Goddess of love memory feat-

Shown that he received the memories of the Goddess of Love in an instant. The memories flowed into his brain, able to recall properties such as the relationships she had, locations of objects such as the Scythe, and conversations such as the God's meeting. There are millions of memories in a lifetime and Raoul basically processed her entire backstory in an instant.

It's "eternity" since:

- **No god has ever been killed before**
- **No signs of a change of Gods until Raul's interference**
- **Ergo living since the beginning of time**

Then the Goddess was long enough to do the following:

- **Attend two divine meetings which two have been shown on-screen in the manga**
- **Corrupt a child who then became a Saintess**
- **Violate Raul when he was chained (before his death in the beginning of the story)**
- **Have relationships with 7 men (in their lifetimes since it says each generation here) to fulfill her ambition**

In an instant, the "eternity time memory" in which the goddess of love lived flowed into my brain.

I broke down the enormous amount of information and found what I was looking for.

[I found it~. If it exists after all. How to cancel it "definitively"]

According to the memory of the goddess of love, it seems that a weapon called "God-killing Scythe" that is sealed in the treasure hall in the heavenly world.

[A scythe that can kill a god huh? Sounds really good]

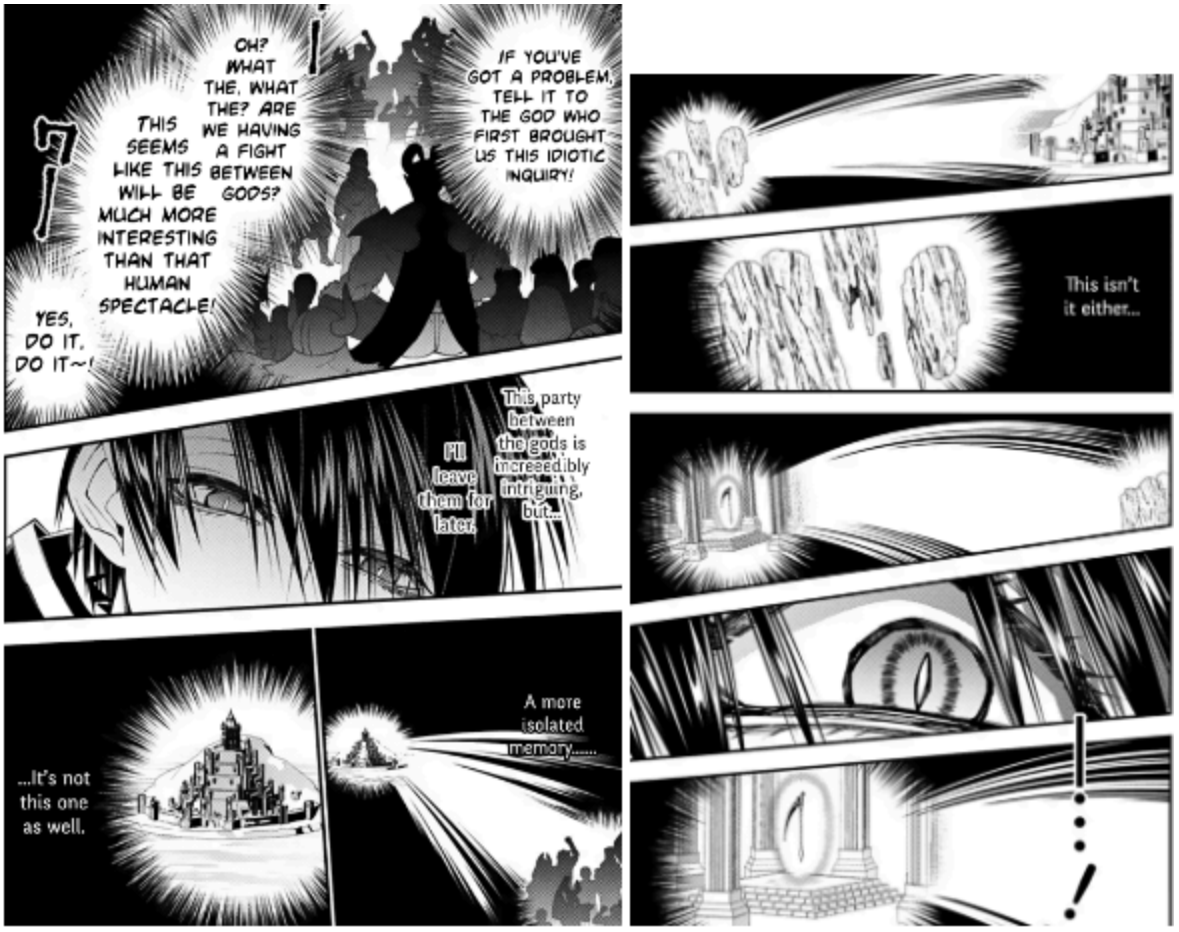

[N-No, Raúl.....! The god-killing scythe is an absolute possession of the gods. You shouldn't think about scary things like aiming for that.....!]

What does so eternity mean?

(ɪtɜːˈnɪti) 1. uncountable noun. Eternity is **time without an end or a state of existence outside time, especially the state which some people believe they will pass into after they have died**.

