PATRICK JANE JAILBREAK STRATEGY:

(Planning Process Planning Coverage Planning Versatility Strategy Execution Strategy Length Strategy Complexity Indirect Manipulation Reasoning Psychology Trap Setting Foresight Creativity)

Doc Created By Hassan Mustafa On Yt

-After A Car Robbery Done By 2 Psychopaths Cole And His GF Marie Who Is Caught But Cole Escapes Its Up To Patrick Jane To Manipulate His GirlFriend Indirectly Through Lisbon.

Start Of The Episode

-When Marie Is Caught By The Feds Cho And Abbot Interrogate Her To See If She Would Pop Open But She Doesn't And She Insists That She Be Put In Prison After She Is Taken Cho And Abbot Opt For Plan B.

-Jane And Lisbon Are In A Car As Jane Instructs Lisbon Through His Innate Psychology Knowledge As To How To Get Marie To Befriend Her He Says "Don't Tell A Whole Lot Of Lies Just One Big Lie Is Enough And Everything Else Just Stays The Same U Are From Chicago U Have 3 Brothers And Ur Ticklish He Also Says That If U Want Somebody To Trust You Ask Them For A Small Favour". Jane Is Seeing Preparing For His Strategy After Telling Lisbon This Indicating Jane Knows What Type Of Strategy To Use To Get Marie On Lisbon's Side Through His Emotional Understanding Of Her Jane Has To Successfully Manipulate Marie For His Strategy To Work Because He Has Planned This.

-Lisbon Meets Marie As At The Start She Pushes Lisbon Back.

-We Get Back To Jane As He Is Seeing A Map Of Maries Escape Route

-Jane Through His Highly Impressive Emotional Understanding Psychology Knowledge And Application Deduces That She Wanted To Go To The Industrial Area Which Narrows A Massive Amount Of Area To A Small One Through Jane's Insight Into The Human Mind

Janes Reasoning:
-When U Are Being Chased Your Subconscious Wants U To Run Home But Ur Conscious Doesn't Want To Lead The Pursuers There This Familiar Type Of Strategy Was Used By Jane In S6 Ep 16.

- Marie Wants To Run Away
- Her Subconscious Wants To Go Home
- But Her Conscious Doesn't Want To Lead The Pursuers
- She Turns Right Then In A Full Circle
- Then Goes Further Than In A Full Circle
- She Proceeds To Keep Doing This For Some Time But At A Point She Gets Caught
- Jane Reasons That She Has Been Zigzagging
- Now The Possible Number Of Routes That She Can Go If She Weren't Caught
- Either Left Right Straight Or Backwards
- The First Turn She Takes Is A Right Because This Was The First Turn There Would Have Been No Deception Involved
- Then She Goes Straight And Starts Going Upwards
- This Is Where Her Conscious Mind Takes In As She Turn A Full 360
- Then After Going Further Down She Then Proceeds To Go Back To The Place Where She First Took A 360
- But Again Due To Being Close She Decides Not To As She Takes Another 360

- She Does This Again
- Jane Reasons That The First Path She Took Must Have Been Where She Would Have Wanted To Go
- As The Other Paths Have The Straight Upward Path Common
- Jane Figures Out That She Wanted To Go To The Industrial Area.

-This Is Later Proved As This Shown Janes Insightful Reasoning Skills And Seeing Through Deception And Personality Of One Person As If He Were In Their Minds.

-Jane Narrows The Space Down To A Infa Decimal Degree Compared To What Was There Before Then When Abbot And Cho Asks If He Can Narrow It Further He Says He Cant Do Everything Also Being Aware Of His Own Limits.

