Kratos is easily high-outer and potentially boundless (from @baldursolostheverse)https://www.youtube.com/shorts/JpKN0Rq4ZY8

+ Scaling gow To H1T+ Near boundless (rebunk video included)

(3 chapters + no images only links cuz rushed)

First two chapters are short and the last chapter is the ultimate analysis using deductions of first two)

Chapter 1: Thor destroying yggdrazil

GOW rebunks (no known debunk to this)

1. Kratos holding back is just like Thor —> Thor was able to chip away all of Yggdrazil

Chapter 2: What Yggdrazil is

1. Yggdrazil is an infinite structure that encompasses and transcends all of creation, the 9 realms and everything within them. With the 9 realms being planes of existence, Yggdrazil viewing the realms as mere points within itself, and transcending the space-time continuum and reality

Chapter 3: GOW cosmology and dimensionality scaling + more on yggdrazil's power + why all of these matter into how Kratos scales to near boundless

1. The realms in gow are parallel universes. A developer has confirmed that each realm has its own outer space containing its own galaxies, stars.

https://qph.cf2.quoracdn.net/main-qimg-aa0df62f4cea0029463bce1975dbadbd

2. Another developer said that each kingdom has its own version of the land

https://qph.cf2.quoracdn.net/main-qimg-a9d87e1c9d8da4580873b1caed3eae57

3. And it is also said that the kingdoms are separate worlds. In other words, the kingdoms are indeed universes, but this goes even further. For each realm contains infinite realities, infinite timelines and possibilities. It was stated that each realm had infinite timelines and possibilities within them, because since Kratos changed destiny and how things should be, he created an infinite number of timelines and infinite possibilities within the nine realms.

Evidence:

4. We have the well of urd that contains infinite realities and infinite timelines and possibilities.

Evidence:

5. Only because of Yggdrasil is travel between realms possible, this is important because you use the light of alfheim to travel between realms, you see that it transcends the realms themselves and that it is directly connected to the realm between realms itself, and this connection between the tree and the realms were created by Yggdrasil herself.

6. Light of alfhien >>>the 9 kingdoms Each realm would already be multiversal+ as they are infinite and contain an infinite amount of realities, timelines and infinite possibilities Yggdrazil has infinite branches that expand infinitely, each branch transcends the literal abstract concepts of the space-time continuum. (Outerversal feat) Yggdrazil also transcends life, death, and is beyond any reality of space and time.

https://qph.cf2.quoracdn.net/main-qimg-90ab29e02b8b46e208ba5fe97820f5cb

7. It is said that time is but a branch of Yggdrazil. The branches of Yggdrazil are a hierarchy of infinite stacked layers of reality

Evidence:

https://encrypted-tbn0.gstatic.com/images?q=tbn:ANd9GcQJu2xgO1tebQ6PCLqTdegPiSbBo9S6vlnTmw&usqp=CAU

8. Branches beyond branches, with each branch transcending the previous branch, each branch transcending the literal concepts of space and continuous time Infinite layers of existence above the concept of space and time. These Scans show that Yggdrazil has infinite dimensions, layers and planes of existence stacked all above the concept of spacetime(high outerversal+feat) However, everything mentioned is just the lower part of the tree, but the actual upper part of the tree that houses the kingdoms is above the infinitely stacked tree at the bottom. Transcending these infinite layers of existence(high boundless+++)

9.

Primordials are quinttesential abstracts so outer

Also plato exists in gow making it to be consistent

Gow has EMR as suggested in kvasir poems and well of destiny for ygg its higher part trqnscemds lower part and its infinite making it h1t

Primordials are pltonic concepts they shape reality and are as powerfull as the cosmology

So primordials are h1t

Kratos scales to primordials thanatos kills him and absorbs his powers as suggested in gow 3 zeus:you have become death destroyer of worlds and his ablity to do so

Athena is on higher existence kratos and zeus scale to her in base

So kratos in base is h1t+

Thor was a match for kratos so he scales to him

So thor is h1t+

Conclusion, kratos easily has high outer scales and most likely boundless+++
