito was. This also proves that the Izuru AI that Izuru coded is omniscient in the Neo World Program as he knows everything and location of the students inside the said Neo World Program.

Foresight, Knowledge, Observation, Seeing Through People, Analytical Thinking, Analysis, Data Analysis, Insight, Reasoning, Emotional Management, Emotional Understanding
At exactly 9:07 Izuru deduces that this is how far he can go and deep in the neo world program that he was in 'It would seem this is as far as deep as I can go' Deductions, Tactical Analysis, Observation, Insight, Data Analysis, Reasoning, Emotional Management, Emotional Understanding
And within at 9:11 he further deduces that this is the lowest stratum that Nagito was thinking inside the neo world program as he is programmed to be that 'So this world, then, is the lowest stratum?'
Observation, Data Analysis, Knowledge, Insight, Reasoning, Deductions
At 9:18 he further deduces and decides that 'there is no saving this, I have no choice but to destroy it' due to the AI's outside knowledge which he was programmed to as explained above. Decision Making, Knowledge, Insight, Reasoning, Deductions, Observation, Data Analysis
9:22 Izuru knew the AI was trying to stop him due to his interference within the program, without even looking he knew that there was something behind him and further states 'how dull' showing zero interest into the matter. Self Awareness, Social Awareness, Awareness, Physical Stats
At 9:28 stops at 9:40 Izuru immediately knew where to aim and not. Faster Thinking. Quick Thinking, Analytical Thinking, Decision Making, Observation, Analysis, Physical Stats
9:46 Izuru states after a couple more had spawned in to try and kill him, it's rather boring as he can easily predict, anticipate their actions with ease. Prediction, Anticipation, Observation, Data Analysis, Decision Making
10:12 Izuru killed one of the remnants of despairs known as Souda and we further have confirmation at this time stamp, 10:35 Cunningness, Composure, Decision Making, Emotional Management, Emotional Understanding, Emotional Engagement
At 12:49 Izuru was seen waiting for the 'students' and he informed them that he was there he planned and set a trap for the students in order to kill them easily and we further get confirmation as he states 'right on schedule' by this

he was intimidating the students and he fully had manipulated their actions by that sequence of information alone not knowing all of them would die. He also must have deduced that it would be quicker this way due to the outside knowledge of the AI of the 'student's that he was trying to kill off he knew their perspective personalities what there reactions would be and would easily predict within each actions they would partake, Planning Aim, Long-Term Planning, Setting Traps, Information Manipulation, Setting Advantages, Deductions, Decision Making, Knowledge, Information Withholding, Information Gathering, Indirect Manipulation, Planning Execution, Prediction, Anticipation, Intimidation, Mass Manipulation
I'll explain in depth now, Izuru aims to kill off the students and destroy the world that they were in, he set up a plan and executed it flawlessly the plan stages from 1 day when Souda when the students decided to find and kill the person who killed the said student Izuru further knows this and predicts and anticipates that they were willing to do it he then informed that he was waiting in the specific building where they had found Izuru he laid out a trap for the students that would come forward, indirectly manipulating their actions and succeeding with the goal in mind as seen in the time stamps given.
13:02 Izuru jumps in the building and as in this time stamp was therefore not harmed 13:06 Izuru must have known that he wouldn't get hurt due to the insane adjustments to his character in the program he was in and was set in to be, Physical Stats, Knowledge
13:12 Fuyuhiko asks Izuru was his goal was and Izuru answers that he's here to destroy the world, Decision Making, Threats, Emotional Management, Emotional Understanding, Emotional Engagement
At 13:23 we get confirmation on the explanation above that Izuru murdered Souda as he affirms and states, Cunningness, Composure, Decision Making
13:29 to 13:40 Izuru further affirms his goals to the students showing little to no care, Decision Making, Self Awareness, Planning Aim, Composure, Cunningness, Emotional Management, Emotional Manipulation

