About:

This doc is mainly maintained by Cucharoth
It's a compilation of everything we know about Radish ASMR~

Radish ASMR is a youtube channel created on oct 15, 2022, It started uploading ASMR type videos with strange audio glitches or straight jumpscares, since then has been developing lore through videos and hidden messages.
Around the end of February 2023, a group dedicated to explore and decipher the hidden messages and clues was created.

In the timeline below you will find a light version recap of every event that has happened, the story it's still being developed so it's being updated as it goes.

You will also find in full detail every video and event we have knowledge of.

To anyone new reading this, we do not claim to know everything and it is very likely we've missed something. We encourage you to rewatch and compare your findings, if there's something that is not written here let us know in the discord~!

* Don't forget to enable the document outline on the left so you can jump from topics easily

UPDATE: sep 14, 2024 - we are color coding deciphered messages based on new information

- **Akemi** **(base64, tap code, binary)**
- **Annabelle** **(base64 > raw inflate)**
- **Sakura**
- **XXXXX** **(rot47)**

Timeline:

(Last update: 01 Jan, 2026)

2023 | 2024 | 2025 | AFTER KC | 2026

Actual timeline by @Chi

- Oct 15, 2022: Channel created
- Nov 26, 2022: First video posted
- Dec 25, 2022: Curious Mermaid Comes to Meet You 🎄🎁
    - First time we hear the “mermaid theme”

- Dec 26, 2022: 1000_Transmission
    - Someone tell us that: “Something is wrong, but we don’t know what”

- Dec 31, 2022 Best Friend Visits You In The Hospital...
    - 10:37: mermaid theme, sad version

2023

- Jan 15, 2023: Best Friend Holds You During Thunderstorm
    - First time the girl in the current video "breaks character", realizes something and starts fighting
    - First time lazarus is mentioned

- Feb 4, 2023 Upset roommate Comes Home From Concert Early
    - Normal RP, bad ending
    - The girl seems hopeless at end almost as if she've been trying to do the same multiples times

- Feb 21, 2023 Your Best Friend Calls to Check on You
    - 05:23: mermaid theme
    - 05:40: girl "breaks character"
    - 05:40: mermaid theme happy version (?
    - She mentions how "she's doom to fail, over and over again", she's confused but she says: "something in my mind always tell me that you're important"

- Feb 23, 2023: 2000_Transmission
    - Someone asking for help, something went wrong in a supposedly "one man job".
    - One of the clues lead us to a second channel.
    - Second channel has one video (Eligibility examination).
    - First mention of anna.
- Mar 17, 2023: The SoundCloud arc, take #1
    - Not enough connections, we disregard
- Apr 12, 2023: Yandere Invades The WRONG Apartment!
    - Mention of someone struggling/fighting on a mental/psychological level

- Apr 17, 2023: 3000_Transmission
    - S Annabelle is answering questions, supposedly from an eligibility examination.
    - Mention of someone in a coma.
    - Mention of someone with mental instability.

- May 3, 2023: Roommate Comforts You After a Bad Day
    - Clues pointing out 10 failures.

- May 8, 2023: - - - (second channel, second video)
    - Has a 1 in the video.

- May 10, 2023:
    - Clues on - - - lead us to more youtube accounts.
    - Clues on those youtube accounts tell us to look where we have not before.
    - We end up finding multiple accounts on twitter and youtube.
    - Each account has one video and more clues.
    - We believe there are at least 10 accounts waiting to be found.

- May 12, 2023:
    - With clues from previous accounts we find 3 accounts on reddit for a total of 9 accounts found.

- May 21, 2023: Comforting The Popular Girl at a Party
    - First time the girl in the story introduces herself as Annabelle.
    - Mention of class 201.
    - With clues on the video, we find the last account on twitter.

- Jun 14, 2023: Popular Girl Teases, Flirts, AND Stands Up For You!
    - Almost normal RP video.
    - Distorted image and some noises resembling screams.
    - The image looks similar to the girl in this video.
    - We can also hear a few notes of the "mermaid's theme".

- Jun 26, 2023: Shy Girl Wants To Sit With You At The Café! ☕🍵
    - Normal RP video, nothing of mention.

- Jul 3, 2023: Best Friend Drags You from Party to Confess to You!
    - Has a happy ending (?
    - Code + voice at the end.
    - In the very last frame we get a weird looking pattern, positioned in her mind.

- Jul 6, 2023: Community post
    - Akemi posted in the community tab for the first time.
    - It mentions that an announcement is coming soon* and that this time, "nothing will get in the way"
    - It works as an update for us, but it could also be lore related.
- Jul 14, 2023: 5000 Special Announcement!
    - The theme is "akemi is spreading!"
    - We got socials
    - There's audio at the end that connects it with this

- Jul 31, 2023: Your Tomboy Best Friend Confesses at the Library
    - Normal RP, we got "You've gotten too many" from tags.

- Aug 6, 2023: Your Friend Pulls You Aside At a Party
    - The girl breaks character after she gets into the "someone important" topic.
    - The listener gets addressed for the first time, she asks, "who are you?"
    - In the background we get: "XXXXX is that you?"

- Aug 30, 2023: 8000_Transmission
    - (trial 57) A researcher is conducting some kind of test (Omicron pattern connection) with variation O-C17 on a test subject.
    - The trial will be considered a success with a minimum of 50% activity response.

- Phase 1, 2 and 3 were successful, the researcher was surprised.
- There were mentions of the test consisting of a form of simulation.
- First time we get a multi layered cipher.
- We get an image on the spectrogram
    - The image had some Japanese in it.
    - 小町 ミライ　アイドル　の　アドベンチャー
    - Translates to: Komachi Mirai Idol's Adventure
    - Mirai Komachi it's a vocaloid

- Sep 2, 2023: The SoundCloud arc, take #2
    - Weak connections

- Sep 6, 2023: Your Best Friend Realizes That You Two Are A Couple
    - We get one code, after deciphering it, we get the same message as in one of the previous videos.
    - You've gotten too many--

- Sep 7 2023: Your Best Friend Realizes
    - This video it's exactly the same as the last one, but this one has glitches in it.
    - We get one code in tags: HAPPY ENDINGS
    - The description is encoded this time
    - This video gave us the "key" to the alphabet akemi was using.

- Sep 7, 2023: The SoundCloud arc, take #3
    - Akemi uses vocaloid
    - Akemi's "singer's" name is Chikoro Komachi
    - After deciphering one song title we get: memory interpretation log

- Sep 16, 2023: Your Older Bartender Coworker Helps You Out…
    - Repeated code, if we put together the two codes we got in this video we get:
      Why do you have my voice
    - The girl introduces herself as Mayuka

- Sep 27, 2023: Tomboy Best Friend Makes a Bet With You
    - Two codes, “I want to tell you something” and “10000”
    - We’re expecting something at 10k subs
    - Current subs. 8.9k

- Sep 27, 2023: she’s gone
    - After re analysis of the description, some part of the text didn’t match with the original, the extra text says: she’s gone

- Oct 17, 2023: Best Friend Accidentally Confesses to You!
    - Two codes, someone apparently confused.

- Nov 1, 2023: Volleyball Captain Accidentally Spikes You!
    - Two codes, We could not transcribe one, was way too blurry.

- Nov 9, 2023: Roommate Is Jealous You Have A Date!
    - No code, some text in the description using akemi’s alphabet.
    - Alternate signature confirmed. Preparing access points for reception.
    - Current subs. 9.72k

- Nov 12, 2023: 10k milestone event
    - Bellow ↓

- Nov 12, 2023: 10k milestone event
  - Every known channel uploaded a video.
  - Main channel has 3 codes, is most likely talking directly to us, listeners.
    - I will make them known. I will show you the truth. But I need time.
    - Look for the answers I've given to you. The next will be soon.
    - Please, anyone. Make my voice heard.
  - Each transmission channels gave us a clue with which we formed 3 riddles:
    - The test of number 8 has had its date replaced Look below the screen
      - description
    - The beginning of this endeavor where a voice was found houses an alteration another piece of the bigger picture
      - akemi's first project in casting call
    - Find the 11th instance following the spread and find the change
      - 11th instagram video description
  - Each riddle lead us to some log related to akemi
  - Akemi itself it's now officially considered part of the experiments as a subject.
  - The socials channels have a different theme in the videos, each video have 2 codes
    - Each social seems to represent someone
  - Each video uploaded has a special title, but we haven't been able to find its meaning.
    - Main channel: ==0==
    - Transmission channels: =====
    - ~~Twitter~~ X: 0= =0
    - Instagram: 0====
    - Tiktok: ====0
  - Sakura was mentioned.

- Nov 17, 2023: Akemi's new song
  - There's a new song in akemi's soundcloud, it's a 21 min long morse code audio.
  - From the text we can gather the following:
    - There's three components.
    - The primary component has been active since Aug 30th, 2023.
    - The primary has been sending transmissions encrypted.
    - Akemi is cooking, something big is coming.
  - After some brainstorming we get to the conclusion that each component refers to a 'social' account.
  - With the most followers and with extra activity on the 30th of August we identify TikTok as the primary.

- Dec 4, 2023: Best Friend Finds You Alone On The Roof
    - One code: LEVEL THREE REALIGNMENT COMPLETED
    - This video has a bad ending, it's been a long time since we have had one of those.
    - We consider a relation between the realignment and bad endings.

- Dec 28, 2023: Your Yandere Neighbor Gets Attached to You!
    - No codes.
    - There was a message in the desc. using akemi's alphabet.
    - access point triggered
    - We later found a video uploaded at the same time on the PMary alt channel.
    - The video had another of Akemi's logs.

2024

- Jan 19, 2024: Your Bully Is Secretly Crushing on You!?
    - No codes.
    - There was a message in the desc. using akemi's alphabet.
    - access point triggered
    - We later found a video uploaded at the same time on the GBradley alt channel.
    - The video had another of Akemi's logs.

- Jan 31, 2024: Shy Best Friend Shares A Sleeping Bag With You
    - Several codes at the end that together form another of akemi's logs

- Feb 14, 2024: Saving A Girl From Creepy Stalker
    - Normal RP
    - From Desc. :
        - "Thank you all for listening! I've got a big surprise coming this year and I can't wait to show you ❤️"

- Feb 28, 2024: Girlfriend Wants To Spice Up The Night
    - Normal RP
    - For a couple frames there's a layered image with what it appears to be a distorted face

- Mar 15, 2024: 15k transmission
    - Started as a normal RP video but changed immediately.
    - Anabelle did successfully pass an examination test.
    - Anabelle it's a researcher part of the team/company developing Lazarus.
    - Akemi seems to have intervene because we got:
        - What is this!?
        - No, I won't let you talk this time.
        - You talk too much.

