Reverend Insanity
Volume 3 Analysis

- Kiryu Moretti

“We soloing SCD with this one fr”

-Fang Yuan

Introduction

Reverend Insanity takes place in a cruel world, a world where people don't hesitate to betray and kill, a world where people crave for wealth and power. Schemes run deep everywhere, from between Rank 1 students of a small sect to the divine Rank 9 Venerables. People scheme for wealth, for love, for lifespan and for their dreams.

Fang Yuan, originally a scholar from Earth, started in this Gu world as a naive good hearted person. He had experienced many things, and had gotten bored of what the world had to offer him after living for 300 yrs… He then decided after meeting the love of his life, to drop his mask and live as he wanted, to chase after a grand goal… What goal can be grander than obtaining immortality? Thus he chooses to do anything, to himself or others, to become truly immortal.

Due to a series of events for the next 200 yrs, he had refined a Rank 6 Spring Autumn Cicada, a Gu that can allow him to travel to the past and change his future. He had promised that he will be a demon in his next life, and had exploded himself when surrounded by enemies to travel 500 yrs to the past, to be reborn again as the kid from Gu Yue Mountain.

This Doc covers what Fang Yuan did after Volume 2, his schemes, deception and manipulation throughout the volume to move toward his ultimate goal. Fang Yuan after vol 2 has the ownership of the Hu Immortal blessed land, and Fixed Immortal Travel Gu (Rank 6), along with the anger of the entire southern plains.

Note : There are various mentions of Wolf kings. Wolf kings are larger wolves that command an army of wolves. They can be ranked based on the number of wolves under them as hundred, thousand or myriad wolf king…. The character Chang Shan Yin is also called The Wolf King as he is able to command a large number of wolves in a battle after enslaving them. Enslaving these wolves involves fighting them till they are weakened enough.

The Power System

The knowledge of the power system is required for scalers to understand the Adversity Fang Yuan faces in the entire volume. Lemme break it down for ya

Firstly there are mortals. Mortals don't have any power.
Then there are people amongst mortals who can awaken their aperture with hope gu at a young age. These are cultivators.

These cultivators progress from Rank 1 to Rank 9. Rank 1 to Rank 5 are mortal cultivators, while Rank 6 to Rank 8 are immortal cultivators. Rank 9 beings are called Venerables.

These cultivators have apertures from rank 1. Apertures are like a small sphere filled with Primeval Essence (Think of em as fuel). The cultivators can use these primeval essence to control creatures spread out among the Gu world called "Gu" (Think of em as pokemons but insects)

The Gu s can also vary from Rank 1 to Rank 9. A Rank 3 Gu can be used effectively by a Rank 3 and above cultivators (If lower rank cultivators use it, It will consume a very high amount of essence, among other side effects).

Also lower ranked gus can be fused with other lower ranked gus through a specific process called Refinement along with other raw materials and sometimes with specific rituals to make higher ranked gus' with specific recipes. But Refinement always has a chance of failure, the chance of failure increasing the higher the target gu rank is.

After refinement, catching it in the wild, or taking it from someone else (usually difficult cuz once under control, the cultivator can kill the gu in a second through a mental command), the cultivator's own essence from the aperture is inserted into the gu to take control of it. Once under control, the gu lives in the cultivator's aperture, requiring regular feeding of food [depends on a case by case basis] and the essence to nourish itself.

The higher the Gu's rank, the larger the amount of food the Gu worm needs, but the interval it takes to feed another time gets longer too.

Whenever the cultivator uses essence, it is refilled automatically in the aperture. Another way to refill lost essence is the primeval essence stones, which are also used as

the preferred currency in the mortal gu world. Essence can be found in essence springs, natural structures that naturally produce essence stones over time.

