Essential Archie Sonic Scale

Cosmology

Before we get to cosmology, there are very important statements from Ian Flynn, who used to write Archie Sonic.
In short, “In terms of comics continuity [...], if its a different media, treat it as parallel universe unless explicitly stated otherwise”

He also confirms that there are infinite possibilities
Ian Flynn confirms there are Astral Planes in every zone

The multiverse is infinite. Infinite variations on infinite possibilities.

I should stress Mega Man isn't part of the Sonic multiverse, though. Mega Man is from his own bubble of reality entirely, which in turn has its own multiverse.

The "Gameverse" is just an entirely different canon.

No - pure SegaSonic is part of the multiverse. In the real world, the games are obviously the base canon. In the fiction of the comic, Mobius!Prime is the core of the multiverse.

-With that statements, the baseline of cosmology should be 5D because it contains Games Sonic cosmology in it, here is basic scale of game cosmology but most important things that get the cosmology to 5D are Maginaryworld, a world made of dreams (universes) from all of

people across dimensions and White Space, a void between dimensions which despite not having time in it (confirmed by Ian Flynn to also be aspatial) contains Universes such as Crisys City and many more (In story it was said to be eggman's past failures) while being infinite in size.

Source of All

The Source of All is the building blocks of existence, many times said to be source of all of existence, life, universe, multiverse etc

It's probably also time itself as it can see past, present and future

Zones

That part i took from this post

I want to make things clear about Zones, because it's gonna be important later

"A "Zone" in Archie Sonic can mean one of 4 things: A region within the main universe(Called "Prime Mobius"), an alternate universe, a pocket dimension, or an alternate timeline.

"Region Zones." These are regions within the Prime Mobius universe. Examples include: Marble Garden, Lava Reef, Ice Cap, etc.

The second one is called "Alternate Reality Zones." These are different universes separate from the main one. Examples include: Anti-Mobius, Planet Freedom, Sol Zone, etc.

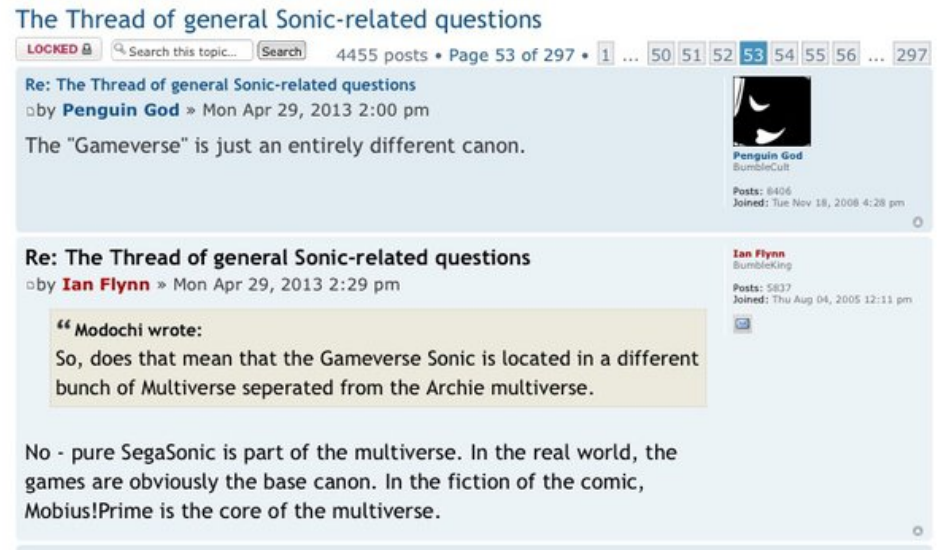

The third one is called "Pocket Zones," which are exactly what they sound like: Pocket realities. Examples include: The Zone of Silence, Twilight Zone, Collision Course Zone, etc.

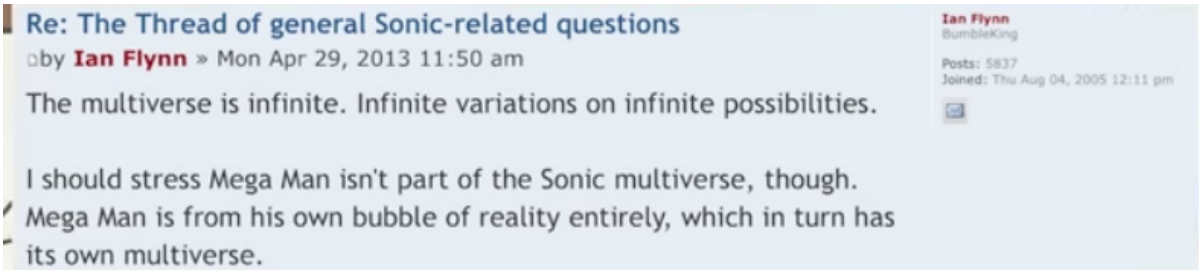

The fourth and final type is called "Alternate History Zones." These are simply alternate timelines branching off from the main one. Examples include: Light Mobius, Dark Mobius, 3437 P.X.E, etc."

Multiverse

These scans prove that even without SegaSonic cosmology, Archie reaches 5D lowballed

Infinite number of infinite sized multiverses of infinite universes with infinite branching timelines that can splinter upon every action/decision (which actually scales higher but ill get to that later).

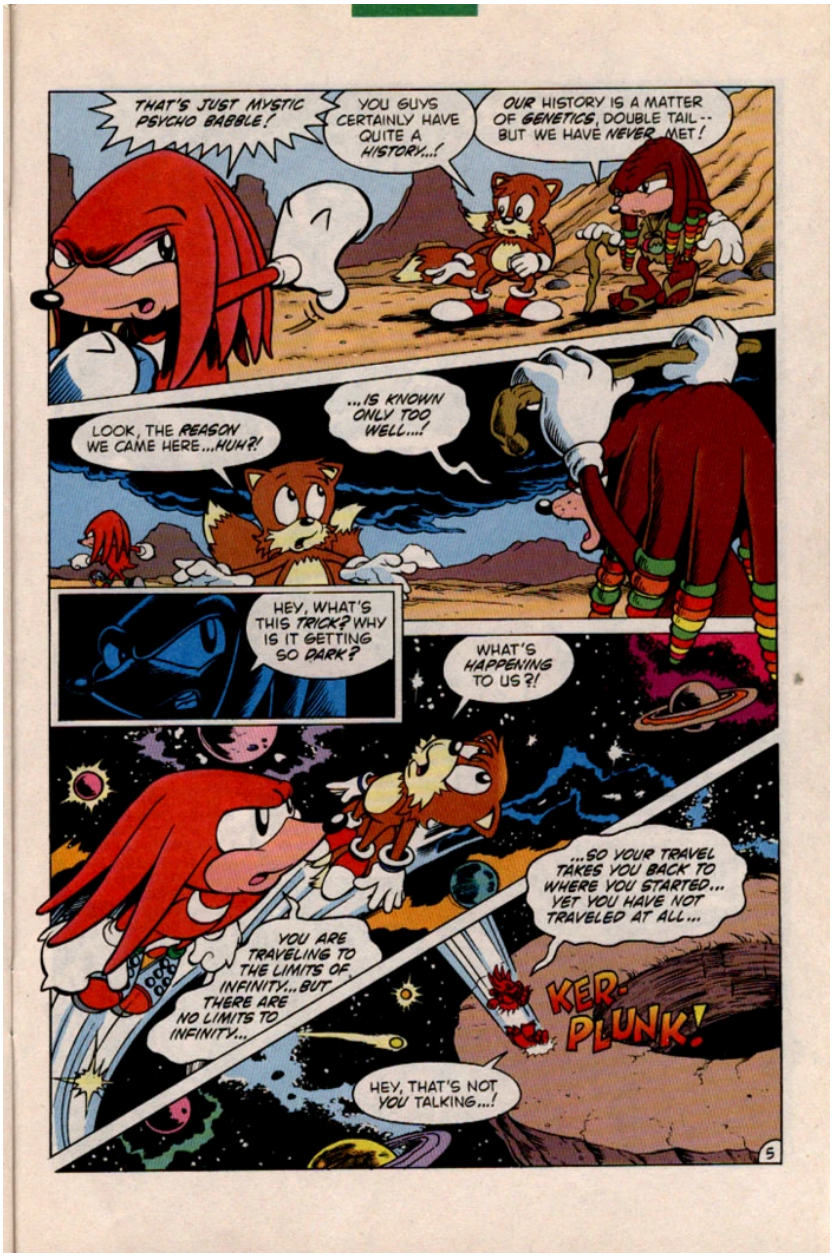

Prime Zone

Prime Zone is core of the multiverse, its main universe for Archie Sonic

Couple times said to be infinite in size

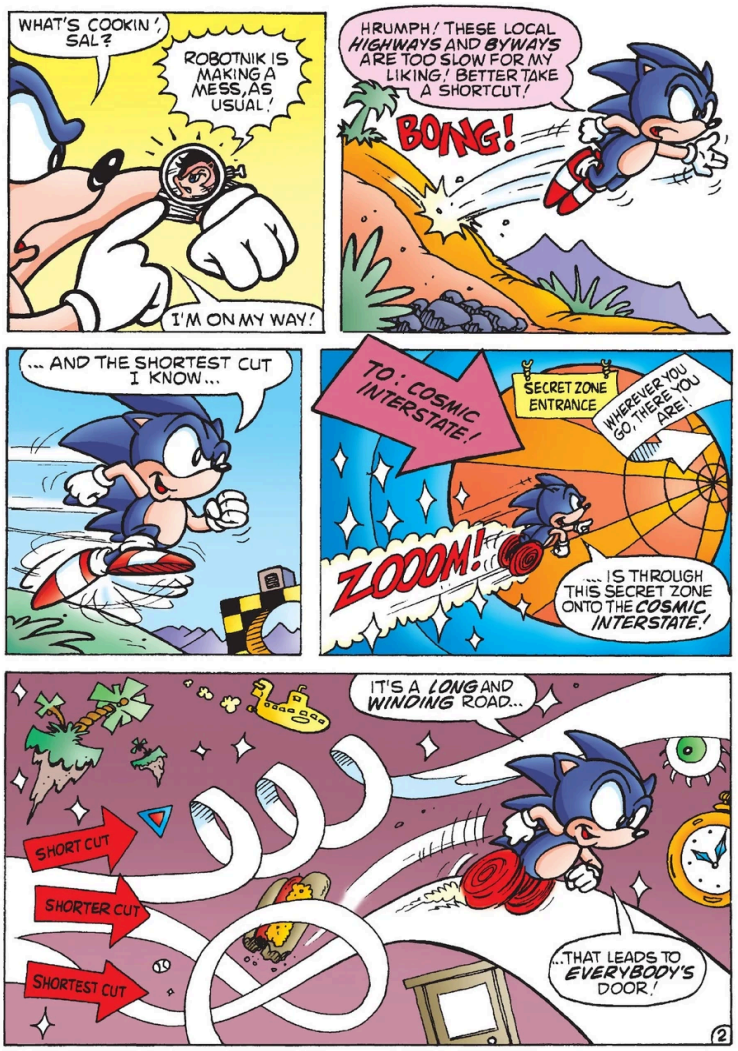

YES!...IT'S WORKING! I CAN SEE FAR BEYOND THE OTHER REALM... ALTERNATE UNIVERSES... ENDLESS VARIETY OF REALITIES... INFINITE GALAXIES HOUSING COUNTLESS WORLDS... HMM...THIS ONE LOOKS INTERESTING...
THE SYSTEM IS TOTALLY DRAINED!

COSMIC INTERSTATE

PROFILE STATS:

First Appearance:
Sonic the Hedgehog #11

To understand the Cosmic Interstate, one first has to understand the multiverse – the grand array of alternate realities. The **Mobius** and **Sonic the Hedgehog** we're most familiar with are of the **Prime Zone**. The Prime Zone is the core of the multiverse; all alternate realities are variations upon this zone.

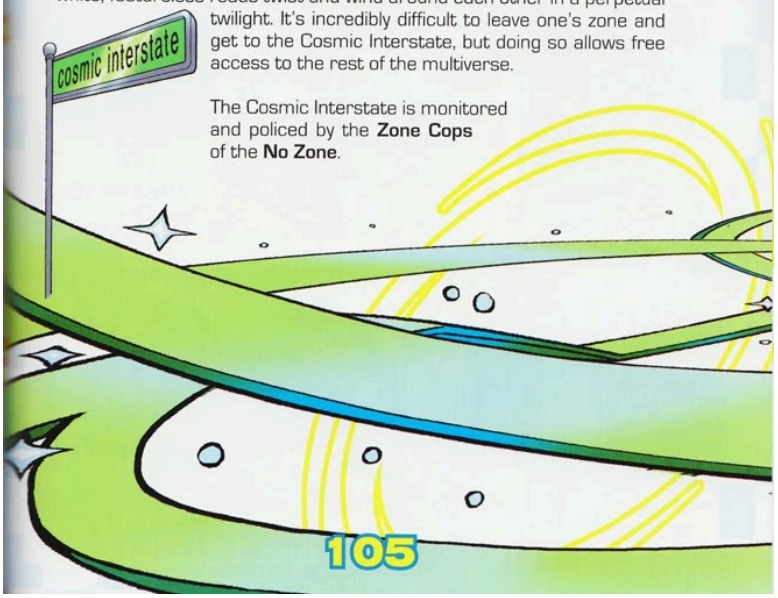

"Zone" itself usually refers to an alternate reality – an entire dimension. It can also refer to smaller "pocket dimensions" like the **Special Zone**. It has also sometimes been used to describe regions on Mobius, but that terminology is falling out of use.

SONIC TRIES TO NAVIGATE THE COSMIC INTERSTATE FOR THE FIRST TIME

The Cosmic Interstate, sometimes called the **Interdimensional Highway,** is a network of roads that connect all the zones of the multiverse. Its white, featureless roads twist and wind around each other in a perpetual twilight. It's incredibly difficult to leave one's zone and get to the Cosmic Interstate, but doing so allows free access to the rest of the multiverse.

The Cosmic Interstate is monitored and policed by the **Zone Cops** of the **No Zone**.