At 13:50 Izuru was shot by the bazooka however in the next minute he's not damaged or any sort and 'presumably' had killed them, Cunningness, Composure, Decision Making
13:57 Nagito gets a call from Peko warning him that Izuru was after him Peko is seen as hurt as well in the call, Izuru must have laid another trap for Nagito specifically by explaining what he was after he perfectly had Nagito in his hand his actions that he'll make is fully manipulated by Izuru Nagito in his own decision would decide to kill Izuru which Izuru already did predict and anticipate and by Peko's statements alone at 14:27 she knows how dangerous Izuru is and how much a threat he was and Nagito wouldn't stand a single chance against him 'You wouldn't stand a chance against him' Izuru deduced that if he had let her stay for a bit and this information would have gotten to Komaeda his overall goals, plans for the students would succeed in one go. Threats, Indirect Manipulation, Direct Manipulation, Prediction, Anticipation, Decision Making, Cunningness. Deductions
14:59 Izuru was seen coming after for Peko after giving her time informing Nagito what was he up to and as exactly as he predicted there's no use for someone like her as Izuru decides that he'll kill her off just like the other students stops at 15:19, Physical Stats, Prediction, Planning Aim, Indirect Manipulation, Decision Making, Cunningness
15:21 Izuru observes the phone being in the call still and further deduces that Nagito was listening in as planned, and further tries to affirm the idea by gaslighting Nagito 'Am I speaking to Nagito?' Knowing full well that he is, Nagito then asks who Izuru is he further affirms that he's here to destroy the world, Nagito was seen having flashbacks, Izuru further gaslights Nagito and threatens Nagito and had completely manipulated, persuaded him to act on his own at exactly at 15:39, Indirect Manipulation, Gaslighting, Threats, Persuasion, Cunningness, Decision Making, Planning, Planning Aim
16:05 Izuru had sent an email for Nagito a location he was in and Izuru waiting directly and blatantly manipulating Nagito, Indirect Manipulation, Decision Making, Cunningness, Strategy, Planning Aim, Tactics
16:24 Nagito was seen moving across for Izuru as planned by Izuru and predicted that he'll be going as explained above, however at 16:35 Izuru

compliments Nagito that he did not quote and quote ‘did not anticipate you would show up so soon’ however he later admits that he’ll have to kill of ten of his friends, intimidating Nagito further and threatening him, Nagito was rather pissed off on what Izuru had said without no remorse on what he has done so far Nagito then states that, neither Kuzuryuu, Peko, Sonia were not a hindrance for Nagito as he enjoyed spending time with them Nagito then assumes that the person speaking right now with him posses an insane of talent to murder them easily without once trying and he further comments that he despise talent which he was program too he then states that Izuru has to go and he would murder Izuru as planned and predicted by Izuru.
Context if you don’t want to watch the site and instead go with the topic itself that we’re currently discussing to get the full context Scans, At 17:13 Izuru then asks how Nagito was going to carry this out exactly? ‘And how do you plan to get rid of me with no talent of your own?’ Nagito answers and comments he wouldn't deny the fact that he's just a regular guy with the unlucky streak, mainly naming the program, and he doesn't belong to the spotlight he throws a ball which goes back to him and he states at 17:37 that he can’t see himself lose to Izuru and Izuru comments that what he’s feeling right now is ‘hope’ smiling at Nagito then asks 'Hope..?' and further states Nagito planned to kill off Izuru by destroying the building and states 'I couldn't possibly defeat you' and kills himself with Izuru not knowing that it wouldn't do anything towards Izuru as seen in the next explanation below.
Emotional Understanding, Emotional Perception, Emotional Management, Emotional Engagement, Planning Aim, Long-Term Planning, Prediction, Gaslighting, Threats, Tactics, Intimidation, Cunningness, Decision Making, Setting Traps
18:56 Izuru was alive and Nagito was back in his old clothes and Izuru states that the plan was complete at 19:17, Emotional Management, Emotional Understanding, Emotional Engagement
At 19:24 Nagito observes that he's free in that said 'illusion' and asks Izuru if they are inside the neo world program and Izuru affirms and Nagito further questions Nagito that is he Kamukura Izuru? And he affirms that he is but an AI of Izuru Kamukura and he was programmed to be so, he further notes a lot

of things such as his psychological trauma that he suffered and he was there to fix it seen in this time stamp, 19:57. Knowledge, Psychological Analysis, Data Analysis Psychology, Fluid Reasoning, Reasoning, Analytical Thinking, Deductions, Emotional Management, Emotional Understanding, Emotional Engagement

Within these scenes of the time stamps given 20:01 ends in 21:19, they just talked and similar categories mentioned above are in the scene where Izuru just remarks and comments on Nagito's further questioning.

Now to explain and summarize everything, everything that had happened in the neo world program was basically planned by Izuru if that isn't obvious enough as explained before this entire plan and strategy was well explained in the scan given above I'll further just give the scan yet again just in case you missed this at page 14, Scans
