Kirito Kamuis planning throughout psycho pass season 2 :

First arc : Bomb terrorism :

kamui kirito uses the robots which are used for distribution of medicine(recent medicine that came to make ones hue under controlled,since hue getting deteriorated leads to one

becoming latent criminal and become socially outcasted), kamui had used his knowledge and skills on making holo to conceal the bombs within that robot and at the right time just before the explosion he removes

the holo exposes visible bomb infront if the crowd and explode it(the goal is to cloud the areas group psycho pass by increasing area stress). This incident is not for first time, rather It's the 4th,and while this incident the

terrorist uploads video in social media, talking about the opressing system,opressing humanity,and with the video uploaded now akane calls their analyst to scan the person who showed sudden deterioration in hue and as result they realise that mans

facial structure matches with the video uploader and they start reasearching the bombers(kitazawa) background where they realise he's a demolition worker which is why he's expert in bombs,they scan the route and where kitazawa went since the whole city is under surveillance of sibyl,

after reaching that place akane Doesn't go inside due to the fact she suspects that kitazawa was able to control his hue before bomb exploded and after explosion his hue suddenly changed, if he knew about bombs and decided to this it should be clouded from start,which leds to conclusion

that kitazawa found a way to clear his hue when he needs, but still polices can't keep on sitting tight & wait since the previous bomb incident led to area stress increasing massively(actually that's not the only reason, the distributed medicine was manufactured by kamui to the way that makes the taker suspectable to anxiety & fear)

and they need to catch kitazawa before another latent criminal is born, so some of them goes inside, and yes akane knew that was a trap becaz till now on the bombing incidents kitazawa made sure bomb exploded at a way, no one is injured, so what is the purpose, first is increasing area stress second is to lure public bureau in this mess,

which means getting inside will led to ambush(yes there was bombs inside which exploded the time those few entered) an auto drive truck also came out and went through middle of them & exploded (splitting the team), and the drones there with bombs were activated and took them on while kitazawa takes out with his car and leaves while taking a hostage with bombs entangled so that they Don't use

dominators to shoot,(this all was just to buy time so that the bureau are the observing ones when they r still one step ahead due to successfully leaving the place first), while the chase, since they can keep track always due to whole city surveillance, the bureau knws the place

where kitazawa suddenly stopped and released the hostage, when the analyst quickly scans the hostage she realises no person like that exists(that hostage)

that is just a hologram which leds to akane deducing the trap that, since he's trying to retaliate by attacking & targetting bureau, most effective way is to eliminate pursuers which is them, & to draw them in by releasing the hostage and what awaits when they catch the hostage is a bomb, uptill this point this is everything according to what kamui orchestrated,this led to only one inspector and hunting dog and a drone (for help of removing and taking care of bomb) go to that place

& when that inspector(shisui) went there with this, she Couldn't use dominator on the hostage when she came out of the tunnel, the hologram of hostage was none other than kamui, since he's undetectable by dominator(I'll explain that later) he could close distance to shisui and use his drugs to make her faint while using her eyes before she totally faints to activate the dominator while instigating the hunting dogs hue to worsen it so that when he shoots hunting dog, it dies, and later carries

shisui in the drone they took here to difuse bomb(he manufacturs it, removing shock absorber place so that he can put shisui in that place & carry here while avoiding anyone realising the kidnapping and avoiding surveillance of sibyl,since he's already undetectable and shisui is not seen,It's total invisible incident in cymatic scans eyes, also kamui had interefered in it's log to remove traces of whom being inside it when the drone is found so that he & shisui remain untraceable), now on other side chase continues and finally kitazawa got arrested but shisui got his goal, 1.how to use dominatir, It's loopholes which can lead to unauthorised

person using it 2.he left trace of his existence in that place if hunting dogs death to lure akane more & more in this later (he write WC on the wall with blood), 3.collecting dominator & getting an inspector to use her so that he can make other unauthorised people use dominator by injecting shisuis organ parts and get recognised by dominator so that it activates (it will be shown clearly in last planning). as for kit

azawas part after he got arrested, kamui disguised as counselir of bureau(he was the counselor for a long time there just none knew),kamui cleared his hue with his counseling so much that it dropped to the point he's no longer target of enforcement,sibyl system suggests to no longer detain him as that's against rules, by checking the counseling footage akane and others could trace nothing as kamui disguised as Counselor did what he usually did as counselor so it escaped suspicion ,the bureau later asks him to take them where he makes bombs and the instruments are,