Rank 6 and above are Immortals cuz their apertures is a mini world which produces Immortal essence over time that can activate immortal gu. The measurement unit of immoral essence is in beads, and 1 bead of immortal essence can produce an infinite amount of primeval essence. Thus Immortals from rank 6 onwards use immortal essence stones and barter methods in their economy.
They can also infinitely use Gus' under Rank 5, but in an immortal lvl fight these Gus' get damaged from overuse and may even die.

The Gus' can have various powers, for example, Rank 1 moon blade gu can shoot moon blades that can inflict cuts. The higher the rank, the better tha power until rank 5. From Rank 6 onwards, only one Gu shall exist in the entire world for that unique power. Ex: Rank 6 Spring Autumn Cicada is only one in number in the whole world and is with Fang Yuan, while Rank 1 moon blade gus' can be found in hundreds. When an immortal (>Rank 6 Gu) is present with someone, no one else can refine even if they have all the raw materials.

Instead of using random Gu worms, ppl use a similar set of gu worms to follow a path. For eg: Strength path Gu Masters (another name for the cultivators) use strength increasing gus', Skin hardening gu, some type of movement gu for faster movemnt while fighting, etc.. Also, various gu worms can be used at the same time to produce a synergistic effect called Killer moves. Ppl usually take many years to find the right combination and a very good killer move

Progression : From Rank 1 to 5, ppl had to use their essence as a strong wave against the wall of their Aperture to break it down, first eroding it slowly and then breaking the walls in one fell swoop to progress to the next level

From Rank 5 to 6 after breaking the aperture wall, both heaven and earth start pouring their energies towards the aperture. This energy can also carry enlightenment regarding anything, but mostly on a recipe to refine immortal gu. The heave, earth and life energy needs to be balanced perfectly for the advancement to work, and it is followed by tribulations.

From Rank 6 onwards a Gu Immortal faces tribulations (Natural Calamities) of varying scales in the Aperture which has become a small world by now. The Gu Immortals can place their Aperture Outside the body for entering inside, and tribulations take place in this world on a regular basis. The Aperture needs to withstand a certain amount of

tribulations, which occur every 10, 50 and 100 yrs to advance. It is very difficult to enter the Immortal Aperture of someone without their permission

The Rate of flow of time in the aperture is different from that of the world. When Gu Immortals die, their Apertures are left behind in the world where it is managed by their will (An AI with the goals of the person), which can choose someone else to take ownership of the land.

The Venerables are the most powerful in the verse, capable of living thousands to millions of years and have complete mastery over their path. Historically, there were 9 venerables, but currently in this arc, there aren't any alive or significant to this arc.

Plans to Move Forward

Fang Yuan immediately faced a calamity following acquisition of Hu Immortal Blessed land. This has forced the Dang Hun Mountains in the land to start eroding. Dang Hun Mountain is very important for fang yuan, to strengthen his soul and to sell its produce to the outside world to earn money (essence in this universe).

He says that he had planned for everything but situations have changed drastically from his plans by the end of Vol1 and Vol2. Thankfully he can manage due to having backup plans. { Long Term Planning }

With his knowledge from the future, he rounds down to 3 people who can help him restore the Dang Hun mountain. After analysing the threat levels of their respective region, Fang Yuan decides to get Tai Bai Yun Sheng, a Northern Plains Gu Master to help him [Reasoning : TBYS hasn't become a gu immortal yet, said to be a kind and gentle character, even if he dies, the northern plains wouldn't care]. {Short Term Planning, Reasoning, Analysis }

He prepares for his trip to the Northern plain for several months, , refining Rank 5 Moving Perspective Gu (ability : transport objects between holders of the pair of Cups, can be used to transport things b/w lil Hu and Fang Yuan), among other Gus', He left some instructions to Little Hu to operate the Mountain and used the stored immortal essence in the blessed land to leave for the Northern Plains using his Fixed Immortal Travel gu (ability : teleportation near the required place) {Planning Preparation }

[Note : Little Hu is the AI(will) of the Gu Immortal who originally died maintaining the blessed land, it had accepted Fang Yuan as its master and Owner of the Hu Immortal Blessed land]

Ge Yao Seduction Feat

Manipulating and Seducing Ge Yao

Fang Yuan teleports naked in front of Ge Yao, who was fending for her life against a few hundred wolves controlled by the wolf king. Ge Yao was a Rank 3 Gu Master on her last stand after running away from the arranged marriage in her clan and was praying to the heavens for help.