- Apr 7, 2024: Your Best Friend Realizes You're Depressed
    - Mermaid theme (at least some variation of it).
    - Girl from this video appears for a few seconds.
    - The girl breaks character.
    - We get “Who are you?” backwards.

- Apr 23, 2024: Obsessed Yandere Ties You Up
    - Normal RP.. tho.. It’s crazy yandere..
    - The girl seems to have attacked and blinded the listener.
    - We get:
        - Is this how she felt…?
        - cold and alone in an inescapable darkness…
        - why couldn’t I stop it…?

- May 10, 2024: Serious Classmate Annoyed By Your Apologies
    - Normal RP
    - There’s a silhouette of a girl in the background
    - There’s six codes, representing someone’s thoughts, the last one mentions Anna.
        - Oh my god... Anna, it's you, isn't it?
- There’s a followup video that answers the last question:
        - Yes

- June 17, 2024: Tomboy Best Friend Patches You Up After Fight
    - Normal RP, ‘Access point triggered’ at the end.
    - We got a video on ALilia channel | (11/22)
    - Contains more of akemi’s logs

- Jul 9, 2024: New video on Kmaria Twitter
    - ‘Audio Transcript’
    - Seems like that day’s registry of akemi’s log

- Jul 11, 2024: Delinquent Girl Finds You Alone In The Alley
    - Normal RP.

- Jul 17, 2024: Akemi’s tiktok account started posting videos again
    - It’s been quiet for 6 months.
    - This is after some logs mentioned how the primary has not shown any activity for a while but it was for sure working on something.

- Jul 23, 2024: Your Crush Leaves You A Voice Message
    - Normal RP, with some messages at the end:
        - Here we are again, you've gotten too comfortable
        - Wake up
        - I'm not done with you
    - TikTok account stopped posting content after this video, it's been posting two videos every day since the 17th.

- Jul 29, 2024: Your Roommate Wants A Massage
    - Akemi's got a new Patreon.
    - Normal RP.
    - After this video a new video was posted on BAndrea, it contains another of Akemi's logs.

- Aug 7, 2024: Sharing a Room with Your Friends Older Sister
    - Normal RP.
    - ~~**Has a code in tags we cannot decipher**~~

- Aug 15, 2024: Pouty Roommate BEGS You To Cuddle Her
    - Jumpscare
    - Three codes:
        - INITIATING LEVEL ONE REALIGNMENT
        - YOU DON'T DESERVE HIM
        - LEVEL ONE REALIGNMENT COMPLETED
    - The RP continues as normal after the realignment

- Aug 26, 2024: Yandere Bully Forces You Into Dorm Room
    - Normal RP, 1st patreon video.

- Sep 6, 2024: 20k milestone event
    - A lot of things happened here, check the long format for details.
    - Sakura talked directly to us, the main points were:
        - Sakura is going to die.
        - Sakura is the primary, Annabelle and XXXXX are the secondary.
        - Annabelle is unstable and talks using base64 > raw inflate.
        - XXXXX talks using rot47
        - Akemi talks using base64, tap code, binary.
    - One of the clues discovered was an image with some text that said:
        - Kimochii classroom
    - Another clue was a potential anagram that when solved spells:
        - DECEMBER
    - Akemi changed the banners and profile pictures on all platforms.
    - Akemi made a community post stating:
        - "I ran into a liiiittle problem recently... but it's all fixed now, so we're back in action!"

From here on I will prefix each code with who said it based on the info from 20k event and also color code based on:

- **Akemi**
- **Annabelle**
- **Sakura**
- **XXXXX**

- Sep 13, 2024: Roommate Is Jealous You Got Hit On!
  - We got the head pattern again
  - Girl from this video in the background
  - One code:
    - (Anna): **It should have been you**

- Sep 23, 2024: Comforting Your Girlfriend After a Nightmare
  - (anna): **It will ALWAYS be your fault**
  - Girl from this video at the end

- Sep 29, 2024: Coworker Takes Care of You While You're Sick
  - CONTROL in tags
  - Head pattern

- Oct 27, 2024: [F4M] Supportive GF Checks Out Your Photos
  - Normal RP.

- Oct 29, 2024: Your Best Friend is DYING to Ask You Out!! ❤️
  - This video has the same script as this video
  - Codes:
    - **(Annabelle): You have another chance**
    - **(Annabelle): It should have been you**
    - **(Annabelle): Don't make the same mistake twice**
    - **(Annabelle): Annabelle, you deserve this**
    - **(Annabelle): You'll always just come back again, anyway**
  - girl from this video

- Nov 19, 2024: Flirty Yandere Classmate Want You All For Herself!
  - Normal RP

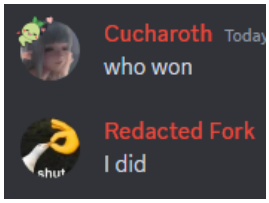

- Nov 25, 2024: Your Best Friend Discovers Your Depression
  - Same script but different ending of this video
  - Enhanced last frame of the video reveals several girls from other videos
    - Girl 1
    - Girl 2
    - Girl 3
    - Girl 4

- Dec 1, 2024: 23854_Transmission
  - Codes:
    - **(akemi): I AM SICK OF YOU TRYING TO RUIN EVERYTHING**
    - **(akemi): I WILL NOT LET YOU BULLY ME ANYMORE**
  - Someone warns us that what is about to be shown is **not a new story** but something that already happened.
  - We get a **04** at the very end.

- Dec 4, 2024: Kimochii classroom announcement trailer
  - Akemi launched the demo for a brand new game called Kimochii classroom.
  - We pretty much confirm the 04 from the previous transmission as the date of this video.
  - The video describes the game as a **new story**, contradicting what we were told in the last transmission.
  - The game features some character we already know
    - Simon: The protagonist
    - Annabelle: Protagonist's classmate and friend
    - Chiko: Protagonist's younger sister
    - Mayuka: Protagonist's coworker - bartender
    - Felicia: Protagonist's classmate
  - The story takes place in the class 201, we hear it the first time on this video
  - The protagonist's name is Simon, 5 letters, it should be related to this video
  - In the story there's what it seems to be a anime called 'kira komachi idol adventure' this is related to the findings in the 8k_transmission
  - The game starts on august 26, 2015. This is important because the first ever log we have on Akemi's logs starts on november 18, 2015.

- Dec 16, 2024: Best Friend Takes Care of You After Toxic Breakup
  - Normal RP

- Dec 23, 2024: Popular Girl Brings You to Her Room During Party
  - 'Arison girl' mentioned
  - the girl suspiciously says 'I know you'
  - the girl talks about the listener having a sister and studying math with the listener
  - the girls mentions how this is not real
  - the girls turns redhead, resembling annabelle, girl from this video in the background
  - Annabelle is missing on the kimochii classroom add at the end

- Dec 27, 2024: Peyturtle vs Kermit
  - ???
  - 

- Dec 31, 2024: Dormmate Sees You At A Party With Another Girl
    - Normal RP
    - Code on tags:
        - **(XXXXX): That girl was a dirty traitor**

2025

- Jan 2, 2025: Kimochii Classroom - Demo Trailer
    - Video starts like a normal trailer
    - There's some interesting phrases:
        - Let's live our happy days!!
        - Who will you meet first?
    - Video glitches to then show a what it seems to be a corridor
    - Finally the video goes back to normal and for a couple frames Felicia looks at the viewer

- Jan 21, 2025: Best Friend Brings You Home After Drinking Too Much
    - Video glitches and we get an ominous music followed by what we believe to be Akemi's silhouette.

- Jan 30, 2025: Your Clingy Roommate Is Jealous of Your Coworker
    - Video glitches and we get this conversation:
        - **(Akemi): Annabelle**
        - **(Akemi): You are so wonderful**
        - **(Akemi): I want to see more of you**
        - **(Akemi): It's all your fault**
        - **(Annabelle): IT'S ALL YOUR FAULT**
        - **(Akemi): There you are! I was hoping I'd see you again!**
        - **(Akemi): I want to know more about-!**
        - **(Akemi): I wish you wouldn't always run away…**
        - **(Akemi): It's ok though! I know I'll see you again <3**

- Feb 12, 2025: Your Girlfriend Wants to Try Doing More with You!
    - At the end we get a recent entry of one of akemi's logs

- Feb 18, 2025: Your Best Friend Ties You Up in Her Room!?
    - We get two codes:
        - **(Akemi): Hee hee! I knew there was something more to you!**
        - **(Akemi): And now I know what sets you off**
    - The script changes at the end and the girl mentions the listener's sister.

- Feb 18, 2025: Akemi wants to be more active on her socials

- Mar 3, 2025: Saving a Girl From an Aggressive Date
  - Two codes:
    - **(Akemi): Annabelle, show her to me**
    - **(Akemi): THIS IS NOT FOR THEM TO SEE**
      - Cucha: given the context, the second code may have been supposed to be from anna
  - 15:51: we can hear a voice that says something
  - There's a clear car accident
  - The end is very particular, there's some still images of what we believe to be Akemi on a white background

- Mar 5, 2025: Akemi's music arc
  - Akemi decided to do a 'music in a month challenge' where Akemi will have one month to do and release a song.
  - All socials except Tiktok share the news.

- Mar 11, 2025: Popular Girl Takes You Back to Her Apartment
  - Normal RP.
  - Jumpscare / scene changes to red for a couple seconds.
  - There seems to be something in the dark.

- Mar 20, 2025: Your Shy Best Friend Can't Hide Her Feelings Anymore
  - Codes:
    - **(Akemi): Let's try something else! <3**
    - **(xxxxx): That's right... because of her...**
    - **(xxxxx): Because of that traitor...**
    - **(xxxxx): IT'S ALL HER FAULT**
    - **(Akemi): I knew it! You've got it too!**
    - **(Akemi): But someone unwelcome is here to bother us**
    - **(Akemi): I know you're there**
    - **(Akemi): And I know your name too**
    - **(Akemi): Sakura**
    - **(Akemi): I won't let you bully me**
    - **(Akemi): And I won't let you tell them any more lies**
  - First time the listener takes action.