when kitazawa takes them there(there was a hidden knife prepared there),he stabbed the inspector while taking a switch of bomb & escaped (he left a few bomb parts dissembled which will prove as a trap in last plan), akane deduces the escape route due to traffic moderation,surveillance & crowd in areas, she also could deduce kitazawas partner who prepared all this might be able to get kitazawa escape tgrough sewers even under tight surveillance ,and later reaches to kitazawa and kitazawa out of fear clicks the swutches making the bomb explode but this time due to this kitazawa

was no longer case of enforcing rather it was executing, so this time when akanes team killed kitazawa she got answer to the meaning of what WC meant, through this incident even though kamui Couldn't save kitazawa,he successfully made other bombs explode,increasing area stress and clouding hue again('constantly increase the crime coeefficient in certain areas’) &

revealing place of instruments which r used to make bombs, which will be very effective in his last plan ,also reasons for increasing area fear & anxiety will be shown in the end.

Extra details : by “clowding” here it means worsening ones hue/crime coefficient, The crime coefficient is derived from an individual's psychological state, including factors such as their emotions, intentions, and overall mental stability. This number is constantly monitored, and when it exceeds a certain threshold, the individual is considered a potential threat to society. So clowding or worsening hue means increasing in ones crime coefficient which can led to one becoming latent criminal.

second arc : the incident at medicine store :

after first arc, akanes teams member who specializes in holo design & interpreter , goes on a deep analysis on the holo kamui disguised in , and reported that kamui used a person who died 15 years ago in season of hell ,plan accident,

so after this event, akane will use him in crime scenes to detect more holo if there is, while this is ongoing, kamui who took shisui to his den , when shisui woke up she was her body was tied and under control of kamui, and her hand was tied,holding a dominator pointing at herself which made her hue worsen suddenly,

she also saw he had took off one of her eyes to put it on him through surgery to be able to use dominators even without being authorized, at that time kamui showed his understanding on shisuis fear, her anxiety , her nature ,sympathisizing with her anxiety and helplessness and talking about saving her , ended up making her calm and hue back to normal.

next to attract inspectors again while mass inducing fear in public ,he used shisui to contact inspector aoyanagi to come help her, here aoyanagi would track shisuis dominator to get to the location of the medicine store where she estimates shisui to be, but due to surgery kamui being able to use dominator ,he took that to medicine store ,luring aoyanagi in this location

for his next step in plan.

Kamui was in disguise of a medical staff there while distributing medicines to citizens, he's here to make sure the next steps are done
properly. Here his ally was an old man, whom he had persuaded before (the old man also had extress before), the reason for old man who was an extress treatment patient was picked for executing this incident was the theory of mental state & health was treated like fallacy in this world,which can cause peoples anxiety to drive more if they are suddenly put infront of something unknown
or something that's running wild with delusion, the old man had close the shutter totally, so that none can leave or others can enter (to isolate aoyanagi alone here with other peoples), aoyanagis dominator

Couldn't judge the old man as his hue was still clear even while beating other peoples there and running amok, since the inside is isolated, other hunting dogs can't come inside but can sense area stress getting
worse, they have to call reinforcements. The old man was performing different activities causing the fear to increase in those isolated people while aoyanagi was injured & handcuffed, this is where kamuis disguise role plays
kamui as disguise of staff was in the position of watching over aoyanagi, and aoyanagi persuaded him(he played along as that is what he needed too) into removing handcuffs and then ambushing the old man, here kamui wanted was to
release aoyanagi from this, making her have hatred toward the old man seeing this incident and when dominator isn't working she needs another method to increase his crime coefficient first which is why she was forced to cut his face with glass
pieces, leading to her our psycho pass / crime coefficient getting worsened, and the reinforcement from outside who can't see what's happening inside due to shutter being closed, will assume the criminal to have the highest crime coefficient and shoot at it,
unfortunately aoyanagi became the target since her hue got worsened due to all this incidents and she dies, her dominator gets taken by kamui, and kamui purposely shows himself standing while the shutter opens (previously akanes teammate who was kept to watch over if there is any holo here),
showing up this holo is reason to make akane become more aware of the disguises pattern and deducing who's the Mastermind kamui is. And also while shutter opens, due all isolated peoples mental state getting worsened, they became target of enforcement and got shot(this shows flaws in sibyls judgement, these things r needed to be pointed out for last plan)
From this incident kamui could get another dominator & he could also point out flaws in sibyls judgement while also increasing another area stress.