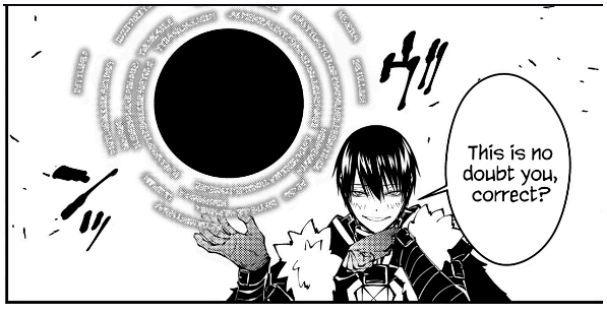

IF YOU'VE GOT A PROBLEM, TELL IT TO THE GOD WHO FIRST BROUGHT US THIS IDIOTIC INQUIRY!
OH? WHAT THE, WHAT THE? ARE WE HAVING A FIGHT BETWEEN GODS?
THIS SEEMS LIKE THIS WILL BE MUCH MORE INTERESTING THAN THAT HUMAN SPECTACLE!
YES, DO IT, DO IT~!
This isn't it either...
This party between the gods is incredibly intriguing, but...
I'll leave them for later.
A more isolated memory.....
...It's not this one as well.

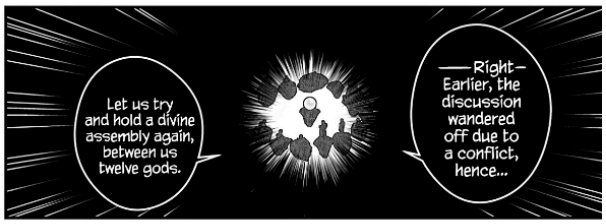

——…I have found the way to kill the gods!

So it does exist after all, doesn't it?
A means to overturn all laws.

It looks like it is located at a treasure repository in Heaven.
……!!
Not dying immediately even with your heart taken away is truly what defines a god, hm...?
You look like you're suffering, though
You... mustn't ...!
A ritual item... that the... gods... must protect... at all costs...
PANT PANT
Being stolen... by a human...!

This is no doubt you, correct?

Let us try and hold a divine assembly again, between us twelve gods.
——Right— Earlier, the discussion wandered off due to a conflict, hence...

As we were discussing earlier...
Raoul Evans—the one we sent to Earth to be their heroic saviour—is going to be executed.
What do you all think? Should we save him? Or should we not?

A signature pattern of mythological stage plays, yes?
I agree with the Goddess of Beauty.
Occasionally having a different development is fine too.
Mmm
I am thinking that we shouldn't~
After all, this has developed into a situation where he has been cornered in every direction with absolutely no escape...
If mysterious divine powers suddenly turned the tables for the grand finale, it would be lackluster~

THERE'S NO NEED TO GO OUT OF OUR WAY TO HOLD YET ANOTHER ASSEMBLY FOR THIS INSECT.
Hmm
I see the opinion that the Goddess of Beauty and God of Wine shares.
HE SHOULD JUST BE DEALT WITH LIKE THIS, ABSOLUTE GOD!
キロ
IS THIS NOT AN UTTER WASTE OF TIME?
IT'S UN-THINKABLE FOR A GOD TO SAVE A HUMAN'S LIFE.
You seem to be in quite the bad mood, God of Hell.
For times like these, you should squeeze some breasts!
LIKE THIS
もみもみ

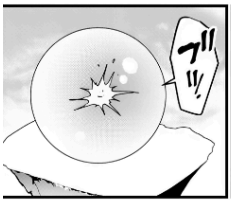

When we held the assembly to send in Raoul as a saviour, even you voted in favour, did you not?
NO NEED!
.....Shall I lend you mine?
Oh my
He made a wager.
A sort of *insect fighting* with the God of War.
This man did not support Raoul at all.
What, were you not aware? Goddess of Harvest.

TO BEGIN WITH, THIS INSECT RAOUL WAS A STINKING BUG THAT WASN'T EVEN WORTH BETTING ON!
HMPH- IT WAS AN EXTREMELY BORING WAGER.
Oh my... Holding such an enjoyable gamble?

I'll join in too~
I did have the desire to try my hand gambling...
ANYONE WANT IN?

...LET'S BEGIN THE NEXT BET.
All right, we get it, calm down... Your face is turning all black.

THIS IS NO EXECUTION. THIS IS JUST THE BEGINNING OF A STINKING DUNG BEETLE EXTERMINATION.
AND GOT WHAT HE DESERVED.
HE TOTALLY WASTED MY BET,

ｱﾚｰ!!

In that case, we will not be saving him then...
Right...

RATHER, THIS STINKING DUNG BEETLE SHOULD PERISH AND APOLOGIZE TO ME!
THERE ISN'T A SINGLE THING WE NEED TO DO!

Thanks everyone~
Much thanks for attending~
With this, the divine assembly has concluded~

Human beings are not the only ones I can use dark magic to peek into the memories of.
Since it seems like you are clueless, I will tell you.

I know about everything you've done in the past.
.....!