Fang Yuan after teleporting, observes the situation, commenting his secret trip to the northern plains has been exposed on arrival and starts acting. He kills off the wolves, and saves Ge Yao. After Ge Yao introduces herself as the daughter of the tribe leader of Ge tribe, Fang Yuan introduces himself as Chang Shan Yin [Starting to weave his fake identity, this is the name of a legendary dead warrior in the plains. But Ge Yao doesn't remember the warrior's name, even though she has heard it.] with a laugh, making Ge Yao slightly lower her guard. {Observation, Fabrication, Acting, Deception, Improvisation, Disguise}

He then dresses up and gives off the mannerisms of a valiant and courageous warrior in front of her. Ge Yao asks where he is from, for which Fang Yuan replies he is from the Northern Plains. Ge Yao doesn't believe this due to his accent and states so. Fang Yuan replies that she is too talkative and now he is leaving. [Note that Fang Yuan knows that he is talking in the wrong accent, He does this purposefully to create an air of mystery, of who he is really] {VCI, Acting}

This makes Ge Yao interested in Fang Yuan. Fang Yuan then proceeds to subtly check whether she identifies Fixed Immortal Travel, and after confirming she doesn't, He proceeds to follow his plan. {Observation}

Fang Yuan acts like he isn't interested in Ge Yao, but his sudden and mysterious appearance, along with his strength attracts Ge Yao. Fang Yuan needs to go towards the poison grassland, but is only of Rank 3 strength. He needs Ge Yao so that he can survive his journey. Fang Yuan acts with a hint of arrogance, asking Ge Yao what he needs her for? (Makes himself look as if he is a powerful guy who doesn't care about her) { Direct Manipulation, Emotional Manipulation}

Ge Yao reveals that she has Detoxification Gu and Return Heart Gu (ability : find direction) [Fang Yuan takes the conversation in such a way that He can find out what Gu/use she has, never letting her realise that he is controlling the flow of conversation by asking leading questions] {VCI, Verbal Manipulation, Information Gathering}

Fang Yuan leads the question as to why she had a simple mount when her father was a tribe leader (After she reveals her mount was killed by wolves), when she mentions escaping, He deduces and announces that she has escaped away from forced marriage [Using his knowledge of the state of women in the northern plains] {Deduction}

Fang Yuan shared his food when he saw Ge Yao hungry. She reveals that the arranged husband is ill and lacks a heroic spirit, and asks if Fang can kidnap her or marry her into the clan. Fang Yuan keeps on saying that he is not interested, which makes her feel insecure about herself, and keeps on asking Fang Yuan the reason he isn't interested. Fang Yuan gives in to her persuasion, and tells her that he will consider the offer. [Fang Yuan has made an impression of a Strong but a mysterious warrior, also an aloof character. He has lead the conversation till here, making himself as a goal to achieve for Ge Yao] {VCI, Verbal Manipulation, Seduction}

They enter the poisonous marshland and encounter another wolf horde. Fang Yuan notes that Ge Yao has a detector type Gu, as she detected the horde earlier. When the fight actually starts, Fang Yuan leaves Ge Yao to fend for herself, to check what Gus' she has to attack and defend. {Information Gathering}

Fang Yuan fights valiantly like a brave warrior in front of her, and kills the pack leader after getting hurt. Fang Yuan has two healing gus', one that can't heal him that much and one that can heal pretty well. He shows that he is hurt to Ge Yao, making her worry. He uses the ineffective healing gu in front of her, to see whether she has any healing gu. She reveals that she has an AOE healing gu, but Fang Yuan refuses her help and heals himself using his effective Gu. {Information Gathering}