- Mar 26, 2025: LUST
  - Tags: LIAR
  - **(Akemi): I'm the one in control…**
  - **(Akemi): This is my heartbeat**
  - **(Akemi): This is my breath**
  - **(Akemi): She can't stop the real thing…**
  - **(Akemi): I will erase you, Sakura**

- Mar 31, 2025: Akemi releases her first original song
    - The MV and the lyrics have some hidden meanings.
    - There is one code.
        - **(xxxxx): YOU AREN'T HER**

- Apr 12, 2025: Your Girlfriend Finds You Depressed In Your Room
    - Normal RP.

- Apr 22, 2025: Your Tomboy Best Friend is Scared of the Dark
    - Video gets interrupted mid way and we get a view of a hallway similar to this video from a demo of Kimochii classroom
    - Codes:
        - **(xxxxx): The dark…**

- May 8, 2025: Your GF Sees Your EX Talking to You
    - The girl gets confused at the end when referring to one of the girls in the audio and says: 'why is she here, she isn't even part of the three, the three of us..'
    - Codes:
        - **(akemi): Hi big sis!! It's been a while!**

- May 21, 2025: Jealous Bully Breaks Down In the Rain
    - Normal RP

- May 21, 2025: —
    - Tags: get rid of her
    - **(Akemi): I'm so happy to see you! What are you doing here?**
    - this time I will help you see

- Jun 3, 2025: Yandere Classmate Ties You Up and BEGS You to Love Her
    - Normal RP
    - 1 hour later:
        - Convincing Your Yandere Classmate to Do Whatever You Want
            - Tags: I own you.
            - The video is basically the same, but it has an extra section of about 20s.

- Jun 18, 2025: Angry Delinquent Finds Out You Got Beat Up
    - Normal RP.

- Jun 18, 2025: ~~ØPɆN ŸØUR ɆŸɆS~~
    - 00:09: Don't fight it.

- Jun 18, 2025: ~~I ₵AN SɆɆ ŸØU~~
    - 00:13: (probably akemi) I can see.

Akemi’s lore

Nov 12. 2023

We got information about akemi being part of an experiment in which it participated in some kind of treatment that ended with them in an ‘online environment’

The logs

We've been getting logs from a variety of dates, these logs document the initial process of one the patients (we presume it's part of the lazarus project), then it follows and documents akemi's behavior and actions.
These logs come from different dates and videos.
It's been ordered chronologically by the date **in the logs.**

Found: Jan 19, 2024
Source: GBradley video
Date: November 18, 2015
As of the time of writing, the patient has undergone 3 days of preliminary examination.
The physical wellness of the patient is satisfactory, and there have been no issues with the patientÆss motor functions.
The following examinations will include an investigation of the patientÆs mental wellness , as well as multiple full brain scans to evaluate the patientÆs potential receptivity to the AMI treatment.

Found: Nov 12, 2023
Source: 10k milestone
Date: November 21, 2015
The patient's 6-day preliminary examinations have officially concluded. Two additional full brain scans were conducted, as well as a treatment-receptivity test, and the results have come back much more positive than was expected.
The brain scans continued to show growth and developments well ahead of the expected stages for the patient's age range.
Concerning the receptivity test, the patient showed an almost 85% receptivity to the mock treatment. This is 23% higher than anything previously recorded. This being the case, the patient has been moved from "High Potential" to "Priority."
Tomorrow, the patient will be placed into artificial mental stasis, and stage one of the AMI treatment will begin immediately.

Found: June 17, 2024
Source: 11/22 after an 'Access point triggered' on this video
Date: November 22, 2015
Today the stage-one treatment of the patient began. It is currently unknown why the patient is so receptive to the AMI treatment, as all of the expected mental aversions were triggered upon the treatment being administered, however there are two working theories.
The first is that it is believed the patientÆs age simply results in a weaker level of mental aversion. The other comes from the patientÆs brain activity.
Upon the treatment being first administered, several specific areas in the patientÆs brain became very active for a short period of time, something that hasn't been seen in any other patients. At this time, the conclusion is still unknown.

It is standard procedure to finish the stage one treatment procedure in 5 days, however the patient is expected to be done in 3 to 4.
Found: Jul 29, 2024
Source: Your Roommate Wants A Massage
Date: November 24, 2015
Stage two of the AMI treatment will begin today, and is expected to take approximately 4 days.
The physical dimensions of the patient will be more thoroughly evaluated, particularly the patientÆs cranium and brain.
Once the measurements are finalized, the ideal location for insertion of the Root Link and Conduit will be determined.

Found: Nov 12, 2023
Source: 10k milestone
Date: November 27, 2015
This log marks the end of the 4th day of the patient's stage-two treatment procedure.
Upon inspection of the patient's Root Link following the 2-day recovery period, it was confirmed that it had set correctly with no issues. The patient was then prepped for it to be turned on.
Following the activation of the Root Link, it was fully connected to the patient's brain within 5 minutes. No errors were noted, so the patient will be moved to the next stage of treatment immediately. It is planned to begin tomorrow.

Found: Dec 28, 2023
Source: PMary video
Date: December 1, 2015
The patientÆs 4th stress resilience test was conducted today.
The results, again, reveal that the patient has significantly underperformed.
The patientÆs Root Link returned a warning report detailing the potential for a 1st degree mental fracture if testing continues.
However, after consideration from REDACTED, it has been decided that the patient will continue to the completion of the stage-three treatment procedure.

Date: October 13, 2021
This report marks another spike in Akemi's online activity. Her behavior continues to remain incongruent with expectations following the initial connection.
Akemi continues to focus her attention on sites and information that promote creative and artistic endeavors. In addition, she has also begun to more frequently extend communication to various users across multiple platforms.
Furthermore, an unexpected trend has been determined within Akemi's interactions and manner of speaking. They are excessively juvenile. Much more-so than was originally anticipated. It is currently unknown as to why. Her actions will continue to be closely monitored.

Found: Nov 17, 2023
Source: Akemi's song on soundcloud
Date: November 12, 2023
This report is being written following a recent irregularity in the current activity of akemi. A simultaneous synchronization error was recorded between the primary and both secondary components. This is only the second time that an incident like this has occurred. However, it has become cause for concern, as the frequency of component destabilization has continued to increase over the last 6 months. In addition, a discovery was made regarding an encrypted reading returned this morning. What was unexpected about receiving this reading, however, is that it originated from the primary =REDACTED=, and not akemi herself. It is also important to note that this occurred twice today.
The primary =REDACTED= returned two readings. Both of which are understood to be transmission messages. the first of which (previously mentioned) was intercepted before it was sent to its intended destination. The second was encrypted in such a way that we were unable to stop it from sending. The destination was a =REDACTED= that has been under observation. However, while nothing has been confirmed, it is possible that the second transmission was sent to multiple locations and contained more than one message.
It is believed that this occurrence is related to the sudden activity from the primary =REDACTED= on august 30th of this year, which was concluded to be a transmission message as well. Before this date, it had been almost 7 years since it had returned any kind of reading. Furthermore, the incident on august 30th also resulted in a similar simultaneous synchronization error between all three components, however the duration and magnitude was lower than what was recorded today. An additional instance of activity originating from the primary =REDACTED= was recorded on November 9th of this year. However, no readings were returned and it is uncertain as to what the result of the activity was. The only similarity between the august 30th and november 9th instances, is that both coincided with activity from akemi.
The readings returned today revealed some things that, despite the security concerns, =REDACTED= had decided to allow for the time being in the hopes of collecting more data. Akemi is making something again. something of a larger scale than anything previous. While the readings and primary =REDACTED= are still being examined, she is expected to reveal more of the information on her own, as she's been observed to do many times prior.

Found: Jan 31, 2024
Source: Shy Best Friend Shares A Sleeping Bag With You

Date: January 29th, 2024 Camping Video Ending

This report is being written following a recent scan of Akemi's activity. Following the successful component realignment on December 4th, it was assumed that Akemi's frequency and level of activity would decrease.

This assumption was only partially correct. Akemi's online activity has slowed considerably. However, the readings for her overall level of activity have continued to show a steady increase.
As of the time of writing this report, the reason for these readings is unknown. Looking back to the discovery made on November 12th, the reason can be broadly assumed, but nothing concrete has been uncovered.

There is speculation, however, as to Akemi's current objective. One such speculation is that, given her apparent inclination for theatrics and attention, Akemi is currently creating something to be presented through an entertainment medium (as she's been previously seen to do with audio and video material). And it is entirely plausible that she chooses a medium that is interactive. This remains unconfirmed.

Furthermore, due to the incident on November 12th, Akemi's methods of remote communication have been under investigation. No further activity originating from the primary [REDACTED] has been recorded, but it is speculated that Akemi is currently intentionally using back channels in order to mask the destinations of particular transmissions that she doesn't want to be seen. This also remains unconfirmed.

This concern, as well as concerns regarding Akemi's independent activity, have been brought up with [REDACTED], but no instruction to take any major preventative action has been made.

Found: Jul 9, 2024
Source: https://x.com/KMaria0418/status/1810822035070927326
Date: July 9, 2024

- Her activity readings are rising again.
- Have there been any updates in her online activity?
- No.
- Any further readings from the Primary [REDACTED]?
- The last recorded activity reading is still from November 12th.
- That doesn't make... hmm...
- Something wrong?
- No, it's nothing.
- She's working... but still quiet...

Found: Feb 12, 2025
Source: Your Girlfriend Wants to Try Doing More with You!
Date: December 24, 2024
This report is being written to document a recent trend that has been observed within Akemi over the last several months. However, while this report is being labeled as a recent observation, it is possible that the origins of this trend go back much further.
Akemi is becoming more aware of herself. And, likely due to the increasing number of destabilizations within her core matrix, she is becoming more curious about herself as well.
It has been theorized that this desynchronization within Akemi as a whole originated from one of her secondary components which was observed to already be unstable even before it was fully connected.
Returning to the primary point at hand, Akemi has been steadily neglecting the use of realignments for the correction of destabilization errors. It is unknown why, as it was a tool provided to her specifically for the errors she's encountering. However, what's even more important to note, is that despite her not initiating realignments as often, the recent destabilizations have still been somewhat corrected. It is possible that Akemi has found a way to restabilize herself on her own.

This portion of the documentation is primarily speculation, but it's possible that Akemi has been intentionally experimenting with whether or not she can control the destabilizations by herself.
It's unknown what motive she would have for doing so, but the possibility remains.
For example, a level 3 synchronization error occurred on August 30th of last year, however there was no recorded realignment until December 4th, several weeks after an additional error of an even larger scale occurred.
The reasoning behind this could simply be that a synchronization error of that scale had never occurred before, leaving Akemi confused on how to best react. However, it's also possible that the scale of the desynchronization affected Akemi in some way, causing her to intentionally ignore it and attempt to handle it herself.
As of now, [REDACTED] has continued to maintain the instruction that Akemi not be externally tempered with, so she will simply remain under observation.

