Anime Yuuichi Katagiri analysis(6 episodes)

Hello everyone,

The goal of this doc is to expose and explain the feats/accomplishments and statements of Yuuichi Katagiri but only in anime . And you'll see that in only 6 episodes that aren't even the original manga , Yuuichi already has done quite good actions.

Doc made by : KatagiriCuts - YouTube

You can follow me on youtube or tiktok as or both , good reading .

Don't forget to share this doc too, and if you're maybe interested about using it for a debate then don't hesitate to mention me with the link of the doc.

Color Index

White : explanation general

Orange : the rules of each games

Red : Full Scale IQ + Intelligence

Yellow : Emotional Intelligence + + Social Engineering

Green : manipulation + manipulation methods + deception +

Cyan : reasoning + thinking

Blue : strategy + tactics

Purple : adversity capacity + analysis

Dark green 1 : knowledge + cognitive skills

Dark magenta : judgement

Dark purple : unpredictability

Dark yellow : sensory + resistance

Some importants settings before to start :

- *First : i'll use the japanese Original Version with French Subtitles so if there is error of translation with another language then it's not my fault*
- *Second : I won't try to theorize or else about this version of the character , so the version as "anime yuuichi + theory" can directly go to the trash bin . We're only going to focus on statements and feats in the anime and the goal will be to try to develop it and explain it , and once again , it's my opinion even if you'll see that I'll try to explain my opinion as much as possible .*

-Finally , good reading to all .

S1 EP 1

-The episode starts with Yuuichi who is coming back from his work of delivering newspapers with his bike and he manages to park his bike with good balance while according to his boss Kida , he distributed 500 newspapers (Bodily-kinesthetic intelligence ; Tenacity) . Proof for bodily-kinesthetic intelligence : Proof for Yuuichi doc

Kida qualified Yuuichi as a very effective employee .

-(timeskip to school time) Yuuichi received compliments from his friends (Shiho Sawaragi , Makoto Shibe , Tenji Mikasa , Yutori Kokorogi). Inside his mind , Yuuichi thanked his friends , and he told himself that they are friends , true friends , forever , well it was what he believed .

-The next day finally came , and their teacher announced to everyone that the money that was supposed to be used for the school trip (2 millions of yen) was stolen . After this announcement , Sawaragi who felt guilty excuses herself in front of everyone , and she asks the thief to denounce himself . After it , 2 of Yuuichi's classmates turned to Yuuichi by asking "who has the least money here" but Yuuichi didn't get provoked by their insinuation of him being the potential thief (self management).

-The episode continues , with Yuuichi's voice as narrator telling us that no one denounced himself and that the next day Sawaragi and Shibe didn't come to class . And by noticing that the rumors about them

having stolen the money begins to spread, Tenji, Yutori and Yuuichi plan to go see them tomorrow when there is no school .

-After it , we were directly are with Yuuichi in his house who is working when he suddently heard a knock from his door and go for open it .

-Once opened , he sees that no one is here but he notices a letter whose author is supposed to be Sawaragi . The content of the letter is a message which says “Yuuichi , it is necessary that I talk with you . I’ll wait for you at 11 P.M at school” so once Yuuichi arrived at their school , he found Sawaragi , Tenji , Kokorogi and Shibe , and Yuuichi asked them why they were here . And the others answered that they received a letter from him and Shiho gave him this letter , when he analyzed it , Yuuichi said to himself “I have a bad feeling about all this . Someone set us up”and it has been confirmed one second later , when he will be tasered in the back and see his friends getting kidnapped too (Intuition).

-Later , Yuuichi finally woke up and Manabu came in front of them , and Yutori introduced him as a violent character from an old cartoon who got interrupted because of the violence . And Manabu tells them that they’ll participate in some games , and with it , they’ll be able to reimburse their 20 million yen debt quickly . Of course , when he heard it , Yuuchi was surprised and asked Manabu to explain himself about this debt , and Manabu answered that if he doesn’t have knowledge about this debt then it’s probably one of the 4 others .

-After it , Tenji talked with Manabu and understands that one of them got this debt and they’ll have to participate in the games to reimburse

this debt . And Manabu add after it that for their inscription for Tomodachi Game , they used 10% of the total debt , which makes 2 millions of yens and by hearing this information , Yuuichi quickly make the link with the money that has been stolen while visualizing the day of the announcement at their school(Processing Speed Index + Visual Spatial Index + Auditory Processing Index + connecting the dots) and he'll start to thought that the thief is probably one of them (effective guesswork).