Fang Yuan also berates Ge Yao for her inefficient fighting techniques and teaches her how to fight the next battles properly. He does this not only to improve her, but also to check out all her trump cards, on which he obtains complete info of. {Verbal Manipulation, Information Gathering}

Ge Yao, realising that Fang Yuan is cunning in battle too, as a leader of her tribe uses her foresight (added this cuz the author mentioned this) to realize that even if Fang Yuan doesn't marry her, She could ask him to be the guest of her tribe so that he could educate the tribe's next generation. She asks if Fang Yuan wants the position of an external elder or a guest of her tribe, to which Fang Yuan agrees on being a guest. [Fang Yuan reveals his high battle iq to make her want him in the tribe]

Fang Yuan reveals his Grass puppet Gu, which is only found in the Southern Border, to clear a field of Ghostly Sunflowers [Ge Yao doesn't know about Gus' of other lands, which Fang Yuan has verified beforehand by using the previously mentioned healing Gu]. Fang Yuan pulled the scared Ge Yao by her hand, patting her hand gently when she was shook. This act made Ge Yao determined to find out about Chang Shan Yin [Fang Yuan]. {Seduction}

Fang Yuan has travelled with Ge Yao into this Poisonous marshland for 2 reasons. The first is to hide away his Fixed Immortal Travel Gu, as someone may recognise it's immortal aura and Fang Yuan's mortal aperture can't store this inside [It has been on his shoulder the entire time]. The second is to reach the remains of Chang Shan Yin, which he knows the location of with his previous life. {Planning}

He flies in the next region, carrying Ge Yao in his arms to evade the spiked earth rat. but they have to fight off Shadow crows. Fang yuan designates Ge Yao to attack as he is carrying her. He flies in dangerous ways and scolds Ge Yao for not aiming properly. As Ge Yao makes more mistakes, Fang Yuan scolds her harshly, causing her to fluster and sob. Seeing this, Fang Yuan becomes gentle, and gently tells her to calm down and focus. {Verbal Manipulation, Emotional Manipulation, Seduction, Psychological Manipulation, Guilt tripping}

After the fight, Ge Yao feels very relieved and very happy. Her opinion of Fang Yuan becomes higher. Now Fang Yuan starts hiding his Fixed Immortal Travel inside other Gus' (Learnt the method to hide in his 1st life) and leads Ge Yao onto the battlefield where Chang Shan Yin's remains remain.

This causes Ge Yao to recall that Chang Shan Yin was the wolf king who has died, and she asks that Fang Yuan looks too young to be Chang Shan Yin. She asks if he is Chang Shan Yin's son, for which he doesn't answer and instead starts the fight with a wild Rank 5 White Bone Wheel Gu. So Fang Yuan and Ge Yao wear it down for 4 hours, taking turns to attack and after the battle Fang Yuan takes control of the Gu. {Information Control, Event Manipulation}

A Short Quote Break

Fang Yuan recalls the Legendary immortal who used the bone path Gu worms, and wonders when he can become more powerful like them. As he recalls other legendary figures, He says

“As a man living in the present age, I should be like this, unrestrained by the mortal realm, doing things without worry, killing whoever I dislike. When my heart is evil, I slaughter all beings, and when I am virtuous, I bless the world. The world moves according to my emotions, I dominate everything, any enemy who resists me is trampled underfoot. Oh, this is true freedom, a cheerful and carefree life!”

This shows his ambition to be on top of the world, to be unmoved by anything but move the world on his whim instead.

Revival of Chang Shan Yin

The Wolf King Chang Shan Yin nearly died in the battle, but he had used Wolf fetus Burial Gu, which could save the user as long as even one breath is left [Makes the user be in a cocooned state until he is awakened by someone else]. In Fang Yuan's first life, Ma Hong Yun accidentally awakened Chang Shan Yin from his slumber, and knowing that information, Fang Yuan proceeded to the place where Chang Shan Yin was found.

