change of heart plan

in this plan,hark’s target is corrupted president of usa who has history of covered up of personal assault his name was micheal,hark wanted to remove micheal from authority and clean the country from corruption,hark knows killing micheal wont make things better,infact it will make it worse since there is high chance of another corrupted president will come so killing him is bad idea so hark decide to come with plan

1-first step he payed for kids to draw arts about hell in walls where president in his long car will pass,these drawing about hell with quote says “you are going to hell” when michael and guards passed in car in curtain events they will see these drawings and paints,however people and michael never cared they thought they its just kids who play around but michael started to see it more when he pass in his car

2-second step wherever micheal post something in twitter there is a lot of bots commenting “you are going to hell”,hark was extraordiery hacker so he hacked the twitter and made these bots and change their settings but he also send these bots to random people so it will show is error in app rather than hacking,even if cia tried to tracked down who did this hark can make alot of misdirected info to mislead them

3-third step was easy for hark,he disguise as normal reporter and go to michael wherever he got chance then he will ask him about what his opinions in these things related to hell,michael pushed the topic off and says he dont care which make other reporters also ask same question which further annoy him

4-fourth step,there is law which is very strict,if one of officers is absense he will be expelled,so hark wanted to push things further and make Michael hear this even in his work,hark choosed ones that doesbt have family and lives alone,hark decide to disguise one of them each time but he need to get rid of replaced officers for little while,studying their routine they always order a delivery meal from restaurant near to their house,so hark disguise as delivery guy and deliver them food but he put drug in meal,this drug can make them sick,cant move well in bed for entire day they will think they got it from eating too much outside,in this case hark fabricated their id cards and disguise like them so he will go instead of them in work,each day he will disguise one of them,he will indirectly mention after life and hell to michael which puts more psychological pressure in topic,in case one of officers waked up next day they will be confused by they were in work in paper while they were actually sleep but they cant open their mouths about they were sleep all day or they will be expelled

5-second part of plan is make prophecy happen,hark made make-up meeting with religious man who supposed to forsight about future,the prophecy that said is michael marriage wont end up well,second michael will see death then finally he will end up in accident by when he is in his long car in night,people seen this but dont believe it and that what hark wanted.

6-first step in prophecy hark targeted michael in-laws parents,when they out in car hark hacked traffic light and made false light which caused accident and they end up in hospital they didnt die because their car was modren and strong,michael’s wife went to hospital and stayed there for week

7-hark hacked a pronstar’s phone and send porn videos to michael at night,michael missing his wife intimacy see this videos and got aroused,then hark send messages and kept chatting,hark manipulated the chat that it seems that michael started the chat and he want her,then hark deleted the messages from pornstar phone,the pornstar woke up in morning she saw the chat,she was confused but hey thats the preisednt ofc he is rich and will spoil her so she agreed

8-hark’s put hidden cameras in pornstar’s house,when michael arrived there and had affairs,hark recorded then sended the video to michael’s wife,when she saw

this and in video michael says that pornstar is better she got furious and later she confront him,he denied everything but she in the end divorced him,michael didnt care and keep bring the pornstar in his house but the reasons for their divorce remain private,the first prohecy happened across hark's plan

9-second step,hark gathered info and figure out that michael travel in private plane,hark decided to kidnap his private pilot,then drugged him to sleep,hark make long wound across his torso then return sewing it,then he put something like earphone in behind his teeth,when the pilot woke up,hark threated him that he put earphone at him and he hear everything and he planet bomb inside his body,pilot looked down in his torso and found up the wound,he was horrified and agreed to obey hark,hark only wanted him to fake about-to-be-accident while travel the president,then when next travel when michael ride the plane,when pilot traveled he made error and was about to make accident but he changed and retunred to normal travel,michael got scared to death and yelled at pilot but he told him that it was small mistake,this was next prophecy and next step of hark's plan which is press fear in michael so NDE can work

10-final step,the michael's private car in garden,guarded by many guard,hark disguise as one of guards and planet some type of mushroom that make people sleepy,in night guards saw the mushroom but didnt care thought its just random mushroom in garden,in night the guards felt heavy sleepy and slept in their chairs thanks to mushroom that smell help being sleepy,hark stealthy entered the garden and get access to michael's car and get down and cut the wire that works brake the left

11-hark hacked the pornstar phone again and send message to michael telling him that she cant come to him so he have to come to her and she has surprise,michael remembered that prophecy that tell he will be in accident by his long car and he believe it because that other prophecies happened so he decide to take his private car that hark edited,he went to his car and leaved the house and went to her house,when he was driving he saw light become red so he tried to press brake but it didnt work he got panicked and press brake again but didnt work and he got to accident,due to fear and panic the NDE happened he he saw

hell in his vision,when he woke up in hospital he was horrifled and believed the vision despite doctors telling him its hallucination

12-michael started being good president,he kicked the corrupted politicains and and changed alot from country and made it good country and he gained popularity and people started to love him,michael did this so he dont want to see hell again,hark taking atvantage from this he decide to blackmail michael by his history of sexual assault,michael was panicked seeing this,if this info become public it will cause chaos and he will lose everything,michael connect to cia but they all hacked by hark because hark is top tier hacker,so michael and cia agreed to hark conditions which is give billions of dollar to hark and hark got real rich and made system with this money so he will protected and relaxed

break the mirror strategy

hark entered the room,it was black empty square room,there is nothing expect a figure stand in end of room,the figure look exactly like hark,like its his clone,hark stared at clone,the clone stared back,hark titled his head to side,the clone did the same action,hark approached to clone,clone approached too,they stand in front each others little to close,hark raised his right hand,the clone raised left hand to mirror hark's hand,they touched each others hands,hark looked at clone,deduce that its mirror clone so he tried another way,he hooked his right arm and the clone hooked his left arm,parallel hark's action,hark deduce that clone mirror or parallel depends in action,so its smart clone knows wherever parallel or mirror hark's actions,hark knew he need to kill the clone to pass the room but how?,the clone counter every move hark do,if hark punched with his right hand the clone counter it with left hand,if hark deliver a swift punch by right arm,the clone counter it with right arm too,hark looked around the room and there is nothing he can take for advantage,completely blank room,hark walked to left and the clone mirrored the action,it look like the clone blocking the path,hark grabbed and intertwined with clone and moved in cycle,hark turned around to other side of room but its still no use,he need to kill the clone,hark thought about many solutions,if he punch the clone he will punched back,if he throw his shoe at clone the clone will throw his shoe back,so hark decide to use a strategy,he get close to the clone,then lift his

leg above and passed near clone’s head like taekwondo kick and he stayed frozen in this position,the clone parallel these actions,now they are frozen in taekwondo kick position very close and passing through each others,hark grabbed the clone’s right leg,the clone also grabbed hark’s right leg,hark shake the leg while clone did the same,they both start to lose balance moving right and left,hark kept shaking until he stopped shake when they imbalanced in right direction,they both fall in ground but the clone fall in face while hark fall in back,hark moved his left leg to press it in clone’s back while clone couldnt mirror or parallel this action,the clone copying power has broked,then hark sit up above clone the grab the clone head and breaked the neck,the clone lays died in ground,hark stand up and saw door open and he walked in