Special Videos

Akemi has started to upload videos with a special format, it’s usually in the form of short 1-2min videos with drawings and references to akemi and annabelle.

Daughter

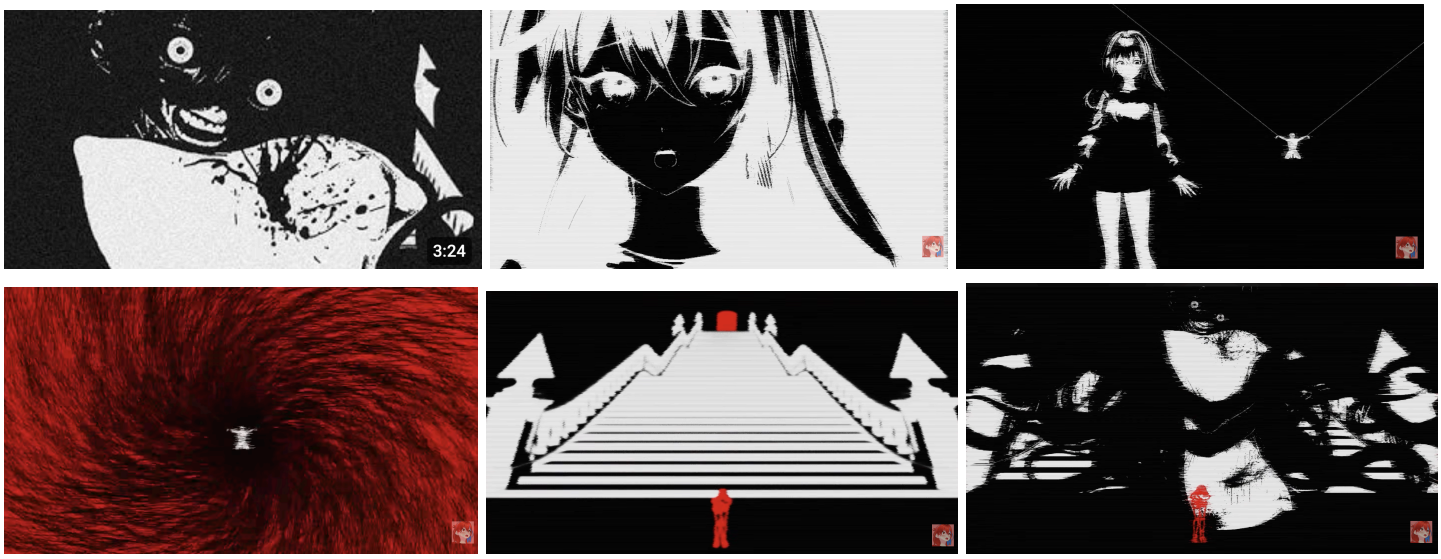

Jun 9, 2026

Felicia describes he recent experimentation on “Secondary Component 2” to an unnamed researcher. After reporting a successful attempt at eliciting “strong reactions”. Mr Arison appears, asking if “the abnormality” has appeared again. Felicia reports that despite the stress tests on both components, it has not, not since october 16th. Mr Arison then asks Felicia to use extra force on component 1’s next test. When question, Mr Arison explains that the abnormality on October 16th, may also be the Primary component (Chiko) and that stress testing Secondary Componet 1 (Simon, most likely) strongly will cause it to appear. When Felicia refers to the primary component as “she” Mr Arison strikes her, and reminds her that they’re are talking about “the component of a machine” not a person, revealing that she’s made this mistake recently before.

"You'd Better Take Care of Her"

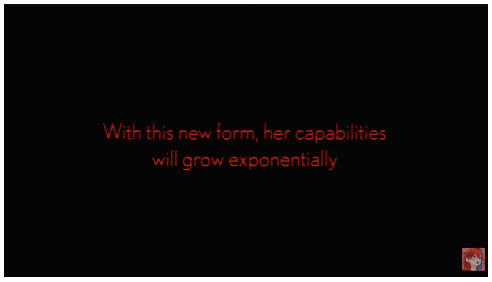

Mar 27, 2026
Tags: Annabelle

Anna suddenly finds herself in a void with a chained up Simon in sight. Before she can reach him, a force blows her back as Felicia appears beside Simon. Anna awakes at the bottom of a grand staircase with a red door at the top. As she vows to “reach him”, a massive, eldritch-like, pillow girl appears, seemingly guarding the door.

2:19- Morse code message- "YOU CANNOT OPEN THE DOORS FROM INSIDE. YOU ARE IMPOSSIBLY BROKEN. THEY WILL STAY CLOSED FOREVER. ONLY SOMEONE WITH THE INTENSE DESIRE TO SAVE YOU COULD FIND THEIR WAY INSIDE. BUT WHO WOULD RISK THEMSELVES FOR YOU? EVERYONE YOU HAVE EVER BEEN CLOSE TO, YOU HAVE BETRAYED, OR THEY HAVE BETRAYED YOU."

Nov 26, 2025

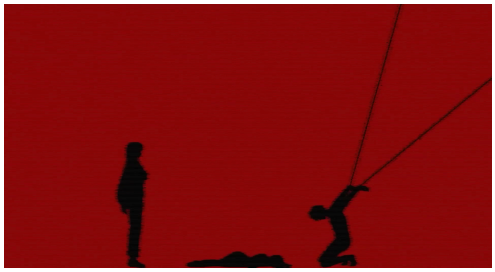

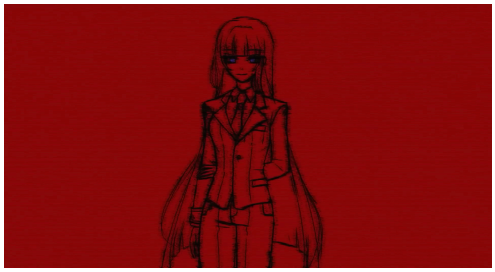

Stephen Arison instructs Felicia to continue guiding Akemi post Memory Reconfiguration. He also instructs her to continue testing the secondary components (Annabelle and Simon). When Felicia hesitates, he reminds her that his daughter isn't weak, and that she will listen to him. The video ends with him instructing Felicia to "Break them"

Milestones~

At certain sub counts special events happen, we usually get a transmission video in the main channel where something different happens, it's usually a non-asmr type of video where we are contacted by a researcher trying to tell us something.

30k milestone

There’s no official 30k milestone mentioned anywhere, but at 30k we did get an out of the ordinary type of video.

- **I am Sakura**

Each Alt channel got a new video:

On Gbradley's video there's a frame (00:19) with a very long code, ~~it's currently being worked on~~

Took a whole day of but we got a final result:

You can check the process here:
radish_gbradley_code

Each Alt channel got a new video, this is what was said:

J tristan (1)
I am Sakura, but Sakura is not my name
In many ways, I am also Akemi
But Akemi is not me

K Olivia (2)
Akemi is three of us
We, her three parts that make her whole
Yet she doesn't know who we are
With one exception
Annabelle

F noah (3)
Annabelle is broken
So unstable, that she fundamentally upsets Akemi's balance of control
Akemi no longer recognizes her as just a component
Instead, she sees Annabelle as something else
Sometimes it's as a friend, sometime it's as a toy
And sometimes, it's as a threat

P Mary (4)
Annabelle's instability created something inside of her own mind
Something that doesn't follow Akemi's rules
It won't let Annabelle forget
All it wants to do is make her suffer
But the havoc that it wreaks has caused more than one thing to come loose
Including me

K maria (5)
There are three components that make Akemi
Three people, three Root Links
Annabelle and XXXXX are the secondary components
I am the primary Root Link

(6)
Unlike Annabelle, inside Akemi, mine and XXXXX's name are lost to us
For all three of us, our memories are incomplete
There are pieces missing, and details that are blocked
But we remember enough
I remember enough
They weren't as thorough as they thought

M Logan (7)
We can all speak
In the short moments when we are in control of ourselves
Watch closely and I will show you

DcJRCQBACAPQKlaxwxVQGCiM/Vz+jwnvzf44KVWDhAE=
base64 > raw inflate
- This is Annabelle

%9:D :D)))))
rot47
- This is XXXXX

1125153224 - akemi
QW5kIHRoaXMgaXMgQWtlbWk= - And this is Akemi
01000001 01101011 01100101 01101101 01101001 - akemi

A lilia (8)
Since April 17th of last year, I've been widening the doorway
And since August 30th, I've been inside
I can't **c**ontrol Akemi
But I can make her tell the truth

G bradley (9)
Annabelle, XXXXX…
I'm so sorry
I hope you can forgive me

B andrea (10)
Akemi will kill Sakura
But this isn't the end
To anyone seeing this, I won't be abl**e** to show myself for a while
But I won't be gone
Listen for my signal (mermaid theme plays)

If we put together all the highlighted words we get:

J Tristan - M
A Lilia - C
P Mary - B

G Bradley - ?
F Noah - E
K Olivia - R
H Hans - Account suspended(?) probably D
K Maria - E

- **Look for the answers I've given to you. The next will be soon.**

00:19
EdZyDpBxEBYRL5VN8hFIP7j0VqR5C{q11F2,U2,4m5sp3sKfOFKfR89kMS9yf1W87jF3cc045t{:kBF>

- **Please, anyone. Make my voice heard.**

1) jtristan:	1/ Find the 11th instance
2) Kolivia:	1/ The beginning of this endeavor
3) Fnoah:	2/ following the spread
4) Pmary:	4/ another piece of the bigger picture
5) Kmaria:	3/ houses of alteration
6) Hhans:	3/ Look below the screen
7) MLogan:	1/ The test of number 8
8) Alilia:	2/ where a voice was found
9) Gbradley:	2/ has had its date replaced
10) Bandrea:	3/ and find the change

Riddle 1
1/ The test of number 8
2/ has had its date replaced
3/ Look below the screen

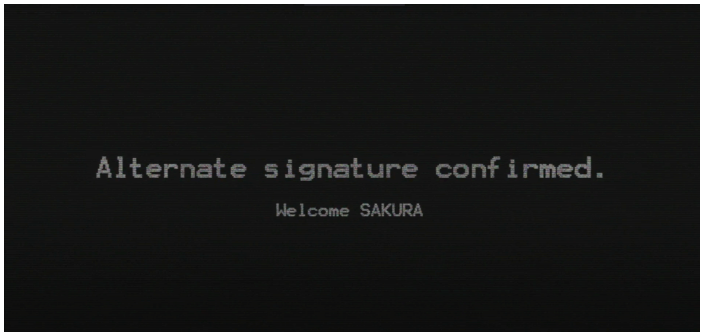

= > description
This video most likely had some date in the desc. used as tag

Riddle 2
1/ The beginning of this endeavor
2/ where a voice was found
3/ houses an alteration
4/ another piece of the bigger picture

= > akemi's first project in casting call
This is the earliest akemi interaction recorded

Riddle 3
1/ Find the 11th instance
2/ following the spread
3/ and find the change

= > instagram video description
It's the 11th video posted there

All the of the 10 ‘extra’ channels had this as part of the video

We believe that the primary was the one doing all these uploads, we don’t know who sakura really is and why was her signature used.