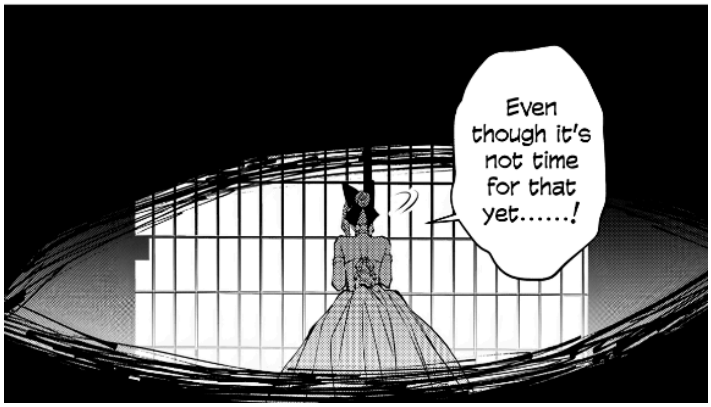

And even the fact that the god who Cristiana worshipped was you...
The fact that you appeared within Cristiana's dreams and imprinted a twisted sense of love upon her...
The fact that you induced Cristiana to tempt the Princess...
I've taken a peek into everything!
Ah!
If that's true, why did you act like you knew nothing until I brought all of that up just now, I wonder...?
That was because..... my actions backfired and caused you suffering instead.....
I did all of those for your sake...!!
Hahhn... Th... those were all because I love you, Raoul...!

Is that your "ambition"?
In the end, each and every one of you "gods" are arrogant, huh?
There isn't a single "one-of-a-kind" thing that exists between us.
And I'm sure you are the most aware about that.

You are the only one I love!
I beg of you, please scold me— the one who has forgone everything to think of only you...!
Ahh... What beautiful eyes you have!
This fearless look is the most precious in this world...!
You are a special existence ——
Ahh~ Please look at me more...!
My beloved... Please stay by my side forever...!
Let us live together here for the rest of our lives!

Conveying the same words of love to everyone regardless ...
What part of that is "one-of-a-kind"?

- The process, Raul receives the memories of the Goddess of Love, where he also has to process and calculate the information stored onto his mindset and brain, with the past experiences and motives into his brain.
- Raul had already adapted instantly in receiving said information,
- He instantly received the Goddess's memories the instant it was turned on.

As I looked at both of them, I turned on the magic of darkness to search the memory of the goddess of love.\n

In an instant, the "memory of the time of eternity," in which the goddess of love lived, flowed into my brain.\n

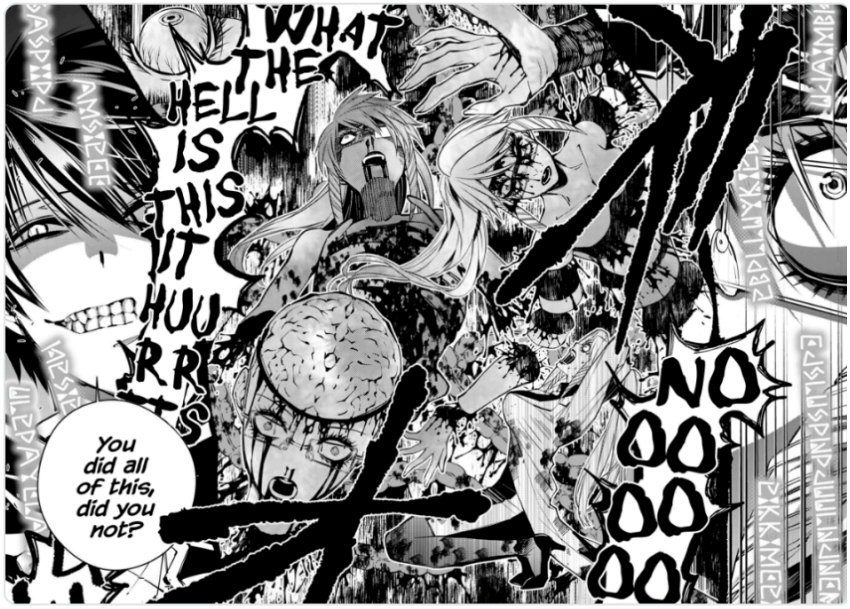

"The WMI is a measure of working memory abilities" Raul's WMI Feat derives from the conclusion that he gained the memories of the Goddess of Love's entire backstory, able to understand the information it held such as:

- The God-Killing Scythe, a weapon capable of negating the immortality of a God, where it was stored in the treasure repository in Heaven.
- The Assembly between Gods about the agreement to not save Raul with divine intervention where the God of Hell vouched said decision due to his loss on a bet.
- The corruption of the Saintess to where she used the Saintess and gave her the purpose to provide salvation, to where she used the Saintess to corrupt the Princess. She then used the Princess by possessing her to 'violate' Raul (SA basically) while he was chained to where she left his cell.
- There were 6-7 previous men she had relationships (to the point that she toyed with them for each generation)

"which involves attention" Raul has shown clear attention to detail with the Scythe's properties and location, and recall proper conversations and information such as the Goddess and her countless relationships a.k.a. "Everything you've done in the past"

"concentration, mental control" Raul has memory manipulation as well to the point where he can even force memories into others, but he's able to clearly show in the manga how he is able to search through said memories to find certain information in an instant by going through different sections of the Goddess's memories such as the Scythe.

