Emiya Kiritsugu
“The Magus Killer”

« A battlefield is Hell itself. There's no hope to be had on one. There is nothing but unspeakable despair. Just a soulless crime we call victory, paid for by the pain of the defeated. But humanity has never recognized this truth. And the reason is that, in every era, a dazzling hero has blinded the people with their legends, and kept them from seeing the evil of bloodshed they bring. True human nature has not advanced a step beyond the Stone Age. »

Scale of the situation :

The Holy Grail War (聖杯戦争, Seihai Sensō?) is a competition that decides the ownership of the Holy Grail through intense battle royale. While there have been many conflicts over supposed Holy Grails in the past, this term refers to those specifically based around Masters, usually proficient magi, summoning Servants, Heroic Spirits brought forth as familiars, and meeting in battle until only one pair is left to claim the Holy Grail.

[Episode 4]

To conceal the fact that he is the master of Saber, Kiritsugu told Irisviel(His wife) to be the one that goes with Saber to deceive the other masters into thinking she is the master which will allow him to gather information about them and prepare for multiple plans.

[Also to note, in Episode 8 - Chapter 24] Kiritsugu gave Avalon to Irisviel so that her connection and mana supply to Saber would be much better.

[Episode 6 - Chapter 16]

Kiritsugu made sure to clear out the whole building by setting fire in the first floors as an arson, and turns out that this was a preparation to destroy the whole building without entering into Lord Kayneth El-Melloi who Kiritsugu knew that he will put a huge amount of traps for mages that enter the building, therefore to not engage in all of those traps Kiristugu simply bombed the building and destroyed it, destroying all Kayneth's plans without engaging with him.

And to make sure to conceal the fact that Kayneth is still in the building, Kiritsugu told the security guard that he is Kayneth.

Then it was explained that the only reason why Kiritsugu didn't blow up the building immediately is the fact that he didn't want all the innocent people to get involved and that is why he raised the fire alarms.

[As for the reason on why is Kiritsugu attacking Kayneth : Kayneth's servant(Lancer) had put a curse on Saber's arm which stopped Saber's regeneration ability, therefore Kiritsugu needs to get rid of Lancer at all costs and ASAP or Saber's capabilities will go down miserably]

[On the same episode, once Kirei saw this attack from Kiritsugu he called Kiritsugu a "Master in Outsmarting Mages"

[Episode 8 - Chapter 21-23]

Kiritsugu prepared two types of bullets that work against magic, one pierce through magic immediately which he used first giving the impression that he will use it again against Kayneth, which allowed Kiritsugu to use the second one to kill Kayneth's magical circuits.

Kiritsugu knew that after the first bullet was shot, Kayneth would most likely turn into defense which is what Kiritsugu wanted him to do, because the second bullet(The original bullet) works better on a target that uses defence which will increase its effect on them.

[Episode 8 - Chapter 24]

Both Irisviel and Maiya were willing to give their lives to make sure that Kirei doesn't reach for Kiristugu which shows how much of an affect that Kiritsugu had on them. [Which was pointed out by Kirei]

[Episode 15 - Chapter 39-40]

Realizing that there is no way they can kill Caster's noble phantasm by normal means, there is only one way to kill it and it is by using a very strong single blow enough to destroy all of it at once.

Iskandar used his noble phantasm and teleported Caster's noble phantasm to his reality marble to buy some time while everyone gets an idea how to kill Caster's noble phantasm.

Kiritsugu called Irisviel on which Waver(Master of Rider) answered instead of her and Kiritsugu asked him if Iskandar can control the place where to bring back the creature on which Waver said it is possible.

Then he told him to tell Lancer that Saber has an Anti-Forest Noble phantasm strong enough to destroy that Creature which means that Lancer needs to remove the curse from Saber's arm so that she can use it on which Lancer accepted.

And then Kiritsugu told them to wait for his sign and then bring back the creature to kill it at once and for all.

And once Saber was in the right spot, Kiritsugu fired a shot in the air declaring the right moment to shoot her noble phantasm.

And Saber successfully killed that creature and Caster with it at once.

[Episode 16 - Chapter 40-42]

Kiritsugu ordered Maiya to capture Sola-Ui (Kayneth's wife) to use her to blackmail Kayneth into accepting Kiritsugu's deal.

[Continuation : To Kill Himself]

Driven by the fear of being killed by Kiritsugu's bullets, Kayneth immediately accepted this offer and in despair he ordered Lancer to kill himself.

But it turns out that the contract is only limited to Kiritsugu which means that Maiya can kill Kayneth without being cursed.

[I didn't find it in the anime - Chapter 45]

Maiya explained that Kiritsugu predicted that Saber's noble phantasm that was used to kill Caster's noble phantasm was overpowered, therefore Kiritsugu placed a ship[God knows how] in the river that prevented the blow from her sword from destroying the nearby building next to the harbors.

[Episode 19 - Chapter 50]

Kiritsugu chose to destroy the plane with his mother(Natalia) to prevent the ghouls from spreading through the bees.

Just to point out, Kiritsugu showed an insane AC in his fight against Kirei.

And one last thing to note, Kiritsugu was a lot pointed out as a master Assassin.