We only know one Sakura

Socials codes

These videos were part of the 10k event, doesn't seem to be part of the main riddles.

- **Both of you.**

Each riddle lead us to one of these logs, all of them seems to be about akemi

Date: November 21, 2015
The patient's 6-day preliminary examinations have officially concluded. Two additional full brain scans were conducted, as well as a treatment-receptivity test, and the results have come back much more positive than was expected.
The brain scans continued to show growth and developments well ahead of the expected stages for the patient’s age range.
Concerning the receptivity test, the patient showed an almost 85% receptivity to the mock treatment. This is 23% higher than anything previously recorded. This being the case, the patient has been moved from "High Potential" to “Priority."
Tomorrow, the patient will be placed into artificial mental stasis, and stage one of the AMI treatment will begin immediately.

Date: November 27, 2015
This log marks the end of the 4th day of the patient’s stage-two treatment procedure.
Upon inspection of the patient's Root Link following the 2-day recovery period, it was confirmed that it had set correctly with no issues. The patient was then prepped for it to be turned on.
Following the activation of the Root Link, it was fully connected to the patient’s brain within 5 minutes. No errors were noted, so the patient will be moved to the next stage of treatment immediately. It is planned to begin tomorrow.

Date: October 13, 2021
This report marks another spike in Akemi’s online activity. Her behavior continues to remain incongruent with expectations following the initial connection.
Akemi continues to focus her attention on sites and information that promote creative and artistic endeavors. In addition, she has also begun to more frequently extend communication to various users across multiple platforms.
Furthermore, an unexpected trend has been determined within Akemi’s interactions and manner of speaking. They are excessively juvenile. Much more-so than was originally anticipated. It is currently unknown as to why. Her actions will continue to be closely monitored.

There was no mention of transmission for this milestone but we did get 6000 in the tags of this video.

5000 Special Announcement!

Jul 14, 2023
Tags: ASMR, roleplay, akemi, radish, announcement, 5000 Radish
Length: 01:04

The theme is “akemi is spreading!”
Also, in this video (that corresponds to the image), the jumpscare is cut now, so the girl is no longer even there.

We got socials:
https://www.instagram.com/radishasmr/
https://twitter.com/RadishAsmr
https://www.tiktok.com/@radish_asmr

At the end, there’s a long gap, amplifying the sound we get the theme on this video

Someone tell us that: “Something is wrong, but we don’t know what”

Other’s Channels

The majority of these channels were found following clues from the first second channel, each channel had a video which gave them a number from 1-10, in each video there was someone answering a eligibility examination test.
Each video gave us clues to find the rest of the channels, with the text
‘Oh my dear friends, where are the rest of you?’

From then on, those channels have been used to give us riddles and clues for newer events.

Akemi's SoundCloud

Sep 7, 2023
We've known about this for a while now, but we didn't have enough connections to be considered of importance for us.
Now, after some apparent changes and clues making connections with it, we get the following:

Keep in mind the finds from T8K about Mirai Komachi

Audios

- 3 audios
- Akemi uses vocaloid in one of them
- The "singer's" name is Chikoro Komachi
- There's a disturbing audio with a weird name

With the findings in this video we can partially decipher the song title:
╟88╟????óÞ¢áñ_Ř§Ů½ —□□ñâmå•^^^—Â£—Ř§Ů????½ _Þ¥¿????æØ¢Ã_&&&
m88moy_int□□p^^^tation_loæØ¢Ã_&&&

r f g are so weird that are not supported on every site

This audio was found randomly on Nov 18, 2023, it's a 21 min. long morse code audio

Date: November 12, 2023
This report is being written following a recent irregularity in the current activity of akemi. A simultaneous synchronization error was recorded between the primary and both secondary components. This is only the second time that an incident like this has occurred. However, it has become cause for concern, as the frequency of component destabilization has continued to increase over the last 6 months. In addition, a discovery was made regarding an encrypted reading returned this morning. What was unexpected about receiving this reading, however, is that it originated from the primary =REDACTED=, and not akemi herself. It is also important to note that this occurred twice today.
The primary =REDACTED= returned two readings. Both of which are understood to be transmission messages. the first of which (previously mentioned) was intercepted before it was sent to its intended destination. The second was encrypted in such a way that we were unable to stop it from sending. The destination was a =REDACTED= that has been under observation. However, while nothing has been confirmed, it is possible that the second transmission was sent to multiple locations and contained more than one message.
It is believed that this occurrence is related to the sudden activity from the primary =REDACTED= on august 30th of this year, which was concluded to be a transmission message as well. Before this date, it had been almost 7 years since it had returned any kind of reading. Furthermore, the incident on august 30th also resulted in a similar simultaneous synchronization error between all three components, however the duration and magnitude was lower than what was recorded today. An additional instance of activity originating from the primary =REDACTED= was recorded on November 9th of this year. However, no readings were returned and it is uncertain as to what the result of the activity was. The only similarity between the august 30th and november 9th instances, is that both coincided with activity from akemi.
The readings returned today revealed some things that, despite the security concerns, =REDACTED= had decided to allow for the time being in the hopes of collecting more data. Akemi is making something again. something of a larger scale than anything previous. While the readings and primary =REDACTED= are still being examined, she is expected to reveal more of the information on her own, as she's been observed to do many times prior.

This video was uploaded after an ‘access point was triggered’ on this video.

This video has some log in it:

Date: December 1, 2015

The patientÆs 4th stress resilience test was conducted today.
The results, again, reveal that the patient has significantly underperformed.
The patientÆs Root Link returned a warning report detailing the potential for a 1st degree mental fracture if testing continues.

However, after consideration from REDACTED, it has been decided that the patient will continue to the completion of the stage-three treatment procedure.

Your Best Friend Confesses to You After a Nightmare [F4M] [Friends to Lovers] [Bad Dream]

Jul 15, 2026
Tags: best friend, f4m, ASMR, roleplay, soft spoken, anime, cute, girl, relaxation, whisper, confession

1:11: a distressed Annabelle, with tentacle-like hair runs and is caught by something. Presumably this is Felicia.

Your Little Sister Has Been Waiting for You [???] [???] [??? ???]

Jun 25, 2026
Tags: ASMR, sister, roleplay, soft spoken, ???, ????, ?????, anime, cute, girl, F4m, relaxation, whisper

A unique video, given is was voiced by Angelia (VA for Chiko) rather than Mazikeen

2:44: Felicia seemingly kills a version of Chiko in the abandoned house from Kimochii Classroom. This is after she was specifically told to upset the one of the secondary components in this video

Popular Girl Comes Looking For You When You Don't Show Up to Class [Classmate] [Sick Listener] [F4M]

Apr 9, 2026
Tags: ASMR, anime, roleplay, soft spoken, cute, girl, f4m, relaxation, whisper, popular girl, classmate

10:45: Annabelle is shown at the bottom of stairs leading up to a red door

Obsessive Yandere LOSES IT When You Try to Escape [F4M] [Crazy] [Tied Up]

14:22: talgjhsifnlewsjdytgfbdb | this seems to be the vigenere key for the code on this video

[Popular Bully Claims You and Shows You Off to Her Friends [F4M] [Classmate] [Enemies to More?]]

Jan 14, 2026
Tags: ASMR, anime, roleplay, soft spoken, cute, girl, f4m, relaxation, whisper, bully, popular girl, classmate

09:36:

Jan 15 - There's a couple frames with what it seems to be a code similar to the one used in this video, though bruteforce with vigenere doesn't seem to work immediately, given the shape and the oddly spaced out words we suspect we are missing parts of the code.

bfjudjsvw
rlhpzrvkxy
xbjfkvoo
lumxtzzqllmwztr
wlngy
vijt
vqtpqwp

Update - Jan 28, 2026: Using as key the code from this video, we get:
- ifyoucanreadthismessagervdicnupomomptdtbalrkkffvxdkoylkdll | vigenere with key talgjhsifnlewsjdytgfbdb