-After the explanation of Manabu , the group C (Yuuichi and the others) decided to take 5 minutes to think about it and we can see on his face that he seems quite perplexed with their choice of not knowing the name of the one who brought them here . And the group asked Yuuichi his opinion about it, and Manabu appeared in his back to know if he is doubting his friends , and he'll also ask him the most important question "is money more important than friends to you ?" and Manabu continues to try to make him doubt from his friend and Yuuichi will visualized the face of Taizen and Yuka , and their words which are quite opposite(Visual Spatial Intelligence) and after it he'll tell that friendship is more important than money to him (manipulation resistance) .

-After it , Manabu will lead them to the first game, and they'll start to take the badge with their names and he'll explain to them that the number behind the badge is their current debt individually and if they play and that the number came to 0 then their debt is cancelled . They can't show it to others players and if one of them do it then his debt will me multiplied by 2 and after having heard it , Yuuichi told that it will

make 8 millions for now (Processing Speed Index + Auditory Processing Index + Numerical Reasoning) and Manabu add that it's possible to tell the debt by voice so it means that it's possible to tell his debt , but of course since a player can't show his badge then we can doubt about the number given by the player .

Here are now the rules for Kokkuri-san game :

1) For answer to the questions , all the players have to put one of their finger in the 10 yen coin and push it to the good answer
2) When the answer is correct , then the fox raises his paws
3) If one answer is different than the others then Kokkuri-san choose the minority camp (that indirectly means that on 5 players if one of them or 2 maximum have the same answer then Kokkuri-san will choose this one)
4) On 5 questions , one is enough for win the game (so we deduce that on 5 questions , it's possible to fail on 4 and win 1 for finish the game)
5) Manabu is the one who choose the order of players
6) Each player ask the question when it's his turn
7) A victory give 2 millions of yen
8) Each player see his debt reduced with 400 000 yen
9) It's not allowed to talk when it's not his turn
10) If you dare to not obey to one of these rules then your debt is multiplied by 2

11) Finally , if they don't have any good answers then the one who has the greatest debt at the end of game recovers the debt of others players

-The game starts with Shibe and his question is "Mount Fuji is the highest mount of Japan" and they put their finger on the coin , which went on the "No" , they answered wrong . Sawaragi is about to raise her voice but Yuuichi and Tenji stopped her and Yuuichi asked her to not talk otherwise her debt will be multiplied by 2 and show her the rule on the board (Non-Verbal Index) and Yuuichi is wondering how did it happened and who doesn't know it which means that he knows that the answer to this question is yes (general knowledge) . Proof :

Mount Fuji[a] (富士山・富士の山, *Fujisan, Fuji no Yama*[b]) is an active stratovolcano located on the Japanese island of Honshu, with a summit elevation of 3,776.24 m (12,389 ft 3 in). It is the highest mountain in Japan, the second-highest volcano on any Asian island (after Mount Kerinci on the Indonesian island of Sumatra), and seventh-highest peak of an island on Earth.[1]

-The second round , the question is from Sawaragi , and it's "1+1=2" and as before , the question seems too evident that for Yuuichi and for him the answer to choose is "yes"(quantitative knowledge) , the coin went on the "No" and quickly after this result, Yuuichi start to think that there is possibly a traitor between them

(Processing Speed Index +conjecture) and he starts to think about the recents conflicts between them and he'll remember about the small

argument between Shibe and Shiho because Shibe tried to give her a kiss (memory : visual spatial memory)

-the third round happened , and the question was from Tenji , and it's "is their country called Japan in English" and once again , the coin went on the "No" and we see that this round is making an effect on Yuuichi , who is starting to doubt his friends .

-The fourth round , the turn of Yuuichi finally happened , and he reads that the player has to create a question , and he reads that "if the coin went on the yes then the game is over" but "if the coin went on the no then the debt of the player himself is divided by 2". And Yuuichi finally understands that they had the same things for them , they choose to ask a simple question for reducing their own debt by half(Reading Comprehension Index) and he finally choose the question "there is 7 days in one week" and once again the coin went on the "No" and he thinks that someone want to push them to game over for put every debts on Kokorogi , and he wondered if the final question was the same and he tells to himself that the final question is easily a different type of question beside what has been asked during the game (intuitive reasoning) and Tsukino and Maria who are watching the show confirmed it and Tsukino tells that the last question doesn't allow to reduce the debt of the player .