A No Zone runs through every parallel dimension

The No Zone makes every foreigner of the Zone perpendicular to the inhabitants of the No Zone, just as Zonic appears perpendicular when outside the No Zone

Instead, a Spatial Stabilizer is needed to allow foreigners of the No Zone stand upright

Zector, the Zone Cop version of Vector, states spatial rules are more lax in the Cosmic Interstate

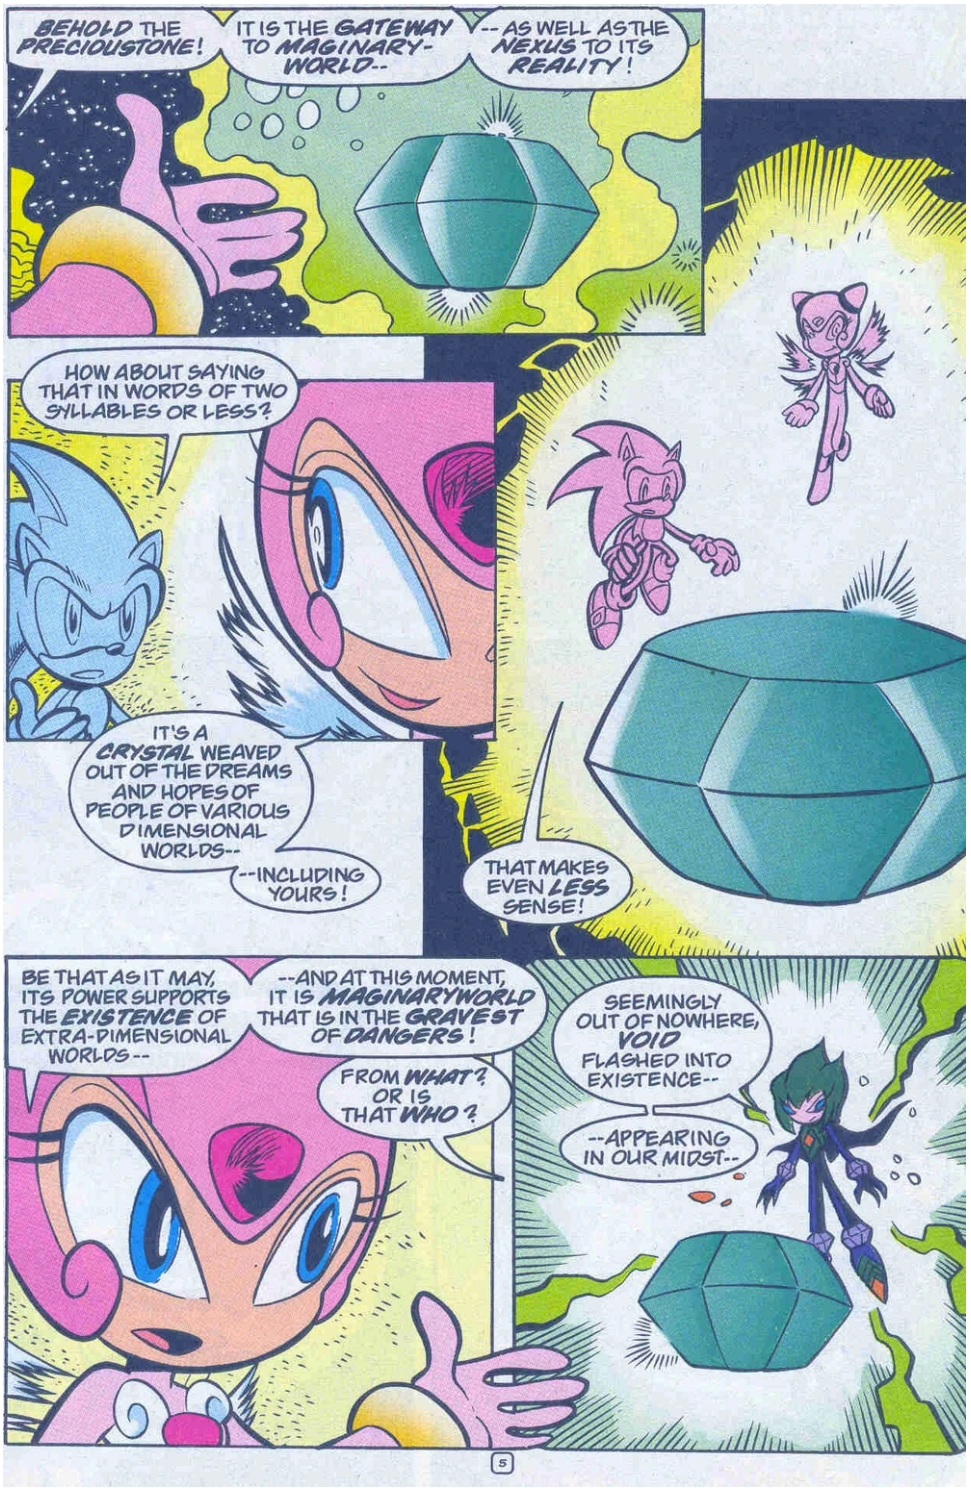

Maginaryworld

Basically works the same as its game variant

Its extradimensional

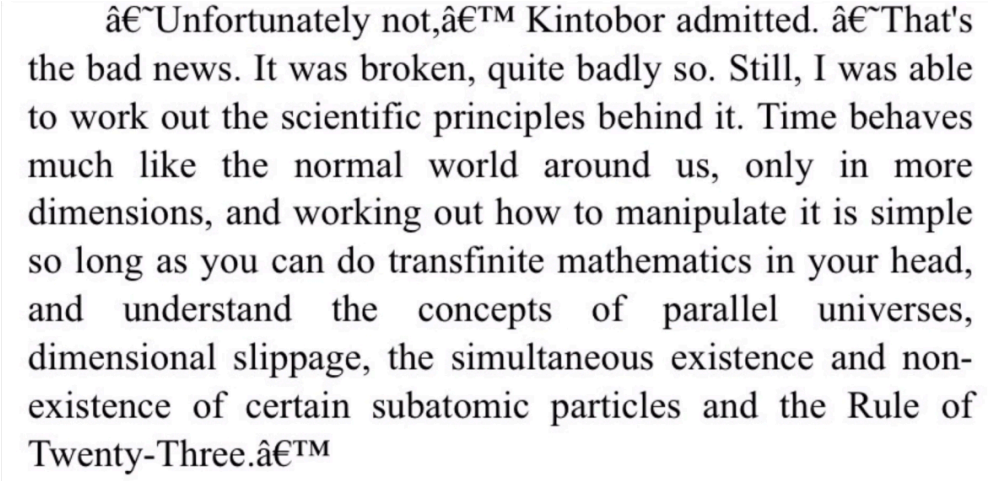

There's no more stuff I can add to Maginaryworld but it should be atleast 5D lowballed because extradimensional refers to space/time beyond regular spacetime.

Quantum Mechanics/Spacetime

Sonic in the 4th dimension

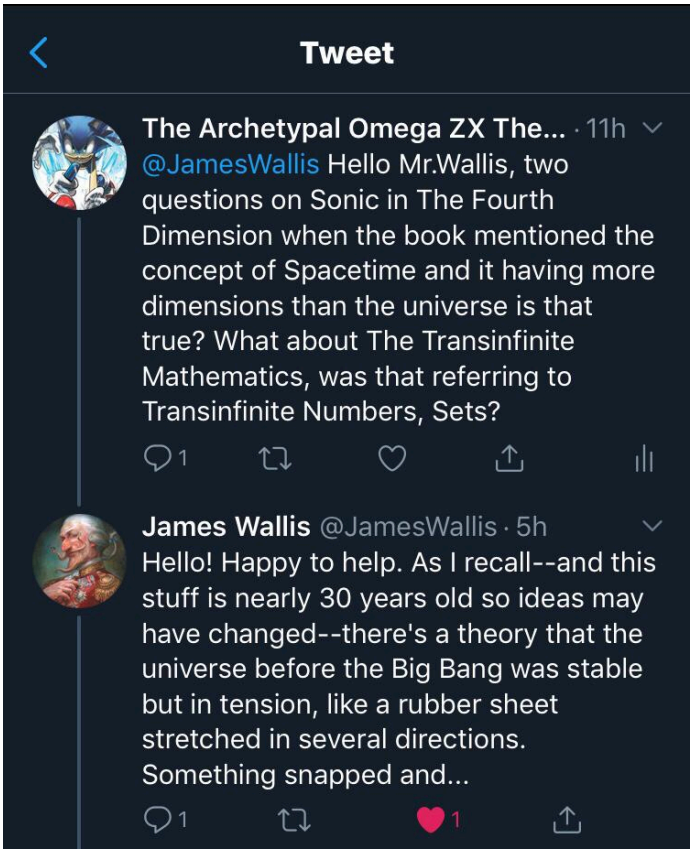

In book called Sonic in the 4th dimension (Which should be parallel universe to Prime Zone), we get deeper explanation how time works, but the most important scan is this one

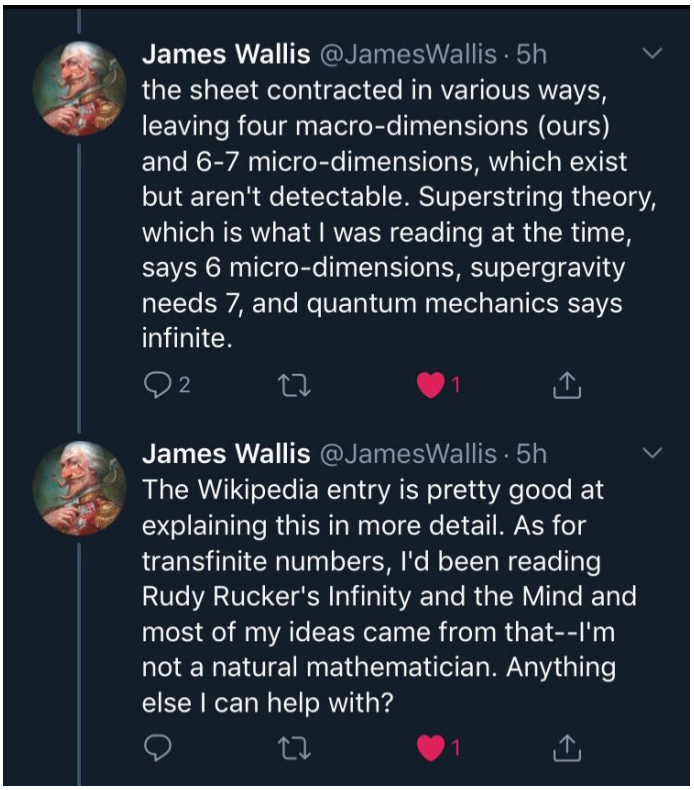

â€˜Unfortunately not,â€™ Kintobor admitted. â€˜That's the bad news. It was broken, quite badly so. Still, I was able to work out the scientific principles behind it. Time behaves much like the normal world around us, only in more dimensions, and working out how to manipulate it is simple so long as you can do transfinite mathematics in your head, and understand the concepts of parallel universes, dimensional slippage, the simultaneous existence and non-existence of certain subatomic particles and the Rule of Twenty-Three.â€™

The most important thing is that we get confirmation that transfinite mathematics/numbers exist, “The simultaneous existence and non existence of certain subatomic particles” is heavily connected to quantum mechanics, it reflects the probabilistic nature of quantum systems, where particles can exist in multiple states simultaneously until a measurement is made, collapsing the system into one of the possible states. This phenomenon is a fundamental aspect of quantum mechanics known as superposition.

James Wallis, author of this book asked about transfinite mathematics, said that he based physics/mathematics in book on Rudy Rucker Infinity and The Mind

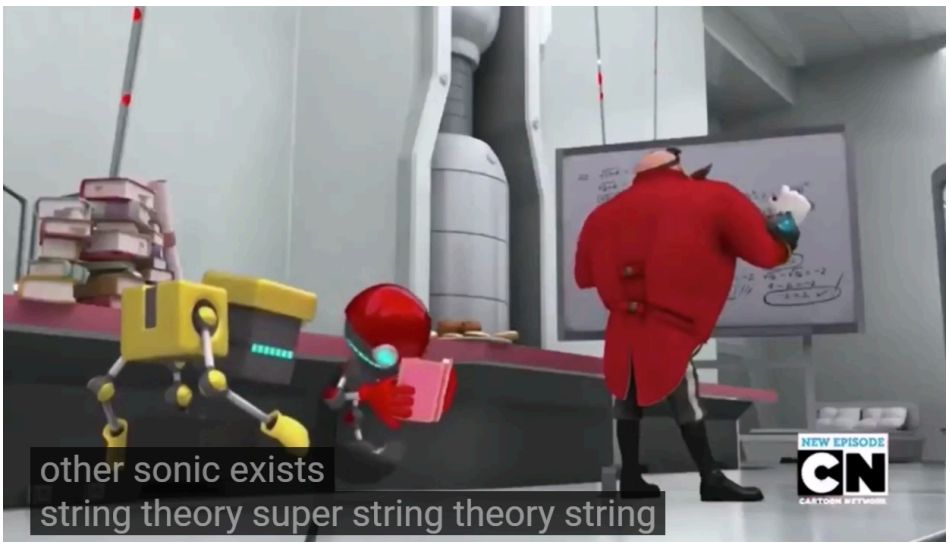

Sonic Boom

Sonic Boom couple times has referenced String Theory or things like higher dimensions

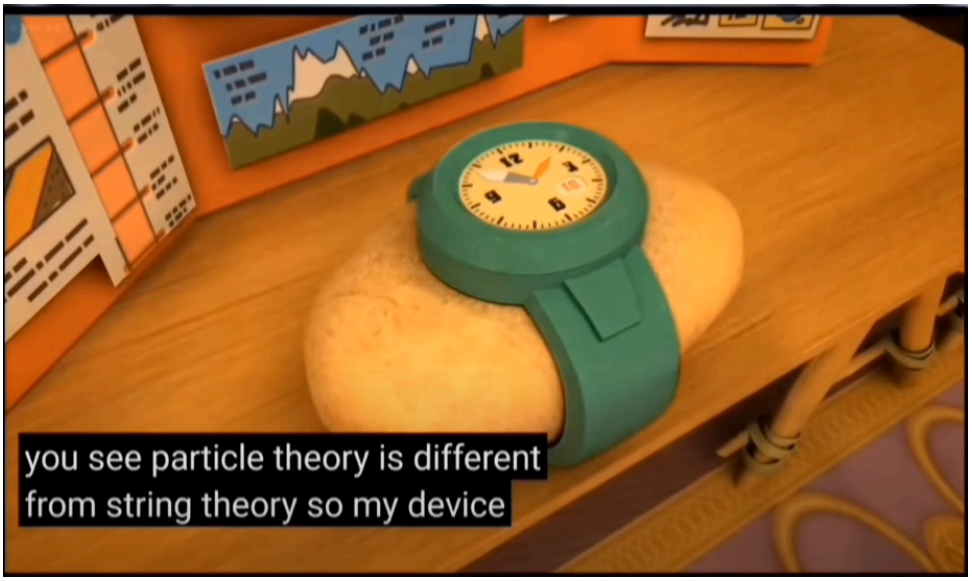

Eggman created a device for science fest that was supposed to prove existence of string theory, that device was mini black hole, and black holes are strictly connected to string theory

Even if you dont buy that, infinite possibilities makes string theory exist either way

Continuous Time

CD알라딘보이니까 가능한 방대한 라운드 속을 소닉이 초광속으로 달려간다!
연속된 시간의 단편단편이 이어지는 시공간의 세계-
말로는 표현하기 어려운 신비의 세계를 직접 체험해 보시기 바랍니다

CD Sonic runs at supersonic speed through the vast rounds that only Aladdin Boy can do!
The world of space and time, where fragments of continuous time are connected.
A mysterious world that is difficult to describe in words.

Continuous time refers to a mathematical and theoretical framework where variables evolve smoothly and continuously over an unbroken range, typically represented as a real-valued parameter, without being restricted to specific discrete time points.

Basic Definitions. A continuous-time (CT) signal is a function, s(t), that is defined for all time t contained in some interval on the real line.

A continuous-time signal has values for all points in time in some (possibly infinite) interval.

continuous time systems which contains the main examples and to which the basic finite dimensional systems facts extend in a reasonable fashion

theory of linear operators on infinite dimensional vector spaces as they occur in ... pendent of time, is composed of the mutually exclusive and constant.

approximating infinite-dimensional systems with finite-dimensional ones has been ad- ... continuous-time infinite-dimensional system T(s).

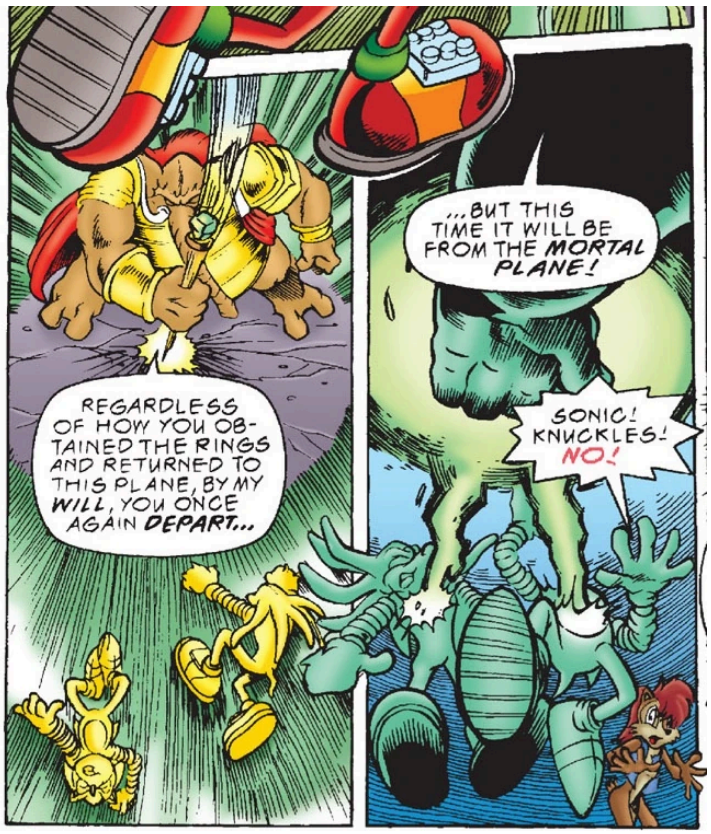

continuous-time LQR problem ... continuous-time system ˙x = Ax + Bu, x(0) = x0 ... ...an infinite-dimensional problem: (trajectory u : [0,T] → R.