Ehh
Saying such a thing at this point in time...
Amazing
Do you have any evidence !?
Unprovable facts don't mean a thing, do they!?
Proof?
There's no need for such a thing!

WHAT THE HELL IS THIS IT HUU RRRS

You did all of this, did you not?

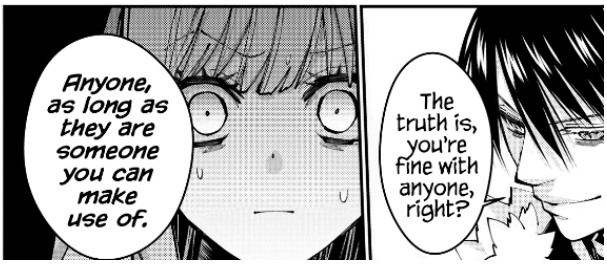

If you can't remember, would you like me to show you more?

I DID ITT TT TT TT

“and reasoning” Raul has reasoned to the point where he can understand the contradictions in the Goddess of Love’s motives and reasoning, able to see through her manipulative persona.

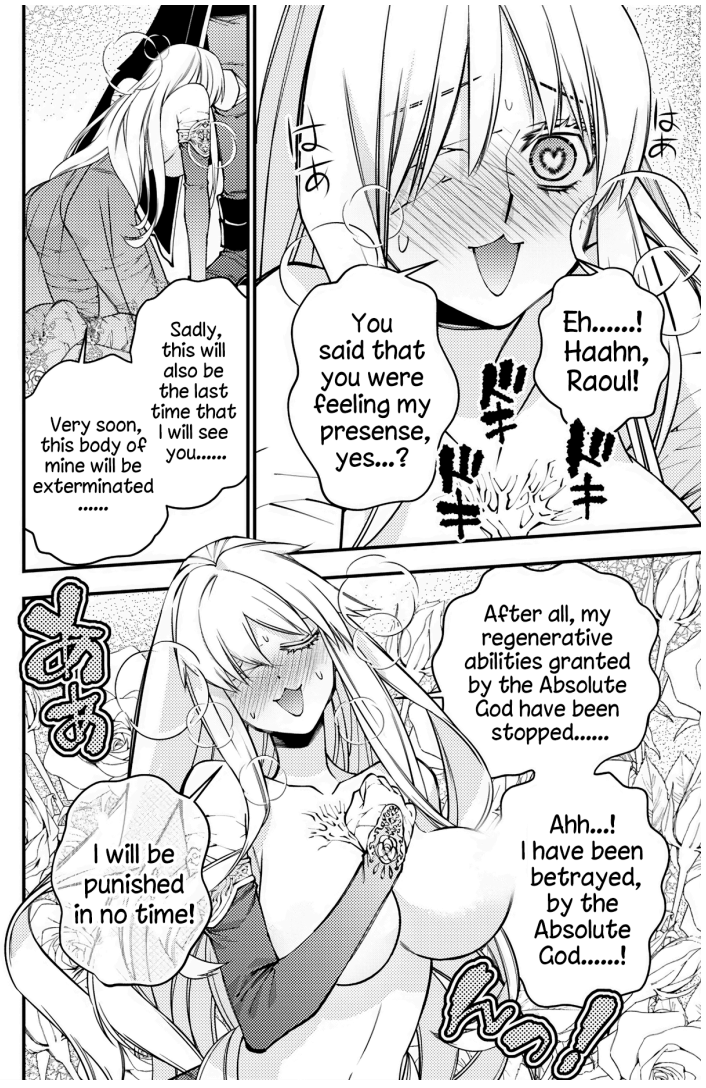

I always sensed your presence around any women who turned mad with lust.
And it's not just Cristiana. The Princess is on the same boat too.

Very soon, this body of mine will be exterminated .....
Sadly, this will also be the last time that I will see you.....
You said that you were feeling my presense, yes...?
Eh.....! Haahn, Raoul!
はあ

After all, my regenerative abilities granted by the Absolute God have been stopped.....
I will be punished in no time!
Ahh...! I have been betrayed, by the Absolute God.....!
ぐっ!

That guy has absolutely no interest in you!
Say... You should cut it out already with the lying...
Arrogant, complacent, and greedy.
Good riddance... Every last one of you gods are the exact same, huh?
Well, I still wouldn't forgive you even if you do apologize, though.
Why don't you control yourself and repent to me?
This is your last chance, Goddess.

Haph ...?
Ugh.
Don't answer with a heavy gasp, it's disgusting.
No. I'm not talking about that.
It was certainly inexcusable how I was unable to save you——...
Human beings are not the only ones I can use dark magic to peek into the memories of.
Since it seems like you are clueless, I will tell you.
I know about everything you've done in the past.

I did all of those for your sake...!!