-The last question is from Kokorogi , and it's "will we stay friends forever ?" and just before everyone answers , Yuuichi talks and decides to stop them verbally with a disturbing question (risk taking : it's not allowed to talk when it's not your turn) .

S1 EP 2

-The episode starts with Yuuichi who is trying to manipulate Shibe by using his feelings for Sawaragi to make him talk and he tries the same on Tenji . And he is trying to make them speak up but of course , since the rule doesn't allow it , they didn't talk . And Yuuichi tells that he knows that one of them is trying to push the debt on Kokorogi's back(comprehension)

-He tells that he won't let it pass(now we know he wants to protect her) and he tells that by talking , his own debt got multiplied by 2 and he is the player whose debt is the greatest for now and he suddenly tells to them that if they lose the game then it's the traitor himself who will pay the debt and he tells that on his cart , it was write "rules updated : the penalty of loser is applicated on the player less in debt at the end of the game" (bluffing + strategic deception : it's strategic deception since no one except Yuuichi can know if this rule is truth or false cause the "cart" on whom this rule was supposed to be written is Yuuichi's cart and it basically push them to follow the move of Yuuichi)

-From their sides , Tsukino and Maria are looking at this and Tsukino tells Maria "because of this , the traitor can't talk or act".

-From their sides, the group C looks to Yuuichi who suddenly talk normally , without any threatening look unlike some seconds ago(behavioral volatility+acting skills) and Yuuichi smiles to them and

tells that he believes all of them and they finally starts back the game and reask the question “will we stay friends forever?” and Yuuichi tells that the answer is pretty easy by giving to everyone a threatening look (direct manipulation + threats) and finally , they all put their finger on the coin who finally reaches “yes” and Manabu tells them that they’ve won the Kokuri-san Game .

-After the game , Yuuichi’s plan is to unmask the traitor before the second game and he asks others what is their current debt and they all answer 3 600 000 yens . After it , they ask the same question to Yuuichi , and he answers 3 600 000 yens too and he explains that by talking , he multiplied his debt by 2 but before it , he divided it by 2 , and we can add the 400 000 yens that they’ve won by winning the game(logical-mathematical intelligence)

-He tells that the fails to some questions was because of stress, and they all start to go to 2nd game but Yuuichi stays behind cause he feels like the fact they all have the same debt and he doesn’t believe it .But when he was about to read the carts , but the ink already started to remove and of course , it let Yuuichi very frustrated . At the same moment , Sawaragi came back for know what is happening, and she wants to talk to him and she asks his opinion about the possibility of a potential traitor in their group, for her , it’s clear that yes , and for Yuuichi it’s same and he is suspecting Sawaragi , mainly due to her speech before the beginning of the game , and for sawaragi , the suspect was Yuuichi , but she changed her mind cause she has feelings for him and even Yuuichi is surprised . And after it , Sawaragi admitted

that her debt isn't 3 600 000 yens but 7 600 000 yens cause she talked when it wasn't her turn and it confirms Yuuichi's thought about everyone having the same debt (intuition)

-They finally decide to team up , and went to the second game, Manabu explains that the game's goal is to reveal the secrets of each other , the game is called "backbiting sugoroku", the rules are :

1.The game is playing in turns

2.At each turn , we reveal a secret

3.we have to write the secret on the backbiting card

4.we have to stay 3 minutes in the cabin

5.we can write more than 1 secrets on one person

6.we can give the backbiting card white

7.we can lie on someone but if there's proof to counter this lie then the one who wrote it become the most advanced player in the steps .

8. The survey of "gods" of tomodachi game choose your progression.

-Also , Manabu adds that if someone reaches the end of the game then it's over, each player will receive 400 000 yen and but the one who were still on the playing board will receive 1 million yen as bonus and won't have to play the third game .

-The first turn starts , and the result is 0 , no one had revealed anything, so once they all make the step , they received 100 000 yens as debt , and Yuuichi calculated it while visualizing himself on the board and says

“if we lose 100 000 yens at each step then at the end of game , it would make 6 millions” and it speedly without even calculator or any helps even though that’s great numbers (numerical reasoning + fast thinking + visual spatial intelligence)

-The second turn happens and the result is the same but this time , they receive 500 000 yens as debt , Manabu adds that they can send the sum that they received during this game to the first player who arrives at the end of the game .