With infinite possibilities and transfinite mathematics, continuous time should be infinite dimensional

Higher Planes of Existence

Mortal Plane

We know that there are at least 3 planes in Archie Sonic
The first is mortal plane

There's not much information about it besides this scan, so we can assume that mortal plane is all reality under next 2 next planes

The Next Evolution

The Next Evolution is a higher plane than a mortal one that echidnas achieve after dying, due to their connection with Chaos Force

GRANDFATHER HAWKINS!!!
BUT HE'S--
DEAD?
5
MY BODILY FUNCTIONS MAY HAVE CEASED, BUT I'M EVOLVING!
JUST AS YOU ARE!
HOW COME YOU AIN'T GLOWING GREEN ALL OVER?
--AS I WILL SHOW YOU THE WAY!
AM I DEAD, FATHER?
YOU HAVE TRANSCENDED YOUR CORPOREAL SHELL, MY SON!
WHAT HAPPENS NOW, FATHER?
SOMETHING WONDERFUL!

Chaos Force

Chaos Force is a plane of existence that transcends any other plane, meaning that it is transcendent over Next Evolution which transcends structures such as Maginaryworld or Cosmic Interstate.

HE IS ON HIS PLANE OF EXISTENCE, AS WE ARE ON OURS!
BUT JUST AS HE CAN'T SEE YOU, SO TOO CAN'T YOU SEE THOSE ON THE PLANE BEYOND--
--THOSE WHICH EXIST WITHIN THE CHAOS FORCE ITSELF--
--SUCH AS BROTHER ATHAIR AND THE ANCIENT WALKERS!
WHILE EVERYONE ON THE FLOATING ISLAND BELIEVES
KNUCKLES THE ECHIDNA
HAS DIED, OUR FAVORITE ECHIDNA IS EXPERIENCING A DIFFERENT REALITY ALTOGETHER...
AFTERLIFE
Part Two
WAIT!
WHERE ARE YOU TAKING ME?!
WHAT ABOUT THE OTHER GUARDIANS?!!
I AM OF THE FORCE, AND THE FORCE IS ALL!
CHAMELEON, FOX, OVERLANDER, WHATEVER THE SPECIES--
--THEY SEE ME HOW THEY IMAGINE ME!

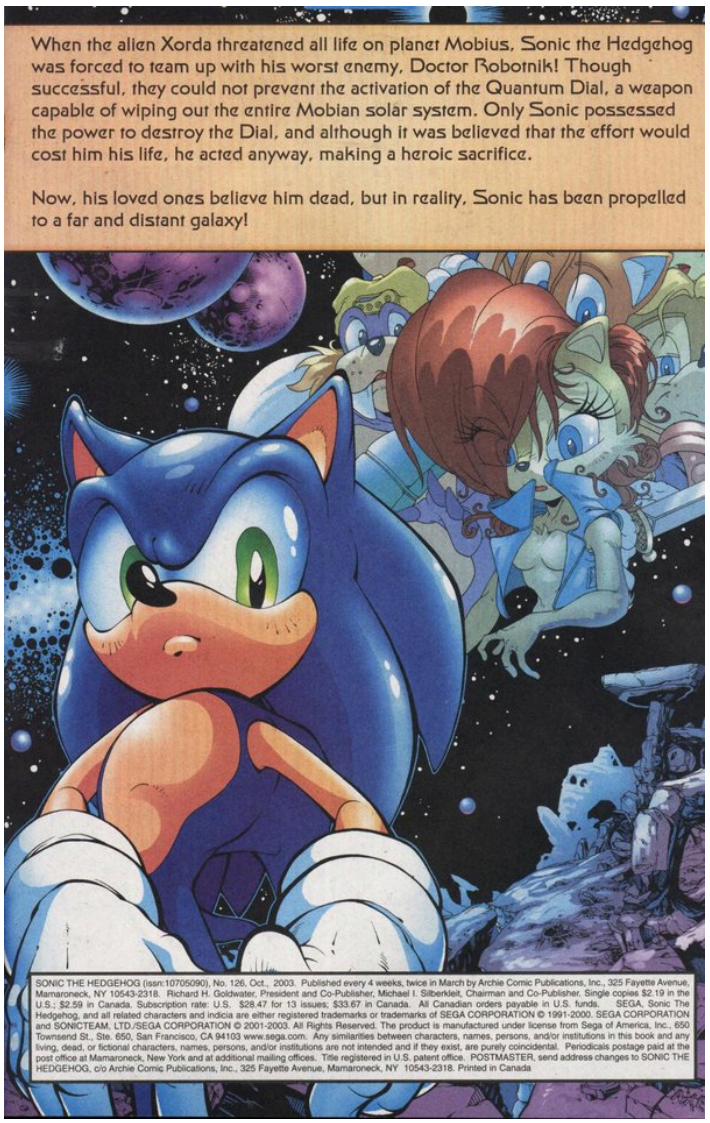

Concept of Time is irrelevant for those who exist in higher plane of existence (could apply to both Next Evolution and Chaos Force)

AP

Tanked a power of weapon that could destroy whole Solar System

Which later on sent him 849,000 light years away from Mobius (Earth)

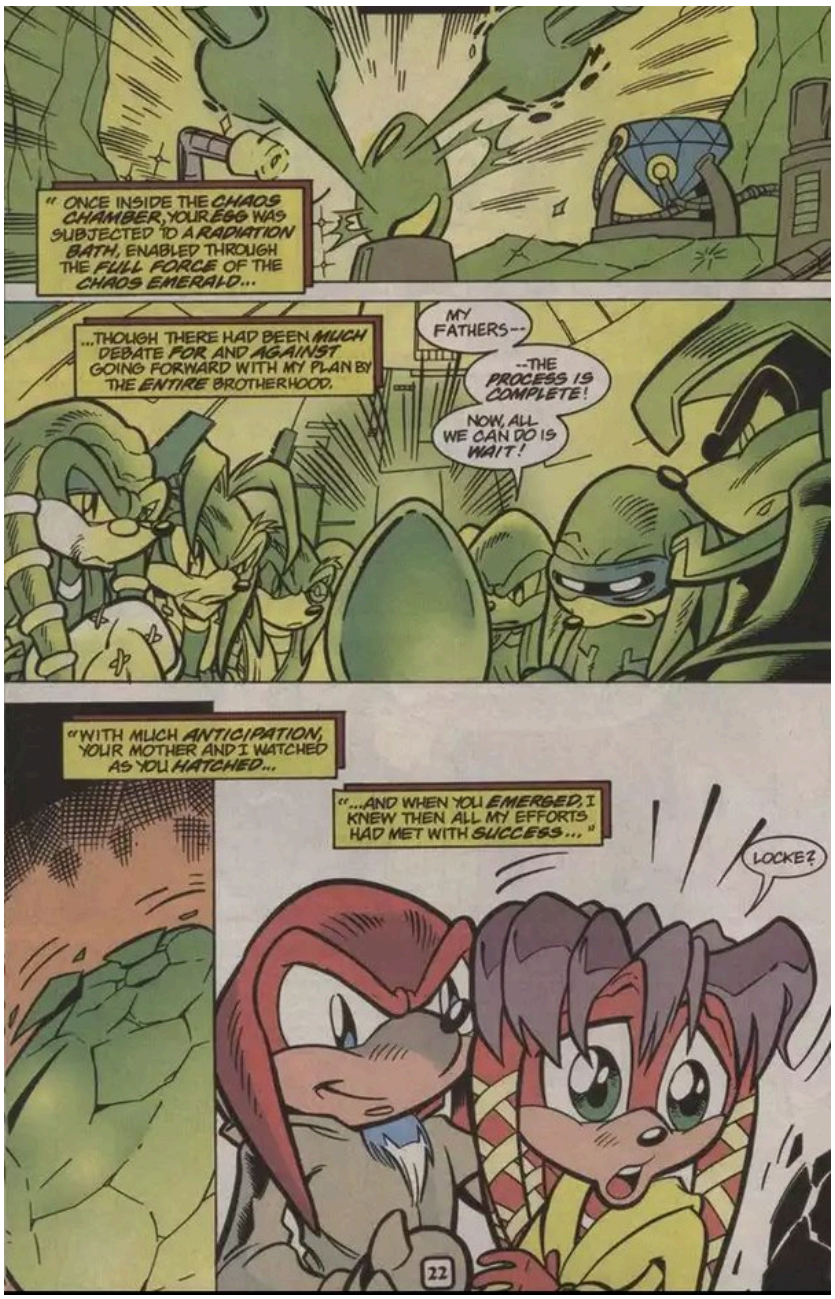

Fought Mogul who was empowered by Chaos emerald, which is stated to possess infinite power, and chaos emeralds as a whole are embodiment/physical form of Chaos Force

THIS IS A NEW LOW EVEN FOR YOU, MOGUL, AND ALWAYS WITH THE BIG WORDS!
WHAT? ARE YOU TRYING TO GET INTO COLLEGE OR SOMETHING?
INSOLENT WRETCH.
THAT DOES IT! YOU'RE GOING DOWN!
IF MAMMOTH'S TELLING THE TRUTH THAT MEANS I'M A FAKE--
--NOT REALLY ME!!
UGGH!
SH-KOOM
CRETIN.

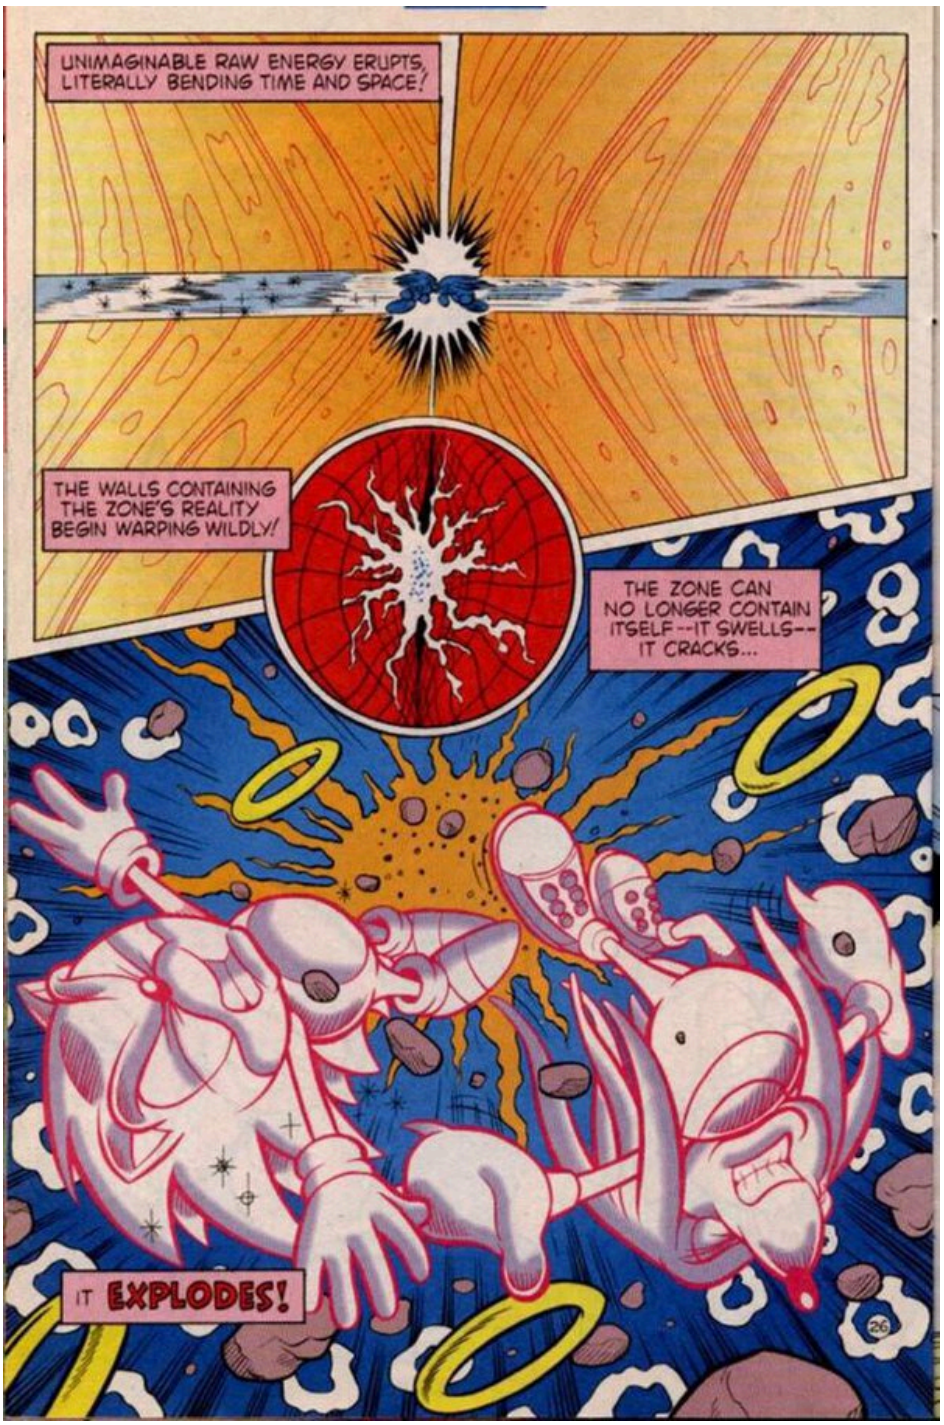

[Many times shown to be close in power with Knuckles](#) who's base form is empowered by chaos emerald

" ONCE INSIDE THE CHAOS CHAMBER, YOUR EGG WAS SUBJECTED TO A RADIATION BATH, ENABLED THROUGH THE FULL FORCE OF THE CHAOS EMERALD...
...THOUGH THERE HAD BEEN MUCH DEBATE FOR AND AGAINST GOING FORWARD WITH MY PLAN BY THE ENTIRE BROTHERHOOD.
MY FATHERS--
--THE PROCESS IS COMPLETE!
NOW, ALL WE CAN DO IS WAIT!
"WITH MUCH ANTICIPATION, YOUR MOTHER AND I WATCHED AS YOU HATCHED...
"...AND WHEN YOU EMERGED, I KNEW THEN ALL MY EFFORTS HAD MET WITH SUCCESS..."
LOCKE?
22

At this point base is easily Universal+ lowballed

Super Sonic and Hyper Knuckles clashing destroyed a whole Zone, bending time and space. The level of destruction was so strong it tapped both of them back to base forms

Tanked attacks from Enerjak (who took over knuckles) who's power source is Chaos Force itself

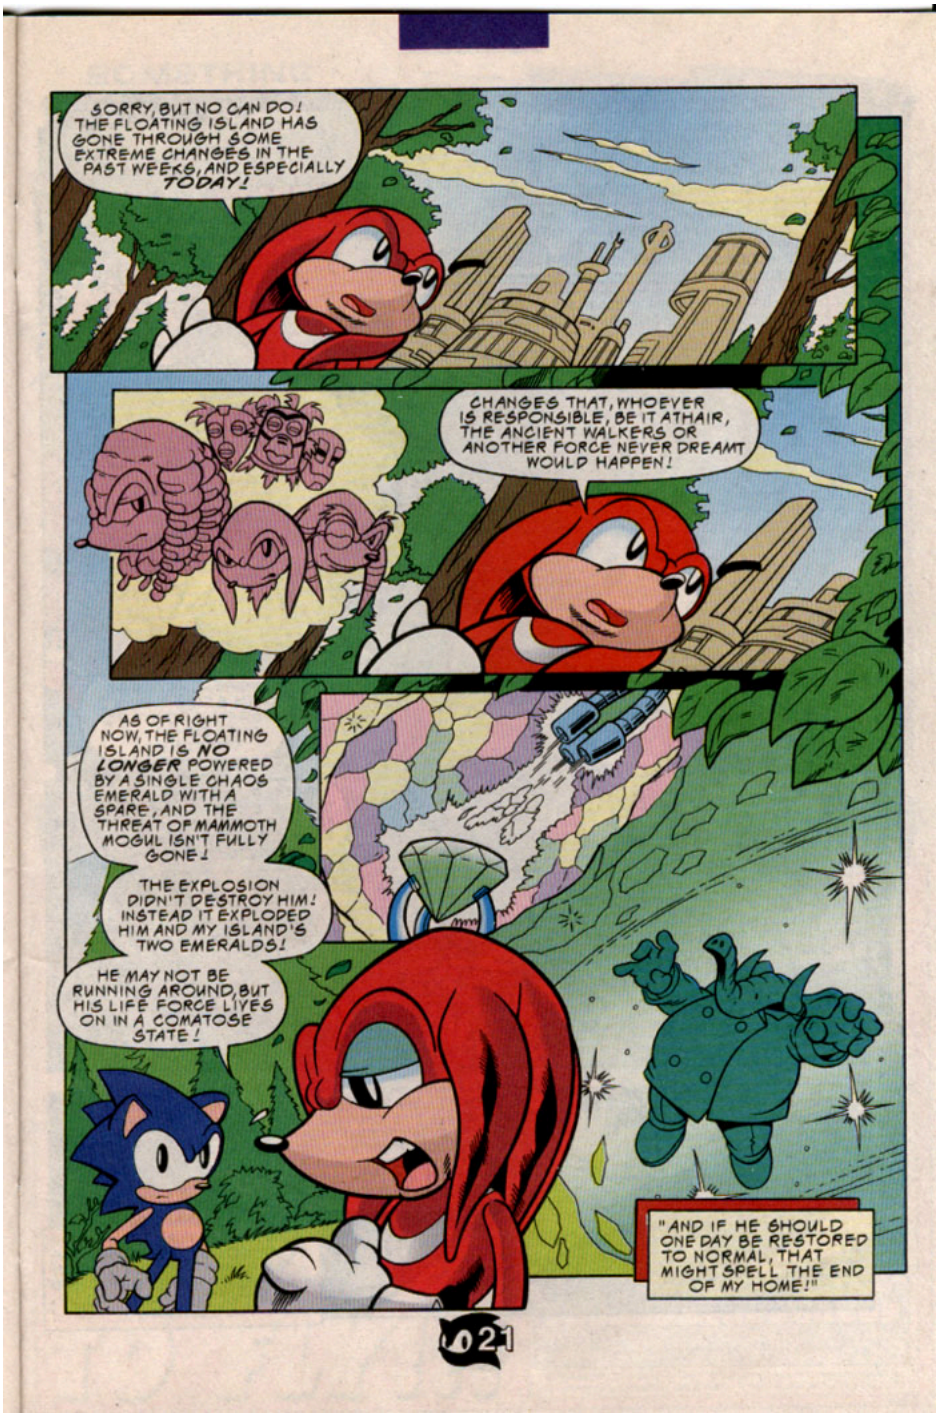

Alongside Tails and Hyper Knuckles fought Master Mogul who absorbed energy from Enerjak

THEN TAILS WAS TELLING THE TRUTH ABOUT HIS SOLO ADVENTURES IN DOWNHNDA!"
THAT'S WHY MAMMOTH CONSIDERED TAILS AS MUCH A THREAT AS SONIC AND KNUCKLES!