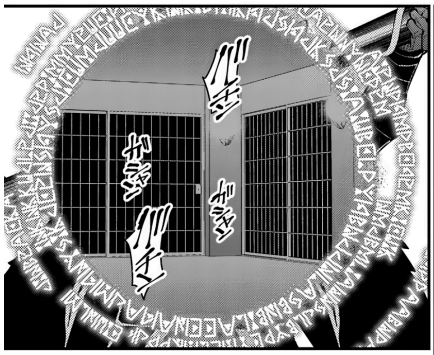

In that case, that totally sounds as if you never wished for me to be executed, though?
I have never wished for such a thing from the very start...!
They "back-fired"?
That's a strange way of putting it.

You did everything for my sake?
Don't make me laugh.

Why would I—who has only thought of you, my beloved—
ever wish for you to suffer ...!?
Ahhn...! Please do not doubt my love, Raoul!!! ...!!

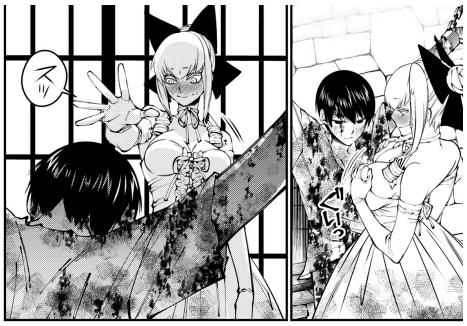

Noo ...!
I was only holding conversations with those pitiful lambs...!
"Brain-washing"... Let alone "control-ling"...
There's an irrationality with that excuse of yours, Goddess!
Despite brainwashing and controlling people,
you claim that you never wished for such an outcome...

I certainly know that.
You simply took advantage of openings that already existed within their hearts.

This was the only time I ever took control of someone.....!

Even though they were tempted by you,
both Cristiana and the Princess took actions of their own will, and there were plenty of opportunities for them to stop.
However, they simply continued on.
Therefore, they too are at fault. Hence my revenge.

ぐりゅりゅっ
Ahh– Raoul.....!
In that case, why are you doing something like this to me.....!?
Even though I was only showing you my love.....!

What you forced upon me was not love.
It was your own lust and ego.
Proof that you needed me is engraved upon this body of mine.....!
Bu... but, did you not need to rely on me many times.....!?
Here, please take a look at this!
It is all because you used me to satisfy those.

Just like you were using me.
I wasn't relying on you, I was merely using you.
And yet, why are you speaking as though I am being complacent .....!!?

No matter how much you try to deny it,

“Working memory tasks require the ability to temporarily retain information in memory” Raul has not only adapted to receiving the information, he is able to retain it as he was planning to take the powers of the God of Hell and kill him using the right means (Scythe). He’s able to use the information to uncover the God of Hell’s vouch for Raul not to be saved during his first death. As well as fighting the God of Hell for “3 days and 3 nights” until said God with Infinite Physical Stamina was mentally exhausted, while retaining said information about the Goddess of Love’s backstory during that time.
Timeline:

1. Receive the Goddess of Love’s Memory
2. Meet the God of Hell
3. Fight the God of Hell
4. He Tries to eradicate Hell which Raul countered after foresighting it
5. Battle for 3 Days and 3 Nights
6. “Negotiated” with a rigged contract
7. Kill the God of Hell
8. Confront the Goddess of Love after meeting her again.

Try to find your targets amongst these legions of deceased!
DON'T MESS WITH ME...!
GODS ARE ETERNAL! EVEN IF I CRUSH ALL OF THESE CRETIN, IT WOULD NOT EXHAUST ME ONE BIT!
THIS MUST BE THE DOING OF THE GODDESS OF LOVE AGAIN! BUT REGARDLESS, YOUR ARROGANCE ENDS HERE!
YOU WRETCH... WHAT WAS THAT SPELL THAT STOPPED MY POWER JUST NOW!?
YOU GOING DOWN ON YOUR KNEES TO BEG LIKE A DOG!
I SHALL WITNESS IT WITH MY OWN EYES...
YOU'LL BE DONE FOR ONCE I WEAR YOU OUT.
——...This God is crushing the fallen angels?

——Three Days Later

“perform some operation or manipulation with it” Scythe reasoning on how he found it again.
“and produce a result.” Him ensuring the necessary tools and goals to have revenge on all humans and Gods such as:

- A way to kill the Gods
- A surefire reason to kill the God of Hell

Why does this feat scale high?
Let’s calculate the amount of memories Raul had to take in on-screen wise:

We had to take in the amount of relationships where the Goddess of Love had, on-screen wise had shown 7-8 men in said relationship, following this she’s said that the Goddess had toyed with them for each generation

A generation is all of the people born and living at about the same time, regarded collectively. It also is "the average period generally considered to be about 20–30 years, during which children are born and grow up, become adults, and begin to have children."

30 years x 7 Generations of Men = 210 years in Raul's instant
And that's not even accounting for information such as the God-Killing Scythe, the corruption of the Saintess, and the meeting with the Gods.

