Aozaki Touko
“Scarred Red”

It’s a little too late now, but listen up anyway, Aoko
Never play your trump card first

You will lose

[Notes]

Haxes related to Intelligence :

[Mystic Eyes of Enchantment] Mystic Eyes (魔眼, Magan?) are a form of supernatural power concentrated in the eyes, granting the power to interfere with the outer world through sight alone. Mystic Eyes are the oldest magecraft known to humans, deriving from neither ritual nor study.

[Touko lost this Hax after the events of Witch of The Holy Night]

[VSI - Perception]

{Witch on The Holy Night}

[Chapter 2]

Touko was on a winning streak in the casino to the point the casino owner suspected her to be cheating but Shizuki said that she isn't cheating.

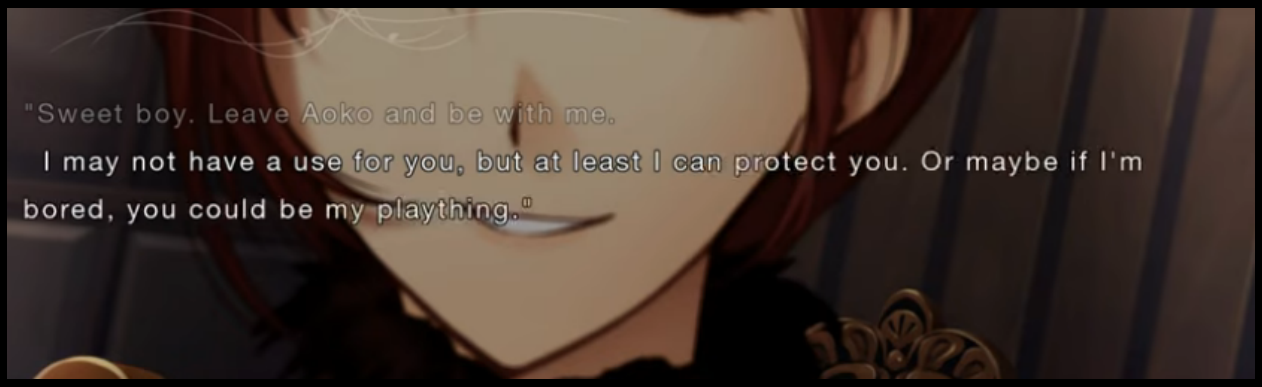

[IDK]
—----------
[Chapter 9]

It was shown that Touko has made thirty puppets and sent them to attack Aoko and Alice, and later she explained in her conversation with Shizuki that she sent them as a distraction so that she can have time with Shizuki.

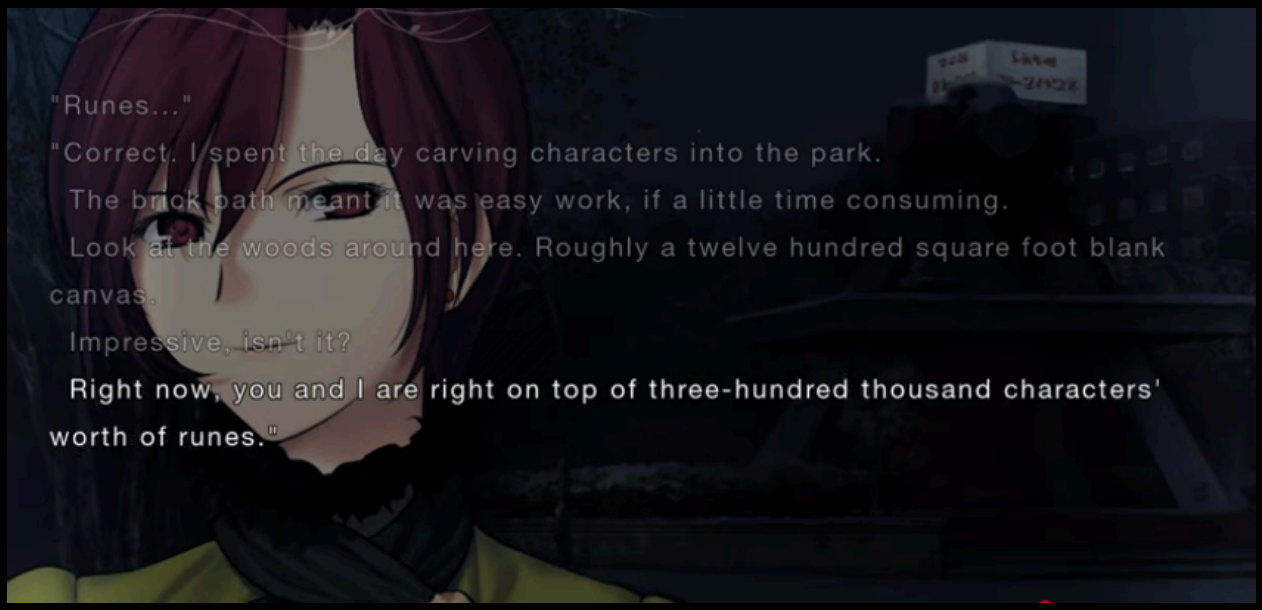

[Misdirection - Tactics Potency]
—----------

Touko started attempting to seduce Shizuki to join her using her words.