-The third turn happens and this time , and this time , a secret is written, and this is written “Shiho loves Yuuichi Katagiri and in the past , she hung out with Tenji Mikasa” and the survey is Shiho taking 5 steps and the others only 1 step . After it , Shibe starts to show anger towards Yuuichi, of course Tenji tried to calm him down but it didn’t work .

And after it , Shiho comes towards them to reveal the truth about her and Tenji , she reveals that Tenji and her are childhood friends and they’ve hung out together just for their parents until the death of Tenji’s father . So after having heard it , Shibe tells to Manabu that it can be considered as a lie , and Manabu answered yes but only if there wasn’t feelings between them , Shiho is about to answer no but Tenji suddenly talks and tells that he is still have feelings for her and Tenji suddenly show anger toward Shibe , and Tenji continued to play with Shibe’s feelings for provocate him , and when Shibe is about to hit Tenji , Yuuichi stopped them and separate them for let them calm down (emotional management + conflict resolution)

-Yutori and Shiho are talking about how Shiho has everyone falling for her , and we can see that even for Yutori , it's a little hard to hear that Yuuichi could have feelings for Shiho

-The fourth turn happens , and Yuuichi went first and he turned to Shiho and asked her to go too , and this time 3 secrets got revealed, but the main secret was "Shiho Sawaragi has already done surgery and we can see that between her and Shibe , there is a certain type of tension .

S1 EP3

-this is now the fifth turn and this time , only one secret got written , and that's "when she was in middle school , Yutori Kokorogi prostituted herself" and of course , the revelation is a shock for everyone , mainly for Yutori herself , and the person that she is directly suspecting is Shiho herself , but Shiho answered that she didn't write anything , but for Yutori it's not logical since she was the only one who knew it in their group .

-Shibe is questioning her about it but Tenji punches him, and he asks Yuuichi to take care of Yutori .

-Yuuichi went beside her, and the result fall and it's Yutori who takes more steps since there was only one secret revealed

-During this time , Manabu is making a reminder of rules once one player is arrived at the end of game , the game is over and all players will receive a bonus of 400 000 yens and 1 million yens more for those

who were still in the game board + the one who arrived first will receive the other's debt accumulated during the game .

-During this time , Yuuichi is trying to ask Yutori if everything is alright and Yutori answers that she really needed money cause she was more bullied in middle school than currently in high school and we have a flashback of her moments in middle school .

-After the speech of Tsukino about humans , we return with Yuuichi and Yutori, Yuuichi tells that her past doesn't matter and that he'll stay her friends and he is telling something to her and he shows that he won't abandon her(emotional engagement)

-During this time , we've follow Tenji and Shiho and we see that Tenji seems to act kind with her , but some minutes later , he wishes that the group ends (ofc without telling it verbally) and we have a flashback to the high school where Shiho is asking if everyone had paid for the school trip and she has to go to see her professor so she decides to put the money on her locker and secretly , Tenji had stolen the money , (return to the present) we now heard that Tenji knows everything cause he stalked Shiho, he is also the one who wrote about Yutori's past , and now we know that his goal is to destroy the relationships of Shiho .

S1 EP4

-The episode starts with Shiho telling Tenji that she isn't the one who revealed the secret of Yutori and Tenji believes her , and we start to go

deep into Tenji's psyche. He is the one who wrote the first secret , the second one who too .

-After it , Shiho wonders who is the one who wrote and Tenji stops her by telling if she starts to find guilty then the group will end, and Tenji tells that it’s possibly Yutori who wrote her own secret for receive pity and he is making Shiho doubting about her, and when Shiho looked to Yutori , she is on Yuuichi’s arms and Tenji tells to her that now she knows her feeling for Yuuichi and omit that she possibly wrote her secret for receive some attention from Yuuichi, just for summary it , he is starting to making her doubts about everyone .

-The sixth round starts, and Yuuichi asks Tenji to go first , and of course, he doesn't refuse for not being suspect , and he went to write a secret about himself for not being suspect .

-Once he got out of the cabin , Tenji saw Yuuichi slapping Shiho, and Yuuichi apologized to her and he continued to protect Yutori . The tension between them is growing , Shiho reveals the truth about her having done surgery , but for Yutori , it doesn’t matter since she has Yuuichi for her so Tenji deduces that the friendship between 3 of them is over .