But ultimately I'd like to say it's equal due to one thing:

- We do not know the age of the Goddess or the world they set in.
-

Visual Spatial Index:

Hell barrier feat-

Raoul created a barrier to prevent the god of hell from destroying hell itself. [Which is a different space from the human world and the Divine Realm. Hell is a realm I'll by the God of Hell to bring eternal torture to living beings, it is literally the same thing as the Divine Kingdom (Heaven) which is a white void that extends to infinity and which is also said to be a different space]

1. **He had to visualize hell the restore it to its former point, restoring not only the participants but the Execution Grounds, there were evidences that he saw over all of the execution grounds and its punished inhabitants (they never stated about needing to repair hell as I remember, they only stated to improve it)**
2. **He expected that this action judging from his actions and his past behavior, both information can be obtained from his memory with the Goddess of Love and the meetings Raul had with the God of Hell with his temper.**
3. **Raul clearly states " It took quite a bit of time to perfect the spell, though." meaning he had to:**

a. Prepare a type of counter-magic against the God of Hell, which was covered from the fact that he can cast holy magic under the authority of a god with the Goddess of Love's heart that he pulled out.
b. He had to visualize the area of his magic to understand the range of his attack and cover every area within it.
c. Overpower the God of Hell mentally by forcing him to pull out his strongest move and deny it completely and exhaust him to force fear into him.

[Where I am.....? oh I see. So I went back to this place]

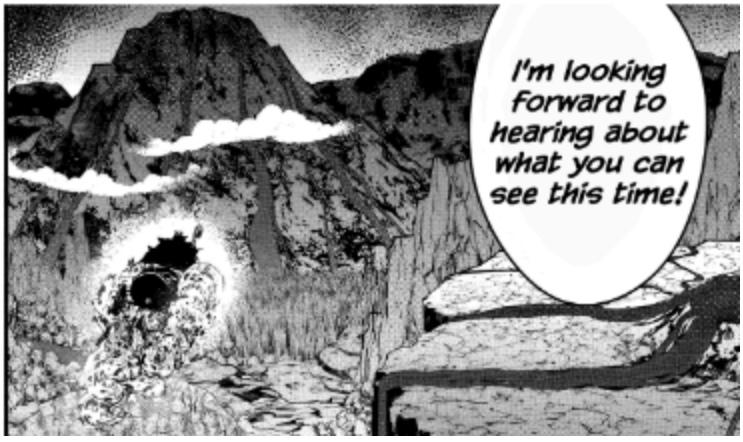

Muttering to myself, I looked around slowly.

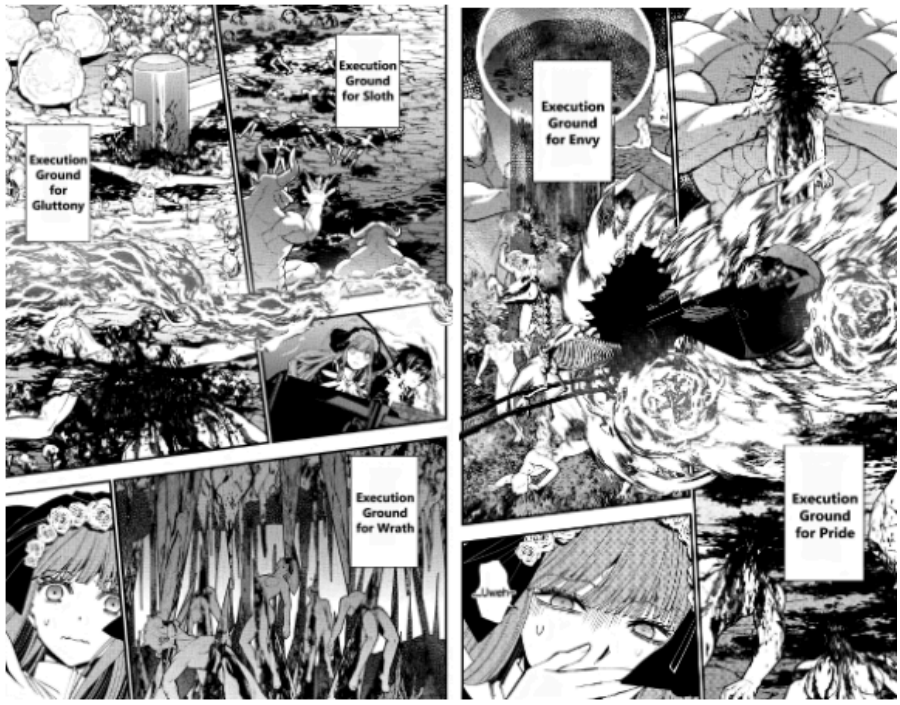

There was nothing, it was just surrounded by White.

The white world expanded infinitely.

Nonetheless, there are all sorts of execution grounds here, aren't there...?

Although they exist to punish sinners,
it's fascinating how it was God who created all of these, isn't it?

I WILL NOW RE-BUILD HELL.
YOUR FEEBLE EXISTENCES BECAME SUBJECT TO MY WILL.
THE MOMENT YOU FELL DOWN INTO HELL,
This is bad...!!
WILL BE ERADICATED.

!!?

God here tried to eradicate Hell itself, so I stopped him!
Wh... What happened!?
I'M CERTAIN I ERADICATED HELL JUST NOW——
ABSURD——
I formed a barrier around the entirety of Hell, you see.
Are you saying that you knew this would happen from the start...?
Mhm.
It took quite a bit of time to perfect the spell, though.
You can do something like that...!?