Worth adding that Master Mogul/his power was used to create Master Emerald

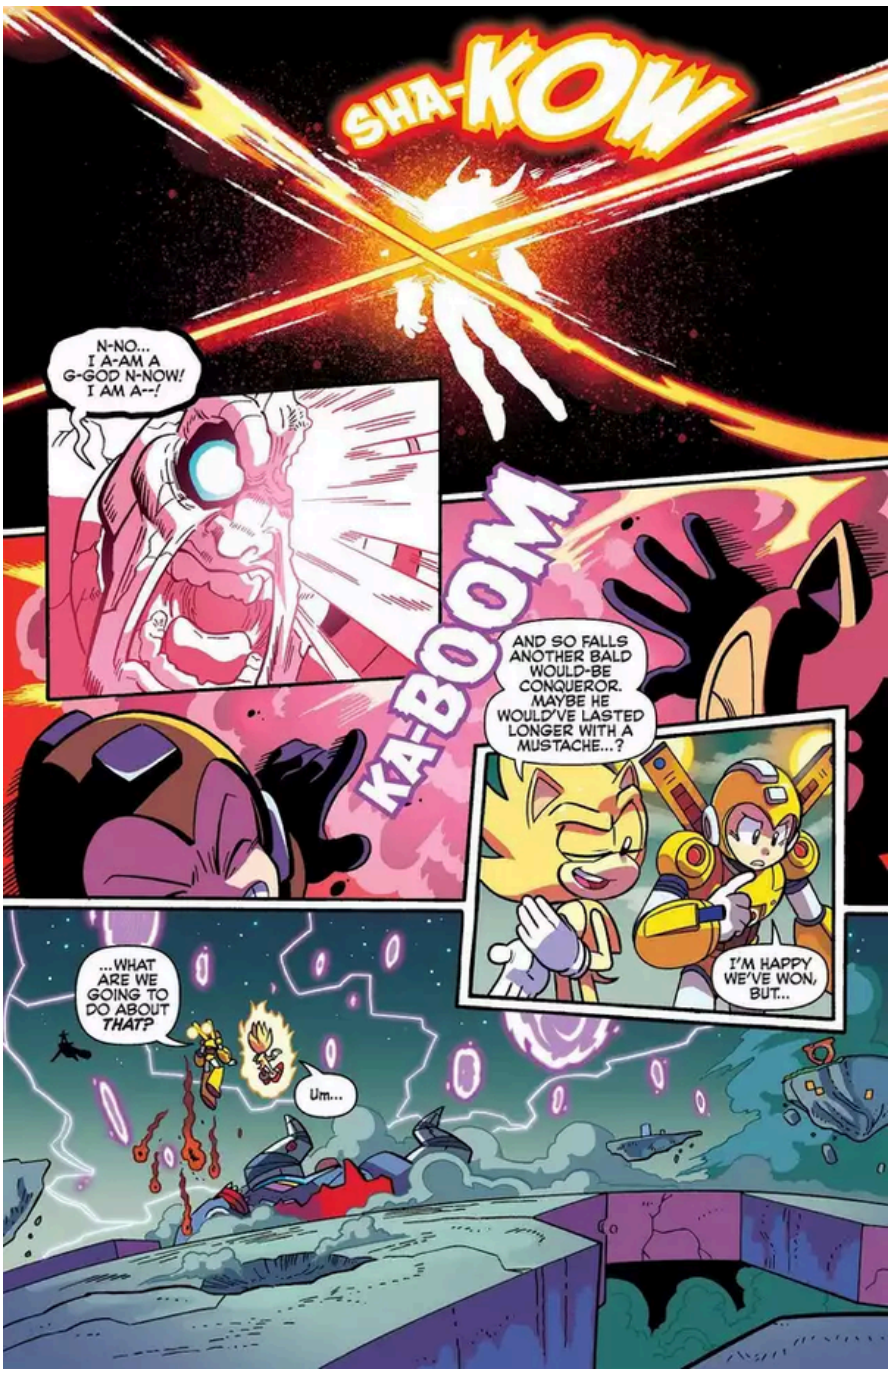

Which is capable of destroying infinite realities

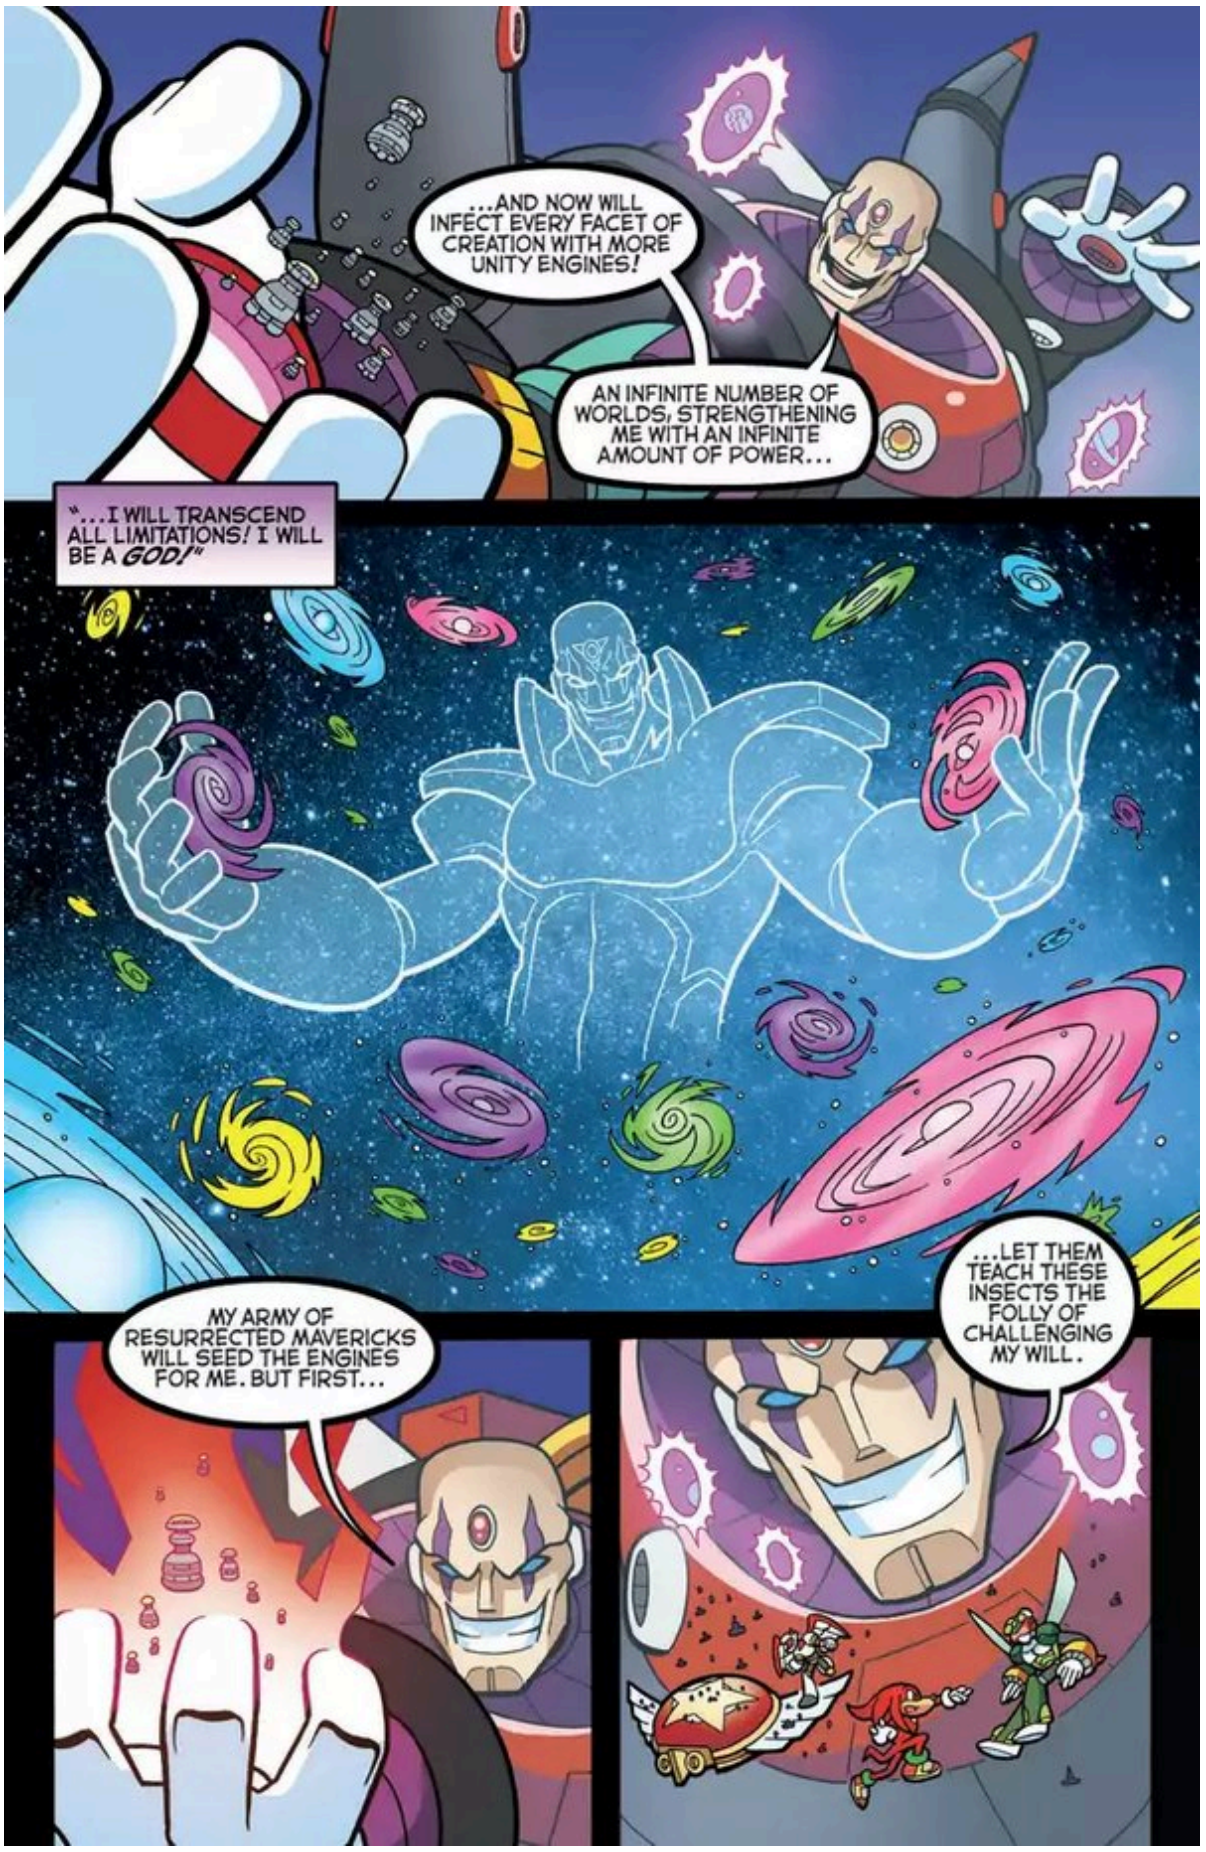

Defeated Solaris

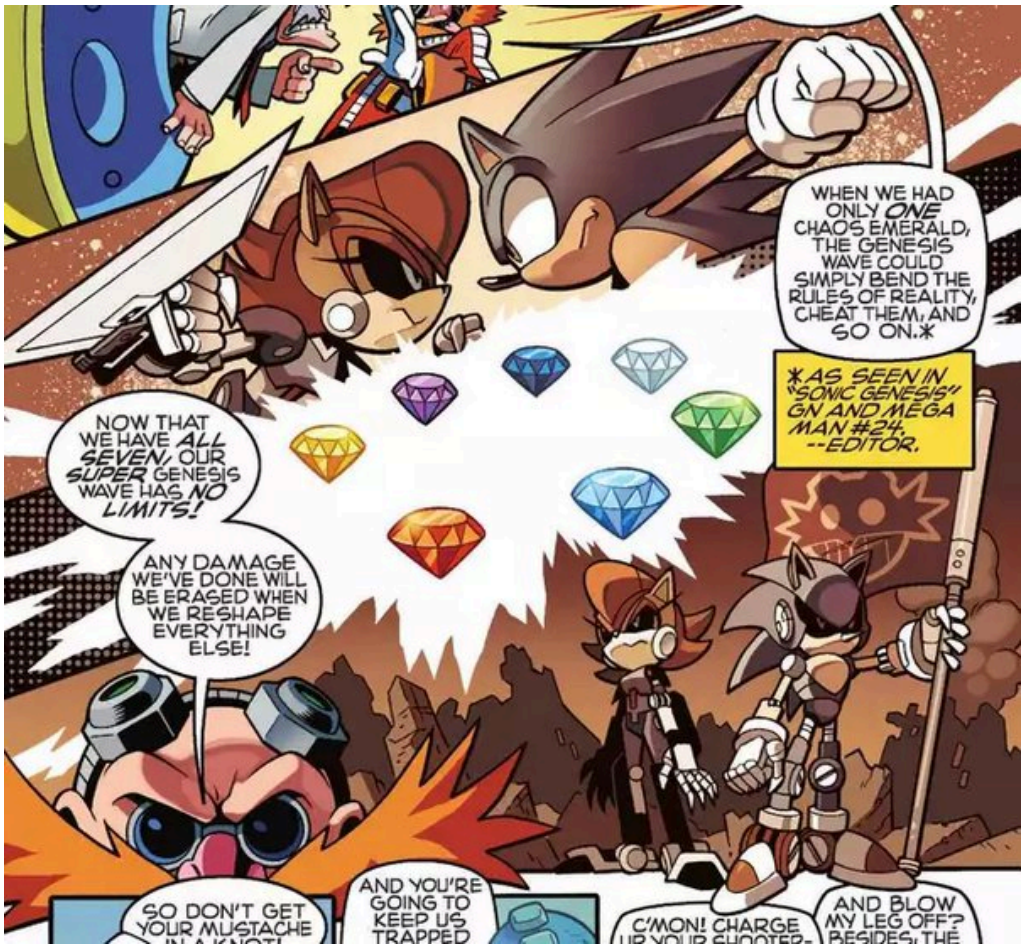

-Alongside Megaman defeated Sigma

Who was transcending cosmology

...AND NOW WILL INFECT EVERY FACET OF CREATION WITH MORE UNITY ENGINES!
AN INFINITE NUMBER OF WORLDS, STRENGTHENING ME WITH AN INFINITE AMOUNT OF POWER...
"...I WILL TRANSCEND ALL LIMITATIONS! I WILL BE A GOD!"
MY ARMY OF RESURRECTED MAVERICKS WILL SEED THE ENGINES FOR ME. BUT FIRST...
...LET THEM TEACH THESE INSECTS THE FOLLY OF CHALLENGING MY WILL.