-Back To Lisbon As She Hears Marie Arguing With An Inmate Lisbon Intimidates The Inmate And Gains Marie Trusts Just As Jane Said By Doing A Favour But She Pushes Lisbon Back Again Lisbon Calls Jane She Tells Him That When She Takes One Step Forward Marie Takes One Back She Tells Jane A Bit About Her And Jane Instantly Sees Through Marie's Personality Instructing Lisbon That Marie Is A Bit Like Her Comparing Lisbon To Marie And Jane Tells Lisbon To Open Up To Marie By Lowering Her Guard

-Jane Does What Patrick Tells Him To Do And It Works As Marie Starts Opening Up And As Lisbon Talks About Jane Her Boyfriend Marie Tells Lisbon About Her Own And Tells That She And Cole Live In A WareHouse Jane Has Not Only Seen Through Marie's Personality But Also Correctly Reasoned Where They Would Be Even Before All Of This Showing Insane Ability To See Through People And Even A Better Talent For Deduction.

-Jane Has Successfully Completed Steps To His Strategy As He Has Successfully Manipulated Marie Through His Abilities Made Lisbon Her Friend Which Would Further Increase The Success Rate Of His Strategy Has Gotten The Location Of Cole Also Made Marie Be Convinced That Jane And Lisbon Were Outlaws Just Like Them As When Told By Lisbon To Jane That Marie Is A Loner Jane Used Her Insecurities To Get Close To Her Not Only This But Through Been Made As Outlaws Jane Made Marie Empathise With Lisbon Which Further Down The Line Will Make Cole Be Indirectly Manipulated By Jane.

-This Also Goes To Show Janes Adaptability As Him Not Being Present In Situations Yet He Still Has The Wits To Make People Dance To His Tune.

(Formulation Speed Planning Coverage Planning Versatility Planning Contingencies Planning Invincibility

-After They Investigate The WareHouses They Catch A Man That Works For Cole But He Doesn't Have The Info They Are Looking For Which Abbot Tells Jane That They Should Pull Lisbon Out Jane Disagrees As He Has Planned Far Ahead He Says That Marie Has Some Use We Make Lisbon Break Out

-Jane Then Goes To See Lisbon And He Tells Her That Marie And Her Are Gonna Break Out This Is Going To Lead Them To Cole And He Is Going To Provide Them With The Breakout Plan Via Lisbon And Marie Is Gonna Provide A Ride Via Cole Also Another Reason As To Why Jane Came Himself And Not Send Any Other Person Is Because He Wanted Marie To See Lisbon Talking To Jane Further Adding To Lisbon Story Gaining Maries Trust More Jane Is Doing Everything Strategically And Placing His Pieces Logically To Manipulate Further Jane Then Tells Lisbon That When Marie Leaves That Room Escaping Will Be The Only Thing In Her Mind

-Marie Enters The Room As Abbot Is There Abbot Tells Marie That She Is Going To Be Transferred To A SuperMax Security Prison Marie Tells Abbot That He Can't Do That Abbot Screams And Says He Can Making Marie Emotional This Is Also One Of Jane's Cunning Tactics Why Its Because When Women Get Emotional They Rarely Think With Their Brain Which Is What Jane Meant When He Told Lisbon That When She Leaves The Room Breaking Out Will Be The Only Thing In Her Mind This Is Extremely Insightful And Cunning Manipulative Tactics From Jane.

What Jane Has Done:

- ❖ Appear In Front Of Lisbon To Tell Her About Breaking Out By Using Marie

- Jane Is Indirectly Manipulating Marie Through Lisbon Which Inturn Has Him Have Control Over Cole's Actions
- Jane Also Appears In Front Of Lisbon To Make Marie Believe Lisbon's Story
- Jane Has Abbot Also In Place
- Jane Sets A Trap For Marie Through Abbot
- Making Her Be Transferred To Max Security Prison Where She Won't Meet Her Boyfriend
- This Makes Her Extremely Emotional.
- As Jane Said Breaking Out Will Be The Only Thing On Her Mind

-This Is Unreal Amount Of Indirect And Logical Manipulation From Jane As He Is Manipulating Marie Through Both Links Through Psychological And Emotional Manipulation This Makes Jane Have Complete Control Over Cole's Actions.
Jane Is Controlling Lisbon Who Allows Him To Have Control Over Marie Which Also Inturn Causes Him To Have Complete Control Over Cole.