Third arc : incident at military uav factory :

while the previous incident at medicine store was ongoing MP Masuda was caught due to his sudden psycho pass getting clowded, and when he was arrested he said kamui could save him so he wanted them to call him which led akane to tracking where kamuis call came to masuda last time ,which was that medicine store & that led akane to go there and witness the incident at end,

and by analyzing the logs of their previous conversations akane realises kamuis hideout(which kamui purposely did for his next step). kamui predicted akane won't just send drones to analyse that place but also come there for crime scene direct analysis since kamui can deceive drones and can remodel them(shisuis kidnapping incident) and also remove traces that can't be ever caught by sibyl system,

they also bring extra reinforcement to the place (which is military drone factory) but those reinforcement will later turn out to be trap for themselves later, akane and another enforcer goes around to look for possible hideout of kamui ,which was at a place where scanners r installed and also deserted since he needs to be more careful about human eyes rather than scans, a dead end, a structurally unnecessary wall which was in range of the scans and

deepest end of deserted path, that wall was just a holo since kamui is expert in making that, after they enter inside analysing his surgery den where many body parts of various people were arranged, and he also wrote WC there with blood, indicating he was guiding them to here ,but what's the reason for him to guide them here ? it's to make them realise about how he's exploiting loopholes in sibyl and remodeling others into making their hue clear, about his past and leading to the

incident of season of hell , he predicts akane will be ale to reach upto kamuis doc , who had done his surgery 15 years ago in that incident he was giving them clues about, but this will happen after they get out from here , let's return to what's happenning on otherside is , kamui used his skills in programming to link the military drones of this place linked to a game "chicken game", leaving the games control upto the user who will be playing the game, using the public to control the drones and kill

the enforcer and inspector and other peoples, kamui had used a defense programme which was usually used in border security operators which makes video into virtual holo representation so that users psycho pass doesn't get clowded, with this the players won't realise they are killing real people , they can't delete the game , or warn the citizens RN, or they can stop the programme which has high security, restoring will take a lot time and by that time everyone will die so the last option was to remove the holo representation ,exposing what's happening to the users

to stop them ,this leads to a mass area psycho pass getting clouded ,which keeps on portraying sibyls flaws infront of it again (kamui aimed for this too), back to military drone experiment area, here kamui had done some tempering to give akane some clues to survive, which was - he made her being portrayed as witch,main boss in the game so that others pursue her mainly so that when multiple users pursue akane try to shoot and fail ,akane will spot the fault which is it has a programme which keeps it shut so that if drones come near each other ,they don't shoot so that they don't end up hurting each other,

with this clue akane will be able to survive and take down the drones, but when these drones are taken down then the next thing user will be able to control for killing is public bureau drones/bots which were brought here too (said at start), this is too ensure kamui gets enough time to collect dominators and escape from that place(kamui was using those drones as decoy beforehand to separate the enforcers and increase their anxiety and they pursue the drones to destroy them with dominators but this was trap so that kamui,shisui hiding there can kill them and take the dominators, since he and shisui are clear the enforcers can't do anything to them and they succeded in collecting the dominators)

after akane could take down military drones and bureau bots activated ,wthin this time kamui successfully collected dominators and escaped, & the bureau bots are not only going on rampage here but also in the city roads ,increasing more area stress, and after holo representation finally gets removed that just increases area stress to another level, as previously said ,pointing out sibyls flaws. with this step kamui successfully collected dominators, increased area stress, kept on showing sibyls flaws like before too & led akane to more clues so that she can realise everything about togane foundation and season of hell(explained before).