With use of Chaos Control reverted Super Genesis Wave which could affect reality with no limits

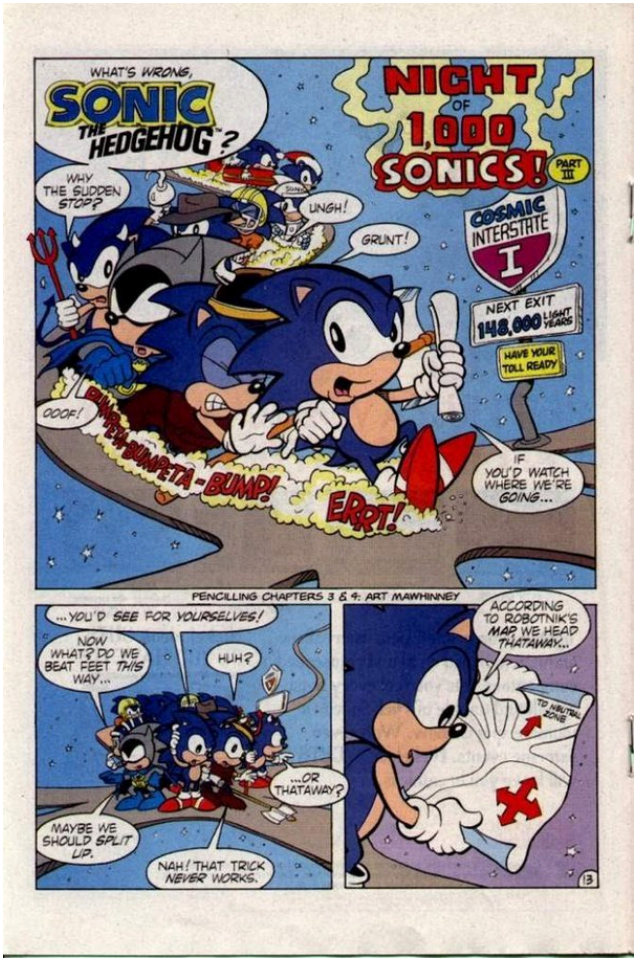

SO...SO WHAT DO WE DO ABOUT *THAT?* IT LOOKS LIKE THE SUPER GENESIS WAVE IS FINISHED, AND WE'RE...WE'RE TOO LATE...
NOTHING A LITTLE CHAOS CONTROL CAN'T FIX.
IT'S A TECHNIQUE FOR CONTROLLING THE CHAOS ENERGY. THE SAME STUFF THE DOCS USED TO MAKE THEIR WAVE-THINGIE, THE SAME JUICE WE USED TO TRANSFORM, IS WHAT WE'RE GOING TO CHANNEL AND *WILL* THINGS BACK TO NORMAL.
THAT'S IT? IT'S *THAT* EASY?
"CHAOS CONTROL?"
WELL, NO. YOU'VE GOT TO BE TOTALLY FOCUSED ON IT, OR THINGS CAN MESS UP. SO *FOCUS*, BUILD THE ENERGY...
RRRRGH! NO-*NO*-*NO!* THEY'RE GOING TO USE CHAOS CONTROL TO UNDO EVERYTHING THE GENESIS WAVE JUST ACCOMPLISHED!
THEN...THAT'S IT...WE LOST. WE CROSSED DIMENSIONS, REWROTE REALITIES, ALTERED TIME AND SPACE AND...AND... THAT'S IT. ALL FOR NOTHING.
I WONDER IF I'LL REMEMBER ANY OF THIS ONCE MEGA MAN RESETS IT ALL?
IT'S NOT ENDING LIKE THIS!
IVO, IT'S OVER. I KNOW IT'S A CHALLENGE FOR YOU, BUT SHOW A *LITTLE* GRACE AND DIGNITY.
WWOOSH!
IVO!
I WON'T LOSE LIKE THIS!

Speed

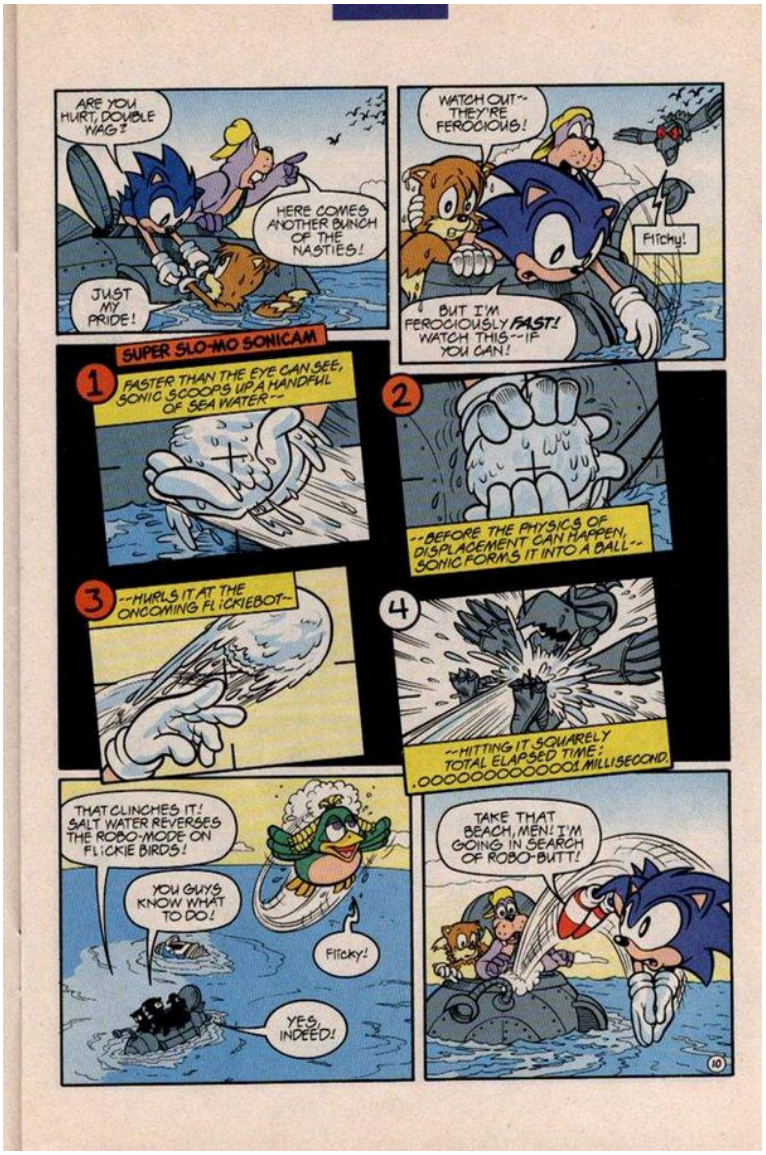

Run through thousand universes in day

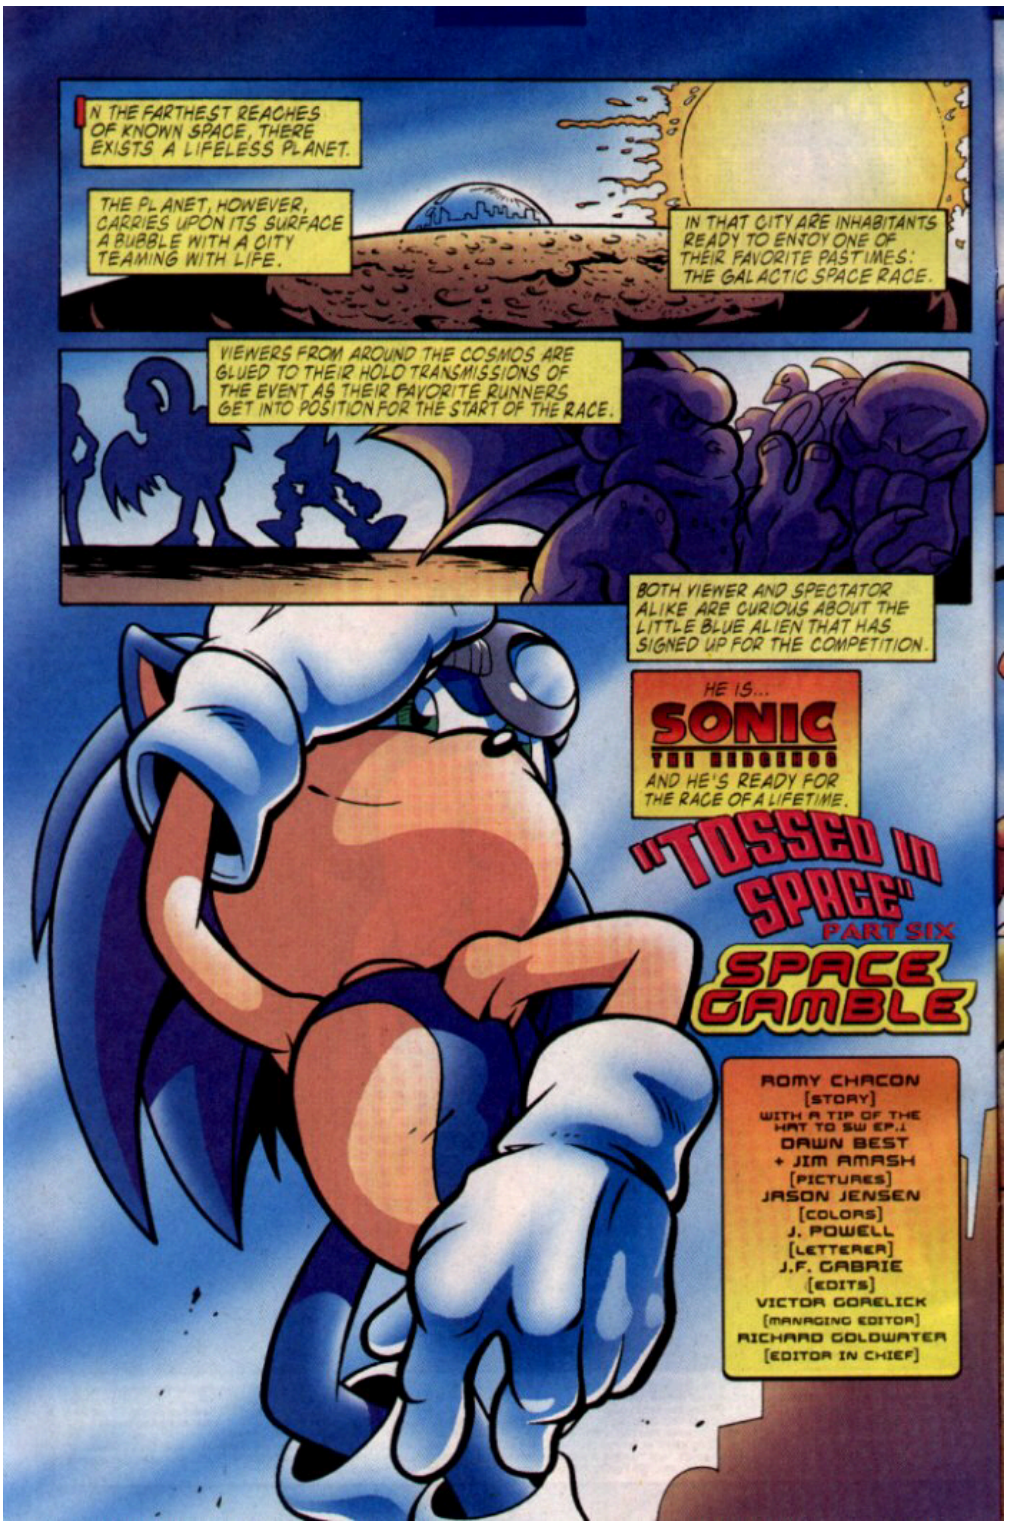

Moved in stopped time

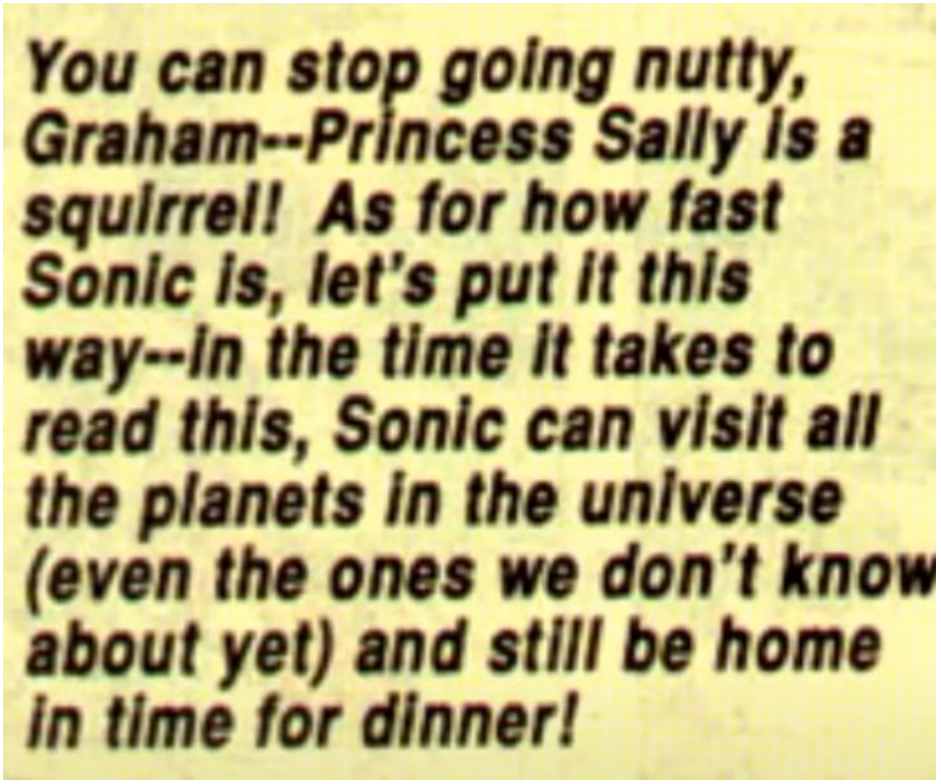

Threw ball of water in tenth of femtosecond

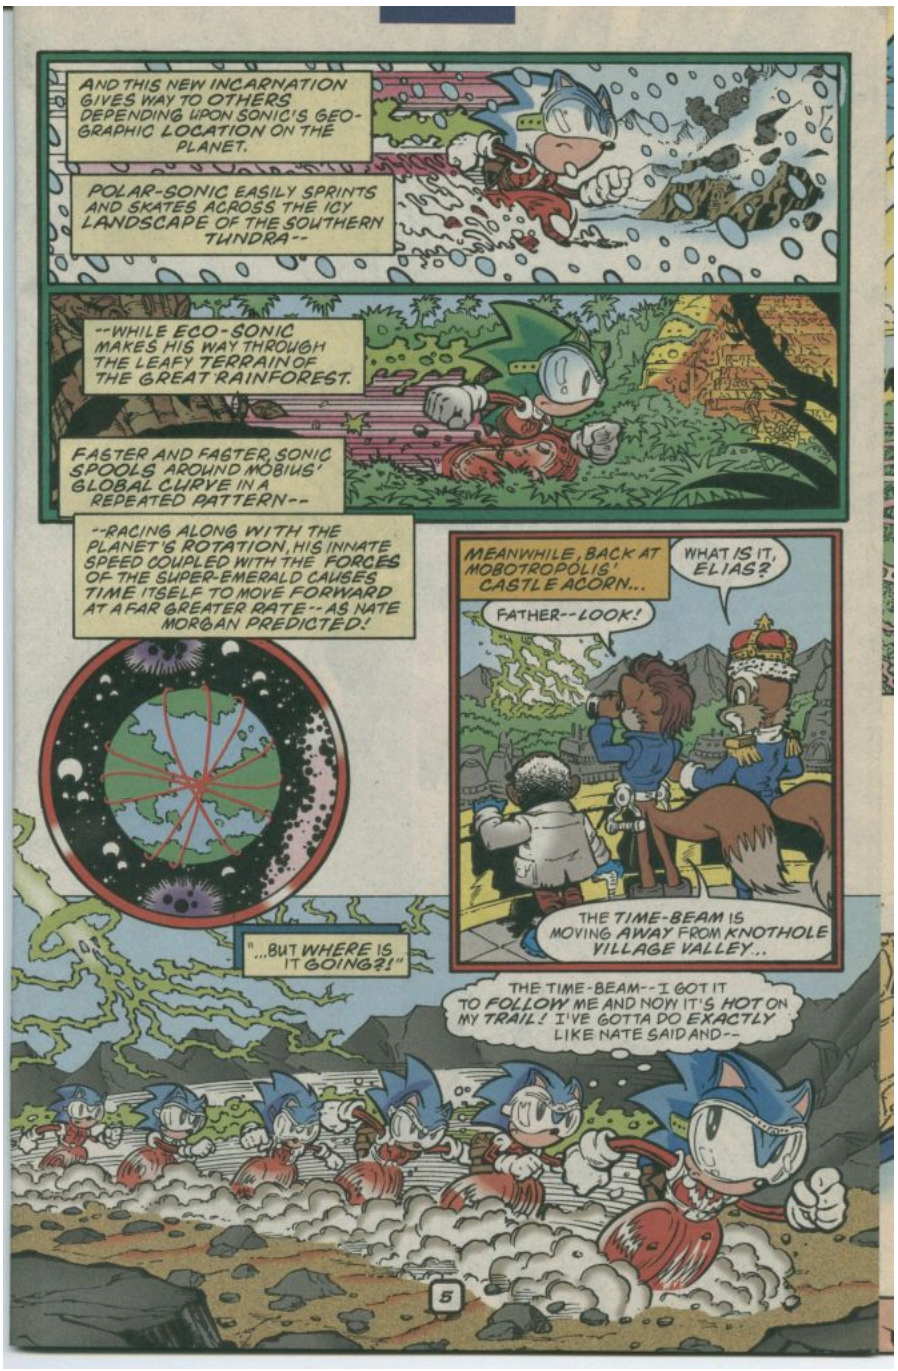

He reached farthest reaches of known space,mftl+ to arguably infinite because we know that Prime Zone is infinite in size