Fang Yuan was this knowledgeable due to reading Ma Hong Yun's biography. [Recalls the location from a book he read years ago, which contains the recollection of more than 400 yr old memories]. After reaching the location, he finds Chang Shan Yin inside a pregnant wolf Gu, still injured and needing another 10 yrs to recover. {WMI, TRI, Memory}

Fang Yuan cuts the Gu open in such a way that blood and filth are splashed around, which makes Ge Yao distance herself from there. This gives enough privacy for Fang Yuan to kill the unconscious Chang Shan Yin, and take his Rank 4 Gus', which Fang Yuan needed very much after entering Northern Plains. {Information Control, Deception}

Ge Yao sees Chang Shan Yin is dead, and helps Fang Yuan with cleaning the body while asking whether he is Chang Shan Yin's son.Ge Yao thinks that Fang Yuan wants to bring the body back. But Fang Yuan extracts the skin of Chang Shan Yin using his demonic path Gu worms, shocking Ge Yao. He further refines Human Skin Gu with the extracted skin on the spot, by following a precise procedure where the timing has to be perfect.

He then tells Ge Yao to close her eyes to not see the bloody scene. Ge Yao doesn't, and is shocked at seeing Fang Yuan slicing his chest with a dagger, and slowly peeled of his skin and replacing it with Chang Shan Yin's using the Human skin Gu and variety of Gus' he prepared in advance (Like Staunch bleeding Gu to prevent bleeding). Fang Yuan grinds his teeth in pain, not making a sound and moving swiftly and precisely. {Composure, Cognitive Discipline, Stress Tolerance, Mental Fortitude}

Ge Yao trembles at this scene, but Fang Yuan proceeds to peel off his face and change it, subsequently changing his whole body and skin to be of Chang Shan Yin. Ge Yao is horrified, trembling and asking "You, You!" for which Fang Yuan replies that he is Chang Shan Yin, in a perfect Northern plains accent this time. He knows the accent, he just chooses to use it now. {VCI}

Fang Yuan goes on to explain that he escaped with his soul when he was dying in the battle. He further says that if he wanted to kill Ge Yao, why would he train and protect her. He further says that it took him 20 yrs to find a foreigner's body to occupy, since he doesn't want to kill a native for selfish reasons. He asks whether she will attack him just because he acted like an outsider. He laughs and asks in a righteous tone {Fabrication, Deception, Verbal Manipulation, Acting Skills}

[Fang Yuan has always implanted seeds of doubts in her from the moment she met. He acts like he doesn't need her, he speaks as if he is a northern plain native while using foreign accent, this incongruity causes her to hesitate, and him acting like a righteous warrior causes her to lower her guard. Atlast, him asking questions and hastening the situation makes her not to think too deeply]

Ge Yao gradually lets her guard down and asks him how he will prove his identity, to which Fang Yuan replies that he has always told the truth to her from meeting her, and she can leave if she wants to. When Ge yao becomes silent, Fang Yuan observing her expression and understanding her emotional state, states that It's dangerous for her to go alone, and he will help convince her father to stop the marriage, along with finding her valuable Gu [A potent poison healing Gu :Rank 4 Snow Wash Gu, which was searched for by the original Chang Shan Yin to cure his mother's poisoning] since he wants to find them too. {Negotiation, Verbal and Emotional Manipulation, Emotional Perception and Understanding}

Ge Yao asks why would he need the Gu when his mother is already dead, to which Fang Yuan answers, that he couldn't bring the Gu home to cure his mother because of the battle and ambush, and he wishes to atone for it by bringing the Gu to his mother's tomb. He says this with tears falling down his cheeks. Ge Yao becomes convinced by this act and tries consoling Fang Yuan, she feels guilty for doubting him.[Fang Yuan steers the conversation towards Chang Shan Yin's mother, and when the topic comes, he cries with tears, convincing Ge Yao that his identity is true] Fang Yuan further says it's alright, causing her guilt to become even heavier.{Acting, Guilt tripping, Emotional Manipulation}