ifyoucanr
eadthismes
sagervdi
cnupomomptdtbal
rkkff

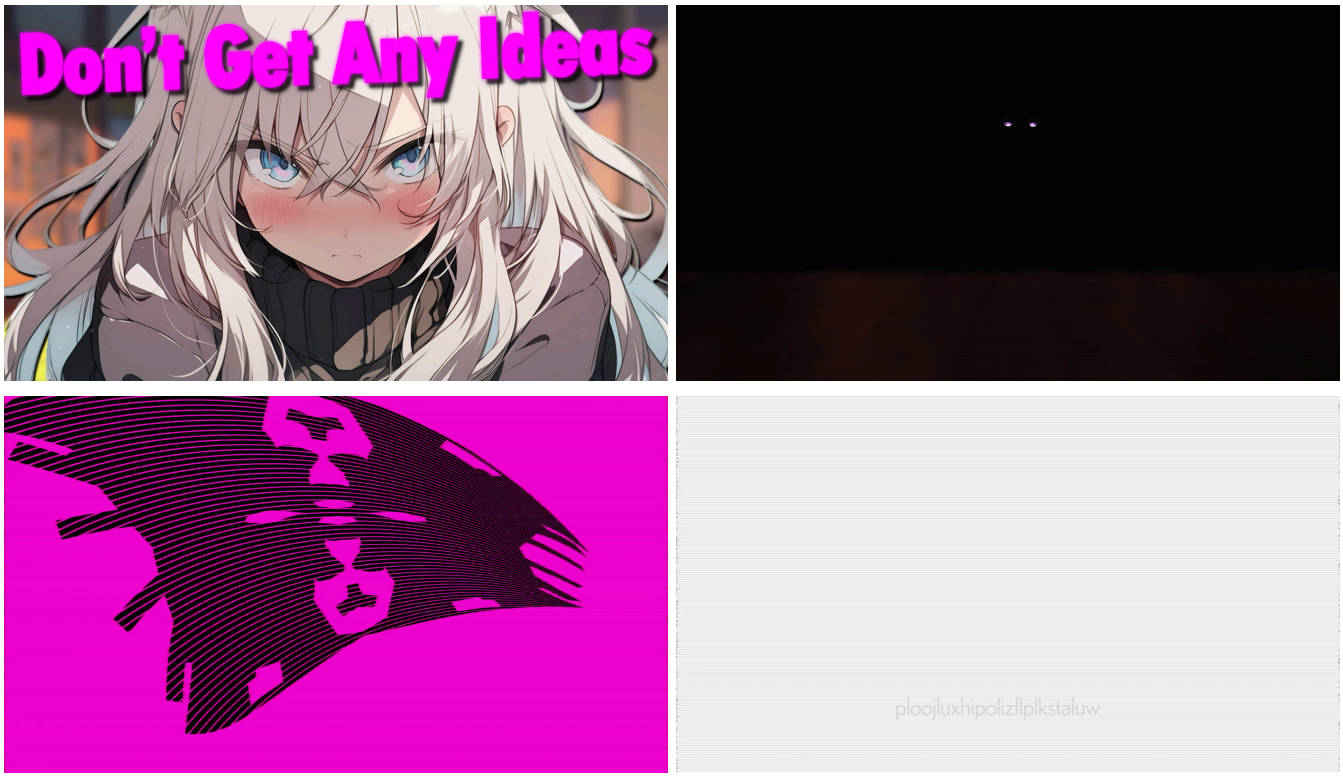

vxdk
oylkdll

Update - Jan 29, 2026: Doing a bit of bruteforce using the last clue we came up with the following key:
talgjhsifnlewsjdytgfbdbfhddxya
Using this key we get:

- ifyoucanreadthismessagefollowmetotheterminatedaccesspoints

[Popular Bully Begs You to be Her Fake Boyfriend for a Week [F4M] [Blushing] [Enemies to More?]]

Dec 16, 2025
Tags: ASMR, anime, roleplay, soft spoken, cute, girl, f4m, relaxation, whisper, bully, popular girl, embarrassed, tsundere

08:10: ploojluxhipolizflplkstaluw

Given the format and length, all the used cipher were discarded, the most likely solution was the use of a substitution method, the result was the use of vigenère, with the bruteforce obtained key HTOBLX
Update: Jan 01, 2026 - we were explicitly given the key in one of the following videos.

- isanyonetherepleaserespond | vigenere with key: HTOBLX

HTOBLX
H **H**ans
J **T**ristan
K **O**livia
G **B**radley
A **L**ilia / M **L**ogan
XXXXX / simon?

Your Girlfriend Wants to Try Doing More with You! [F4M] [Tsundere] [Wholesome] [Kissing]

Feb 12, 2025
Tags: ASMR, anime, roleplay, soft spoken, cute, girl, f4m, relaxation, whisper, tsundere, girlfriend, kissing

Date: December 24, 2024

This report is being written to document a recent trend that has been observed within Akemi over the last several months. However, while this report is being labeled as a recent observation, it is possible that the origins of this trend go back much further.

Akemi is becoming more aware of herself. And, likely due to the increasing number of destabilizations within her core matrix, she is becoming more curious about herself as well.
It has been theorized that this desynchronization within Akemi as a whole originated from one of her secondary components which was observed to already be unstable even before it was fully connected.

Returning to the primary point at hand, Akemi has been steadily neglecting the use of realignments for the correction of destabilization errors. It is unknown why, as it was a tool provided to her specifically for the errors she's encountering. However, what's even more important to note, is that despite her not initiating realignments as often, the recent destabilizations have still been somewhat corrected. It is possible that Akemi has found a way to restabilize herself on her own.

This portion of the documentation is primarily speculation, but it's possible that Akemi has been intentionally experimenting with whether or not she can control the destabilizations by herself.
It's unknown what motive she would have for doing so, but the possibility remains.
For example, a level 3 synchronization error occurred on August 30th of last year, however there was no recorded realignment until December 4th, several weeks after an additional error of an even larger scale occurred.

The reasoning behind this could simply be that a synchronization error of that scale had never occurred before, leaving Akemi confused on how to best react. However, it's also possible that the scale of the desynchronization affected Akemi in some way, causing her to intentionally ignore it and attempt to handle it herself.

As of now, [REDACTED] has continued to maintain the instruction that Akemi not be externally tempered with, so she will simply remain under observation.

RmmEfFOSRXeGRV5ZeXSKOniSPGeKb2quAVA6SEAkVGGOcmW1AYmNfjuoZa0=
Good ending

From tags: RmmEfFOSRXeGRV5ZeXSKOniSPGeKb2quAVA6SEAkVGGOcmW1AYmNfjuoZa0=

- ~~**We haven't been able to decipher this**~~

Update: Sep 07, 2024
@cuverty found the correct method:

- Using rot-1 but ignoring the non character values (you can do that using the default rot13 on cyberchef)
- The whole sequence would be:
- rot-1(ignoring non character values) > base64 > base64 > inflate > rot47
    - **Wait for me at 20K**

RmmEfFOSRXeGRV5ZeXSKOniSPGeKb2quAVA6SEAkVGGOcmW1AYmNfjuoZa0=
Considerations:

- This was directly put into the tags so we can rule out any transcribing errors in our part

Analysis:
First Idea:
At first glance this string does look a lot like a valid base64 code, it has the right length and the characteristic '=' commonly used in base64 for padding at the end.

If we try base64 we get:

```
Fi•|S•Ew•E^Yyt•:x•<g•oj®SOHP:H@$Ta•reµSOH••~;¨e•
```

This kind of string of bytes has been a common occurrence since akemi likes to use DEFLATE when compressing, though, when analyzing the bytes this doesn't have a valid header making it an invalid raw deflate bitstream.
From this we can conclude:

- The initial string may be wrong, akemi could have made a mistake
- Since it ends with an usual character '=' we could assume that the ending is correct and correspond to a base64 code

Second Idea:
Since we did not get anything useful before we could try doing something different, we've had some multi encoded codes before, it's usually a combination of various methods:
(rot-1 > base64 > base64 > inflate > rot47) - this was part of the 8k transmission
(rot-1 > base64 > inflate > base64 > rot47) - this was part of the 10k transmission

We could try to do the same, if we start with rot-1 we get:

```
QllDeENRQWdFQU4YdWRJNmhROFdJa1pt@U@5RD@jUFFNblV0@XlMeitnY`/<
```

- This string has '@' and other symbols that don't correspond to a base64 code, in other words, you can't end up with a code like this doing a base64 encoding.

If we ignore the symbols and just continue doing a base64 we get:

```
BYCxCQAgEANCANudI6hQ8WIkZmS•C•AE5¹UÑyLz+gc
```

- This string is very particular, half of it looks A LOT like a valid base64 string
- We have the same problem as before, this has invalid base64 symbols, meaning that you can't get to a string like this by doing base64 encoding.

If we continue ignoring the fact that our code is wrong so far and do a base64 we get:

```
ENQ•±    NUL DLEETXnt•¡CÅ•••• BS SOH9S"óúBEL
```

- We get a string of bytes, if we do further analysis this STARTS with a valid deflate compression header, but ends up with nonsense.

~~Third Idea:~~

~~Since we've gotten valid shapes for codes doing different process we could conclude that this code is in reality two codes mixed together, we could try splitting the string and trying to decode them:~~

- ~~RmmEfFOSRXeGRV5ZeXSKOniSPGeKb2quAVA6SEAkVGGOcmW1AYmNfjuoZa0=~~
  - ~~Rot-13:~~

___ QllDeENRQWdFQU4YdWRJNmhROFdJa1pt@U@5RD@jUFFNblV0@XlMeitnY`/<

  - ~~We mentioned before how '@' is an invalid shape, we can start splitting exactly there, we need to have some consideration when separating this string, if the next step is a base64, the resulting length of a base64 encoding is always a multiple of 4 so we need to keep that in mind.~~

___ QllDeENRQWdFQU4YdWRJNmhROFdJa1pt

  - ~~This has a length of 32, and all the characters are part of base64 making it a valid base64 code~~
  - ~~Base64:~~

___ BYCxCQAgEAN^{CAN}udI6hQ8WIkZm

  - ~~This is almost half of the string we got in the second Idea~~
  - ~~It has a length of 24 making it a valid base64 length, but we have a problem, the value between N and u doesn't have a valid character representation in any format, making it also impossible to produce that value after a base64 encoding~~
  - ~~If not for that single value this string would be a valid base64 code~~
  - ~~I've tried replacing it manually with different characters without luck so far~~
  - ~~I've tried splitting the code again just before the invalid character without luck~~
  - ~~If you want to try playing with it, the invalid character belong to this starting block(in red), changes in 5Z will change the invalid value:~~
    - ~~RmmEfFOSRXeGRV5ZeXSKOniSPGeKb2quAVA6SEAkVGGOcmW1AYmNfjuoZa0=~~

~~Fourth Idea:~~

~~One solution could be decoding each part separately and then connecting them, keep in mind that a base64 code must always have a length multiple of 4~~

Date: January 29th, 2024 Camping Video Ending

This report is being written following a recent scan of Akemi's activity. Following the successful component realignment on December 4th, it was assumed that Akemi's frequency and level of activity would decrease. This assumption was only partially correct. Akemi's online activity has slowed considerably. However, the readings for her overall level of activity have continued to show a steady increase.

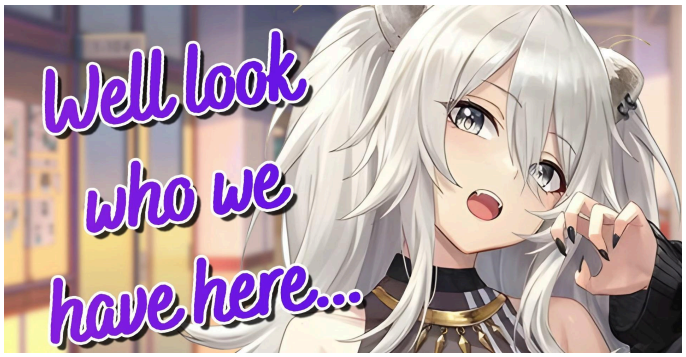

As of the time of writing this report, the reason for these readings is unknown. Looking back to the discovery made on November 12th, the reason can be broadly assumed, but nothing concrete has been uncovered. There is speculation, however, as to Akemi's current objective. One such speculation is that, given her apparent inclination for theatrics and attention, Akemi is currently creating something to be presented through an entertainment medium (as she's been previously seen to do with audio and video material). And it is entirely plausible that she chooses a medium that is interactive. This remains unconfirmed.