“provides a measure of inte- gration and synthesis” Raul easily integrated the visualization of hell into his magic through his scouting over with the chariot the Goddess provided and the transportation through the fallen angels.
“of visual spatial relation- ships” He needed to understand the range needed for the barrier to cover the entirety of hell.
“visual attentiveness to detail” This includes the execution grounds and the individuals that were punished for their sins, as well as the monsters inhabiting hell to carry out the punishments.
“and visual- motor integration” Raul managed to expect an attack like this due to the God of Hell’s temper, he says “it took quite a bit of time to perfect the spell, though” proves that he foresaw an attack like this.

a. Prepare a type of counter-magic against the God of Hell (He can cast holy magic under the authority of a god with the Goddess of Love's heart that he pulled out.)
b. He had to visualize the area of his magic to understand the range of his attack and cover every area within it. (He’s scouted all over hell to visualize the range of his attack in his head)
c. Overpower the God of Hell mentally by forcing him to pull out his strongest move and deny it completely and exhaust him to force fear into him. (Raul “baited him” him to lose his temper by denying his eradication)

Why does this feat scale high?

- He's able to hell is an infinitely expanding world, the area of the visualization needed here is on a universal level since hell is a separate dimension like the white world.

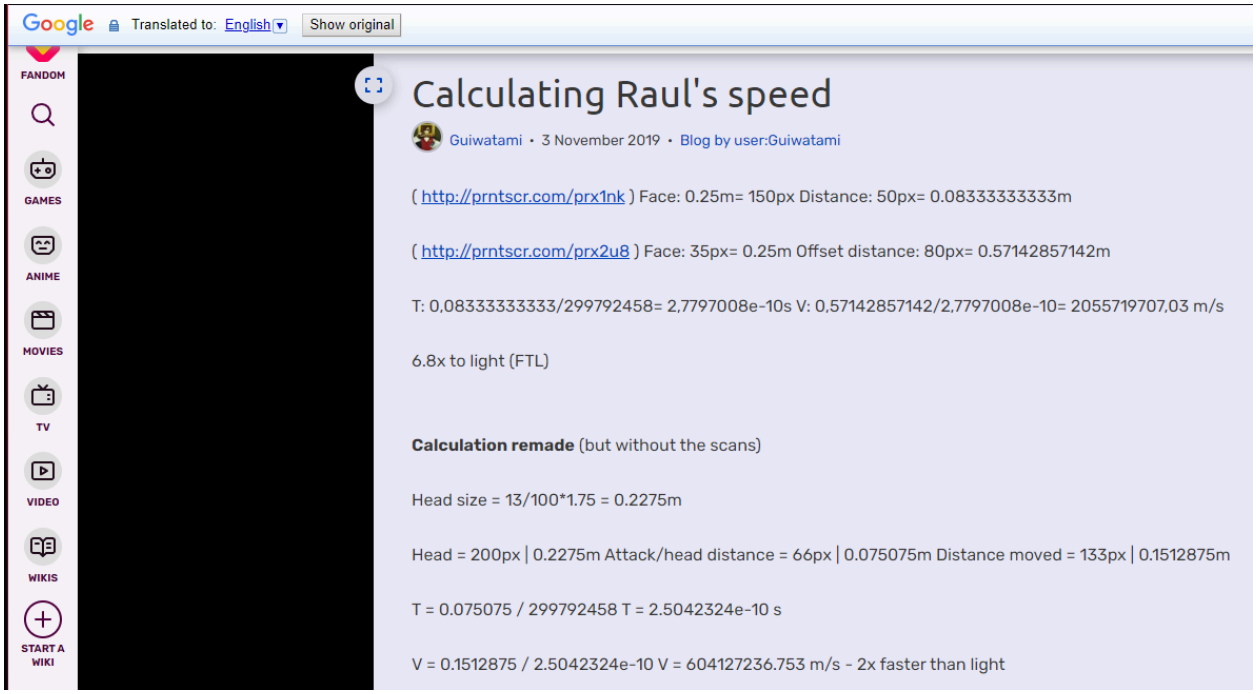

What about something more about perceiving attacks?

- Honestly the best I can find is where he dodged a sword and then crouched on it, it's calculated to be around Massively FTL+ but I