After finding the Rank 4 Snow Wash Gu, he takes 1 and gives 2 to Ge Yao, causing her to feel grateful. He then proceeds to completely seal his Fixed immortal Travel Gu and hide it deep underground, so that he could take it back and use it when he needs. He has done all he can to hide it, and thinks even if it is found, he should just move on, instead of bringing it with him and becoming a target for Gu Immortals.{Emotional Manipulation, Cognitive Discipline, Planning}

Now that his objectives are over, Fang Yuan is returning to the tribe's location with the help of Ge Yao and her Return Heart Gu. The encounter various wolf hordes, which Fang Yuan enslaves [Like the original wolf king Chang Shan Yin, he took Gu for enslavement from his remains]

Fang Yuan’s Marriage with Ge Yao

Both Fang Yuan and Ge Yao rest at a bonfire, and Fang Yuan manages his Hu immortal Blessed land from afar using Moving Perspective Gu [To make it look like he is always in the Hu immortal blessed land when he is not, as others don't know the existence of this Gu.] Ge Yao becomes entranced in Fang Yuan’s visage, thinking back to all that happened till now. {Information Control, Deception}

Ge Yao is sad at the fact that Fang Yuan doesn’t notice her, but she understands that he has lived a difficult life, getting betrayed by his best friend, losing his mother, wife and has now climbed back from the abyss [She’s recalling Chang Shan Yin’s story]. He has been gentle, warm and kind to her throughout the journey. She concludes that he carries endless pain and suffering under that mature visage, and wants to hug and comfort the former wolf king, who is alone now. {Seduction}

Ge Yao confronts Fang Yuan, asking him to be his husband, to which Fang Yuan replies that he is 20 yrs older and his son would be a good match. She still insists to at least be kept a concubine, even when Fang yuan says his heart goes for his wife only.

Ge Yao becomes teary eyed and tries to reason. Meanwhile another large wolf horde is attracted to the bonfire. Fang Yuan releases his wolves to battle. Fang Yuan asks her to kill the wolf king as he is out of essence. Ge Yao doesn't move, as she demands an answer now. Fang Yuan finally agrees that he will marry her after she kills the wolf king. {Negotiation}

Ge Yao returns, with blood and injuries but also with the wolf king's head. Fang Yuan accepts her as his wife, stating that her love has moved him. Fang Yuan gazed at Ge Yao profoundly and hugged her, Ge Yao became happy in the warm embrace as she hugged back. {Seduction}

But she is stabbed in the chest by Fang Yuan, Ge Yao becomes shocked and angry with Fang Yuan, asking why. Fang Yuan recites a story from <<The Legends of Ren Zu>> [A similar story happened here, this story tying Fang Yuan's actions thematically and symbolically with Desolate Moon's action's in the book]. He answers that she blocked his path to success.

Ge Yao states that even if she blocked the path, she loves him and urges him to take her Gu worms, but Fang Yuan refuses. She asks him to hug one last time, but Fang Yuan refuses. [This was later revealed to be a trap by Ge Yao, as the aura in her Gu worms can help her clan identify that the Gu worms were originally hers, outing Fang Yuan as her killer. The last request to hug was also a trap, She wanted to suicide kill Fang Yuan]. Fang Yuan feeds her dead body to one of the wolves that he has enslaved, and moves on. {Trap Evasion, Foresight and Caution}

Fang Yuan reveals in the next chapter that he had intended to murder Ge Yao the moment she saw Fixed Immortal Travel. He observes that she has become useless after crossing the poisonous marshland, and going back to the clan with her can be a security risk to his plans, as she could be coerced, or soul searched into telling the truth. Being with her may also attract unnecessary attraction towards himself, So he had planned murdering her the moment he teleported into the Northern plains. {Short Term Planning, Foresight, Caution}

A Short Quote Break

I am not explaining this. Instead, I have quoted the entire thing below. This doesn't need an explanation

All in all, Ge Yao had been wiped off the face of this world. Her only remains, might probably be the faeces that the poison beard wolves excrete.