Another mftl+ to possibly infinite/inaccessible and highballed to immeasurable

moved time forward with sheer speed alone

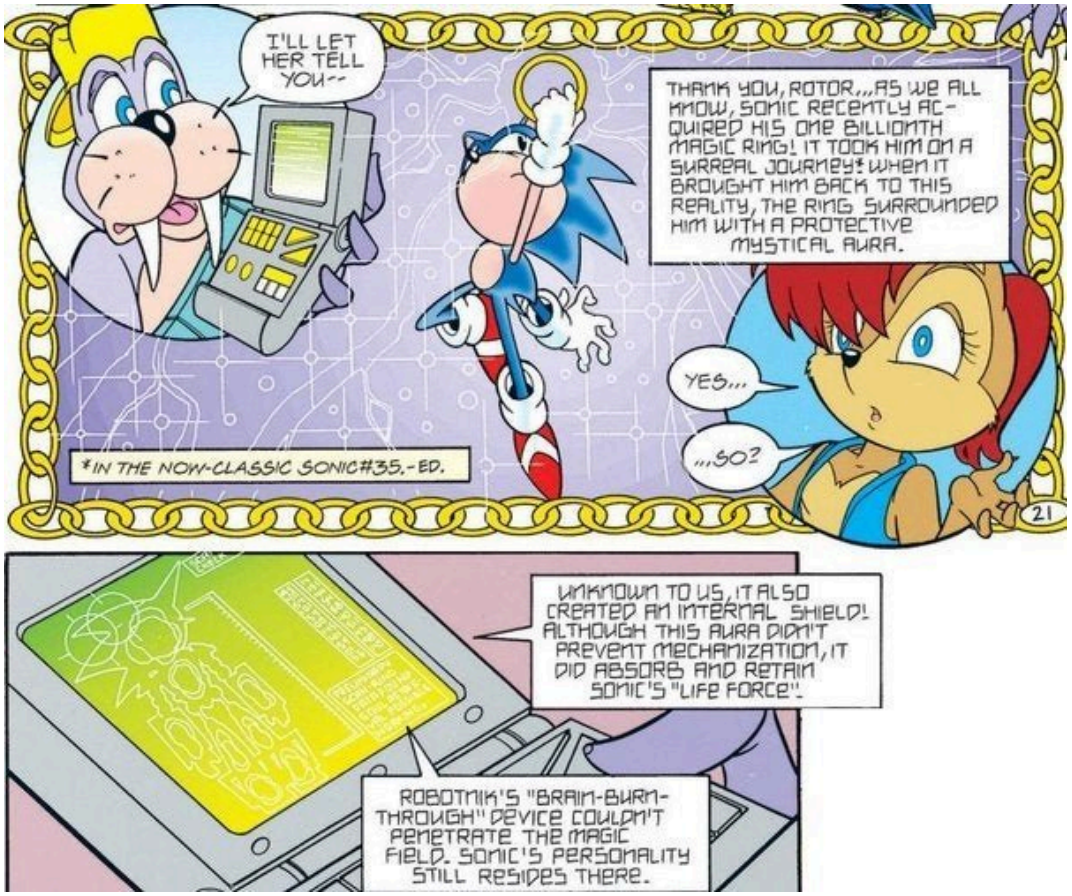

Even tho unfortunately there are no feats for Super Sonic's speed, its safe to assume that we has at least immeasurable speed for being powered by Chaos Emeralds and arguably having power over concept of time (via higher planes being above it)

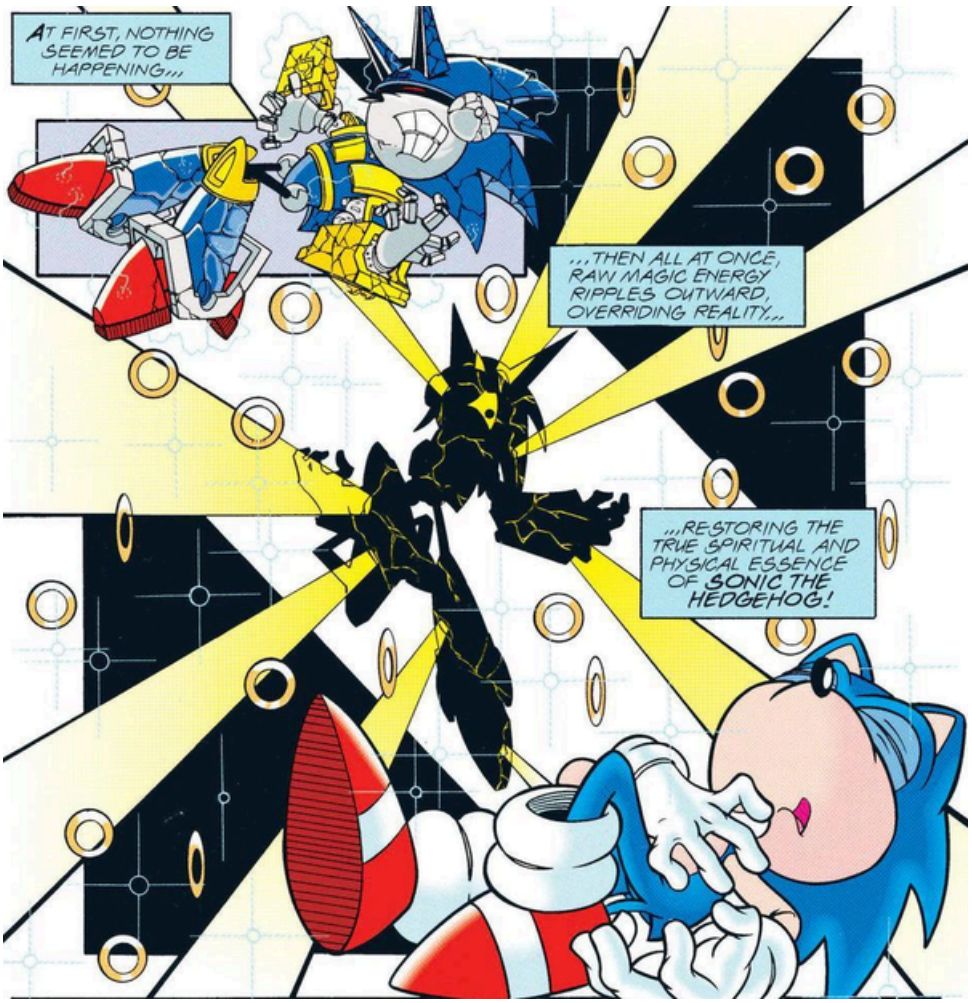

Hax

Invulnerability

Immortality Type 3 and 8, Resurrection, Protective Aura, Resistance to Existence Erasure and Low Godly Regen via one billion rings

AT FIRST, NOTHING SEEMED TO BE HAPPENING...
...THEN ALL AT ONCE, RAW MAGIC ENERGY RIPPLES OUTWARD, OVERRIDING REALITY...
...RESTORING THE TRUE SPIRITUAL AND PHYSICAL ESSENCE OF SONIC THE HEDGEHOG!

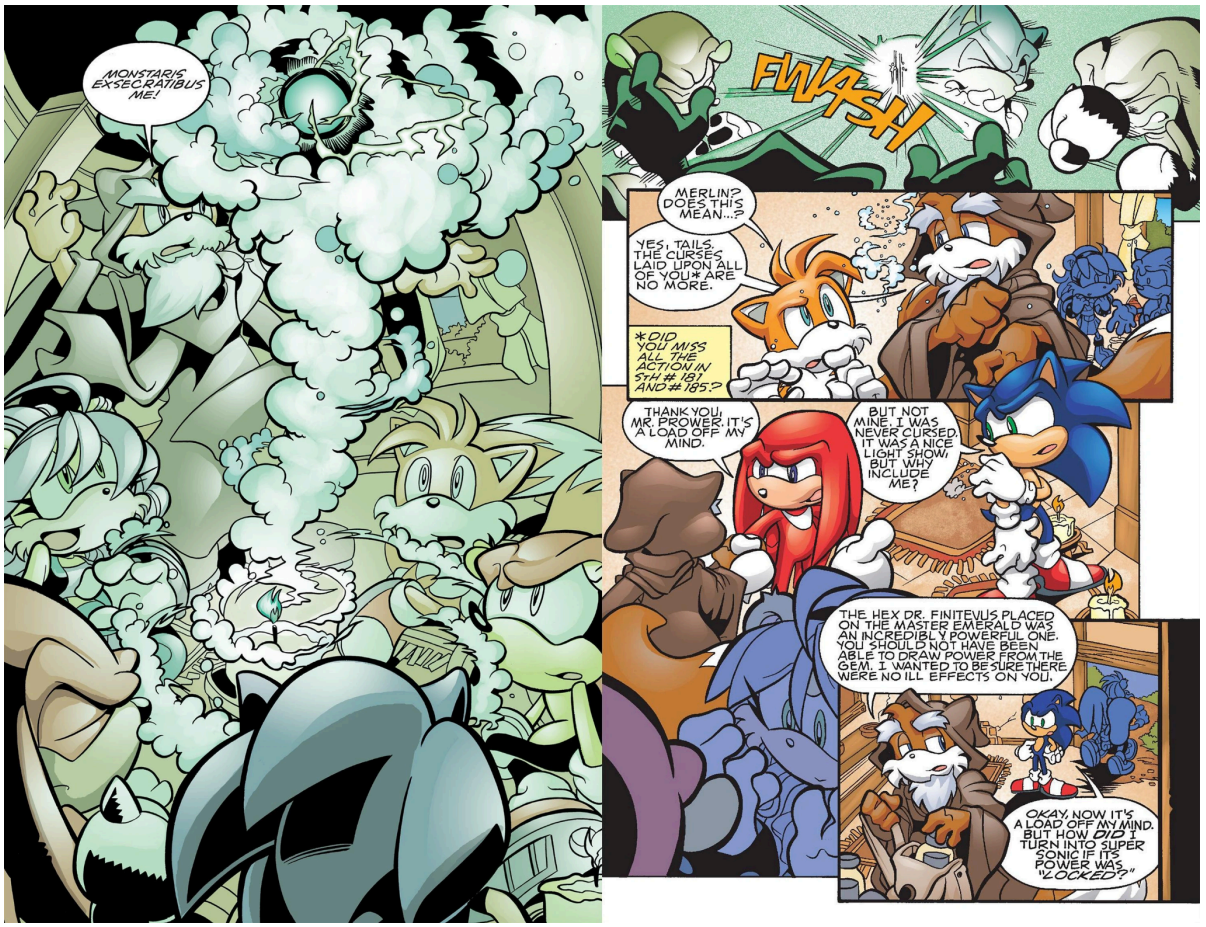

Molecular Manipulation/Intangibility via vibrating fast enough

Damage Reduction via rings, he could tank attack from Master Mogul in base who absolutely outscales him

Power Nullification

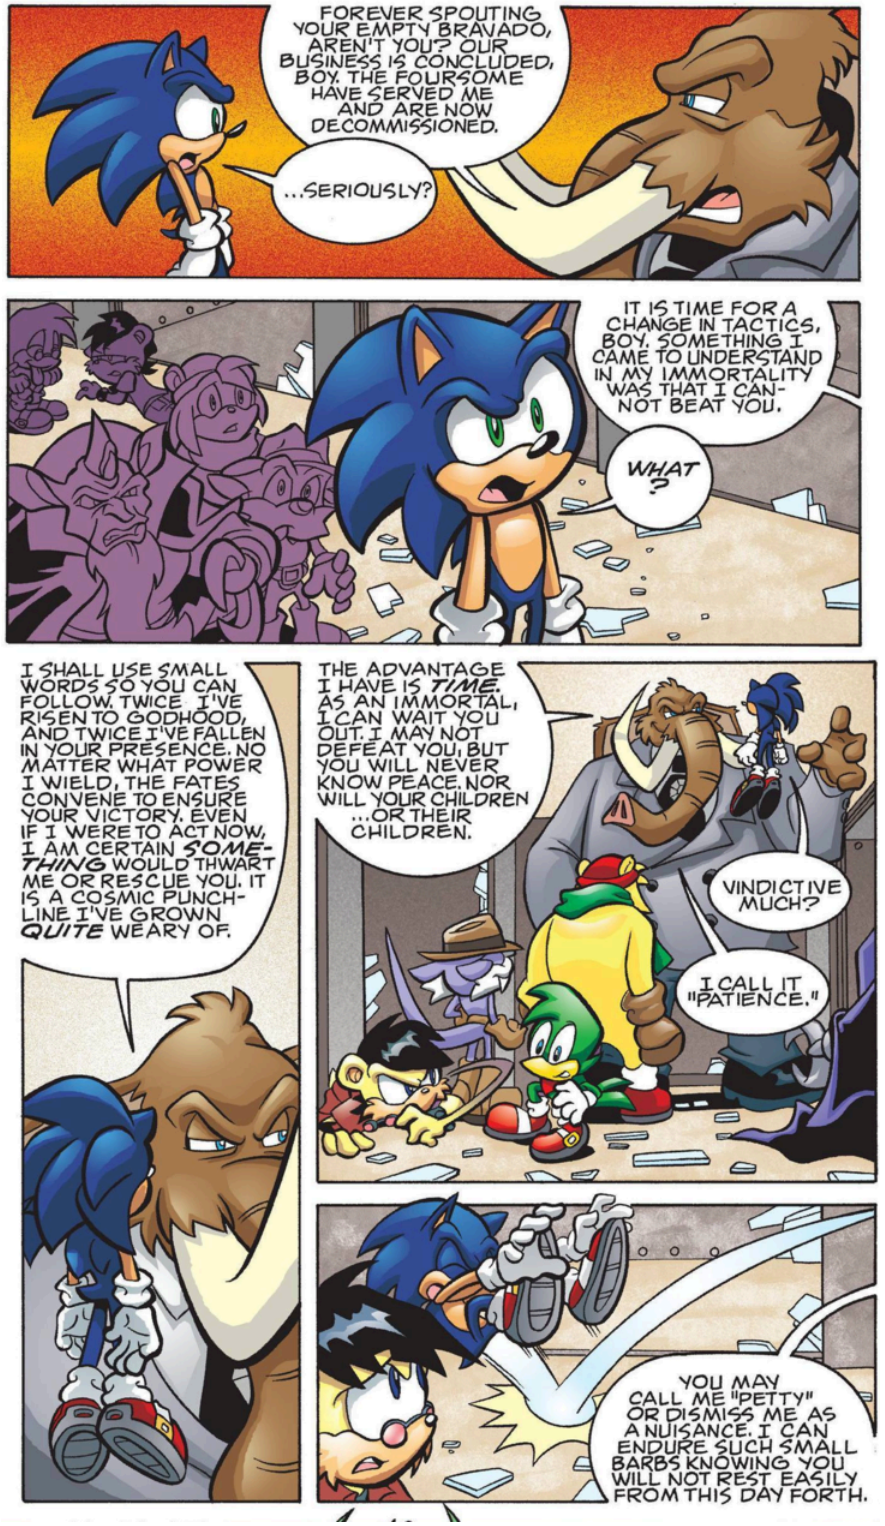

Possibly Passive Fate Manipulation and Abstract Existence Type 2, is embodiment of Chaos and consistent inconsistency on Quantum level which leads to why he always wins against eggman