Ain't writing allat so the Akanes info gather reasoning from kamuis given clues & kamuis past will be explained pretty
short :

Analyzing the previous used holos, they r all made from same incident (the plane crush victims in season of hell)which ked to investigating on that part and realizing who kamui was

& from analyzing kamuis surgery place they could realise kamui uses organ transplant on impersonated people who r his pawns, and those peoples have organ transplants so that their disguise remains ok,

psycho pass Doesn't change from the people they r trying to impersonate, finally they tracked down the doc who performed the operation of kamui after the plane crush incident, kamui knew akane would come to doc so he just instructed him to give out more info to akane so that she understands kamuis goals

what he's doing which will impact her finalle decision making and being aware of togane Foundation,It mentioned that Kamui's body was made from 184 people and within the body the brain was made from 7 parts of individuals. Most people thought that surgery would not be successful but the fact is it was, and this caused Kamui to not be detected by the Sibyl system, as his body was containing different identities, eventually becoming a transparent person under the system.

The upcoming parts of Episode 8-9(the past & goal of kamui), I'll be directly putting this part from yuuichigiri :

Kamui discovered the project "Panopticon" from the government, by using the control of the transportation and bank to manipulate every action in the city. Kamui also found out that when a wide range of faults happened while the "Panopticon" project was running, and interrupted the Ministry of Economy, talented people were getting manipulated and escaping, people were fighting for the budget and the trade between politicians. The result was the rate of plane and transport accidents increased rapidly at that time. Kamui knew that this was the cause of his transplanted surgery, and because his life was not recognized by the Sibyl system, to become a transparent person in society (that timing also known as Season of Hell). He also discovered Togane Company, which was the company supported this surgery, having the technology on pasting different bodies together as a surgery and used in the plane accident, or we should say the accident was planned by Togane Company, as they gained a lot of benefit after the success of Kamui's surgery.
Here I should introduce a person – Yohei Masuzaki. He was the doctor that did the surgery for Kamui in that accident. He was also one of the people who supported Kamui's plan. He met with Kamui 5 year before and he was addicting in medicine at that time, but Kamui solved his mental problem by giving him the books that were prohibited, to make Yohei back to normal and learnt the correct value on medicine using, cleared his psycho pass successfully.

(True aim of Kamui's plan – asking "WC?" over the Sibyl system and punish it)
In Episode 9, it linked back to the beginning of Kamui's plan – "What color?". It was a question directly asking about the Sibyl system and himself. Kamui used the medicine and the

psychological therapy constantly reducing the crime coefficient of the criminals which was challenging and questioning the Sibyl system, “could Sibyl system punish the Sibyl system itself?” If it could not, Sibyl itself would be the only exception in the system, and the only option to solve this was recognizing the identity of Kamui himself, but this would make the system lose its ‘perfectionism’. However, if Sibyl recognized that it could punish everyone, even itself, it could keep the “perfectionism” about the view of “this is nothing that the system could not be punished”. And it means Sibyl needs to punish Kamui to ensure their existence of “perfectionism”.
Kamui’s existence was actually similar to the Sibyl system. Both were a collective idea, Kamui was made from 184 people, whereas the Sibyl system was organized from those people who were not able to recognize the system. Therefore, using the “perfectionism” of Sibyl itself, if they wanted to punish Kamui, they also need to analyze the rate of psycho pass of a collective, which means it was also Sibyl itself, and that’s what Kamui wanted, to make the “collective psycho pass”getting established.
In this episode it also mentioned how Kamui deceived those officials, but it was not a strong feat so I won’t mention a lot. Kamui and Koichi Kuwashima, who went to the same primary school with Kamui but luckily escaped the plane accident. Kamui understood his guilt for becoming the only person who escaped the accident and asked him to support his plan. They both gathered those officials that were stowaways and deceived them that they could take over the Sibyl system, but the true aim from Kamui was to take the revenge of them, as they were the people who agreed to the Season of Hell and were selfish for their position and cleaness.

Now Let's return to the main planning :
Last Arc : Incident in Underground subway :

So here starts the final plan,Kamui had gathered all the people who suffered in season of hell due to losing their close ones,
All of them went to underground subway with kamui and went into a train(ofc sibyl & public bureau are also seeing this). Kamui hacked the maintenance &
security system of the train, making it lose control while increasing speed, seeing that the train crews who are watching over all trains in that subway, they are forced to
lead other trains toward evacuation section to avoid accident, but even that system was hacked and kamui changed the route directions, isolating all the trains and to make sure none can get out
& totally isolate them, kamui used bombs so that the wall between drainage and train bursts, and entire area is drowned, kamui starts shooting isolated peoples immediately so that before crime coefficient exceeds
they are taken down by paralyzer, not eliminator, the reason is to locate position of sibyl system. By shooting these passangers,THE DOMINATOR SENDS THE CAPTURED INFORMATION TO SYBIL AND MAKES A DE CISION ACCORDING TO THE ANALYSIS RESULT THAT WAS RECEIVED.
WITH NOT SO MANY HIGH AMOUNT PEOPLE.