Hehehe.

This so-called beauty, in the end, was just a pile of shit.

Ashes to ashes, dust to dust.

A beautiful young girl, in this heaven and earth, she was just like a flower. Either she gets trampled on at the roadside, or she wilters when her time is up, becoming an ugly fertilizer for the earth.

"Without eternal life, even the most beautiful thing is but the reflection of the moon in the water. The value of their existence is mere for that second of elegance." The more experiences that Fang Yuan went through, the more he understood the cruelty of this world. Without immortality, even the most valuable of things will become worthless.

"The so-called praise for a hundred years, or leaving a stench for ten thousand years, these are all superficial thoughts of those cowards. The so-called immortality in spirit is merely a tool for descendants to make use of. Is it true that the existence of humans can only be affirmed through one another? So be it on Earth. But here in this world, if there is even a slight possibility, I want to pursue it!"

"Even if I die on the road while pursuing my goals, even if I die a million times worse than Ge Yao, I have absolutely no regrets..."

Fang Yuan was resolved for death from the start.

But only if he placed all his effort, and contributed his all towards the pursuit of his dream, could he die without a hint of regret.

Heh.

Who could understand the heart of this transmigrator plus reincarnator Fang Yuan?

The road he walked on was destined to be filled with endless darkness, he was destined to be lonely forever.

The direction he walked was towards the light in his heart — immortality — a possibility so slim that it was almost impossible.

In this world, nobody understood him.

But he...

Does not need anyone's understanding.

Infiltration of The Ge Tribe

Fang Yuan analysed his current situation and made plans. He can hide the Immortal Gu's aura for one month and he needs Rank 3 and Rank 4 Wolf Enslavement Gu recipes, to enter the limelight as Chang Shan Yin

Meanwhile, Ge Guang, the brother of Ge Yao, had taken some of the soldiers to search for Ge Yao, but they were ambushed by a large wolf horde which had surrounded them. The wolves also laid a trap in the east side by making themselves look weak at defending that exit. Ge Guang identifies the trap and tries breaking through on the west side and cancels the searching of Ge Yao, commenting that sacrificing these great soldiers for one girl isn't worth it, and leaves the slaves he brought to the wolves to try escaping the horde.

But they were countered and the Thousand beast King appeared (A wolf controlling 1000 wolves), but Fang Yuan appeared with his wolves at the right time. The warriors with Ge Guang hoped that he would spearhead through and break the west line (Cuz Wolves from poison marshland are weaker outside) but Fnag Yuan diffused the wolves, then activated Wolf Howl Gu to double the wolves strength and break enemy

Drunken Deception Mini Feat Vol 1

The following parts will cover the first 10 chapters of RI, read at your own caution

Fang Yuan has travelled back in time, to his childhood from 500 yrs into the future, with the help of Spring Autumn Cicada (A Rank 6 Pokemon that allows u to travel to the past, with a chance of failure)

After arriving to his childhood days(just a day before he awakened his aperture), FY cant sense his SAC, thus thinks that it is dead. So all he has is the knowledge of 500yrs in the future.

With this knowledge, he knows the locations and time that major treasures would be found around the world in the future. He has inferred many through rumours, biographies, etc..But he need to reach these locations at the exact period of time these treasures (Inheritances from powerful cultivators who have died, leaving their life's work behind) are found.

But Fang Yuan is a mortal right now, and there are various beasts and cultivators who could kill him when encountered on random. He also knows that Qing Mao mountain, where he lived his youth, is doomed. He had escaped this place in his first life through a trading caravan that moves from one place to another to trade(bexause he was dirt poor and ostracized by his clan).

