Lee Myung Gi (The Perfect Player)

This doc will explain everything that was done by Lee Myung Gi (333) in *Squid Game*

Doc made by : umontrose

White : General Explanation
Red - Strategy, Planning, Tactics.
Green - EQ, FSIQ, AC, Intelligence, Cognition and Knowledge
Light Blue - SQ
Yellow - Deception
Orange - Manipulation
Blue - Foresight
Pink - Reasoning and Thinking
Light Purple - Perception, Observation, Cold Reading, Adaptability

Season 2

S2 Ep 3

- In Myung Gi's introduction, guards say "Age 30, used to run a YouTube channel called MG Coin. After convincing subscribers to invest in a new crypto coin called Dalmatian, causing losses of approximately 15.2 billion won you shut down and disappeared." Myung Gi used to run a channel about investing in coins that was pretty popular. After this introduction, Player 230, aka. Thanos goes to Myung Gi. Thanos confronts Myung Gi about his promotion of a coin and he wants his money back. Thanos says "You told us to bet it all, you fucker. You swore it'd shoot up. You said we'd be fucking idiots if we didn't buy it!" Myung Gi has manipulated tons of people by saying that they should buy the Dalmatian coin and they would be stupid to not buy it. Myung Gi then says that he said "You are responsible for the final decision on your investment." in every one of his videos. This is done to avoid lawsuits.
(Social Skills, Leadership, Charisma, Direct Manipulation, Mass Manipulation, Tactics)

- In the first game, Red Light Green Light, Gi Hun orders everyone to walk in lines. While they are walking towards the finish line, Myung Gi crosses his arms on his chest to stop his body from shaking and his arms sticking out to the sides, both of which could cause his death.
(Lateral Thinking, Creative Thinking, Convergent Thinking, Tactics)

S2 Ep 4

- While Myung Gi gets beaten up by Thanos and Nam Gyu, he showed no sign of pain in or after the fight even though his face was bruised up.
(EM, Stress Tolerance)

- There is a game called Jegi-Chagi where you have to kick a thing called Jegi 5 times in a row without it touching the ground. Think of it as juggling a football. Juggling a thing 5 times in a row would require Myung Gi to be calm as he must be precise with his hits and he must tolerate the stress that he would die if he doesn't pass the game.
(EM, Stress Tolerance)

S2 Ep 5

- In the bathroom, Thanos confronts Myung Gi again. Thanos says that Myung Gi must pay him back once they get out. Thanos says “You have to keep playing the games until the end. And who knows? You might win the entire prize alone.” Winning the entire prize alone would require all of the others to be that. Seeing that Thanos doesn’t even realize this, Myung Gi comments by saying “If I won the prize alone, that’d mean you’re dead. Why would I pay you back if you were dead?” and he silences Thanos. Then he says “How do you even remember your lyrics? Oh, right. You forgot the lyrics in the show’s finale.” This comment angers Thanos. Also, we don’t know when was this show but Myung Gi remembers here that Thanos had forgotten the lyrics to his song in the show's finale.
(EM, Memory)

S2 Ep 6

- In this episode there is a game called Mingle game, where a number gets announced and you have to fill a room up with that number. In one of the rounds, Player 120’s group tries to get into a room with only a few seconds remaining but a member of them gets left behind. When Myung Gi, who didn’t have a group, sees this, he quickly pushes Player 120 inside and he closes the door. Player 120 starts blaming him about the death of his friend outside and starts to shake him while Myung Gi remains calm and says that there were no time to save the other person and all of the persons inside the room would have died once Player 120 got out to save the other member because the number of people inside the room wouldn’t match the number that got announced, that’s why he pushed Player 120 inside and closed to door, to save all the others and ensure his security.
(EM, Stress Tolerance, Holistic Thinking, Faster Thinking, Critical Thinking, Convergent Thinking, Tactics)

- After the game, Myung Gi goes to talk to Jun Hee, his ex-girlfriend. Remember that Myung Gi is 1.8 billion in debt. He says to Jun Hee that he has calculated each player would get 300 to 400 million won if they terminate the games. And he says that he is sure the majority would choose to terminate. He says to Jun Hee that they should get back together and live like they once used to. He then says that they could combine the money they would get and pay off immediate debts, then he could invest again and make money to pay off his other debts. He says all of these not because he really wants to get together with her, but because he wants

her money. Even though Jun Hee refused this, Myung Gi's attempt could still count as a feat as he created a plan and thought of ways to convince her.
(Critical Thinking, Convergent Thinking, Creative Thinking, Lateral Thinking, Planning Process, Planning Versatility, Tactics)

- As you know, votes to terminate the games happen after each game. Myung Gi has voted to terminate them while Thanos chose to keep going. Myung Gi decides to put an end to Thanos so he comes up with a plan. After he eats his lunch, he hides a fork that they gave him for the food. Then, he goes to the bathroom to confront Thanos. Seeing that Thanos has his friends besides him, Myung Gi calls over everyone who voted to terminate the games in order to create a mess. While everyone is busy fighting with each other, Myung Gi and Thanos get into a fight. In the fight, Myung Gi stabs Thanos under his chin with the knife that he hid earlier which results in Thanos' death. Myung Gi knew that he couldn't have done this with Thanos' friends wandering around him so he called the voters to create a fight which would distract Thanos' friends which would result in Thanos ending up alone.