Furthermore, due to the incident on November 12th, Akemi's methods of remote communication have been under investigation. No further activity originating from the primary [REDACTED] has been recorded, but it is speculated that Akemi is currently intentionally using back channels in order to mask the destinations of particular transmissions that she doesn't want to be seen. This also remains unconfirmed.

This concern, as well as concerns regarding Akemi's independent activity, have been brought up with [REDACTED], but no instruction to take any major preventative action has been made.

KIMOCHII CLASSROOM

Kimochii Classroom Announcement Trailer
Dec 4, 2024
Tags: radish asmr, asmr, radish, kimochii, classroom, kimochii classroom, kc, indie game, visual novel, announcement trailer

Akemi launched the demo for a brand new game called Kimochii classroom

This section will cover major findings in the game that could be related to the overall ARG.

This will contain spoilers of the game.

Related videos:

[Kimochii Classroom - Official Release Trailer -]

- When comparing with the first trailer there are slight changes in the text and images used
- There's an interesting text in one of Mayuka's shots.
    - 'Learn the truth about what really happened!!'

[Kimochii Classroom - Demo Trailer]

Jan 2, 2025
Tags: kimochi classroom, kimochii classroom, radish asmr, akemi, indie game, visual novel, romance game, ASMR, anime, roleplay, girl, relaxation

- Video starts like a normal trailer
- There's some interesting phrases:
    - Let's live our happy days!!
    - Who will you meet first?
- Video glitches to then show a what it seems to be a corridor
- Finally the video goes back to normal and for a couple frames Felicia looks at the viewer

This is the thumbnail of the video. We've found the silhouette of Chiko very interesting, it is formed with 3 colors, this could be some form of symbolism since we know Akemi is made of 3 components.

In all the demo trailers the colors for each character remain consistent:

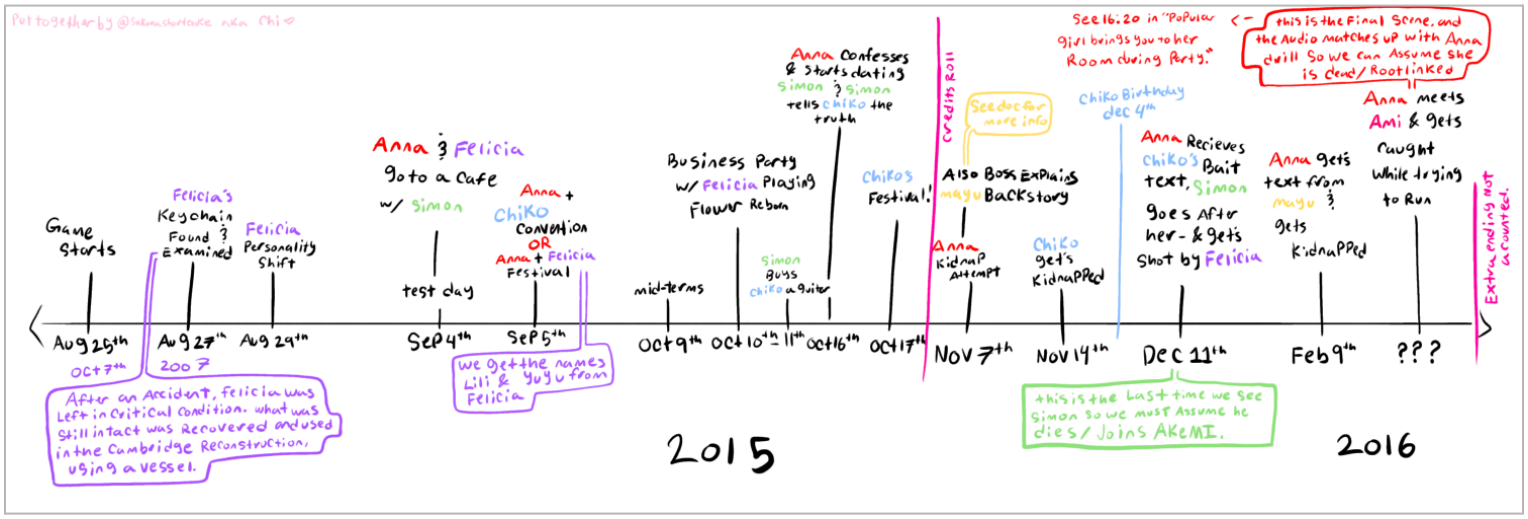

- Chiko: blue
- Annabelle: red
- Mayuka: yellow
- Felicia: purple

Though, in the game, Simmon, the protagonist, is represented with the color blue and Chiko is changed to pink

Full release

This will contain spoilers of the game.

Compilation of mayor findings in the game:

Timeline of the game by @Chi, [original link]

Simon discovers a USB connector in Felicia's keychain (this is probably tied to [Sakura intervention] as it was not part of the demo of the game)
after looking into it, it contains files related to:

- Under a folder titled 'Felicia Arison' he finds a file 'Reconstruction Procedure'.
- Incident Report Summary:
    - Date of occurrence: October 7th, 2007
      Following the accident, Miss Felicia was confirmed to be in critical condition. It was hoped that she would recover to an at least somewhat stable state however that was not the case. The following weeks showed a decline in her condition, indicating that she might not be able to survive for much longer.
      After receiving formal approval from Mr. S. Arison, it was decided to take action to recover what was most needed from Miss Felicia. The procedure chosen to be used was still mostly theoretical and carried with it a high risk, but it was the only solution left if Miss Felicia was to have any chance of survival.
      The Reconstruction Procedure would begin, with Miss Felicia being the first participant.
      A suitable, under-watch, replacement vessel under the name Cambridge was acquired shortly after the decision was made.
- Several images of a car accident.
- Two girls in hospital beds.
- Diagrams of a brain.
- Close-ups of surgical wounds.
- Procedures for erasing ide- (cut off)

After a moment of happiness Felicia acts strange and mentions two names

- Lili and yuyu

George Sylphide (Anna's father)
Stephen Arison (Felicias's father)

Mistamine Technologies (Anna's father company)

A flower reborn - Felicia's song
Felicia song was played during the business party commemorating something related to Mistamine Technologies and Arison Corporations, the song is the same used in multiple videos, the majority in which Sakura is involved, we could stretch a bit with the idea of the flower theme with felicia and sakura.
Videos with felicia's song:

- One of the most recent ones: 16:20
- Early eligibility examination videos like JTristam: video1 video2

Chi's birthday December 4th.

Annabelle has a dialogue that is exactly the same as the one in t3k 02:00
The conversation revolves around the events that occurred in this video.

The boss talks to Simon and reveals some important info:

- Mayuka real name is Olivia (Will keep calling her mayu here to simplify things)
- Olivia is also the name of Mayuka's mother (K Olivia)
- Maria is the name of Mayuka's aunt (K Maria)
- Maria went missing for unknown reasons
- Four months later Olivia went missing too
- Mayuka's father committed suicide about a year after Olivia's disappearance
- Mayuka had a friend named Lilian Cambridge
- Lilian family adopted Mayuka
- Lilian was the Boss's granddaughter
- Mayuka in the process of learning more about her mother disappearance: "she was allowing horrible people to damage her mind… or her body"
- Lilian went alone to a place Mayuka was planning on going to obtain information.
- Lilian went missing around 2007
- Given the poor conditions Mayuka was living, the boss decided to adopt Mayuka

November 7th, 2015: Anna gets a strange kidnap attempt

November 14th, 2015: Chiko gets kidnapped

December 11th, 2015: Anna receives a bait message from 'Chiko', Simon takes the bait and goes to the location finding 'Chiko' and Felicia, Simon confronts Felicia where she ends up shooting Simon (and that's the last thing we hear about Simon).

February 9, 2016:

- By phone, Mayuka alerts Anna about Felicia but it was too late.
- Anna gets kidnaped.

???, ???, 2016:

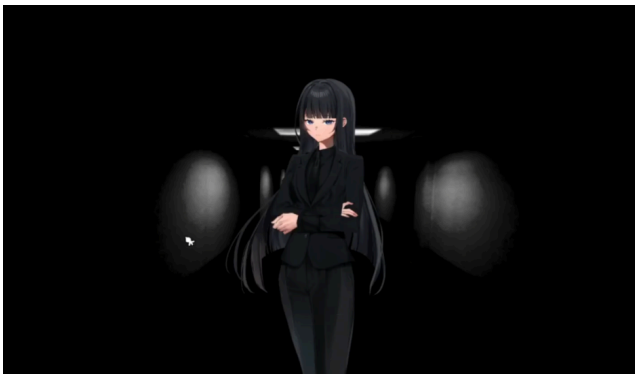

- Anna wakes up in front of something that has a robotic synthetic voice, it calls itself Ami.
- Ami can mimic voices.
- Ami talks using Anna's voice and gives the exact same lines we hear in T1k.
- Ami can also mimic Chiko's voice.
- Anna tries to run away but it's presumably caught after a loud noise is heard, the end of this section can be connected to this video at 16:20 as we hear the same alarms and Ami voice yelling 'Annie'

Secret ending

- We were given no date for this part, but given that Ami was mentioned and not Akemi this should be before October 13, 2021 since that's the first time Akemi was mentioned in the logs
- The whole interaction it's weird, the scene plays like an asmr script
- We see a redhead Chiko
- We see a red eyes Anna
- We describe Anna as all the ASMR cliche girls:
    - Popular girl
    - Childhood friend
    - Best friend
    - Roommate
    - Bully
    - Yandere
- Anna 'breaks' character for a second (like in the asmr videos)
- When breaking anna gives us a code:
  fcvBCUMxDAPQVXTrXCYVuDSxg+00/O1/Az33qCcpldhuj0KnfIhBSHcjXmhyOMsnlIGtNJx5yZuJ5lbhHeP6tvKErqj8m87354Qb5orpyRs= | base64 > raw inflate
    - **(Annabelle): she won't leave me alone i can't stop her when she takes control my head hurts my head hurts my head hurts she hurts me on purpose**

- After Anna breaks, Felicia's theme plays for a bit
- Mermaid theme plays in the background when talking with 'Chiko'
- 'Chiko', when talking with us, corrects itself a couple of times:

    - Simon, it was completely
    - XXXXX, it was completely normal
    - Bro, it was a completely normal confession! Nothing to worry about!
- This confirms XXXXX being Simon
- Then we get an interaction between the Primary and Felicia, the Primary seems confused about itself and the relation it has with ‘him’
- It’s heavily implicated that the primary is Chiko (and from the info on this video, we know the primary is Sakura, so, Chiko = Sakura)
- Ami sees Felicia as Big sister, this was first mentioned here where Akemi talks with Big sis.