So he has the main goal of reaching Rank 3(power goes from rank 1 to 9, and each rank can control the corresponding rank gu worm [basically pokemons] effectively. Anthing higher would be taxing). A rank 3 Gu Master (Cultivator) can put up a fight against most wild beasts.

These are the following knowledge he has of the future relevant to this arc :

- A tale he heard, describing how a drunk guy found the Flower Wine Monk Inheritance (He doesnt know the location, contents, or even how to obtain it)
- His Aunt and Uncle's scheming nature, and their greed for his dead parent's property
- Knowledge on the power distribution in the clan, and the clash between Chi Lian, Mo Chen and Clan Leader
- Cultivation experience, combat experience, Life Experience
- The time when the caravan arrives to trade, The time when the Wolf tide occurs (Powerful wolf beast horde trying to raid villages), the time when clashes with opposing clan occurs and the time when his clan gets destroyed.

- Basic rumor/ info on Bai Ning Bing, a genius in the neighbouring clan

These are the factors hindering him in his goal :

- He gets a C grade aperture(a ball like structure that has primeval essence, which is used to activate gus'), which has very slow cultivation speed and can go only upto rank 2 naturally
- Has not enough primeval stones (currency of the world and also is solid essence that can be absorbed for cultivation) to brute force the speed, or to feed Gu worms too. But he can get from his dead parents property, if he can get it from his uncle and aunt(The Uncle has a pretty good standing in the clan)
- Does not know the finer detail of any incident in Qing Mao Mt, only knows things based on rumors he heard.
- Does not know about the existence of Rank 5 Ancestor who is recovering in secret underground, or the future arrival of a Rank 5 Sky Crane ancestor
- Does not have any allies nor social standing except that he is a cultivator
- The Spring Autumn Cicada that is sleeping in his aperture is a ticking time bomb, as Rank 1 aperture cant support a Rank 6 Gu for too long (can be supported currently due to its exhausted state, but once it gains enough strength It can break his aperture or leak its aura attracting highr ranked opps)

The first mini feat he does, after he awakens his C grade aperture in the story is feigning depression and loss in his character.

He was a child genius in his kid days(because he was a transmigrator from earth), able to write poems at a young age, so ppl thought this was a sign of A grade genius aperture.

But at the day when he awakened his aperture in public ceremony where all kids of the same gen awaken, he was found to be just C grade [The 4 grades are A>B>C>D]. Now Fang Yuan knew this alrdy. He had formed a plan. To find the liquor worm the drunkard he hear abt find, then follow it to the Flower Wine !onk inheritance...

The liquor worm is unique because it can increase the speed of cultivation drastically(There are several substages in each rank, and a liquor worm can produce a higher level essence to make breaking thru each substage easy).. FY doesnt have knowledge of its location tho..

So he starts feigning depression, from his body language to his activities. He feigns becoming a drunkard due to the depression of being a bottom class. He sleeps in class, doesnt talk to anyone, roams the village late at night, often seen with wine bottles..

Now how does he get money to buy liquor? The allowance he gets from his aunt and uncle cant afford ts.

But, the aunt and uncle want to adopt Fang Yuan and his younger brother Fang Zheng (a char ostracized in childhood for not being at the lvl of FY, but has awakened an A grade aperture) as their own kids (They dont currently have any, and the brothers stay with them but arent officially adopted), to finally get the ownership of the property of their og parents, which nobody could own till now.

They show themselves as caring and kind, manipulating Fang Zheng through being acknowledging of him(FZ yearns for acknowledgement btw). But FY refuses to get adopted(bcoz he alrdy knows abt their greed for his parents property, and also wants the property for himself).

The Unc gives a large amt of primeval stones to FY to maintain their kind image to FY and FZ and to goad FY to get adopted. But the Unc has already realised that FY knows about their plan to get his parents properties..

To be continued. I'll upload the categories and format it in a seprate doc, for which link will be posted in tmrw's post. I aim to create a FY doc by 2026 Oct.