Season 3

S3 Ep 1

- The next game is a game called Keys and Knives. Players with the keys try to hide from the players with the knives and escape before they get killed by them. Seekers have to kill at least one person to pass the game. Myung Gi ends up in the blue team (Hiders) while Jun Hee ends up in the red team (Seekers). Before the game starts, players are allowed to switch teams. Myung Gi goes up to Jun Hee and says that they should switch teams. He knows that Jun Hee won't be able to kill anybody so she wouldn't pass the game if she plays as a seeker. So he suggests that he should be a seeker, this way he could kill someone and then come to protect her and the baby. He then says "I'd do anything for you and the reward, even if it meant killing everyone." Jun Hee agrees to switch teams. Myung Gi has ensured his and his girlfriend's safety.
(EE, Critical Thinking, Convergent Thinking, Tactics)

- Just before the game starts, Nam Gyu goes to talk with Myung Gi. Nam Gyu says that he is thankful that he has killed Thanos and they should work together to pass the game easier.
(Charisma)

S3 Ep 2

- As the game starts, seekers start to look for the hiders. Nam Gyu offers Myung Gi a drug because he is thankful that he killed Thanos, but Myung Gi refuses to take drugs.
(Charisma, Mental Fortitude)

- Myung Gi and Nam Gyu chase down a guy and they manage to injure him. Just as Nam Gyu was about to kill the guy, Myung Gi stops him because he thought of something. He says "If you kill him, you'll pass and I won't." Nam Gyu says that he would help but Myung Gi says "How can I be sure you'll help me with the next one? You'll be done already." To fix this problem, Myung Gi comes up with a solution of stabbing the guy at the same time so that they both get a kill. Myung Gi then picks up the key from the guy so that they could open doors too. Nam Gyu says "You're so fucking rational." and he once again gets amazed by Myung Gi. They keep using the tactic of stabbing at the same time all the game to ensure they both pass the game. After some time passes, we learn the plan behind why Myung Gi took the key. He anticipated that no one will think of the seekers grabbing the keys and that the hiders won't be cautious when they open a door. So he and Nam Gyu hid behind doors to surprise attack hiders and kill them. As the game goes on, Myung Gi found a room where Jun Hee and her friends were hiding. He didn't want to hurt them so he closed the door. When Nam Gyu asks if he found anything, Myung Gi says that there isn't anything there and they should keep going. The game ends with both of them winning.
(Critical Thinking, Faster Thinking, Divergent Thinking, Holistic Thinking, Lateral Thinking, Abstract Thinking, Creative Thinking, Convergent Thinking, FRI, Tactics, Setting Traps, Planning Coverage, Planning Versatility, Charisma, Anticipation, Bluffing, Concealment)

S3 Ep 5

- Players advance to the final game with 9 people remaining. The game is named Sky Squid Game. It's split into 3 sections, and at least one person must be thrown off in each one. Each round starts when a button is pressed by the players. The game ends when 3 people get thrown off and all the remaining others advance to the final section. Player 100's team's plan is to kill 456 (Gi Hun), 222 (Jun Hee's baby) and 125. Keep in mind that Gi Hun is holding the baby. The group says that they should kill the baby in the first section. But Myung Gi says that Gi Hun won't let go of the baby no matter what, even though his group thinks otherwise. So killing them would be hard for now. He convinces his group to kill 125 first. Myung Gi takes a look at the environment and he sees that the pole in the center of the platform can be taken off. None of the players wanted to throw off Player 125 by theirself because they were afraid of falling too, but with Myung Gi's idea of using the pole it has become very easy to throw off Player 125 without getting in contact. Myung Gi slams the pole into Player 125 and he dies. Player 100 says that Myung Gi is a genius. They advance to the next section. Just as Player 100 was about to press the button to start the round, Myung Gi stops him by saying that they shouldn't press the button yet until Gi Hun and the baby get separated to not waste time. But they press the button anyway and so Myung Gi comes up with a plan to separate the baby from Gi Hun. He orders all of the members of the group to hold onto each other in a straight line and the person in the front tries to take the baby while Myung Gi waits in the side to protect himself from anything that could go wrong. Gi Hun starts to fight back with the person in the front so in that moment Myung Gi pushes off the person from his own team and he sides with Gi Hun. Player 100 tries to convince them by saying that they should be a group again but Myung Gi sees through his bluff and says "They are 4 people, we are 2 people. They could betray us at anytime" so he chooses to not side with them. Player 100 then calls out Myung Gi by saying that he was the one to come up with that plan to break his relationship between him and Myung Gi. Myung Gi however, uses the fact that he is the baby's father to convince Gi Hun into thinking that he wasn't trying to hurt him. Myung Gi then says to Gi Hun that they both have weapons so the other team wouldn't be able to hurt them and they are in control of the game, he manages to convince Gi Hun into thinking that he is good. Because he said that they are in control now, a fight started in Player 100's group that led them to choosing a victim. Another fight starts between the groups when Gi Hun lowers his guard and after the fight only Myung Gi, Gi Hun, Player 100, the baby and another guy remain. Player 100 says that they should push off the other guy and split the money in four, where everyone gets 11,4 billion won. Myung Gi in that moment calculates that if he pushes Player

100 off too each player would get 15,2 billion won (Total prize is 45,6 billion won, the money would be split between him, the baby and Gi Hun). He pushes Player 100 off. Then, the other guy jumps off himself too. So now there is only Gi Hun, Myung Gi and the baby remaining. Gi Hun tells Myung Gi that he could kill him in the next section but Myung Gi doesn't believe this. He advances to the other section while he tells Gi Hun to in the previous one. He makes Gi Hun place the baby to the ground and walk away, then he takes the baby with him to the next section. The reason for doing this is that he wanted to kill Gi Hun but Gi Hun was holding the baby so he made him let go. But Gi Hun jumped to the other section at the last second so they got into a fight. During the fight, Gi Hun's knife dropped to the ground. Knowing that Gi Hun would do anything for the baby, Myung Gi threatened to throw the baby off and using this he made Gi Hun walk away from the knife so that he could pick it up. Even though Myung Gi grabs the knife, he still loses his fight to Gi Hun and dies there.