-So after it , Tenji engages himself to stay with Shiho.

-Finally , at the sixth turn , there are 2 secrets written , the first one is that “shiho wears boxers for boys , black and grey” and Shiho suspects Yutori but gets stopped by Tenji . The second one is that “Tenji lied about his age” and Tenji revealed that he is one year older than others,

but he tells that it’s weird since only Shiho is aware of it , and everyone starts to suspect Sawaragi too ,but Tenji stays kind to her and that he has confidence for her, and he continues to making her doubt about others but he presents himself as her white knight .

-So , everyone makes the number of steps that they have to do , and Shiho falls on the step “special chance” and it allows Shiho to choose a player to expose him and after it , the “gods” will vote for his advance .

-From Tenji's side , he feels like it’s really a big risk for him, because they can choose to reveal that he is the one who brought them to the tomodachi game and had stolen money .

-But before Shiho chose Tenji , Shibe decided to get chosen mainly for being forgiven .

-Shibe thought that nothing will be compromising about him but he got it wrong , and Manabu revealed about Shibe’s father instead of him , he tells that Shibe’s father , Masakazu Shibe had bullied his secretary and other women and had touched bribes from criminal organizations . And also at the present , he is apparently using money for destroying a scandal that is about to happen .

-Shiho came for help Shibe but Tenji didn’t let her help him, and he is attacking Shibe verbally by telling that his good behavior is because his father hides everything bad with his money , of course Shiho tried to stop but Tenji answers that Shibe designed himself because of his reaction to her operation , in brief, Shibe is destroyed mentally and everyone get away from him .

-The seventh turn finally happens , and this time , only one secret got written and that's write "shibe makoto already killed someone" and even Tenji is surprised by it , cause he let a white paper this time for not getting suspected, his first plan was to get rid of Shibe but he already destroyed him psychologically so he calculated the possibility of getting suspected and let a white paper . So Tenji is wondering who wrote it and suddenly looks at Yuuichi who has a dark aura around him .

-Tsukino also said that Yuuichi probably had a plan from the start , and if we were very attentive then it wouldn't be a surprise .

S1 EP5

-The episode starts with Tenji ready to counter Yuuichi in any way .

Manabu is asking Shibe if it's true that he already killed someone , and Shibe of course is telling no and even Tenji thinks it , and he thinks that Yuuichi had written it . Manabu tells that if it's a lie then Shibe must have proof of it , but at the end , Manabu decides to let the "gods" vote for Shibe's fate , and Shibe advances 5 steps . After it , Yuuichi is trying to reconfort Shibe and it works(direct + positive manipulation + white knight)

-And Yuuichi tells everyone that there is a traitor who wants to set them against each other(observation) and that he knows who it is , that's the same person who wrote the worst secrets . Makoto asks him who is the traitor and Yuuichi doesn't tell the name but he tells that he knows how does this game work and how to end it, he explains that at

first they tried to stay unite but in only 2 steps they all lose 3 millions , and he tells that if the game is unequal then the public will get bored, and he explains that the game's goal is to entertain the public since it's a business company (comprehension) , he also add that all games have a minimum of equality and that their main interest is that they don't know how it will end ; he continues by telling that during the sixth turn there was a step that didn't reduced their debt and only Yutori's one had diminished from 200 000 yens and he add that Manabu told that this game is as a game of the goose and he add that in those games , there is bonus and penalty (general knowledge + comprehension knowledge : comprehension of the games , their interest and how they work)

-Yuuichi tells that the difficulty of this game is that they can't know what others are writing , and he add if they know who write what , and he decides they'll write a secret about ourselves, and if they write a secret about themselves except the first of game (Shibe) and that the traitor will take Shibe as target (creative thinking) .

-After everyone had agreed to it , Tenji is trying to refuse and Yuuichi asks why , but Tenji is trying to manipulate him for telling about the traitor , cause Tenji tells that the best strategy is to send him to the end of game directly , and if Yuuichi's plan failed then Yuuichi will have to tell the name of this traitor .

-At the eighth turn , there is 10 papers , and even Yuuichi is surprised , and Tenji is telling to Yuuichi to answer but Yuuichi was bluffing .

After it , the game continued , without us receiving many details .

-At the 19th turn , Shiho arrives at the end of the game, and Tenji excuses for not having protected her .