IF MORE THAN THIS NUMBER CONTINUALLY WORKS AT ONCE,
THE AMOUNT OF DATA TO TRANSMIT WILL ALSO INCREASE AND IT WON'T BE POSSIBLE TO CATCH UP TO ALL JUST WITH REGULAR PROCESSING, SO IT WILL LEAD TO BACKUP, A BYPASS ROUTE THAT APPEARS ON NETWORK THAT'LL BE USED IN THIS TYPE OF SCENARIO, THE BACKUP DATA PATH DOESN'T HAVE SAME LEVEL OF SECURITY SYSTEM AS MAIN ONE, SO KAMUI WILL BE ABLE TO TRACK BYPASS PATH, AND SEE WHERE THIS IS GOING(TO THE LOCATION OF SIBYL SYSTEM), THE REASON KAMUI GATHERED ALL THE DOMINATORS TILL NOW IS FOR THIS PURPOSE ALONE, AND YES KAMUI IS ALSO AWARE THAT CURRENT REPRESENTATIVE OF SIBYL IS AWARE OF THIS AND DEEMS KAMUI AS A THREAT SO THAT INDIVIDUAL WILL TRY TO GET RID OF KAMUI WHEN THEY BECOME AWARE OF THIS.
THEY WILL TAKE ANY MEANS TO ELIMINATE HIM AND THE ONLY THING TO USE ATM IS EXPLOSIVES/BOMBS SINCE BUREAU DON'T POSSESS ANY WEAPONS EXCEPT DOMINATORS,THAT WON'T WORK EVEN GUN IS USELESS IN THIS SITUATION WHERE THEY ARE TOTALLY ISOLATED, THEY WILL COME UP TO DECISION OF ELIMINATING EVERYTHING THERE ALONG WITH THOSE ISOLATED PEOPLES, SINCE BUREAU DON'T POSSES EXPLOSIVES THEY WILL USE THE INSTRUMENTS LEFT IN KITAZAWAS PLACE TO BUILD THE BOMB(KITAZAWA IN ARC 1), KAMUI HAD AN ALTERNATIVE SWITCH TO TAKE CONTROL OVER THE BOMBS WHICH WILL BE MADE FROM KITAZAWAS INSTRUMENTS,SO WHEN BUREAU TRIES TO BLOW OFF THE SUBWAY IT DOESN'T WORK, RATHER DUE TO THEIR THOUGHTS OF BLOWING UP NORMAL CITIZEN THEIR PSYCHO PASS GOT CLOUDED & THEY GOT SHOT BY SHISUI WHO WAS HIDING THERE AND HAD THE ALTERNATE SWITCH GIVEN BY KAMUI.
While this incident kamui got a call from Akane who decided bring kamui to the sibyls location and going along with his plans after understanding him through the clues he had left and realizing sibyls representative toganes hypocrisy.
And after getting pass togane & reaching the point of where sibyl system operates, Kamui points out It's flaw in judgement, decision making pointing out the flaws which were shown in previous arcs and while judging kamui,as explained in season of hells part, the collective psycho pass and to judge itself, due to akane & kamui pointing out and togane gone, sibyl adjusts itself to the theory for It's further evolution, the reason for pointing out flaws from time to time previously was to make it suspectable and make this topic a matter of discussion within the system & now finally kamui got his goal completed establishing collective PP(👽).
And right now Akane who played along kamuis plan here for this to happen too, she realises the reason why kamui led her to this point Everytime giving her clues,was to make her "hand if judgement"/advisor to keep the evolving sibyl in track, and akane has to do it to protect her ideology and the law & citizen together. This is the end of his plan, he successfully remodeled sibyl system and could make them have a good advisor to keep their track of evolution (kamui had decided making akane into
hand of judgement,the time ginoza told the counselor/aka kamuis disguise about the new recruite/akane, from seeing her data in profile he planned for this)

I Didn't explain the last part properly so It's better to read the manga by yourselves and realise it better. Now go and touch some grass.

- Tanvir