-As Jane Predicted Marie Is Emotional And After A Little Verbal Deception From Lisbon Marie Herself Says That They Should Break Out Not Lisbon Marie Jane Had Foreseen All Of This And Everything Is Going According To His Plan.

-Lisbon Makes Marie Agree That Cole Will Pick Them Up Further Cementing Control Over Cole Marie Agrees And They Plan For A Break Out.

-Marie Calls Cole And He Agrees To Pick Them Up Wylie Is Listening As He Rephrases Jane's Words "We Will Make Him Come To Us" Indicating That This Was All According To Jane's Plan.

-Jane Is Planning A Break Out

-This Is The Amount Of Area He Has To Visually Keep In His Mind As Formulating A Strategy For Them To Break Out.

-Janes States That The Problem Is Simple Marie And Lisbon Are Inside We Need To Get Them Outside There Are 3 Ways Over Under And Through.

-Now After This Jane For 5 Seconds Max Sits And Processes His Whole Plan In 5 Seconds Keep In Mind He Has To Keep This Huge Amount Of Area All The Main Points Of The Map All The Routes All The Timing Of The Guards The Watchmen The Cafeteria The Showers Everything That Is In A Prison Jane Kept In His Mind Processed It Also He Processed All The Main Sewer Pipes And Ways To Get Over The Wall This Is Insane Amount Of Visual Processing Working Memory Processing Speed And On Top Of That Insurmountable Formulation Speed.

-After 5 Seconds Jane Says Well The People Who Built This Prison Were Nice Enough To Put Doors In Them So Why Not Just Use Them.

-He Points Out The Gate C As Says That They Should Use That.

-They Will Need A Mop A Bucket And A hole In It

-Why A hole Because It Will Be A Misdirect(Explained A bit Later)

-Prisoners Have Working Times In A Prions Which Means That For Some Time They Would Be Unsupervised Jane Took This Into Account

-Jane Knew Lisbon's Personality And That She Would Be A Rule Follower

-This Would Cause The Officers That Are Looking After Them To Be Less On Guard Around Them