-But suddenly , Yuuichi speaks and have a purpose, and he found an idea for making the traitor denounce himself , he tells about the loser penalty by saying if we write a lie and use his past idea that if they write a secret about themselves and add then every players except the traitor could went to the 3rd game and his idea is the next one : they'll write the same thing with their name on the paper and this secret will be true only for one player and he has the idea to make everyone write "i'm the one who brought them in Tomodachi Game"(creative thinking+ strategic thinking)

-He continues by telling if they all put this affirmation then only the traitor would have say truth and won't go to 3rd game and by it , every players except the traitor will went with Sawaragi, and Tenji asks about the proof and Yuuichi answers that there is no need for it cause the tomodachi game administrators already know his identity ; after it , Yuuichi asked to Tenji to went by telling that he is the only one on whom Sawaragi has the most confidence and even Sawaragi is imploring him to go (direct manipulation + logical manipulation + persuasion) .

-At the end of this turn , Tenji thought that there were 5 papers written but there was only 1 and that's only Tenji's paper . Of course , after being badly looked at by others , Tenji is playing victim to getting some piety , but the reality is different .

-Yuuichi took him by his head and Yuuichi tells to Tenji to talk , Tenji tells that it's not the Yuuichi that he knows (behavioral volatility) ; and Yuuichi asks him if he is the one who brought them in Tomodachi Game and Tenji answers yes(direct manipulation + intimidation + physical threats)

S1 EP6

-Yuuichi starts to explain how he worked for take Tenji down , at first as we know , his goal was to unmask the traitor even before the second game , and during the third turn , when the secret about Shiho and her past with Tenji got revealed , him and Sawaragi decided to work in secret (teamwork) and for it , he gave her instruction via the backbiting cart, and Tsukino explains that he used the backbiting cart for communicate his plan to her (creativity) and once out of cabin , he gave it to her for let her read inside the cabin ; and for test her confidence , he asks her to reveal a secret that only her and him know which was "Yuuichi spend one week without shower" ; after it he tested Yutori by asking her to write a secret about Sawaragi that only her know(tactical synergy) ; finally when Tenji was in cabin he slapped Sawaragi for giving her in secret another paper (tactical deception), Tsukino also add that without even aware the suspicion of anyone , Yuuichi took the control of the order of passage , as when he asks to Tenji to went first by a question or when he makes a small push for make Yutori went , (indirect manipulation + abstract control)

-And concerning Shibe and Tenji , Yuuichi explains that when the “special chance” choose Shibe, Yuuichi already know that if Shibe was the traitor then it would be stupid for him to take the risk to denounce himself (logical reasoning) and when Yuuichi explains to Tenji his first tactic , he explains that it was for know if Tenji was more motivated by money or something else, and now he knows that it’s not money (emotional understanding) and when Tenji went inside the cabin , Yuuichi tells the rest to others . But Tenji says that it’s possible to write on many papers and that his strategy wasn’t a good idea , so that’s why for the last step, Yuuichi took their badges as a proof of their engagement .

(strategy effectiveness + strategy complexity)

-After it , Tenji is asking to Yuuichi which error does he had done , and Yuuichi answers nothing , but he just didn’t find him natural during the game cause for Yuuichi , Tenji is someone who is smart and good at conflict management , while wasn’t the case during the game(behavioral analysis)

-After it , Manabu tells them that even though they know the traitor , Shiho will still lose, but Yuuichi tells that he still has another cart to use and Yuuichi tells something to Manabu ; and after having check this information , Manabu declared that Yuuichi is the only one arrived at the end of game and Manabu tells that Yuuichi lied during the seventh turn , and Yuuichi said that it’s ok for him to directly went to 3rd game

alone, and he tells to Yutori if she remembers what he told her when she was in shock , and Yuuichi tells that he had done somethings horribles , and it make him maybe worst than Tenji , he tells that when he wrote about Shibe having killed someone, he tells that he lied , it's him , Yuuichi himself who killed someone . And it's creating conflict in the group , but Yuuichi seems more careful to go to the third game , and it also implies that from the start , he wanted to go to the 3rd game.

-When he is about to went for the third game , Tenji stopped him , and Tenji tells that he also lied during the game when it was about him and Shiho's relationship, and he tells that if he wanted to break the group , it was for reach the heart of someone , and it was Yuuichi , and for give a proof , he went slowly to Yuuichi before to kiss him and they went to the third game .