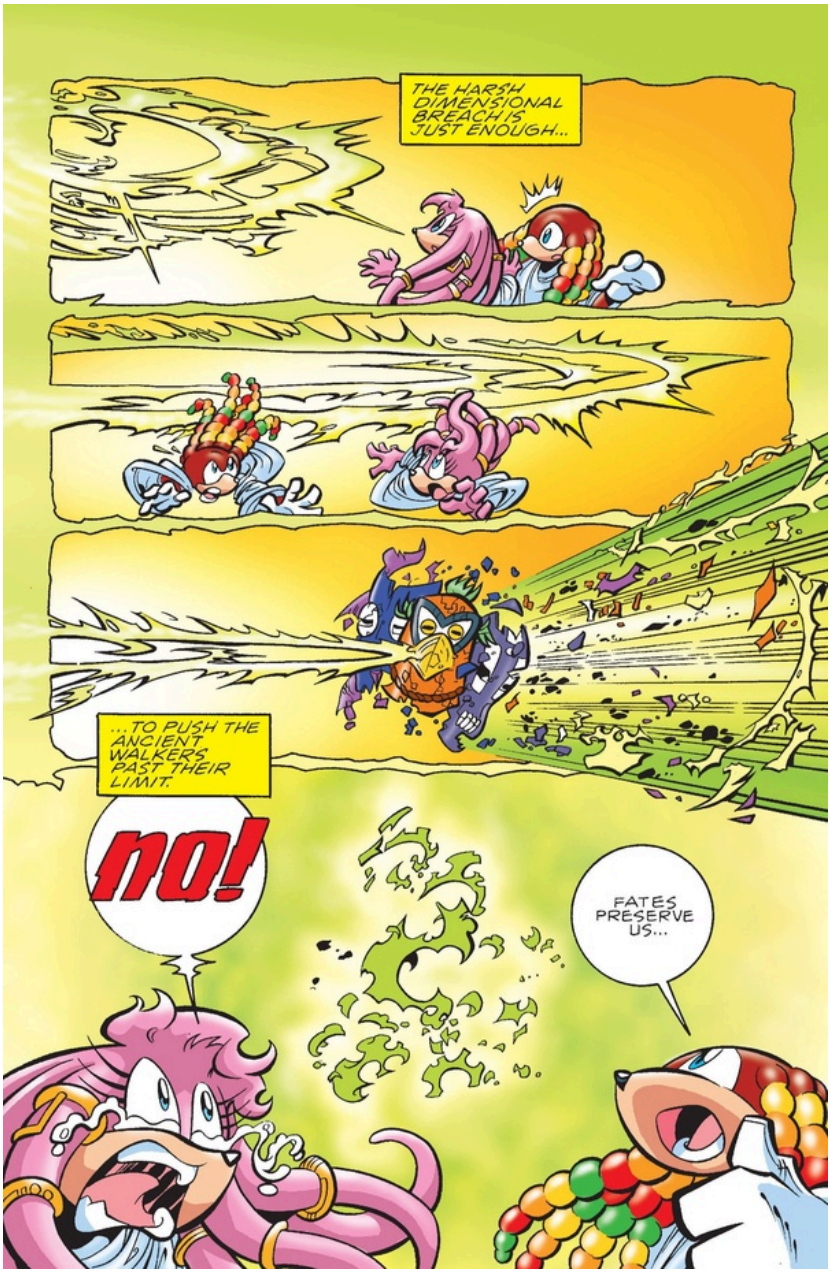

Mogul says similar thing,

Possibly Conceptual Manipulation Type 1, Law Manipulation, Spacetime Manipulation, Reality Warping,Information Manipulation Type 2, Dream Manipulation in Super Form because Chaos Force allows to control everything that shapes reality, which should include concepts, simple example is chaos control which restored all of Sonics and Mega Man's reality

Higher Dimensional Manipulation - Master Mogul (who is empowered by Chaos Force) could kill Ancient Walkers, who existed within the Chaos Force. Sonic gets that from being superior to Mogul

THE HARSH DIMENSIONAL BREACH IS JUST ENOUGH...
...TO PUSH THE ANCIENT WALKERS PAST THEIR LIMIT.
no!
FATES PRESERVE US...

Power null

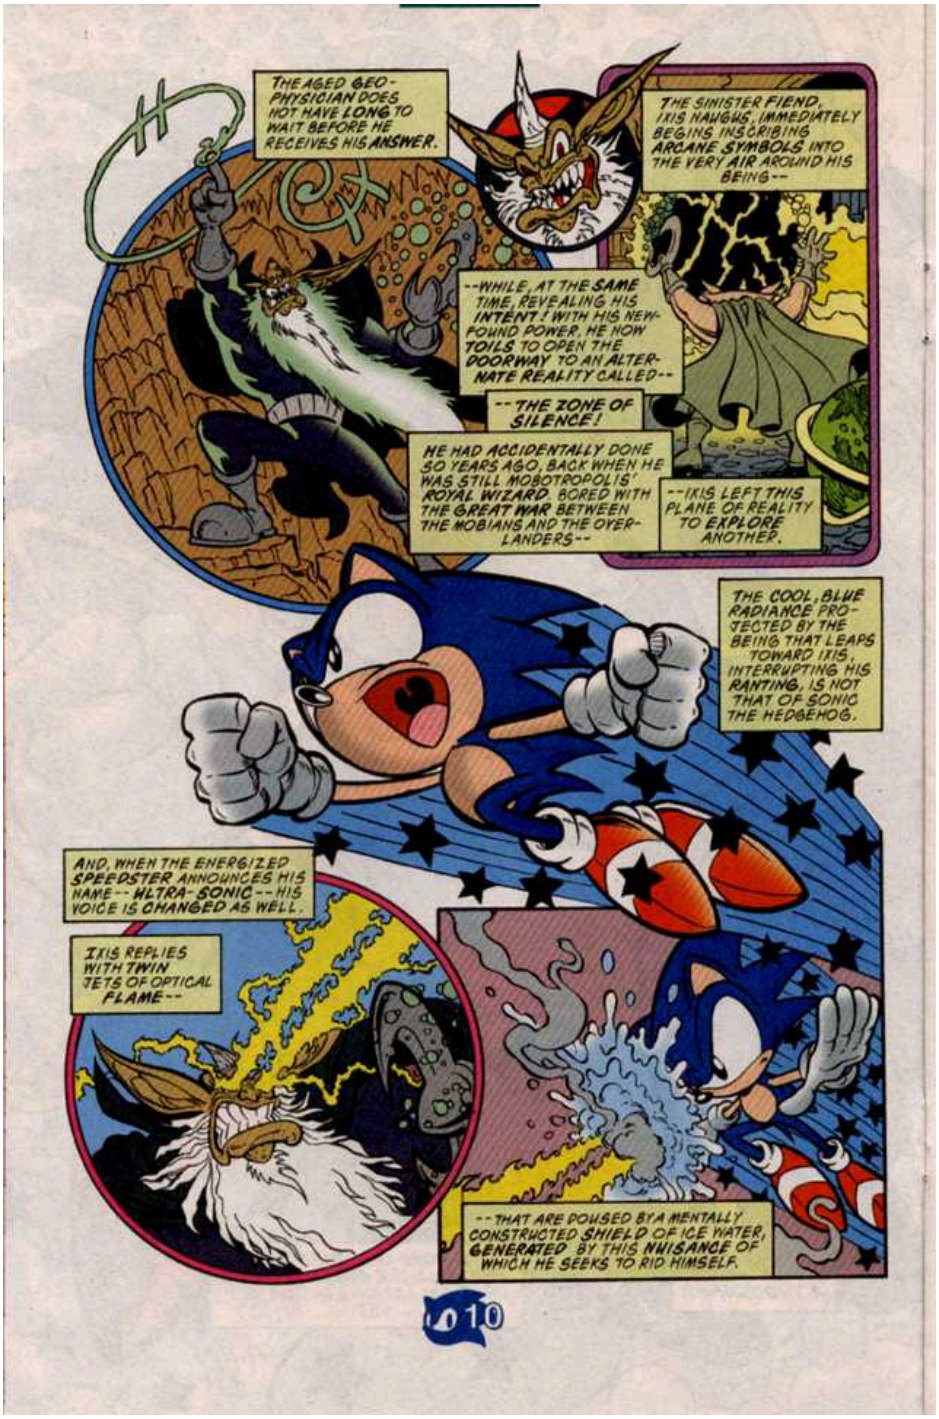

Possibly Acausality Type 4

Wish Power

Elemental/Nature Manipulation (All from chaos force)

Resistances

Sonic is resistant to

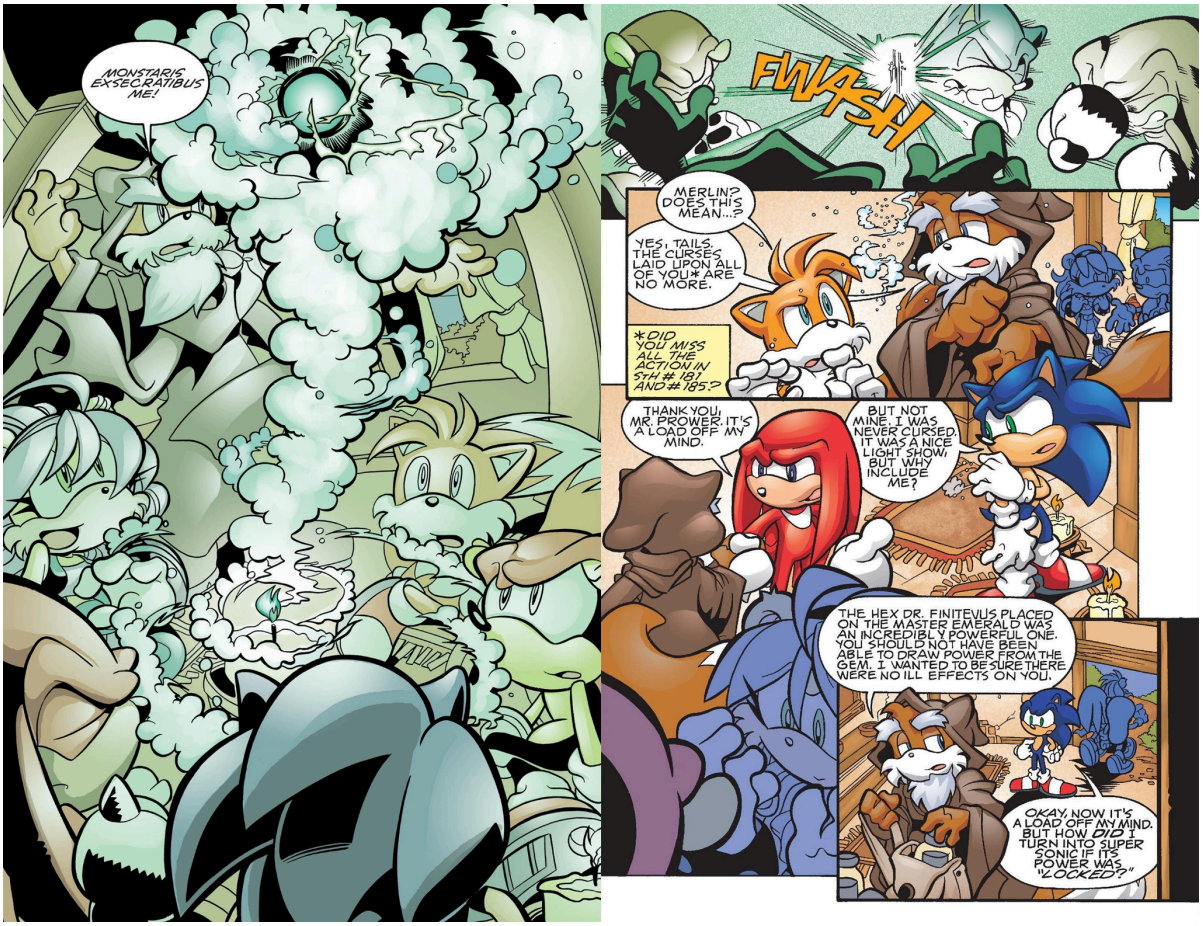

Extreme Cold

Cosmic Radiation (they are on the moon)