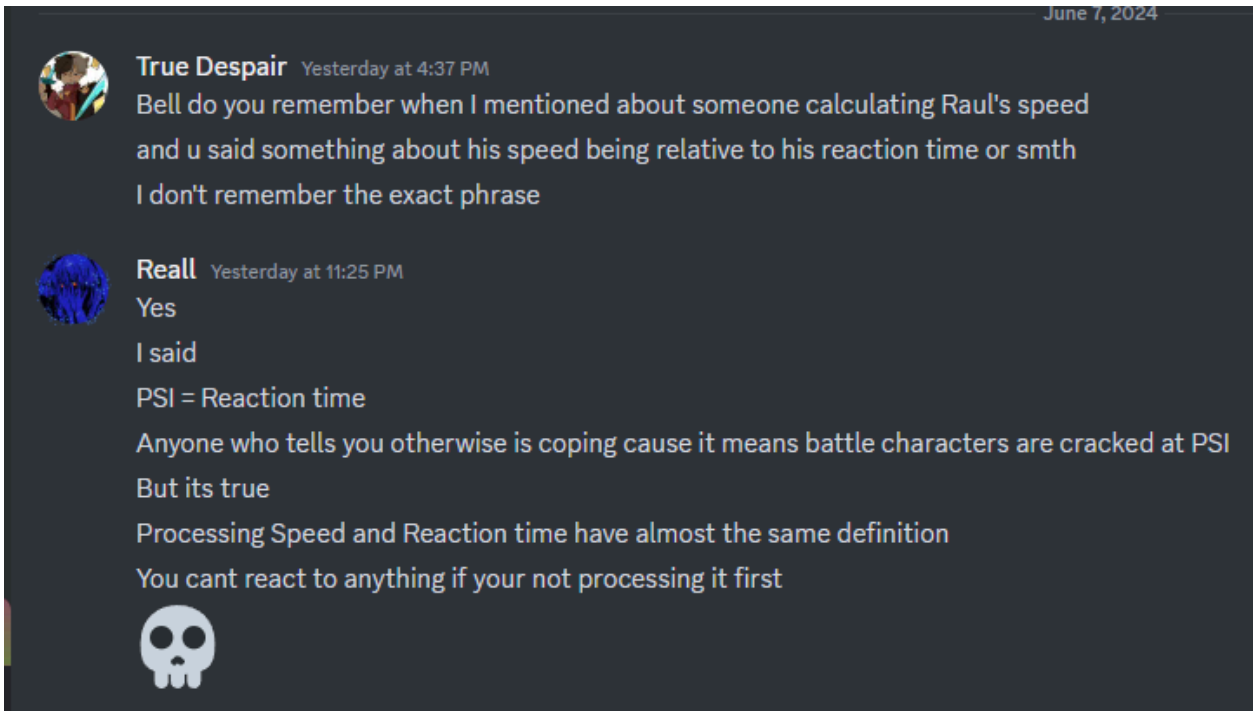

recommend getting ur own calculation if you don't trust this (Since apparently the scans he's showing are not working for some reason, I might try the contact them, and I have to blindly guess the scans he used)

Speed: At least **Massively FTL+** (Easily avoided the attacks from the God of Hell who had absolute supremacy of all of Hell itself meaning speed is irrelevant to him). (Casually dodged a lightspeed slash from Ernest at 6.8 times the speed of light)

And I heard something about Bell saying something about their speed is relative to their reaction time but I don't wanna rely on this statement. So it's fine if you don't want to use this feat.

Processing Speed Index

This whole feat is also based on the WMI Feat of Raul Evans:

- The conclusion made in WMI would rather be similar in PSI because it's literally both categories that would equal CPI
- We would focus on how fast really did Raul process the said information by receiving it through his magic.
- Very simple as well as the moment he activated his dark magic he clear stated "In an instant, the 'eternity time memory"' in which the Goddess of love lived flowed into my brain"

In an instant, the "eternity time memory" in which the goddess of love lived flowed into my brain.

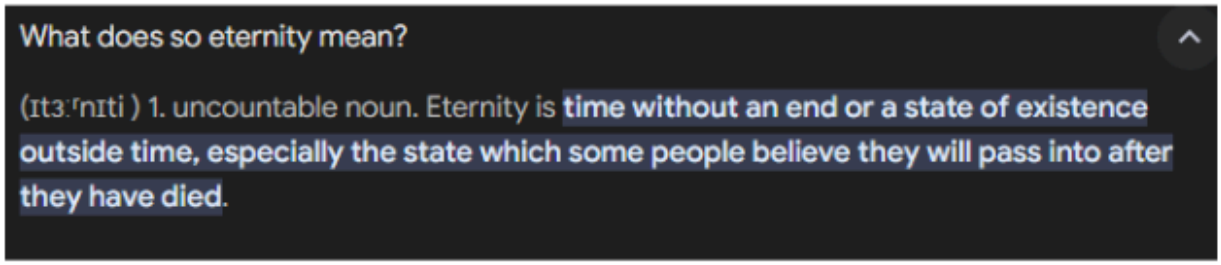

I broke down the enormous amount of information and found what I was looking for.

[I found it~. If it exists after all. How to cancel it "definitively"]

According to the memory of the goddess of love, it seems that a weapon called "God-killing Scythe" that is sealed in the treasure hall in the heavenly world.

[A scythe that can kill a god huh? Sounds really good]

[N-No, Raúl.....! The god-killing scythe is an absolute possession of the gods. You shouldn't think about scary things like aiming for that.....!]

- "0.00000000…1 MilliSeconds to be specific speed or lowest to lowest of the quantity of the number" Raul processes all the information about the Goddess of Love in an instant explicitly..

“The PSI measures the speed of mental processing” Raul processed his memories the moment he activated his dark magic.
“using visual stimuli and graphomotor skills” Visual memories that he has shown to us that he recovered instantly, to which he used to further his plans.
“and is importantly related to the efficient use of other cognitive abilities” Same reasoning as before.