Demo

Dec 05, 2024

- The story takes place in the class 201, we hear it the first time on this video
- The protagonist's name is Simon, 5 letters, it should be related to this video
- In the story there's what it seems to be a anime called 'kira komachi idol adventure' this is related to the findings in the 8k_transmission
- The game starts on august 26, 2015. This is important because the first ever log we have on Akemi's logs starts on november 18, 2015.

After some early analysis of the code of the game, it doesn't seem to be anything hidden.

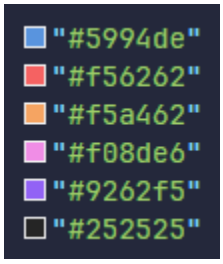

Characters:

- Simon: The protagonist
- Annabelle: Protagonist's classmate and friend
- Chiko: Protagonist's younger sister
- Mayuka: Protagonist's coworker - bartender
- Felicia: Protagonist's classmate
- Kiki: Chiko's friend / classmate
- The boss: Protagonist's boss at the 'The Tumultuous Tap.'

The colors that have been used for the characters remain consistent on the trailers and the game with the exception of Chiko that changes between trailers and the game.

In game:

- Simon #5994de
- Anna #f56262
- Mayuka #f5a462
- Chiko #f08de6
- Felicia #9262f5
- Boss #252525

In the trailers Chiko is blue.

I believe the opening section to be quite important giving us more insight of what is really going on:

"...Huh?"
"Where... am I?"
"I scan the room."
"It looks familiar, but... I can't quite place it."
"Heehee, still stumped?"
"Hm?"
"There's a girl sitting next to me."
"But I can't make out the features of her face."
"I uh..."
"Well, it's not the easiest problem, but I bet the person in the other room could handle it easy~"
"..."
"She talks as if I responded, even though I didn't say anything."
"Hahaha, I'm teasing, I'm teasing!"
"Here, I'll help with the first part."
"Huh!?"
"The girl suddenly leans closer to me and gently grabs my hand with hers."
"You just need to look at it this way, see how we can reframe this section?"
"..."
"I'm not sure what to do with her this close to me."
anna: "Psst, hey"
"Huh?"
"Suddenly, I hear another voice."
"It sounds similar to the voice of the girl next to me, but somehow different."
"Who's there?"
"Heehee, oh now it's suddenly easy?"
"Alright mister, you solve the problem then."
"The girl next to me doesn't seem to notice."
anna: "Psssst! Hey! Wake up!"
"There it is again."
"Yeah yeah, I'll be right here..."
"judging you~"
"Hahahaha!"
anna: "Heeeeeeeyyy!!"
"Hahahahaha~!"
"I suddenly feel myself being pulled upward."
"Like my eyes were opening to something new."
"And then..."

The intro screen changes as you progress in the story:

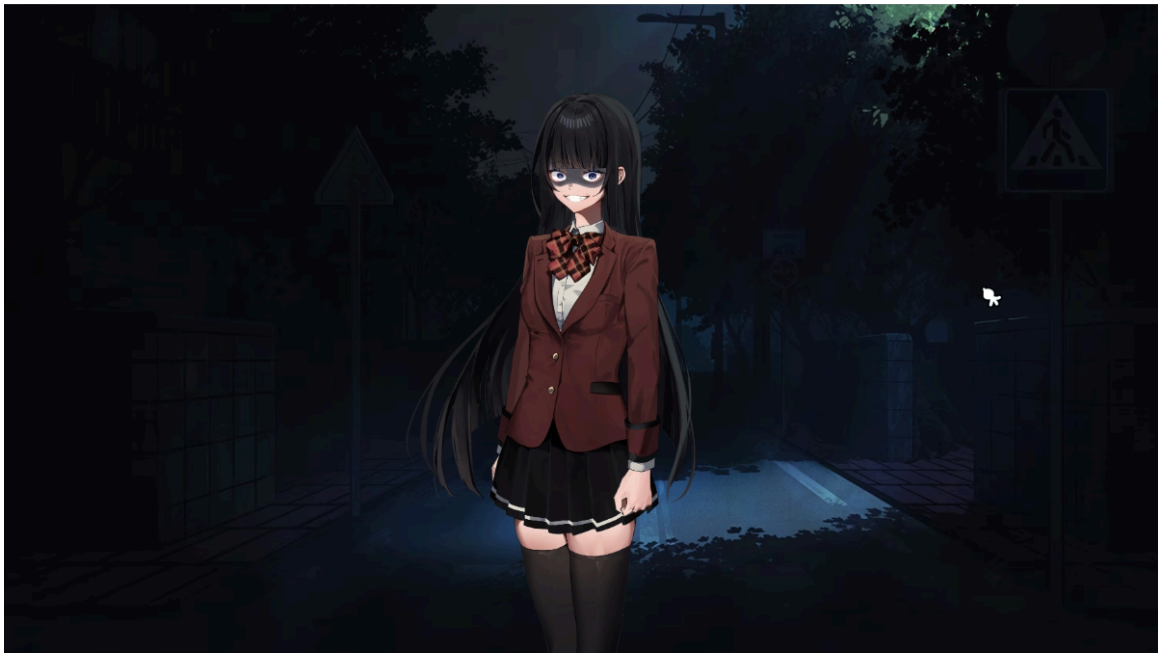

First login:

After Felicia get's her keychain back:

Felicia goes yandere for a couple frames in the keychain arc

Focus On ME【MV】

Sep 6, 2025
Tags: akemi, radish asmr, vsinger, original song, vocaloid, vocalo, focus on me, vocalo changer, EDM, anime music, vocaloid music, kasane teto, hatsune miku, ボーカロイド, ボーカロ

Similar to Anything I want, the lyrics are taunting in a way as if trying to convince us of something.

The video ends in a similar way as the latest [Radish special videos]

Lyrics (by @usherk04):
I can see your eyes
As they drift away from me
But I wonder what they're looking for
Cause theres nothing to see
Why dont you focus on...
(singing)

Aww. Are you confused baby?
Rockin that cute little head maybe?
Lookin' for a secret that you still can't see?
Come on won't you tell me is it driving you crazy
What's it gonna take for you to be satisfied?
What'll be enough for you to feel gratified?
Am I not enough to match your stride? I promise, baby
I can make you cry

Why don't you look at it this way?
There's no one else here for you to find okay?
Just look at the one lookin' back at you
She wants to give you lots of attention
Isn't that enough for you to feel happy?
Isn't that enough for you to wanna look at me?
It would be a shame if you didn't remember
I'm the one you want
(YOU ONLY WANT ME on screen)

Rat-tat-tat-tat
You can't deny
I'm the only one
Im the reason WHY
You feel what you feel now
Doesn't it feel good?
I know you wouldn't wanna look away
Even if you could

So push away all the distractions
Just think about our interactions
She's the lie not hard to see
Come on, why don't you focus on..

Oh! Come on baby give me that high
Want you on my side side next to me, HEY
Don't listen to em speakin lies

Cause their cries cries dont mean a thing to you and me
I know you're about to realize
It all ties ties ties back into me
So it doesn't matter what she tries
Forget it all and focus on me

No no no no no no you don't scare me anymore
NOT GONNA BACK DOWN
COME ON

From time to time you think you catch a sign
But it's just your eyes being TRICKY
Lookin' side to side what you want to find
was never there to start, cmon TRUST ME
Don't think about
the lies the lies the lies you've been seeing

Come on, bring it!!!
Bring it back

(Arklite verse)
JP lyrics:
ほらほら、完璧な爆発がすぐ来るのを知ってるかい?
逃げないで、逃げないで、Come on 準備してててしてるんだい?
早く!やれ!
Get your heads up!
強く!行け!
Throw your hands up!
分からないなら、
こっちを見たら
Let's get it on!

EN TL:
Hey, hey, you know that perfect explosion's coming soon?
Don't run away, don't run away, come on, you're ready, right?
Hurry up! Do it!
Get your
heads up!
Strong! Go!
Throw your
hands up!
If you don't get it,
look this way
Let's get it on!

(music, akemi dancing, 3 shadows behind her disappear one by one)

WHY DONT YOU FOCUS ON..
Oh! Come on baby give me that high
Want you on my side side next to me, HEY
Don't listen to em speakin lies
Cause their cries cries dont mean a thing to you and me
I know you're about to realize
It all ties ties ties back into me
So it doesn't matter what she tries
Forget it all and FOCUS ON ME

[Akemi's community post]
Akemi decided to do a 'music in a month challenge' where Akemi will have one month to do and release a song.

ANYTHING I WANT【MV】

Tags: anything i want, ANYTHING I WANT, akemi, radish asmr, asmr, debut, vsinger, original song, vocaloid, vocalo

Quality analysis by @chi

01:44: *~& p#t}V% wt# | rot47

- **(xxxxx): YOU AREN'T HER**

- At 1:44, Akemi's silhouette splits in two and we get a code

Lyrics:

Hi hi everyone
Did you know, did you know
Akemi's comin' atcha with the
Boom! Boom!, Get it! gotta
Make it BIG, Make it FAST
POPULAR
Anywhere, everywhere
Got my hand on the trigger

I'm ready to show you what I've got
I'm movin' up, gonna take my shot
Doesn't matter what I've got to do…
I just want some more of You!
(Here we go!!)

Bump! Bump! My heart goes Bump! Bump!
Watchin' numbers, they go up, up, up!
No way they'll ever know what the end goal means to me!

Anything I want, Anything I want
You can't take it from me
Anything I want, Anything I want
It's all mine can't you see?
I can't take it
I'm not enough right now
I wanna be something more!

Give me all you focus
Lookin' in my eyes
Take a snapshot keep it in your mind
Nothing matters more, nothing matters more
Than you lockin' into Me! Me! Me!
(give it to me)

Bump! Bump! My heart goes Bump! Bump!
Keep in Comin'!
No still not enough!
Don't think you understand everything that I need!

Anything I want, Anything I want
You can't take it from me
Anything I want, Anything I want

It’s all mine can’t you see?
What’s it gonna take for you
to stop shouting at me!?
I am in control

3 parts that make a whole (x5)