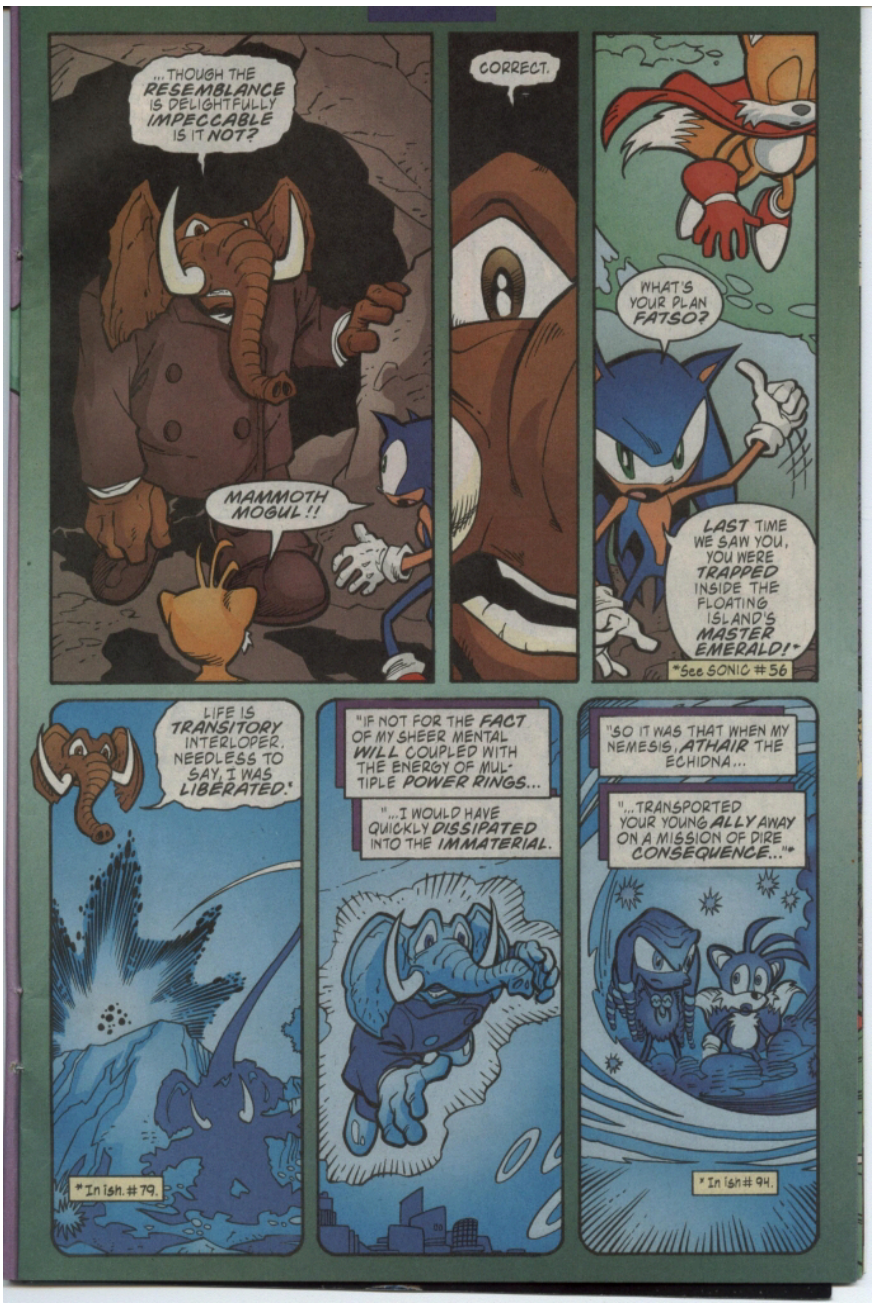

Magic and Curses

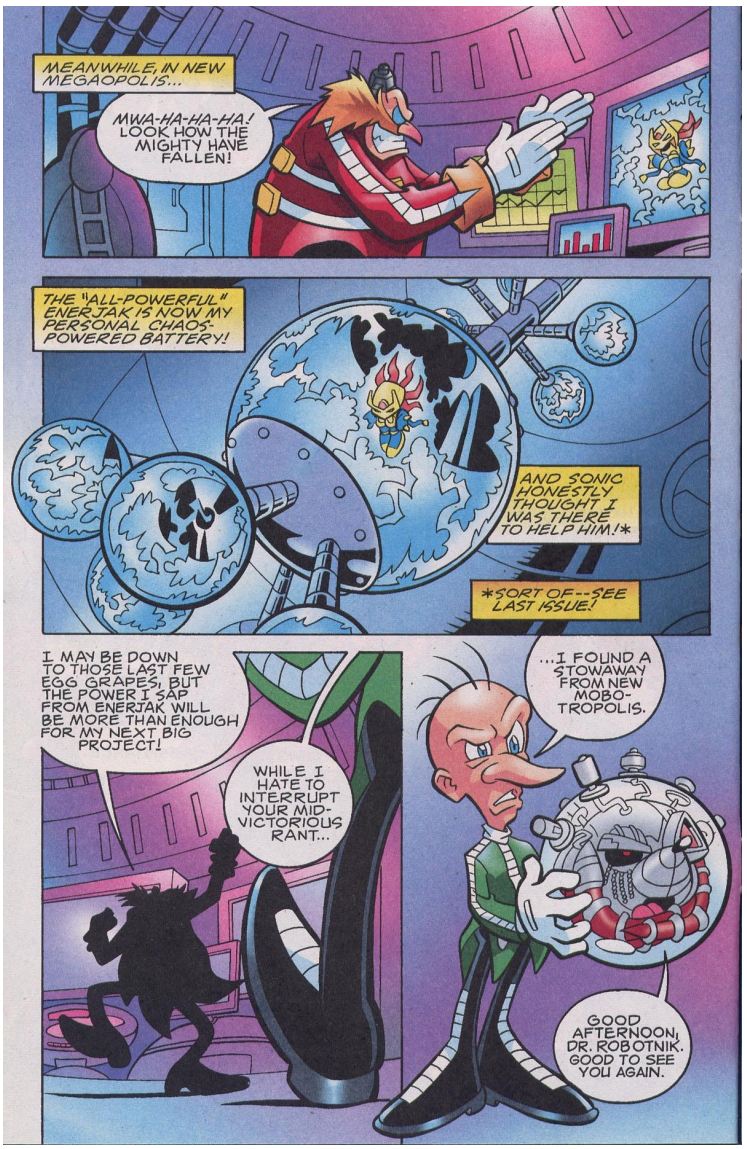

Mind Manipulation

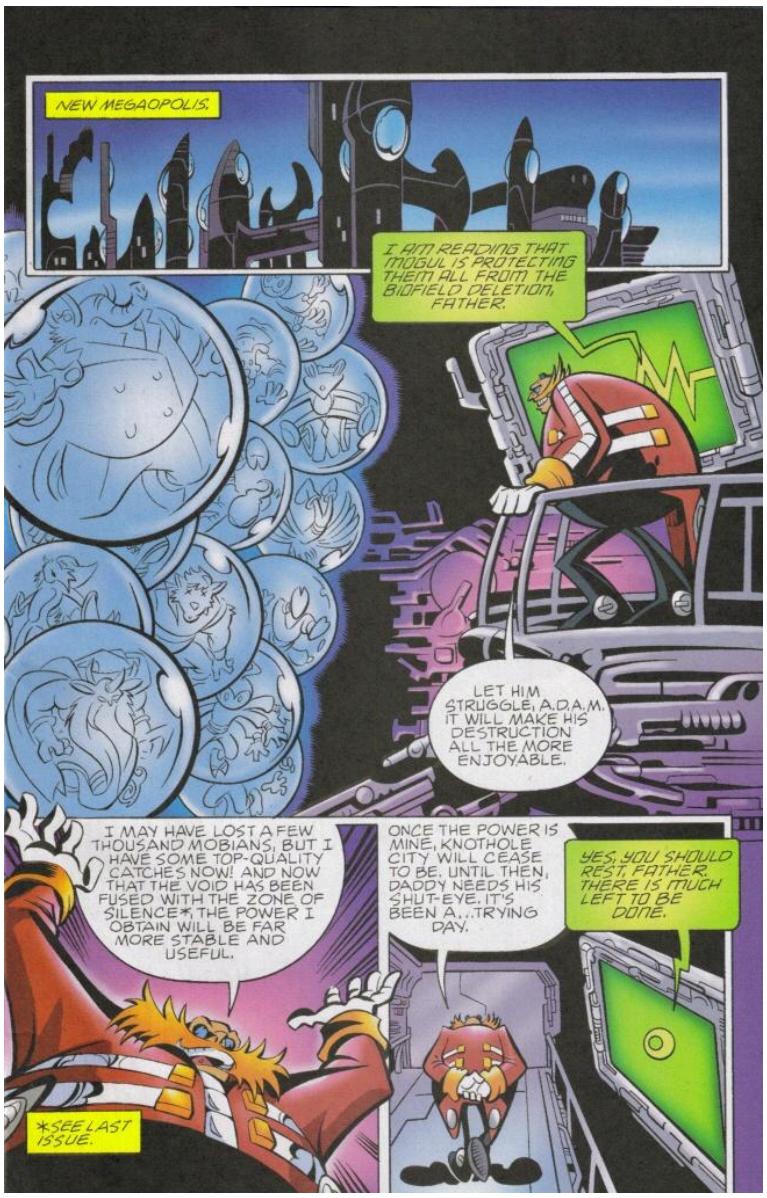

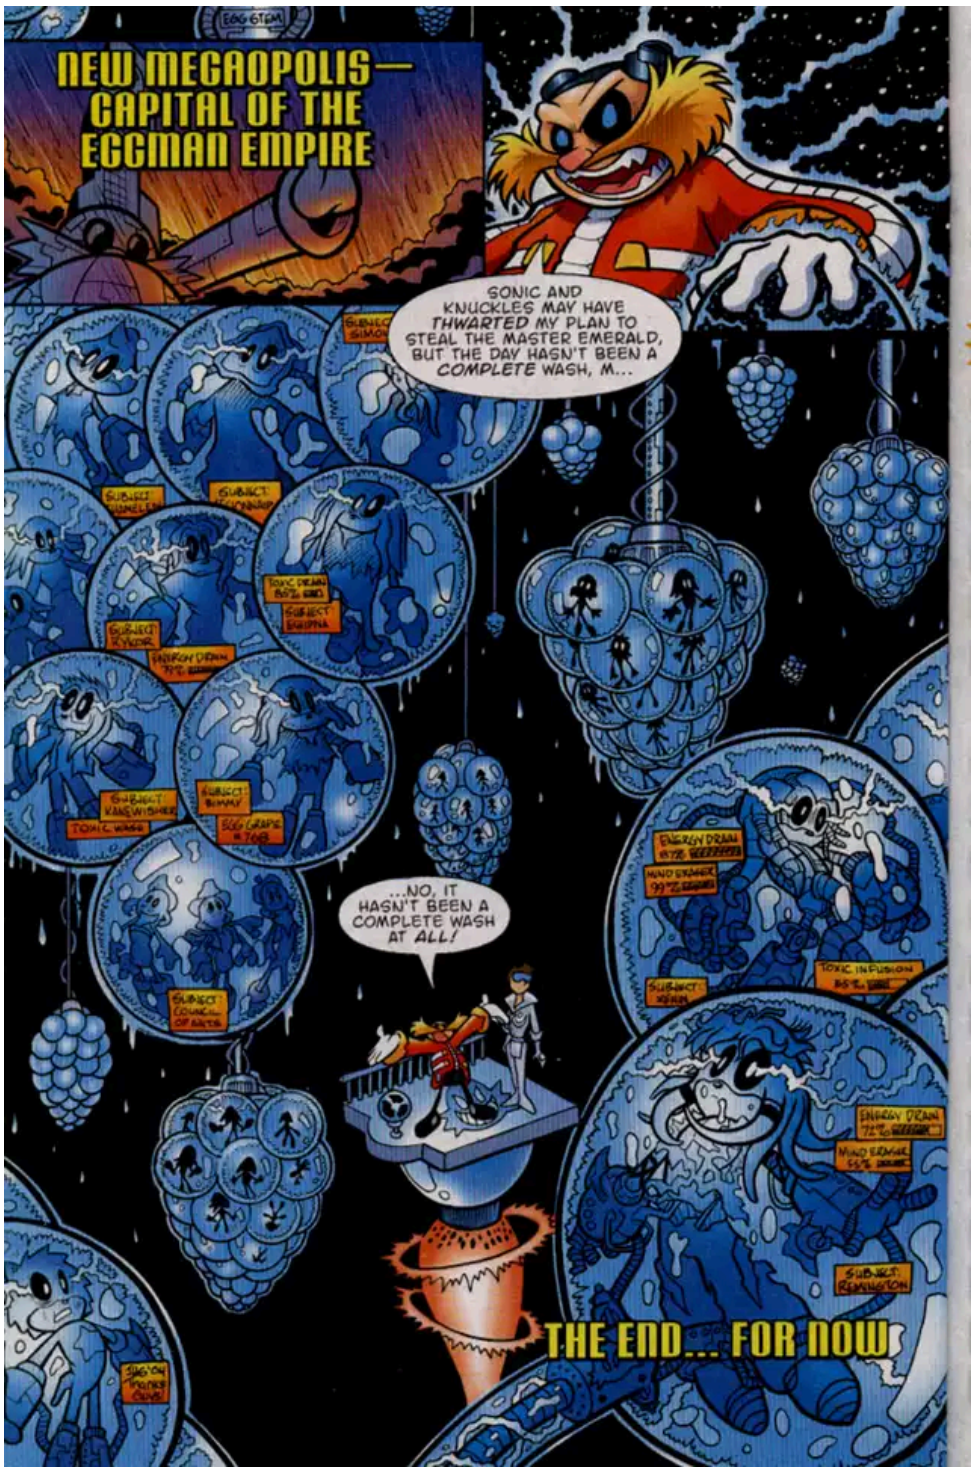

Soul Manipulation - Power Rings prevented moguls spirit from dissipating into the immaterial

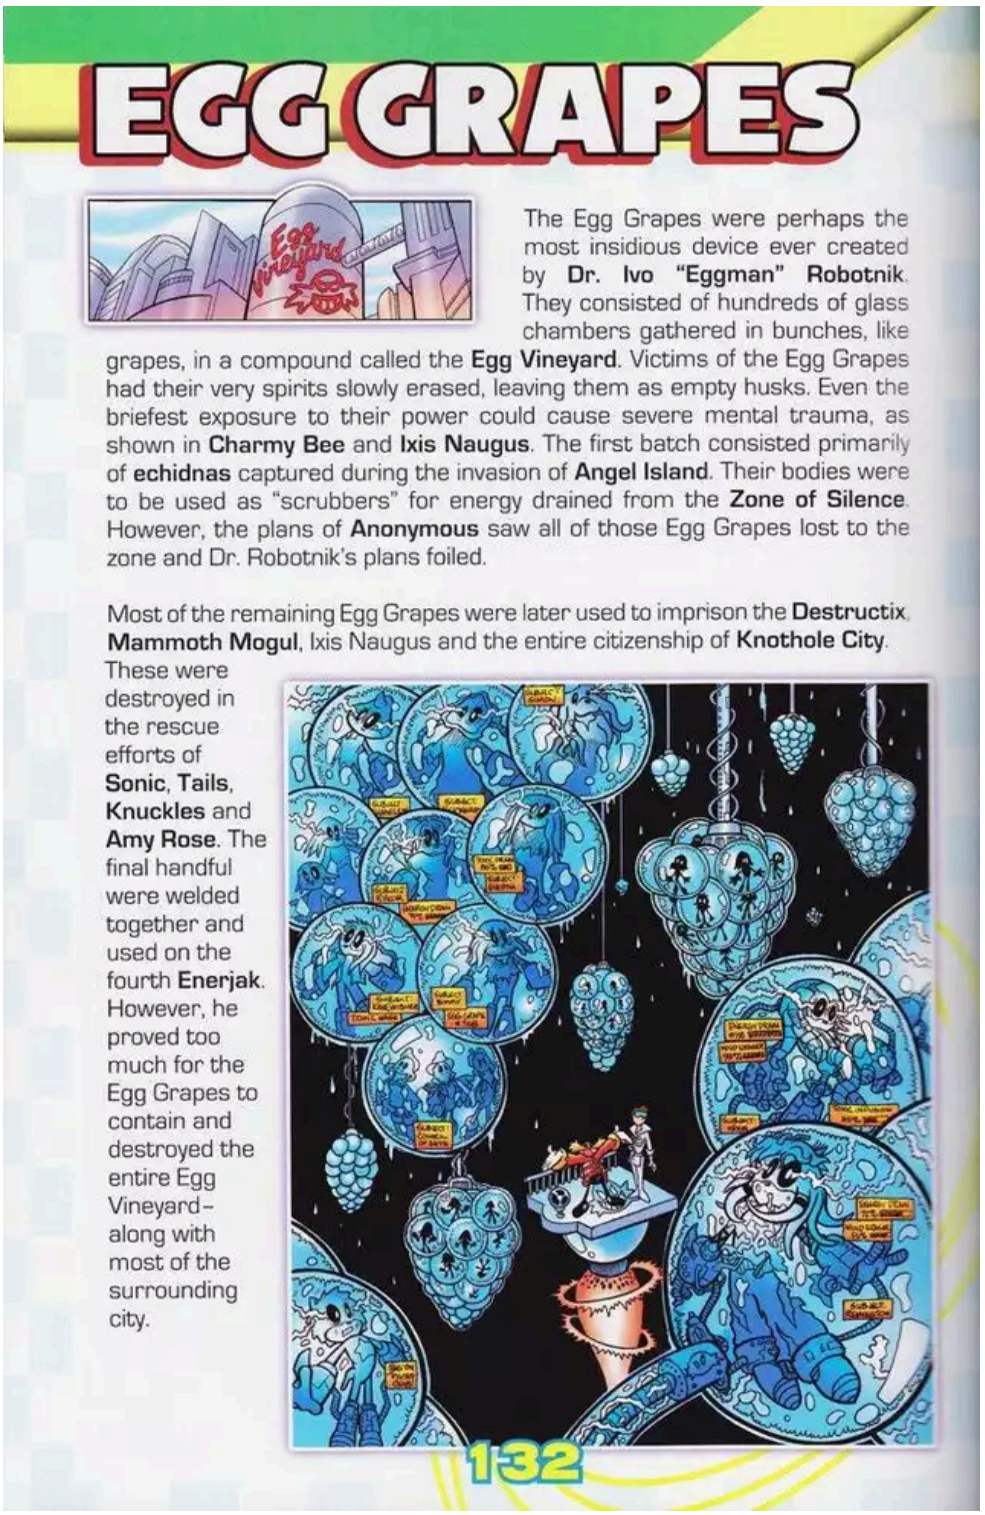

Life Force Absorption, Mind Erasure & Soul Erasure, Madness Manipulation, Memory Manipulation, Power Nullification, & Poison Manipulation - Both Mammoth Mogul and Enerjak were subjected to Egg Grape chambers and resisted their effects without lasting repercussions, the latter due to the power of a Chaos Emerald. The Egg Grape chambers erases the victim's mind and soul, infuses them with toxins, and saps them of their energy, with even the briefest exposure to them causing severe dips in mental capability and driving Naugus to insanity

Conclusion/TL;DR

Cosmology assuming Continuous Time, Quantum Mechanics and String Theory adding up infinite possibilities and transfinite math, should be Infinite dimensional but because we have

higher planes that transcend a mortal plane, we should get +2D above cosmology meaning 1 layer into High Hyperversal. If we ignore all of these arguments, the verse is still minimum 7D

Sonic scales to or above cosmology via scaling off Enerjak, Mogul and especially sigma who theoretically transcends cosmology which should put Sonic +1D above cosmology. Overall Sonic should scale to 1 Layer above High Hyperversal (+4D above H1B), least where you can put him is 8D if you ignore every H1B argument.
