Klein Moretti Chapter 75 Strategy Analysis

Contextual Adversity

Klein was being turned into a puppet by Sealed Artifact 2-049 and due to this,Klein's cognition was decreasing rapidly by the second,and as Captain Dunn and the other Nighthawks were either unconscious or were still recovering due to the fight with the Suited Clown and Monster Bieber.Klein needed to somehow cancel out the effects of Sealed Artifact 2-049.Even with his cognition being forcefully lowered,Klein thought of a strategy within 3 Seconds

Execution

Klein was going to use the Luck Enhancement Ritual and try to go in the gray fog,as going there would make him recover from the effects of 2-049. In the brink of time Klein finally pulled off the ritual and got transported to the gray fog but Klein can't stay in the fog the entire time as when the Captain and the Nighthawks come over,he won't be able to explain the situation of how his body was able to survive the effects of 2-049. So,Klein used his Divination powers and used Spirit Pendulum Divination to ask if it is safe for him to go back,the Spirit Pendulum replied with an affirmative answer implying that returning to the actual world will be safe,So Klein returned to the actual world but when coming back,he heard a voice belonging to the Suited Clown whispering to him that he would free him from 2-049's effects if he gave up the Antigonus Family Notebook.

The Suited Clown doesn't know that Klein isn't actually affected by 2-049's effects as of now and Klein knew of this.Captain and the Nighthawks still weren't in good shape,so Klein reconstructed the Suited Clown's thought process in hope of better understanding the situation so that Klein could gain an edge in battle.The Clown revealed that he was also Seer just like Klein,so The Clown most likely divined how the fight with Monster Bieber would go for the Nighthawks. He also probably didn't take the notebook himself or deal with the Nighthawks himself since he most likely divined it and it gave him an answer and implied that it was an immense risk. He also suspects that the Nighthawks may be faking their unconsciousness and therefore goes for Klein since he is the weakest in fighting among the group of Nighthawks. He also didn't make any further divinations since he probably didn't have time since the unconscious Nighthawks may wake up at any moment. He also underestimates Klein and thinks that any divinations specifically for Klein would be a waste of time. He is also using Klein as a shield for any traps.This also means that the Luck Enhancement Ritual that he had done to escape 2-049's effects didn't have any abnormal or suspicious effects on Klein's body.

Klein nodded, making the Clown think that he surrendered and he was willing to give up the Antigonus Family Notebook so that Klein could escape from 2-049's effects. So The Clown made a hard pole from paper and was going to push Klein so that he could get out of 2-049's effect.Just as the pole was about to touch his shoulder,Klein grabbed the pole and yanked it backwards pulling The Clown with the pole and used his revolver to shoot at the Clown but Klein shot twice not at the Suited Clown but shot behind him.Klein knew that The Clown could dodge the bullet due to his Beyonder powers so instead of actually trying to shoot the Clown,Klein shot behind him so that The Clown would dodge instinctively and Klein forced The Clown to dodge the side opposite to where he shot but in that side,The Suited Clown would be in 2-049's area of effect meaning that the Clown would now be turning into a puppet by 2-049.Even if 2-049 hadn't successfully controlled the Clown,he would deem Klein an immediate danger and would immediately back off successfully saving himself and The Antigonus Family Notebook.

Conclusion And Categories Buffed By This Strategy

Klein successfully saved himself from Sealed Artifact 2-049 and also made a plan in seconds that killed the Suited Clown who was a Sequence 7 while Klein was only a Sequence 9 while also keeping The Antigonus Family Notebook intact.

This Strategy has mainly two parts which is escaping from 2-049 and killing the Clown.

The 1st part of the Strategy which was escaping from Sealed Artifact 2-049 mainly showcases Klein's quick thinking while his intelligence was being lowered and using his Divination powers to determine whether the situation was safe or not.This mainly buffs Klein's problem solving,fast thinking and short term strategy.

The 2nd part of the Strategy which is far more impressive showcases Klein's anticipation of the Clown's actions, incredible emotional perception and understanding of the Clown's thought process,his good VSI which enabled him to correctly shoot so that the Clown will dodge to the kill zone of 2-049 and also his short term strategy, quick thinking and also his deception capabilities and it also showcases Klein's brilliant abductive reasoning.