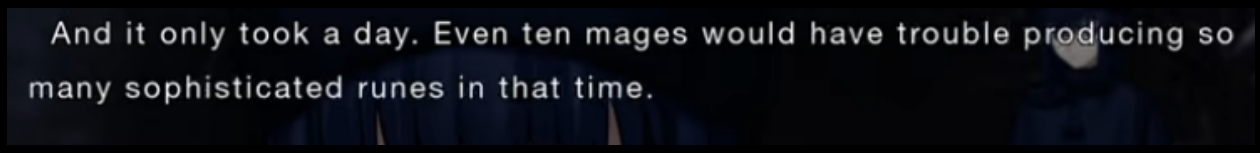

[Seduction - Love Bombing]
—----------
[Chapter 10]

Touko realized that Alice's strong magecraft only works as long as she is able to through her diddle diddle (charm) in the ground, that's why Touko planted 300 Runes(A magecraft ability) in the grounds of the park to prevent Alice from being able to use her magecraft.

And it was explained that planting such Runes would have been hard even for ten mages and yet Touko did it one day by herself.

[Touko knows Alice from along time that's why she was able to know her abilities and prepare a counter for them]

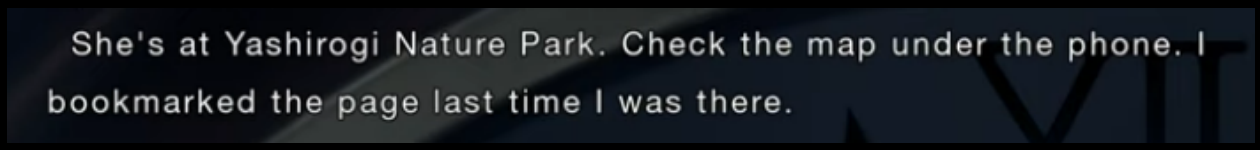

[Prep Process - Prediction - Tactical Responsiveness - Perseverance - Knowledge Application - Crystallized Intelligence - Situational Awareness]

——----------

It was explained that Touko created a new set of Mystic Eyes of Enchantment inside her eyes so that they reflect off of each other like mirrors. As a result, she has essentially an infinite number of Mystic Eyes of Enchantment to indefinitely bind the opponent.

[Learning Ability - Crystallized Intelligence - Neuroplasticity - Knowledge Application]
—----------

Turned out that the last time Touko came to the Kuonji mansion [In chapter 9] she predicted her victory against Alice and predicted that Shizuki will remain at home since he is basically a pet in the mansion therefore she bookmarked a page on the city map to the park she knew she will fight Alice there, she did that so she can call the phone in the house knowing Shizuki will be the one to most likely answer and left him information so that he will be able to save Alice before she dies.

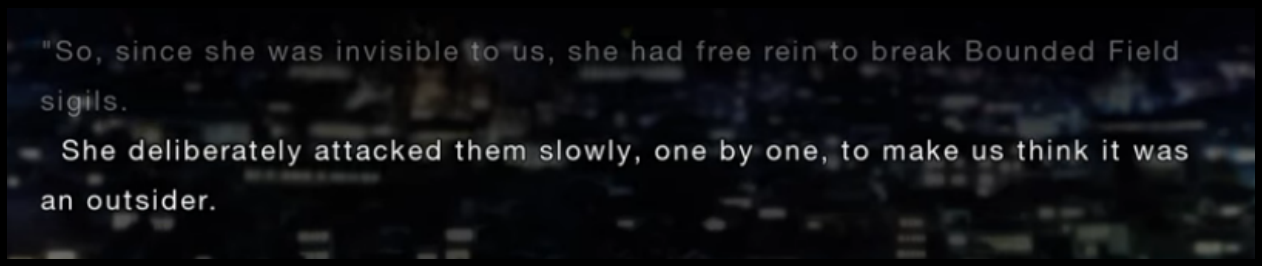

[Context : Alice and Touko had a fight and Touko won leaving Alice on the verge of death, but she had no interest to kill her nor to save her by herself, therefore she decided to use Shizuki to save Alice, that only if he is actually willing to of course]

[Prediction - Contingencies]
—----------
[Chapter 11]

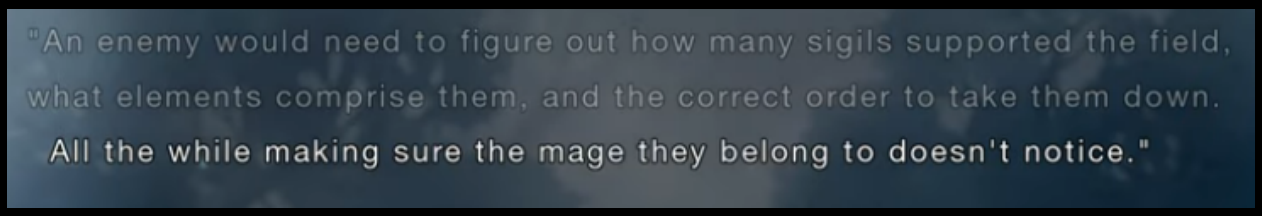

Aoko explained that Touko destroyed the Bounded Field Sigils one by

one and not all of them at once so that Aoko and Alice think it is an outsider who broke into the city, this way she was able conceal her identity all this time before they fought her puppets.

[Concealment - Fabrication - Situational Awareness]
—----------

Touko had to analyze the elements the sigils were made of and the correct order so that she could break them while she was concealing her presence, and in a month she was able to break all of them except for two.

[Descriptive Analyze - Analytical Thinking - Linear Thinking]
—----------
[Chapter 12]

It was stated that Touko is a master puppet maker.

[Crystallized Intelligence - Learning Ability - Knowledge Application]
—----------