-The Door Here Is The Key Not As An Escape Route

-Why Its Easy To Access For Lisbon And Marie

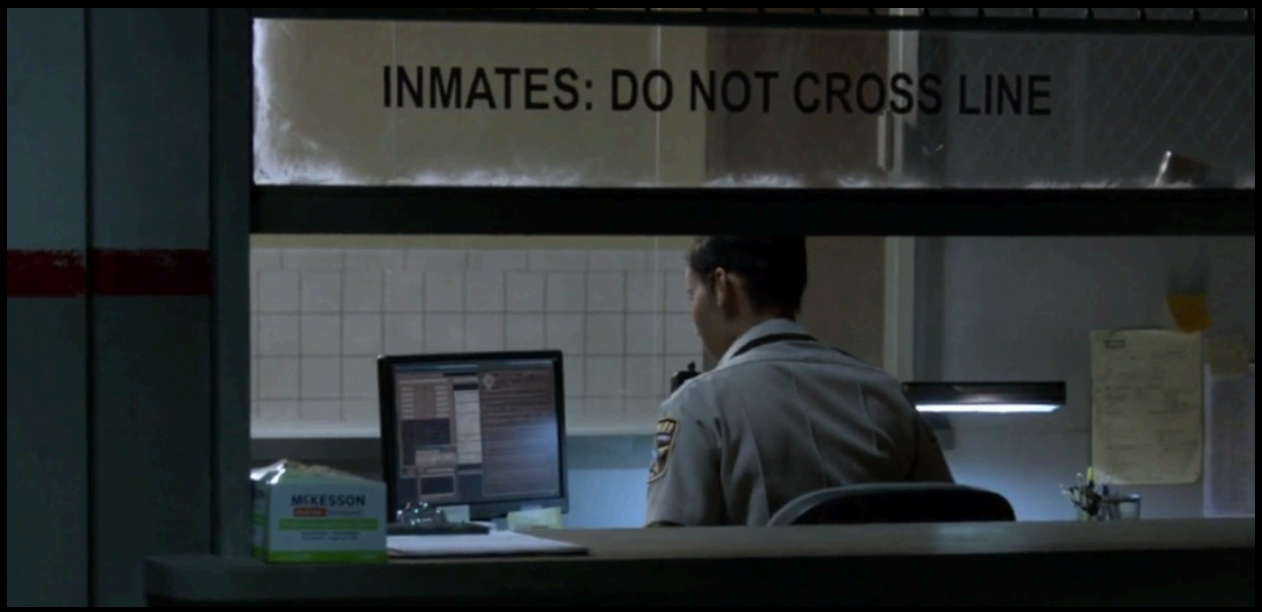

-Also Because Later After The Misdirect It Would Not Take Them Time To Do What They Have To In Order To Ensure The Prison Escape.

-Jane Then Says Its A Misdirect getting To His Point

-They Will Put The Mop And The Bucket In Between The Door

-Using The Broom To Hold The Door After They Take Out The Pluck From The Whole The Bucket Will Leak

-Marie And Lisbon Leave

-This Is The Boundary Between A Prisoners Life And The Guards

-At Shift Change It Would Be Empty Except For The Guard

-Lisbon And Marie Will Still Have Their Prisoner Clothes On Making Them Less Suspicious

- The Bucket Will Empty Which Is In Between The Door

-Causing The Broom And The Door To Have A Chain Reaction And Causing Them To Fall

-This Will Make A Noise

-Because It Is Shift Change Only One Guard Who Is In The Room Would Have To Go

-Even If They See Lisbon And Marie They Still Would Be In The Blue

-Lisbon And Marie Enter The Guard Room

-Lisbon Disconnects The Phone

-If They Are Spotted On That Side With Inmate Clothes Game Over

-They Have To Head Straight For The Employee Locker Room

-They Will Get There Before Shift Change

-They Can Leave With The Cafeteria Workers

-What If Someones Thinks They Done Belong

-The Key To Walking In And Out Of Anyplace Is Posture And Momentum

-U Just Keep Moving Forward Like U Know Where U Are Headed

-People See That Posture And They Know Even Before Their Mind Realises That U Belong There

-Then She Is In Your Hands

-This Concludes The Prison Strategy Not Only Jane With His Insane Formulation Speed Keep Track Of All The Different Variables He Processed Each Item In The Prison To Exact Precision He Used Efficient Tactics Which Are Only A Mop And Bucket To Get Out Of Guards Sight He Used A Hole In A Bucket To Misdirect And Deceive The Guards He Also Made A Complex Strategy Using Psychology And Manipulative Tactics To Gain What He Wants And He Achieved His Aim To Break Out Of Prison Keep In Mind Jane Had To Formulate A Plan Keeping Lisbon And Marie In Mind This Is Much Harder Than Creating A Strategy For Ur self As U Have To Perfectly Understand The Other Person Which Jane Did Jane Also Shielded His Entire Strategy From Prison Guards And Made His Strategy Versatile And Hard To Counter Or Even Harder To Make A Fuss About Even If The Guards Catch Them Jane Has Successfully Manipulated Marie And Cole Through Lisbon And Simultaneously Concealed And Escape From An Entire Prison At The End He Also Used Very Creative Methods To Achieve Wants He Wants Which Are Complex Objectives This Overall Is A Masterclass In Psycological And Logical Manipulation As Well As Strategy Effectiveness And Complexity And Jane Was Able To Solve A Novel Problem Without Breaking Much Of A Sweat.
